SOCIO ECONOMIC REVIEW AND DISTRICT STATISTICAL ABSTRACT FOR THE
YEAR 1980-81 OF THANE DISTRICT.

CHAPTER - I
(Introduction)

LOCATION.

1.1 The district forms part of the North Konkan Region which lies between the Sahyadri hills in the East and the Arabian Sea in the West. It has a coastal line of about 113. km. It lies between 72°45 and 73°48 East longitudes and 18°42 and 20°20 North latitudes. Its East-West spread is maximum at the South which is about 100 kms. The North-South length is approximately 140 km.

BOUNDARIES;

1.2 The district has triangular shape. Pune and Ahmednagar districts lie on the East, Nashik district on its East and North-East Gujrat and Centrally administered areas of Dadra and Nagar Haveli lie on the North. Arabian Sea forms the North West boundary, while Greater Bombay and Raigad districts lie on the South.

TOPOGRAPHY

1.3 The district can be divided into three parts on the basis of its topography;

- i) The central portion having the Sahyadri ranges and its slopes consisted of thick forests.
- ii) The central region covering mostly paddy fields;
- iii) And the western part along the west coast, where horticulture, cultivation of quality fodder and vegetables are the common agricultural practices pursued.

HILLS AND RIVER SYSTEMS

1.4.1 The Sahyadri ranges, having unbroken boundary run North South in the Eastern region of the district. There are also spurs running laterally to the main ranges. The heights of the mountains are maximum on the east and diminish gradually westwards. The mountain ranges also spread unevenly in the central region of the district.

Continued

Chapter No.I (Continued)

1.4.2. The two main rivers which join the area on the west coast are Vaitarna and Ulhas. The Vaitarna river rises in the hills near Trimbak in Nashik district and flows towards south, and westward turn centering Thane district at Vihigorn in Shahapur tehsil. It further passes across northern boundary of Shahapur tehsil and enter Wada tehsil near Nishet village and then takes the east-west course through the middle of Wada tehsil. It enter into Palghar tehsil near village Vasuri (BK) and runs in north-west direction upto Manor where from it turns south-west and South wards upto village Navghar forming Vaitarna creek at the South of Palghar tehsil. The important tributaries of vaitarna are (i) The Pinjal which rises in the mountains in the south of Mokhada tehsil and joins it at Alman village in Wada tehsil; (ii) The Daherja which rises in the mountains in Jawhar tehsil and joins at Durvas in Palghar tehsil; and (iii) The Surya which rises in the mountains in Mokhada tehsils and after taking South west and Southward course joins it near Sakri village in Palghar tehsil.

1.4.3 The Tansa which rises in the mountains in Shahapur tehsil and joins it near Chirnan village in Vasai tehsil. The first three tributaries viz. The Pinjal, The Daherja and the Surya join the Vaitarna from the right and the Tansa from the left.

The Ulhas river rises in the Bhcr. and flows north-west through Karjat tehsil of Raigad district from the creek at Vasai . Its important tributaries in Thane district are (i) The Barvi which rises in the mountains in Murbad tehsil and joins it at Aпти village in Ulhasngar tehsil; (ii) The Bhatasa which rises in the mountains in Shahapur tehsil and joins it at Vadavli in Kalyan tehsil and (iii) Kalu is an important tributary of the Bhatasa river. It rises in the mountains in Shahapur tehsil and joins the Bhatasa river near Saagoda in Kalyan tehsil. Both these tributaries viz; Barvi and Bhatasa join it from the right. The Vaitarna is navigable for 25 km . inside the coast and Ulhas is navigable for 40 km: . from Kalyan.

Chapter No. I (Continued)

SOILS

1.5.1 The Soils of Thane district can be conveniently divided in to three categories viz. (i) black Soil containing sand; (ii) red Soil in the Eastern region mostly on the slopes; and (iii) Brownish black soil in the patches of the valleys mostly lying between the coastle plains and the hilly slopes of the Sahyadri.

1.5.2 While the first type of soil which is found in Dahanu, Palghar Vasai and Thane tehsils is fertile and useful for horticulture, Paddy and vegetables cultivation the second type which is found in Mokhada, Talasari and some parts of other tehsils on the eastern slopes is useful for growing coarse millets like Nagli and Vari. The third type of soil found in Dhiwandi, Kalyan and Shahapur tehsils is useful for paddy cultivation.

CLIMATE

1.6 The climate of the district is distinctly different on the coastal plains and on the eastern slopes. Being fully tropical, the climate on the coast, the coastal strip including Thane, Vasai, Palghar and Dahanu tehsils is very humid and warm. On the other hand, the climate on the eastern slopes and in the plains at the foot of the steps is comparatively less humid. However, variations in temperature in the eastern region are more than that on the coastal strip. While the maximum temperature in 1980 was 34.0^o centigrade, the minimum temperature was 17.5^o centigrade recorded at Dahanu centre.

RAINFALL.

1.7 The district gets assured rainfall of 2,000 to 3,000 mm. from the south-west monsoons during the months from June to September. Generally, the highest rainfall is recorded in the month of July. It is considerably more in the interior parts of the district than on the coast. It is also less towards the north than towards the south.

1.8 AREA AND TERRITORIAL CHANGES.

The total geographical area of the district is 9,555.00 sq. km. The district consists of 1,622 villages as per the 1971 census, of these 1,588 are inhabited and 34 are uninhabited. There are 24 towns of which eight have Municipalities. The district has 13 tehsils.

Continued

CHAPTER NO. I (CONTINUED)

FOREST.

1.9 The area under forest in the district is 4,259.23 sq. km. in 1979-80 which forms 44.58% of the total geographical area of the district. The tehsils of Mokhada, Jawhar, Dahamu, Wada, Shahapur, are comparatively thickly wooded than those of Thane, Kalyan, Ulhasnagar, Murbad, Bhiwandi, Vasai, Palghar and Talasari wherein the forests are thin. The forests in district fall under the type "Tropical ^{moist} (Mixed aciduous forests)". The most important species that are found in the forests are Hedu, Shishan, Bibla, Kalan, Khair, Sawar, Kakat, Shenat.

FISHING

1.10 The marine fishing is practised all over the coastal line which is over 113 km. in the district. Deep fishing is carried on with the help of trawlers. With close proximity of internationally famous Bombay market the fishing trade has gradually been flourishing. With ever increasing demand for the fresh and fish the resources not being fully tapped the fishing still leaves large scope for its development.

MINERALS.

1.11 The mining activities are confined to quarrying of stones and sand, which is carried on specially at places which are near Urban areas in Kalyan, Bhiwandi and Thane tehsils. Deposits of reddish laterite clay are also found near Gohivare in Vasai tehsil. This clay is used for making bricks, tiles and cheap red glaze wares. Deposits of kankar or intertrappean limestone are reported from some parts of the district. Limestone patches either of concurring nature or consisting of shell aggregate almost as a thin narrow but continuous formation occur right from Vasai to Dahamu. There are also springs of mineral waters containing traces of sulphur at Kokanar, Sativali, Vajreshwari and Ganeshpuri. This water has medicinal value. There are salt centres on the coasts in Thane and Vasai tehsils where salt is produced by direct solar evaporation of sea water.

Chapter No. I (Continued)

POPULATION

1.12.1 The population of Thane district as per the 1971 Census is 22,81,664. The rate of increase of population during the decade 1961-71 was 38 percent, which is probably due to large scale of migration of people from outside the district to Thane industrial complex, in search of employment.

1.12.2 Out of the total population, 12,04,855 are males and 10,76,809 are female. The sex ratio per 1,000 male is 894 female. It was 940;920 and 920 during the years 1941, 1951 and 1961, respectively. Thus the sex ratio has shown a decreasing trend. The percentage of urban population in the district is 36.23 and that of rural population 63.77 as per the 1971 Census. This percentage is the highest in Ulhasnagar tehsil (82.86 %) followed by Thane (65.63 %) and Kalyan tehsils (62.56%). Three tehsils viz. Talasari, Mokhada and Murbad are completely rural. The proportion of urban population in the remaining tehsils varies from 5 to 33 %. The population of the scheduled tribes was 5,79,538 (25.40 %) and that of the scheduled castes was 36,170 (1.59 %) as per the 1971 Census. The proportion of the scheduled tribes decreased from 30.29 % in 1961 to 25.40 % in 1971. The scheduled tribes are mostly found in Talasari, Dahanu, Palghar, Wada, Jawhar and Mokhada tehsils and some are in Shahapur, Murbad, Bhiwandi and Vasai tehsils also. The density of population in terms of number of persons per sq.km. during 1971 was 239. For urban areas, the density of population is 4,066, whereas it is 156 in Rural areas. Two towns namely Thane and Ulhasnagar have population of more than one lakh, while the population of Kalyan town is less than one lakh.

1.12.3. The percentage of literacy to the total population during 1971 was 40.65 and the same for 1951, and 1961 was 24.34 and 30.54 respectively. The literacy percentage for female has increased from 7.58 in 1941 to 14.19 in 1951, 19.06 in 1961 and 29.80 in 1971. The corresponding percentage for male increased from 25.34 in 1941 to 33.52 in 1951, 41.09 in 1961 and 50.34 in 1971.

Continued.....

Chapter No. I (Continued)

AGRO INDUSTRIES.

1.13. The soil and the climate of the district is suitable for paddy cultivation which is the main crop of the district. There are 239 rice mills in the district. of these 18 are in co-operative sector.

SPECIAL FEATURES.

1.14.1 The famous hill stations in the district are Jawhar in Jawhar tehsil and Suryamal in Moxhada tehsil. The tourist centres are at Vasai, Arnala, Mahin and Vajreshwari. The hot springs of Vajreshwari are famous in Maharashtra.

1.14.2 The important fishing centres are at Satpati, Datiware, Dahanu, Kelwa, Mahin, Vasai Pokharan ucheli, Nawapur, Arnala and tansa.

1.14.3 The Tansa lake which is located in Shahapur tehsil is one of the biggest lake having large catchment area. It is the major source of water supply for Bombay city. A dam is being constructed on Bhatsa river in Shahapur tehsil for augmentation of water supply to Bombay city. A major irrigation project on Surya river near Dhanni in Jawhar tehsil is under construction. The estimated cost of the project is Rs. 40.39 crores (Revised) and the project is expected to be completed by 1985.

1.14.4 A large Dairy project has been started at Dapchhari in Dahanu tehsil with the purpose of shifting stables from Bombay to Dapchhari. This project is constructed on modern lines and deserves special mention.

1.14.5 An atomic power plant has been established at Tarapur in Palghar tehsil for generating electricity from nuclear energy. It is a major achievement in the field of science and technology in the country.

CHAPTER NO. II

Explanatory notes on the scope and limitations of data presented in part II of the District Statistical Abstract for the year 1930-31.

PURPOSE AND SCOPE

2.1 In this chapter short notes on the tables presented in the abstract are given indicating the source of the data, terminology used and limitations, if any. There are in all 93 tables presented in this abstract. The present abstract is for the year 1930-31. Wherever the data for the year 1930-31 was not available, data for the latest available year are provided.

I- AREA AND POPULATION

2.2 In this group there are seven tables. All these tables are based on the 1971 Population Census. The table No. 1 gives tehsilwise area and population with its break up into rural and urban and males & females as well. The data on residential houses and households, villages and towns is also given. The population with further classification in rural and urban, sex, density and decadal variations since 1951 is presented in table No. 2. The tehsilwise classification of villages and towns according to population ranges is given in table no. 3 and 4 respectively. Occupational structure of the population in rural and urban area is presented separately for all the tehsils in table no. 5. Population distribution into various age groups and according to different religions is shown in table No. 6. The table No. 7 gives tehsilwise distribution of population of scheduled castes, scheduled tribes and Neo-buddhist separately for urban and rural areas of Thane district.

II CLIMATE:

2.3 In this group two tables are included. The table No. 8 gives monthwise normal rainfall, number of rainy days and actual rainfall at thirteen centres in the district for the year 1930. In the table No. 9, the maximum and minimum monthly temperature for Dahamu centre is given.

Continued

Chapter No. II (Continued)

III. AGRICULTURE

2.4 There are 14 tables provided in this group. The tables Nos. 10, 11 and 15 gives final data for the year 1977-78, 1978-79 and provisional data for the year 1979-80 regarding land utilisation cropping pattern and irrigation wells with further classification into in use and not in use. The table No. 12 gives final data for the year 1977-78 to 1979-80 regarding yield rate and out-turn of principal crops. The table Nos 13 and 14 provide final data for the year 1975-76 to 1978-79 and provisional data for the year 1979-80 regarding irrigated area by different sources and under different crops. The table no.16 gives availability of under ground water for the years 1980-81. The No. 17 provides information of minor irrigation works for 1979-80 excluding wells. The major and medium irrigation projects in the district as on 30.6.1980 are given in the table No. 18. In the table No. 19 the data in respect of the agricultural wage rate for three rural centres is given for all the months of 1980. In the table No. 20 information on agricultural holdings collected during the Agriculture Census, 1976-77 is given. The tehsilwise data on agricultural implements collected in the 1978-79 Livestock Census are given in the table no. 21. The data regarding famine, scarcity during 1980-81 is given in the table No. 22. The table no. 23 indicates tehsilwise number of villages affected by scarcity since 1971-72 onwards.

IV ANIMAL HUSBANDARY, FOREST AND FISHING:

2.5 The table Nos. 24 to 29 are included in this group. The table no. 24 relates to tehsilwise livestock data as per the 1978 Livestock Census. Veterinary statistics such as availability of medical facilities for livestock, case treated and insemination done in each tehsil is given in the table no. 25 for the year 1980-81. The table no. 26 presents disease wise livestock mortality in the district. Information regarding the recognised slaughter houses and animals slaughtered there in is shown in the table no. 27 for the year 1980-81. The table no. 28-A gives classified forest area under the control of revenue and forest departments while the table No.28-B reveals major and minor forest products obtained from these forests. The table no. 29 (a) provides tehsilwise information about inland fisheries for the year 1980-81 and the table no. 29(b) gives tehsilwise information of marine fisheries for the year 1980-81 and the table no. 29 (c) contains data regarding the quantity of fish brought for curing salt issued and fish removed for the year 1980-81.

Continued

CHAPTER NO. II (CONTINUED)

V EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY.

2.6 There are in all ten tables in this group. The first three tables viz. 30, 31, 32, relate to factory statistics while in the table no. 33 information regarding important characteristics of industries as collected in the Annual Survey of Industries is given. The table no. 34 and 35 provide employment exchange statistics for the year 1980-81. The tehsilwise information about works executed under the employment Guarantee Scheme and employment generated as well as expenditure incurred thereunder during the year 1980-81 is given in the table no. 36. Employment in different industries as on 31.3.1981 is shown in the table no. 37. The classification of consumption of electricity according to uses is shown in the table no. 38. Information regarding towns and villages electrified and population covered during the years 1961, 66, 70, 75 and onwards is shown in the table no. 39.

VI CO-OPERATION

2.7 The tables numbering from 40 to 47 are included in this group. The Data regarding Co-operative societies showing their number according to type, membership, share capital, working capital, loans advanced, no. of co-operative banks and loans advanced by them are given in the first four tables for the year 1980-81 while statistics relating to operation of central and primary co-operative marketing societies and other co-operative societies is presented in the table nos 44 and 45. The information regarding four regulated markets in the district is given in the table no. 46. The table no. 47 provides data regarding registered money lenders and loans advanced by them during 1980-81.

VII MEDICAL AND PUBLIC HEALTH.

2.8 There are five tables in this group. The table no. 48 gives data on medical facilities available through public and public aided bodies in each tehsil during 1980; The tehsilwise data regarding no. of births and deaths registered in these districts during 1980 is presented in the table no. 49, while number of

continued

CHAPTER NO. II (CONTINUED)

deaths due to important causes during the year 1971 to 1980 is shown in the table no. 50 for the district as a whole. The table no. 51 gives tehsilwise vaccination statistics and cholera inoculation the family planning statistics is given in the table no. 52 for the year 1980.

VII-EDUCATION

2.9 The statistics relating to education is presented in tables numbering from 53 to 59. The table no. 53 shown tehsilwise literacy position in the rural and urban areas according to the 1971 census. The table nos. 54 and 55 indicate educational level of rural and urban population as per the 1961 census. In the table no. 56 information regarding educational institutions, pupils and teachers for the year 1980-81 (as on 30.9.80) is presented for the district as a whole. The table nos. 57 and 58 in this group relate to backward class enrolment and economically backward class beneficiaries respectively for the year 1979-80 and 1980-81. The annual expenditure on primary education for the years 1979-80 and 1980-81 is given in the table no. 59.

IX TRANSPORT AND COMMUNICATION

2.10 This group contains seven tables numbering from 60 to 66. In the table no. 60, the distance of railway routes is recorded. The table no. 61 provides road length according to category and surface classification as on 31.3.1981. The Data regarding motor vehicles in operation in Thane district and operational statistics of nationalised road transport as on 31.3.1981 are presented in the table nos. 62 and 63 respectively. The data of Traffic Census conducted by Public works and Housing Department are presented in the table no. 64. Information on communication facilities viz. Posts Telegraphs and Telephones for the years 1961-62, 1965-66, 1972-71, 1973-74 to 1980-81 is given in the table no. 65. While the rural broadcasting information as on 31.3.1981 is furnished tehsilwise in the table no. 66.

CHAPTER NO. II (CONTINUED)

X LOCAL BODIES.

2.11 Four tables numbering from 67 to 70 in this group pertain to income and expenditure of local bodies such as village panchayats, Zilla Parishad, and municipal councils. The table no. 67 gives income and expenditure of local bodies for the years 1965-66, 1978-79 to 1980-81 at a glance. The table no. 68 gives panchayat sanitiwise detailed break up of income and expenditure of village panchayats during the year 1979-80. The table no. 69 is divided into three parts, viz. headwise information of receipts, Govt. grants to Zilla Parishad, and expenditure of Zilla Parishad for the years 1979-80 (Actuals), 1980-81 (Revised), 1981-82 (Estimated.) sub-headwise income and expenditure of municipal council for the year 1980-81 is given in the table no. 70.

XI- PLAN AND COMMUNITY DEVELOPMENT

2.12 Out of five tables in this group, the first two tables viz. 71 and 72 give the ~~xxx~~ expenditure and physical achievement of district level plan schemes during the year 1979-80 and 1980-81. The table no. 73, 74 and 75 relate to the activities of C.D. blocks. The table no. 73 gives stagewise coverage. The table no. 74 gives total expenditure incurred on each block. The physical achievements in these blocks is presented in the table no. 75 for the year 1980-81.

XII PRICES

2.13 Two tables viz. 76 to 78 are included in this group. There are four agricultural produce market committees in the district. The information of these market committees is given in the table no. 76. The monthly average of weekly prices of important commodities collected from the selected shops at the district head-quarters during 1980 is presented in the table no. 77. The consumer Price index number for 1980-81 (April to March (Revised series)) for working class at Bombay^{is} given in the table no. 78.

Continued

XIII MISCELLANEOUS

This is the last group of tables given at the end of the Abstract. In these tables information in respect of police force, crime statistics, work disposed of in civil and criminal courts, cinema statistics together with the seating capacity in the theatres in the district, number of banks, scheduled banks together with deposits obtained and loans advanced by them, joint stock companies, number of policies secured and the amount insured, collection of small savings, tehsilwise land revenue collection, number of presses and publications etc. The distribution of foodgrains through fair-price shops and the foodgrains secured through levy as also the result of general elections that were held in 1930 and a number of partywise votes secured has also been given. In the end some of the important indicators showing the level of development reached in different aspects of the economy are also given.

3.1. ANALYTICAL REVIEW OF SELECTED TRENDS:

An overall attempt is made to indicate the trends in various Socio Economic aspects of Thane District by working out the percentages, growth rate etc. on important items viz. agriculture, irrigation, livestock, consumption of electricity, education, etc. results on most of the items have been worked out for district as a whole, otherwise by taking tehsil as a unit. To review the overall progress made so far in various spheres has been compared either with previous year or with that of 1960-61 which is taken as the base year. All efforts have been taken to furnish the latest figures. In this chapter, in all there are 19 tables which can give an eye catch picture of Thane district.

3.2. PERCENTAGE OF GROSS CROPPED AREA TO NET CROPPED AREA:

It could be seen from the table mentioned below that the area under double cropping had been declining over a period of years since 1960-61.

TABLE No. 3.2

TEHSILWISE PERCENTAGE OF GROSS CROPPED AREA TO THE NET AREA SOWN IN THANE DISTRICT DURING 1960-61, 1970-71, 1978-79 AND 1979-80.

Sr. No.	Tehsil	Percentage of Gross Cropped area to Net area sown			
		1960-61	1970-71	1978-79	1979-80
1.	2.	3.	4.	5.	6.
1.	Thane	101.24	101.18	107.63	100.00
2.	Vasai	109.51	128.19	109.41	100.47
3.	Palghar	103.83	104.88	105.55	100.44
4.	Dahanu	102.52	100.42	106.71	100.34
5.	Talasari	101.12	100.44	101.21	100.20
6.	Jawhar	100.13	100.76	100.42	100.86
7.	Mokhada	102.49	100.00	100.08	100.06

9.	Bhiwandi	101.13	100.16	101.32	101.62
10.	Shahapur	101.16	100.63	102.99	100.71
11.	Murbad	100.79	101.10	102.64	102.61
12.	Kalyan	101.83	101.04	104.75	100.87
13.	Ulhasnagar	-	102.44	102.20	101.72
Total Dist.		102.25	103.03	103.62	100.83

3.3 PRODUCTION OF IMPORTANT CROPS:

From the table it is seen that, rice is the main crop exclusively grown in the district. It accounts for about 60.51%

of area under cultivation during the year 1979-80. Though the percentage of gross cropped area to net area sown showed the downward trend, as far as rice is concerned, it had been on the increase substantially year by year. This might be because of the fact that Thane district gets 3000 mm of rain during the rainy season. The total food crops and non food crops accounted for 79.88% and 19.21% respectively.

TABLE - 3.3.

PERCENTAGE DISTRIBUTION OF GROSS AREA UNDER IMPORTANT CROPS TO TOTAL GROSS CROPPED AREA:

Sr. No.	crops	YEARS			
		1960-61	1970-71	1978-79	1979-80 (Provisional)
1.	2.	3.	4.	5.	6.
1.	Rice	49.77	46.90	54.16	60.51
2.	Other Cereals	13.88	11.53	11.82	12.20
3.	Total Cereals	63.65	58.43	65.98	72.71
4.	Total Pulses	4.30	4.34	4.77	4.42
5.	Total food grains	68.25	62.77	70.75	77.13
6.	Fruits & Vegetables	1.14	2.14	2.46	2.03
7.	Other Food crops	0.48	0.33	0.35	0.72
8.	Total food crops	69.87	65.24	73.56	79.88
9.	Oil Seeds	1.17	1.36	0.92	0.91
10.	Total non food crops (except Oil seeds)	28.96	33.40	25.52	19.21
11.	Total Gross cropped area	100.00	100.00	100.00	100.00

3.4 YIELD RATES AND OUT TURN OF PRINCIPAL CROPS:

In this table very important item viz. out turn of important crops and their yield rates per hectare are given for the district as a whole. As far as rice is concerned in 1979-80, 2228 metric tons was produced in an area of 1493 hectares. In order to have the fair idea the yield of each crop is calculated per kg. and is shown in the table mentioned below. It means that, the per hectare yield of rice was 1493^{kg} in 1979-80. The out turn of ragi, tur, seasm, ground nut, chillies, and sugarcane was negligible in 1979-80.

Yield rates and out turn of principal crops:

Sr. No.	Crops	Yield per Hectare in kg. during				Out turn in 00 M. Tonnes during			
		60-61	70-71	78-79	79-80	60-61	70-71	78-79	79-80
1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
1.	Rice	217	1778	1,783	1,493	1947	2516	2652	2228

6.	Chillies	-	625	571	500	-	5	4	4
7.	Sugarcane	412	-	11,000	10,000	1	-	119	10

3.5 PERCENTAGE OF NET IRRIGATED AREA TO NET AREA SOWN:

The figures have been worked out for each tehsil. The table shows the percentage of irrigated area to net areas sown. The average of Thane district was 2.24 for 79-80 and 2.42 for the previous year. For the year 1979-80, only three tehsils viz., Vasai, Palghar and Dahanu had achieved more irrigated area than the district average. While Murbad tehsil was nearer to the district average, rest of the tehsils were below the mark. The tehsils which had achieved equal or more than the district average, had number of schemes implemented. As compared to 1960-61, the percentage of net irrigated area to net area sown was nearly double in 1979-80.

Table 3.5.

Percentage of net irrigated area to the net sown area:

Sr. No.	Tehsil	Percentage of net irrigated area to net sown area.			
		1960-61	1970-71	1978-79	1979-80
1.	2.	3.	4.	5.	6.
1.	Thane	1.33	-	1.48	0.08

Dist. Total.		1.50	1.06	2.42	2.24

3.6 PERCENTAGE DISTRIBUTION OF AREA UNDER DIFFERENT IRRIGATED CROPS TO GROSS IRRIGATED AREA.

The table shows the crop-wise percentage of irrigated area to gross irrigated area for district as a whole. Rice with its 38.09 percentage was the first. The irrigated area of rest of the crops was more or less evenly distributed. As compared to previous year irrigated area under rice was remarkably increased, on the other hand other crops like sugarcane and coconut which are also fully dependent on water were logging behind. This could be probably attributed to the fact that there is a lack of assured irrigation facilities and the land is not suitable for their cultivation.

Table No. 3.6:

Percentage distribution of area under different irrigated crops to gross irrigated area:

Sr. No.	Name of crops	Y E A R S			
		1960-61	1970-71	1978-79	1979-80
1.	2.	3.	4.	5.	6.
1.	Rice	-	-	8.73	38.09
2.	Wheat	-	2.28	5.97	2.70
3.	Jawar	-	-	-	-
4.	Bajara	-	-	-	-
5.	Total cereals	-	0.28	14.70	40.94
6.	Gram	-	-	-	-
7.	Total pulses	1.23	-	-	-
8.	Total food grains	1.23	0.28	14.70	40.94
9.	Sugarcane	0.95	0.38	0.59	2.16
10.	Total food crops	76.74	91.08	84.05	96.68
11.	Coconut	-	00.28	5.94	3.32
12.	Groundnut	23.26	-	-	-
13.	Total non-food crops	23.26	8.92	15.95	3.62
Total:		100.00	100.00	100.00	100.00

3.7 SURFACE WISE NET IRRIGATED AREA :

The areas under irrigation was reduced from 6414 hectares in 1978-79 to 5413 hectares in 1979-80. It could be further seen that wells with 84% of the total area irrigated is still a major source of irrigation in the district.

Table No. 3.7:

-17

Source-wise net irrigated area

(in hectares)

3.	Total	4,495	3,110	6,414	5,413

3.8 INCREASE IN AGRICULTURAL CREDIT, OUTSTANDING DUES, ETC.

The co-operative credit societies can play a vital role in the rural development particularly in the field of agriculture by extending credit facilities on an extensive scale, as our country one of the aims is to become self-sufficient in the agricultural production. But from the table it is worth to note that though the number of primary agricultural credit societies had not been increased, there was a slight increase in the number of members in 1980-1981 as compared to previous year. In all the loan of Rs.46,71,000/- was distributed by way of advance to members in 1980-81 as against Rs.39,58,000/- in 1979-80. But the position of recovery was really poor as the amount of loans overdue had substantially increased.

Table No. 3.8:

Table showing number of primary agricultural credit societies, their membership, working capital, loan advanced, overdues and outstandings.

Sr. No.	Items	Unit	Y E A R S			
			1960-61	1970-71	1978-80	1980-81

6.	Loans outstanding	"	NA	1,64,49	2,14,24	1,37,18

3.9. AGRICULTURAL WAGE RATES:

To get an idea about the agricultural daily wage rates paid to different categories of agricultural labourers the rates are collected from three selected centres viz. Dahanu (Dahanu Tehsil), Gorhe (Wada Tehsil) and Badlapur (Ulhasnagar Tehsil). From the table it is seen that, a field labour of Badlapur was getting more than those being paid at Dahanu and Gorhe.

Table No. 3.9.

Sr. No.	Centre	Calendar Year	Annual average Wages rates for				
			Field Labour		Carpenter	Balcksmith	Cobbler
1.	2.	3.	Male	Female	6.	7.	8.

2.	Gorhe (Tehsil Wada)	1979	3.00	3.00	-	-	-
		1980	3.35	3.35	-	-	-
3.	Badlapur (Tehsil Ulhasnagar)	1979	7.37	5.00	15.00	12.00	10.00
		1980	7.50	-	15.00	12.00	10.00

3.10 RATIO OF CULTIVABLE AREA TO LIVE STOCK:

The livestock makes substantial contribution to the economy providing subsidiary income especially to the farmers and landless labourers. As per the 1978 Live Stock Census, the Bovine and Ovine population in Thane district was 7,66,276. Out of 13 tehsils, Shahapur tehsil had the largest live-stock population of 92,366 and Thane tehsil with 26,766 animals was the last. But it is observed that the bovine and ovine population per hectare was the highest in Kalyan tehsil though the population was 31,526. The average of ovine and bovine population in Thane district as a whole was 227 per 100 hectares and out

only six tehsils have equal or more than the

Table No. 3.10:

Bovine and Ovine Population per 100 Hectares of Cultivable Land:

Sr. No.	Tehsil	Bovine and Ovine Population 1978 - Live-stock Census)	Cultivable Land (1978 in Hectares)	Bovine and Ovine Population per 100 Hectares of Cultivable land)

Total of District		7,66,173	3,36,252	227

3.11 RATIO OF POULTRY TO HUMAN POPULATION:

As per the 1978 Live Stock Census, Thane district has got the population of 10,70,135 and its average per 1000 human population is 4,69,000. Though the other wing i.e. ovine and bovine is popular in Kalyan tehsil, the poultry population is equally less in number in it. As per the Livestock Census, 1973, the average of Kalyan tehsil is just 2,55,000 per 1000 human population which is far below of the district average. Thane, Palghar, Bhiwandi tehsils have got more than one lakh poultry population whose averages are 496,551 and 409 respectively. Mokhada tehsil has got the highest average, which stands at 1026 per 1000 human population.

Table No. 3.11:

Table Showing the ratio of poultry to human population during 1978 Livestock Census:

Sr. No.	Tehsil	Poultry Population in 1978	Poultry per 1000 human population (in '000s)

Total		10,70,170	3,57	3,70	3,67	4,69

3.12. PER CAPITA CONSUMPTION OF ELECTRICITY:

In socio economic development the electricity field is also one of the important factor, may it be in the agricultural field or in the industrial belt. Out of 1588 of inhabited villages, 977 villages were electrified at the end of 31.3.1981. It means 62% villages were electrified by March, 1981. From the available records of 1978, there were 2493 power pumps in Thane district. The per capita consumption of electricity had been remarkably increased from 41 kwh in 1960-61 to 728 kwh in 1980-81. For calculating the per capita consumption the population of 1961 and 1971 Census is considered..

Table No. 3.12:

Villages electrified, pumps energised, and per capita consumption of Electricity:

Sr.No.	Items	1960-61	1979-80	1980-81
1.	Villages Electrified	46	993	1072
2.	Pumps energised	NA	2493	2493
3.	Per Capita Consumption Kwh	41	1022	728

(as on 1978). (as on 1978)

3.13 NO. OF CANDIDATES EMPLOYED AND VACANCIES NOTIFIED:

In order to regulate the employment in Government offices and state undertakings, this important wing is created in each and every districts of Maharashtra State. Accordingly, Thane District too has got its own office. In order to know the impact of this wing, the statistical data has been collected. The data gives the magnitude of the unemployment problem. From the available data it is seen that, during 1980-81, 35,998 candidates were enrolled. And at the end of the year, there were 51,330 candidates on the live register. As against this, only 4,168 vacancies, were notified and 1394 candidates got the placement orders. But year by year there is a heavy rush for enrolment. It is observed that the number on live register was found increased by about 5 times in 1980-81 as compared to 1960-61.

Table No. 3.13:

Candidates enrolled and vacancies notified in employment Exchange office, Thane:

5.	Candidates on live register	9,333	14,521	44,914	51,330

3.14 MEDICAL FACILITIES:

The table shows the data in respect of number of hospitals, dispensaries, primary health centres, indoor and outdoor patients, treated in them. As compared to previous year, there was a slight increase in the number of hospitals, dispensaries, primary health centres. The number of indoor patients treated was, however, static as compared to previous year.

Table No. 3.14:

No. of indoor, outdoor patients treated in public and public aided institutions and No. of hospitals, dispensaries, primary health centres:

Sr. No.	Items	Y E A R S				
		1961	1971	1978	1979	1980

3.15 STUDENTS ENROLLED IN DIFFERENT EDUCATIONAL INSTITUTIONS :

Since education is the backbone of the socio-economic development, it has got its own importance. In every sphere of life education plays a vital role. It is divided in four groups as shown in the table. Though the number of higher institutions was static as compared to previous year, there was a slight increase in other groups. The number of students in pre-primary schools was reduced to half during 1980-81 as compared to previous

year. But in primary schools, there was substantial increase in the number of students and in secondary schools it was less than 1/4th of the primary schools. It means that nearly 3/4th of the students do not take higher education. These students either follow their parents' profession or seek other employment to share the burden of the hard-pressed family. The number of students in secondary schools was 49,813 as against 21,262 students in higher institutions in 1980-81.

Table No. 3.15 :

No. of Students in different categories of Institutions :

Sr. No.	Institutions	Unit	Y E A R S			
			1960-61	1970-71	1979-80	1980-81
1.	Pre-primary schools	No.	NA	34	42	44
		Student	NA	3,934	10,700	5,927
2.	Primary schools	No.	1,745	2,120	2,429	2,498
		Student	64,507	263,057	428,436	440,704
3.	Secondary Schools	No.	83	187	233	246
		Student	34,417	83,612	155,515	169,813
4.	Higher Institutions	No.	3	6	13	13
		Student	2,242	4,915	23,683	21,262

3.16 RATIOS IN EDUCATION:

The above table reveals the expansion of educational facilities at various levels of education. The following table shows the important ratios in education. From the data, it is observed that secondary and higher educational institutions have been increased over a period of years. The table also gives an idea about the ratio in respect of teacher to pupils.

Table No.3.16:

Important ratios in education:

Sr. No.	Item	Y E A R S		
		1960-61 3.	1970-71 4.	1980-81 5.
1. a)	<u>Institutions:</u>			
i)	Secondary to Primary	1.21	1.11	1.10
ii)	Higher to Secondary	1.28	1.31	1.19
2. b)	<u>Teacher to Pupils:</u>			
i)	Primary	1.40	1.36	1.40
ii)	Secondary	1.27	1.28	1.29
iii)	Higher	1.18	1.32	1.23

3.17 BANKING FACILITIES:

The figure of 1960-61 and 1970-71 are not available. Hence data in respect of banking facilities is given for 1978-79 and 1979-80 for each tehsil of Thane district. The total number of banking offices in Thane District was 262 in 1979-80 as against 249 in 1978-79. As compared to previous years, Out of 13 tehsils, there was a remarkable increase in 7 tehsils. The data in respect of the number of households served per bank is also given. But inspite of the best efforts the actual data is not available. The number of households in each tehsils is therefore, considered for calculating the figures.

Table No. 3.17:

Increase in No. of Banking Offices:

Sr. No.	Tehsil	No. of banking offices				No. of households served banking office

INTRODUCTION

4.1 The district is a compact area in which conditions are likely to be more homogeneous than any large area like a region or for that matter a state. At the beginning of the Vth Five year plan, it was therefore decided to adopt district as an unit for formulation of development plans. With a view to providing appropriate planning machinery at the district level, the District Planning Board was set up taking district as the basic unit for formulating co-ordinated development plans viz; perspective five year and annual plans. Further in order to associate the elected representatives of the people in the Parliament and State Legislature and the representatives of various interests such as industry, trade and commerce, Social welfare institutio etc. in the district the District Development Consultative Council was constituted in each district. In order to ensure direct participation of the elected representatives in the planning process, the two planning bodies viz; the District Planning Board and the District development Consultative Council were subsequently amalgamated and formed into a single body and re-named as the District Planning and Development Council with effect from 1st October 1974. The designated Minister of the district is the Chairman of the District Planning and Development council. The other members include, the Divisional Commissioner of concerned division, all members of Parliament, State legislature assembly, all members of Rajya Sabha and Legislative council residing in the district, Presdent of Zilla Parishad, the Mayor of the Municipal corporation if any, in the district, One of the Presidents of B. Or C. class municipal councils nominated by the Chairman, Chairman of the District Central Co-operative Bank and the Director of Maharashtra state Land Development bank.

Continued.....

This body is presided over by the designated Minister of the district, and initially the Chief Executive Officer of Zilla Parishad was its member secretary. Subsequently, the Collector was appointed as member secretary. The District Planning and Development Council meets twice or at the most thrice in a year to formulate five year plans and to decide priorities in the annual plans within five year plans. To assist the District Planning and Development council in its day to day work of reviewing ^{execution} of plan schemes, allocating funds after adjustments to different departments according to their needs and other works of the like nature, the Executive Committee has been ~~xxxxx~~ constituted. In constitution, this is smaller and consists of some elected representatives and office bearers. The designated Minister of the district is its chairman. The Member secretary is ^{District} Planning Officer. To assist the collector in day to day work of administration, the services of the Deputy Director of Directorate of Economics & Statistics together with two Research Assistants and one Statistical Assistant are requisitioned. Earlier this work was being looked after by the Deputy Chief Executive Officer (Planning) of Zilla Parishad.

Thane being the tribal district special tribal sub-plan Executive Committee was formed under the Chairmanship of designated Minister, vide Government resolution dated 30th September 1973. The Collector is its member secretary. The following ~~xxx~~ are the members

- 1) Designated Minister of the District (Chairman)
- 2) One of the elected representative from tribal area of district (vice chairman)
- 3) Tribal commissioner (vice chairman)
- 4) President of Zilla Parishad (Member)
- 5) All tribal members of the paliaments from the district.

Continued

6. All tribal members of Legislative council /members of Legislative council from the district.
7. Chairman of the Social Welfare committee of the Zilla Parishad.(member)
8. All chairmans of the Panchayat samities falling in the area of operation of tribble area's sub-plans.
9. Two non official representatives from tribal area in the district.
10. The Chief Exeutive Officer of the Zilla Parishad.
11. The Collector of the District.

The following table shows the major head wise approved outlay and the expenditure incurred against it, for the year 1980-81. The figures of the expenditure for the year 1978-79 and 1979-80 are also given to facilitate comparision.

Table
Table showing the major head-wise allocation and the expenditure incurred.

Sr. No.	Head of development	Plan-out lay for 1980-81	% to the total	Expenditure (Rs. in '000')		
				1978-79	1979-80	1980-81
1	2	3	4	5	6	7
1.	Agriculture programme	2,72,12	17.80	1,93,64	1,79,84	2,89,54
2.	Co-operation and community development	28,50	1.86	32,63	30,04	31,65
3.	Irrigation and power.	4,26,15	27.89	1,93,78	3,89,60	3,85,44
4.	Industries and power.	39,82	2.60	17,09	38,27	44,95
5.	Transport and communication	1,19,89	7.84	2,12,87	1,40,39	1,19,02
6.	Social services	4,36,68	28.52	3,45,47	3,02,07	3,11,27
7.	Miscellaneous	2,00,30	13.49	2,61,11	2,40,27	2,29,05
	Grand total	15,28,86	100.00	2,55,59	13,20,48	14,10,92

Out of the total outlay of Rs. 15.29 crores, the expenditure of Rs. 14.11 crores was incurred in 1980-81. It can be seen

Continued

that of the total outlay, the social services and irrigation and power alone accounts for 28.52% and 27.89% respectively. The share of agricultural programmes and of miscellaneous i.e. employment guarantee scheme was 17.80% and 13.49% respectively. The allocation of funds for other major heads put together was about ten percent. From the above table it is seen that the expenditure incurred on agriculture programmes, co-operation and community development, industry and mining and the employment guaranteed scheme was more than their respective budgeted outlays. The expenditure on other major heads was less than their budgeted outlays.

4.3 The following table shows the total outlay as well as the revised outlay and the expenditure incurred on different heads of development from 1978-79 to 1980-81. It also gives headwise percentage to the total expenditure incurred.

Table
Table showing the percentage of expenditure to the revised allocation of outlay.

Sr. No.	Head of development	Year	Total budgeted outlay	Revised outlay	Actual expenditure	% of expenditure to the revised outlay	% of expenditure to sub-heads

8.	Agril. programme	Special area programme for rural development	2	11.88	""
9.		Land reforms	1	8.50	""
10.		Ware-housing	1	0.02	""
11.		Minor irrigation	4	81.57	""
Total			74	261.99	289.54

ANIMAL HUSBANDRY

1. Under the scheme of providing medicine to veterinary institutions, 55 vaterinary institutions were benefitted. (2) Under the scheme of distribution of cockerels 1650 cockerels were distributed to the beneficiaries. (3) Under the scheme of fodder development, fodder crops were raised in 76 plots covering an area of 240 hectares.

DAIRY DEVELOPMENT

- 1) One milk producers organisation was benefitted under the scheme.
- 2) Under the scheme of supply of one year old beffalo calf, in all 90 calves were distributed against the target of 100 in 1980-81.

FISHRIES

- 1) Under the scheme of training to youth from the community of fishermen two training centrs were functioning and 30 youths took the benefit of the scheme in 1980-81.
- 2) Under the scheme of assistance for establishment of ice and cold storage, financial assistance was given to one establishment.
- 3) Rs. 1.14 lakhs were granted as loan to fishermen in the year 1980-81.

FORESTRY

- 1) 450 hectares of land was brought under plantation of trees.
- 2) 150 hectares of land was brought under cultivation.

continued

CROP HUSBANDRY

- 1) Under the scheme of subsidy for pesticides and recticides, subsidy was given to 64,822 beneficiaries. With the help of this an area of 5,594 hectares was covered.
- 2) Under the scheme of grant of subsidy for purchase of plant protection equipments, 126 persons were benefitted as against the target of 80 in 1980-81.
- 3) 40 persons took the benefit as against the target of 80 under the scheme of intensive cultivation of important food crops.
- 4) 121 persons were benefitted under the scheme of vancer grafting on mango and training inside grafting.

CO-OPERATION

Under this major head, six schemes were implemented as shown in the following table. The table also shows the allocation of outlay for each sub-head.

Table			Rs. in lakhs		
Sr. No.	Major head	Sub-head	No. of schemes	Total outlay	Expenditure
1	2	3	4	5	6
1.	Co-operation	Urban consumers co-op. societies.	1	0.27	NA
2.		Distribution of consumer articles in rural area.	1	1.25	"
3.		Labour contract societies.	1	0.75	"
4.		Interest subsidy on short term loans to small farmers	1	0.25	"
5.		Financial assistance to adivasi co-operative societies.	1	33.00	"
6.		Grant of financial assistance for modernisation of rice mills	1	0.60	"
Total			6	36.12	31.65

continued

- 1) Under the scheme of urban co-operative societies three societies were given subsidy in 1980-81.
- 2) Under the scheme of distribution of consumer articles in rural areas, in all 12 consumer articles were distributed to beneficiaries.
- 3) Under the scheme of grant of interest subsidy on short term loan, 25 small farmers got interest subsidy on short term loan.

Ten labour contract societies were functioning in 1980-81.

3) IRRIGATION AND POWER:

Under this major head, the budget provision of Rs. 4.21 crores was made and as against this Rs. 3.85 crores were spent in 1980-81.

In Thane district, there are two on-going spillover projects viz;

- 1) The Bhatsa project and (ii) the Vandri project. The total outlay allotted during 1980-81 for the Bhatsa project was Rs. 1.16 crores and for the Vandri project Rs. 0.99 crores. The construction work of dam in respect of both the projects was in progress. The Bhatsa project will cover an area of 23,000 hectares and the Vandri project will irrigate 3055 hectares. The construction of canal in respect of both the projects was also in progress. Canal length to the extent of 23 km in respect of the Bhatsa project and 3 km in respect of the Vandri project was completed during the year under report. There is another on going major project in Thane district, viz; the Surya project. The construction of dam to the extent of 14.5 meter in height and the canal length to the extent of 16 km was completed. When completed, the project will irrigate an area of about 27,195 hectares.

Under the sub-head of power development four schemes were implemented during 1980-81. The total outlay for these schemes was Rs. 2.06 crores.

continued

Under the major head there were two sub-heads, viz. : (a) Irrigation and (b) Power and development. The following table shows the allocation of funds for each scheme.

Rs. in lakhs

Sr.No.	Major head	Sub-head	No. of schemes	Total allocation	Expenditure
1	2	3	4	5	6
		Medium irrigation	2	215.75	NA
		Power and development	4	206.00	"
Total				421.75	385.44

1) Under the scheme of rural electrification, in all 27 villages were electrified in 1980-81.

4. INDUSTRY AND MINING.

Under this major head in all ten schemes were implemented during 1980-81. The total outlay for these schemes was Rs. 4.11 crores. As..... this the expenditure of Rs. 4.49 crores was incurred in the year 1980-81. The following table shows sub-head wise allocation of funds.

Table
(Rs. in lakhs)

Sr. No.	Major head	Name of schemes	No.s	Total allocation of outlay	Expenditure
1	2	3	4	5	6
1.	Industry and mining	Financial assistance to SSI under S.I. Rules	1	0.24	NA
2.		Industrial estate at Bapat	1	0.60	"
3.		Development of handicrafts	1	0.07	"
4.		Seed money assistance	1	31.27	"
5.		National scheme for training of rural youth.	1	1.12	"

1	2	3	4	5	6
6.	Industry and mining	Training scheme for educated unemployed	1	0.62	NA
7.		Entrepreneurial training programme	1	0.62	"
8.		Assistance to industrial co-operatives	1	1.20	"
9.		Assistance to block level village artisans multipurpose co-operatives	1	1.20	"
10.		District industries centre	1	2.50	"
Total			10	41.12	44.95

1). Seed money assistance to 138 persons was granted under the scheme of development the seed money assistance.

2). Under the scheme of training to educated unemployed persons, 344 persons got the benefit as against the target of 243 during 1980-81

5) TRANSPORT AND COMMUNICATION

Under the major head there were two sub-heads, viz; road development and ports and harbours. For road development the total outlay of Rs. 1.10 crores and for the development of ports and harbour the total outlay of Rs. 0.08 crores was allotted during 1980-81. In all 19 C.D. works were completed in 1980-81 and 3.69 km of road length was improved during 1980-81.

Continued.....

6. SOCIAL SERVICES

Under this major head, in all 111 schemes were implemented. For these schemes the total outlay of Rs. 4.33 crores was allotted as against which Rs. 3.11 crores were spent during 1980-81. The following table shows the allocation of outlay for each sub-head.

Table
amount in lakhs

Sr.No.	Major head	Sub head	No. of schemes implemented	Total outlay	Expenditure
1.	2	3	4	5	6
1.	Social services	General education.	38	57.06	NA
2.		Technical education	1	2.78	" "
3.		Health	17	93.77	" "
4.		Nutrition	4	17.34	" "
5.		Water supply	7	170.55	" "
6.		Urban development	3	12.86	" "
7.		Housing	2	24.02	" "
8.		Welfare of backward class	21	43.00	" "
9.		Social welfare	9	4.65	" "
10.		Prison welfare	1	0.08	" "
11.		Labour and labour welfare	8	11.82	" "
Total			111	437.93	311.27

Some of the important achievements are as under.

- 1) Under the scheme of book banks in schools, colleges, etc. in all 4412 book banks were operating in 1980-81 as against 3425 in 1979-80.

continued ...

- 2) Under the scheme of grant of scholarships, different types of scholarships were granted to 743 students in 1980-81 as against just 28 students in 1979-80
- 3) Under the scheme of housing, roofs of 1200 huts were tiled in 80-
- 4) Under the scheme of welfare of backward classes, the financial assistance was extended to 295 persons for construction of houses.

7. MISCELLANEOUS

Under this major head the employment guarantee scheme was implemented during 1980-81. For this scheme, an outlay of Rs. 3.06 crores was allotted. As against this, an expenditure of Rs. 2.99 crores was incurred in 1980-81. Of the 2639 sanctioned works, 1328 works were completed during 1980-81. Also 996 soil conservation works, 165 road works and 11 forest works were completed during 1980-81.

4.4 The figures for the period to Vth Plan (Five year plan) were not readily available. Hence the data from Vth five year plan i.e. from the year 1974 onwards is given in the following table. The following table gives details of expenditure incurred in Vth five year plan with that of expenditure incurred in the rolling plan period as well as the Sith five year plan.

Table (Amount in '000')

Sr. No.	Head of development	Total expenditure incurred Rs.			
		Vth five year plan (74 to 78)	Rolling plan (78-79)	VI th five year plan

DISTRICT STATISTICAL ABSTRACT

FOR THE YEAR

1930-31

CONTENTS

STATISTICAL ABSTRACT FOR THE YEAR 1960-81

Sr. No. of table	Subject	Page No.
1	2	3
<u>1. AREA AND POPULATION</u>		
1.	Tehsilwise area; Houses and population in 1971 Census.	1
2.	Decadal variation in population since 1951	3
3.	Tehsilwise classification of towns according to 1971 ranges in 1971 census.	5
4.	Tehsilwise classification of towns according to 1971 census.	6
5.	No. of workers and non-workers in each tehsil according to 1971 census.	7
7.	Scheduled Caste, Scheduled Tribes and Neo Buddhists New Buddhists according 1971 census.	12
<u>2. CLIMATE</u>		
8.	No. of rainy days and total rainfall at selected centres.	16
9.	Maximum and minimum temperature at selected centres	19
<u>3. 3. AGRICULTURE</u>		
10.	Land utilisation	20
11.	Area under different crops in each tehsil	24
12.	Yield per hectare and out-turn of principal crops	32
13.	Area irrigated by different sources in each tehsil	33
14.	Area irrigated under crops in each tehsil	35
15.	No. of irrigation and other wells in each tehsil.	44
16.	Availability of under ground water	46
17.	Minor irrigation works	47
18.	Major and medium irrigation project	49
19.	Agricultural wage rates	51

Continued

1	2	3
20.	Agricultural census operational holdings	54
21.	Agricultural implements in each tehsils	56
22.	Famine, scarcity and akin to scarcity data	57
23.	Determination of precarious and other scarcity area according to history of scarcity.	59
4. ANIMAL HUSBANDRY, FOREST AND FISHERIES.		
24.	Livestock in each tehsil	62
25.	Veterinary statistics in each tehsil	66
26.	Disease wise livestock mortality	67
27.	No. of recognised slaughter houses and animals slaughtered in each slaughter house.	68
28.	(a) Forest area in district	69
	(b) Major and minor forest product in district	72x
29.	(a) Inland fisheries	71
	(b) Marine fisheries	
	(c) Quantity of fish brought for quarring, salt issued and fish removed.	
30.	No. of factories and average daily employment of workers.	74
31.	Industry wise distribution of working factories according to working strength.	88
32.	Distribution of factories according to No. of days worked.	91
33.	Statistics relating to A.S.I.	94
34.	Employment exchange statistics	97
35.	Occupation distribution of total registration and placement in Employment exchange.	98
36.	Works undertaken in Employment Guarantee scheme	99
37.	Employment in different industries	104
38.	Consumption of Electricity	105
39.	No. of towns and villages electrified and population covered.	106

Continued ...

1	2	3
	<u>6. CO-OPERATION</u>	
40.	No. of different types of co-operative societies	107
41.	Statistics relating to cooperative Banks	109
42.	Primary Agril. credit societies	110
43.	Other co-operative societies of different types	111
44.	Operation of central and Primary co-operative marketing societies.	112
45.	Operation of other co-operative societies of different types.	114
46.	Operation of regulated markets	115
47.	No. of registered Money lenders and loans advanced by them	116
	<u>7. MEDICAL AND PUBLIC HEALTH</u>	
48.	Medical facilities available through public and public aided bodies in each tehsil.	117
49.	No. of births and deaths registered	119
50.	No. of deaths due to important causes	120
51.	Vaccination inoculation	121
52.	No. of family planning centres operating in district	123
	<u>8. EDUCATION</u>	
53.	Literacy in each tehsil according to 1972 Census	126
54.	Education in Rural area in each tehsil according to 1971 census.	126
55.	Education in Urban area of the district according 1971 census.	128
56.	No. of Institution, pupils and teachers	129
57.	No. of Backward class beneficiaries	130
58.	Economically backward class concessions of free education	131
59.	Expenditure on primary education by way of grant in aid to local bodies.	132

Source - 1971 Population Census.

Note: Figures in Col. 4 (Area in Sq.Kms) do not add up to total for district as the district figures represent the Geographical area as given by the Surveyor General's office while tehsilwise figures represent and used area obtained by adding area figures of villages and Urban area as supplied by local authorities.

Note: Total do not tally due to rounding.
