SOCIO ECONOMIC REVIEW OF RATNAGIRI DISTRICT

FOR THE YEARS - 1980 - 81

CONTENTS - PART - I.

Sr.No.	S u b j e c t	Page No.
1	2	3
1.	Introduction	1 to 7
2.	Explanatory notes	8 to 14
3.	An Analytical Review giving Sectorial Trends.	15 to 29
4.	The Annual Plan 1980-81	30 to 38

CHAPTER - I.

:: INTRODUCTION ::

LOCATION :

1.1 The district is located on the western coast of India and it lies between 15°33' to 18°50' north latitude and 73°50' to 74°36' east longitude. The district has a North-South length of about 288km. and average East-West extension is about 64 km, except in its extremities, which taper to join the coast line. It has a coast line of about 320 km.

BOUNDARIES :

1.2 The district is bounded by Raigad district in the north, Arabian Sea in the west, Goa in the south and Sahyadri hills in the east. Beyond the Sahyadri hills Satara and Kolhapur districts are located.

TOPOGRAPHY :

1.3 Three clear geographical zones can be distinguished in the district. (i) To the east, bordering the Sahyadri Ranges, lies a hilly tract and its off shoots. (ii) The middle portion of the district having plateau surface which is used for cereal crops like rice and ragi. (iii) The western part of the district, the coastal plains where cultivation of coconut and arecanut gardens and fishing are the main sources of livelihood.

HILLS AND RIVER SYSTEM :

1.4 Over 85% of the land surface in the district is hilly. The main range of the Sahyadri consisting of steep and forbidding scraps forms the eastern boundry of the district. In the centre are the transverse chains of small hills which project from the main range and develop higher elevations in the middle portion, where they are parallel to each other and as a result the numerous streams which flow through the valleys have formed parallel drainage pattern.

All the rivers in the district originate from the Sahyadri ranges and have reached their base level of erosion within a distance of 20 km. All the 14 rivers in the district flow from East to West and merge with the Arabian Sea. The river Savitri flows on the northern periphery forms natural boundary between Ratnagiri and Raigad districts and is navigable about 35 km. in Ratnagiri district. The river Vashisthi with a length of about 48 km. is navigable upto 40 km. The length of the rivers Shastri and Ratnagiri is 64 km. each. The rivers Jagbudi, Baw, Muchakundi, Jaitapur, Waghote, Deygad, Achara, Kalawali, Karli and Terakhol are other few important seasonal torrents bringing overflows from the Sahyadri hills. In length they seldom exceed 64 km. Their intensely seasonal regime is yet another limitation to their economic use. Parts of these rivers are tidal. In addition to these main rivers, the district has numerous small creeks and back waters all along the coast line. Important creeks are Kelshi, Ade, Kalabadevi, Redi, Palshet and Borya. All these creeks afford anchorage to small crafts in fair weather and have a local importance in trade and fishing. Most of the rivers in the district are not perennial though they are over-flooded during monsoon due to heavy rains.

SOIL :

1.5 The predominant soils in the district are laterite soils which vary in colours from bright red to brownish red owing to the preponderance of hydrated iron oxides. It is annually eroded by the heavy rains and the top soils are washed into the sea. This exposes the rocks or leaves only few inches of soil depth on the hills and slopes thus making them unable to sustain vigorous plant growth. They are always acidic and fairly well supplied with nitrogen and organic matter. Their texture is loamy and depth varies from one foot to three feet. They are porous not retentive of moisture and are found all over the district except in Mandangad tahsil. The soils are found in several grades. The main grades are 1) Soils

useful for paddy cultivation, ii) ~~Woods~~ soils useful for cashewnuts, mangoes and ragi cultivation, iii) Soils useful for coconut, iv) Coastal alluvial soil useful for coconut and arecanut gardens v) Salty lands locally known as Khar or Khajan.

CLIMATE :

1.6 The climate of the district is generally moist. There are three seasons viz. i) Summer (March to May), ii) Monsoon, (June to October) and iii) Winter (November to February). Being a coastal district, the variation in temperature during the day and through the seasons is not large. Maximum temperature at the coast rarely goes beyond 38°C. and in the interior it seldom crosses 40°C. Owing to the proximity of the sea, the district is very humid and the relative humidity seldom goes below 50%.

RAINFALL :

1.7 Rainfall is not uniform in all parts of the district. It increases rapidly from the coast towards the Western Ghats on the eastern border of the district. In and near the Ghats, the rainfall is heavy. Amboli gets the heaviest rainfall in the district. Practically the entire annual rainfall occurs during the months from June to October. July is the month of heaviest rainfall. During the year 1980, maximum rainfall of 4594 mm. was recorded at Sawantwadi. The tahsils having rainfall above 3,000 mm. during 1980 were Mandangad, Kankavadi, Sangameshwar, Chiplun, Khed, Dapoli, Lanja and Kudal. Guhagar tahsil is having minimum rainfall.

AREA :

1.8 The total geographical area of the district is 13,040 sq. km. The district stands tenth in area in Maharashtra State. Considering area covered by tahsils, Sawantwadi tahsil has got the maximum area (1336.2 sq.km.) in the district, while Vengurla tahsil has the minimum area (327.9 sq.km.).

FOREST :

1.9 Total area under forests in the district is 565.36 sq.km. Out of this 31.31 sq.km. is maintained by the Revenue Department and the rest of the area is under the control of Forest Department. Out of the total forest area, 163.47 sq.km. is reserved and the rest of the area is unclassified.

MINERAL :

1.10 Ratnagiri district is endowed with different types of minerals of economic importance. Manganese and Iron ores are found in the southern part of Ratnagiri district at Redi, Banda, Tirawade, Arce etc. Chromite occurs at Kankawali, Wagde and Janawali in Kankawali tahsil. The reserves of chromite in Ratnagiri district are more than 70,000 M.Tonnes. Ilmenite is found in the beach sands stretching about 40 km. from Purnagad to Malgund near Ratnagiri. Ilmenite is an ore of Titanium metal. Ratnagiri district is also blessed with huge deposits of silica sand and annually thousands of tonnes of silica is being despatched to places like Bombay, Pune, Kolhapur, Belgaon, Ichalkaranji etc. There are many good deposits of clay in the district. There are also occurrences of Mica, Felspar, Steatite, Quartzs, Mineral Pigments such as Copper, Asbestose, Limestone, Clay, Glass Sand, Building Stones, Salt etc and Radio active minerals like Uranium Oxide in some parts of Ratnagiri district.

POPULATION :

1.11 Total population of the district as per the 1971 Census is 19,90,583 (8,86,995 males and 11,03,588 females). The density of population per sq.km. is 153 as against 164 for Maharashtra State. According to population, the district ranks ninth in Maharashtra State. Within the tahsils, the density of population per sq.km. ranges from 257 (Vengurla Tahsil) to 115 (Sawantwadi tahsil). As far as Urban towns are concerned, the density varies from 3,580 (Ratnagiri town) to 250 (Shirgaon town in Chiplun Tahsil). The average density for the district is 1085. Guhagar, Mandangad, Sanganeshwar, Lanja,

Kankawali, Kudal and Devgad tahsils have no urban areas. In rural areas the density of population varies from 219 (Vengurla tahsil) to 103 (Sawantwadi tahsil). The average rural density of population for the district is 142 per sq. km.

1.12 Number of females per 1000 males (i.e. sex ratio) is higher in Ratnagiri district i.e. 1244 which is higher than the State's average of 930. Similar is the position in rural and urban areas. The percentage of urban population to the total population is 8.40 which is the lowest in Maharashtra State. It may be attributed continuous migration of persons from this district to the cities like Bombay. Migration has also affected the growth rate of population of the district as could be seen from the last two decadal variations viz. 1951-61 and 1961-71 which are 6.73 and 8.94. These decadal variations are the lowest in the State of Maharashtra. Corresponding decadal variations for Maharashtra State are 23.60 and 27.45 respectively.

LITERACY :

1.13 The percentage of literacy has gone up from 28.5 in 1961 to 39.6 in 1971. The rate of increase in percentage of literates is more or less the same in respect of males and females, rural and urban. As far as the religious composition is concerned, the population covered 87% Hindus, 6.3% Muslims and 5.6% Budhists (including Neo Budhists). The percentage of schedule castes and schedule tribes to total population comes to 2.7 as against 11.9 percent in Maharashtra State.

AGRO INDUSTRIES :

1.14 Agricultural products in Ratnagiri district are paddy, nagli, oilseeds, ground-nut, sugarcane, cashewnuts, coconut, mango. of which paddy, mango, cashewnut, coconut, bettlenut and kokam are products of economic importance. In addition to this, major forest products are bamboo, hirda, timber wood, kattachu (Kat), grass and other ayurvedic vanaspaties. Ratnagiri being a hilly district, land

is comparatively less useful for cultivation.

1.15 Ratnagiri district is famous for its quality mangoes. Best quality is known as Alphanso. This is seasonal product and its yield per annum is estimated at 50 thousand tonnes. It gives a seasonal employment to local people such as collection of mangoes, preparation of wooden boxes, marketing and transportation. Raw as well as canned mangoes are being exported in substantial quantity. There are about 42 canning units engaged in production of canned mangoes, pickles, chatnis.

1.16 Other important agricultural products are coconut, cashewnut and betlenuts. Industries based on these are i) Cashewnut processing industries, ii) Coir industries manufacturing coir, ropes, mattings and carpets. Coconut coir is an important raw material for the coir industry. There are nine coir units two each at Aronda and Vengurla and one unit each at Arawali, Guhagar, Banda, Dodamarg and Walawal are located. Cashewnut from this district fetches foreign exchange. There are 23 cashewnut factories in the district. Feny is also manufactured from cashew in cashew Feny distillery at Insuli in Sawantwadi tahsil and at Chiplun. Kokan fruits are also collected in the season and processed in four factories in the district. The factories are at Kankawali, Kudal, Pawashi and Ajagaon.

1.17 Paddy straw is useful for manufacturing paper and paper board. Four units- two at Chiplun and one each at Pinguli in Kudal tahsil and Sasoli in Sawantwadi tahsil are in existence.

1.18 Plantation of Citronella has been done at some places and three units are manufacturing Citronella oil. At present, there are 105 saw mills which are registered under S.S.I. rules in the district. There are six wooden toys and imitation fruits manufacturing units at Sawantwadi. Mangalore tiles are also manufactured in five units in the district.

SPECIAL FEATURES :

- i. Ratnagiri district is one of the marine districts of the State. The coastal length is about 320 km. which is more than half of the coastal length of Maharashtra State. The sea water is rich in prawns. About 1433 n. tonnes of prawns was exported abroad during 1980-81. There are six major fish processing plants and five fish meal plants functioning in the district. Fish^{of} second quality is dried and grinded to powder in these plants. The fish meal so prepared is sent to factories which manufactures Animal Foods for cattle, poultry etc.
- ii. Mangoes and cashewnuts are important cash crops of the district. They are exported abroad.
- iii. Koyana Hydro Electric Project which generates electricity at Pophali is situated in Chiplun Tahsil.
- iv. Marine Biological Research Station is established at Ratnagiri and ^{the} Krishi Vidyapeeth at Dapoli.
- v. Iron ore mines at Redi in Vengurla tahsil of the district are biggest mechanised mines in the State.
- vi. There are three large engineering factories at Kudal viz, Wymon Garden, Sethi Hippon, Powder metal and Alloyed Ltd. Besides, three engineering factories namely J.K. Files, Diamond Shyanrock and Marnada Cement Company Limited have been established in M.I.D.C. area at Ratnagiri and few more are coming up.
- vii. Ratnagiri has been declared as one of the districts wherein Rural Industries Project is to be established.
- viii. A target of Rs. 270 Lakhs was allotted to Ratnagiri district for the year 1980-81 for Collection of Small Savings. The actual collection against this target was 409 Lakhs. The target was exceeded by 52 percent.
- ix. The District lacks in Rail communication facilities but all weather port is being developed at Ratnagiri. At present there are 19 seasonal ports in the district.

CHAPTER - II.

EXPLANATORY NOTES ON THE SCOPE AND LIMITATIONS OF DATA PRESENTED IN PART II OF THE DISTRICT STATISTICAL ABSTRACT FOR THE YEAR 1980-81.

PURPOSE AND SCOPE :

2.1 The Statistical data on Socio-Economic Sectors are presented in this Abstract for the year 1980-81. As far as possible, data are given for the year 1980-81. Data for the latest available year are provided wherever it was not possible to give the data for 1980-81. In most of the cases the reference period of the data is the financial year. The data on agriculture, however relates to the agriculture year where as the data on "Co-operation" is for the Co-operative year (i.e. from 1st July to 30th June). The data on other important items such as Civil and Criminal cases, rainfall etc., are for the calendar year. The tahsil-wise data has been displayed as far as possible for inter tahsil comparison.

DISTRICT AT-A-GLANCE :

2.2 At the beginning of the publication a table "District at a glance" has been presented. This table presents a bird's eye-view of the socio-economic indicators of development in this district vis-a-vis Maharashtra State.

DISTRICT STATISTICAL ABSTRACT :

2.3 The data incorporated in this abstract has been presented in suitable tables which are classified in appropriate groups. The concepts adopted in preparation of tables are summarised in the following paragraphs. The limitations on data presented are cited wherever necessary.

I. AREA AND POPULATION :

2.4 There are Seven tables in this group and all of them are based on the 1971 population census. The table No.1 gives tahsilwise area and population with its break up into Rural and Urban, male and female. The data on residential houses and households and villages

and Towns has also been given. The break up of the population into rural and urban, male and female with its density for the last three censuses and decadal variations since 1951 and 1961 is presented in table No.2. The tahsilwise classification of villages and towns according to population ranges is given in table no.3 and 4 respectively. The Occupational structure of the population in rural and urban areas is presented separately for all the tahsils in table no. 5. While the distribution of the population according to age groups and according to different religions is shown in table no.6. Table no. 7 gives tahsilwise distribution of scheduled castes, scheduled Tribes and neo buddhist population in rural and urban areas of Ratnagiri District.

II. CLIMATE :

2.5 Only two tables are included in this group. Table No.8 gives monthwise rainfall data in respect of fifteen centres located at tahsil headquarters in the district for the year 1980. In table no.9 maximum and minimum monthly temperature for four selected centres viz.Ratnagiri, Harnai, Devgad and Vengurla is given.

III. AGRICULTURE :

2.6 14 tables are included in this group. The table No.10 to 12 & 15 gives fully revised data for the year 1977-78 and 1978-79 and provisional data for 1979-80 regarding land utilisation, cropping pattern, yield rate and outturn of principal crops and number of irrigation wells in use and not in use. The provisional data about yield per hectare and out-turn of important crops, in table No.12 is based on fully revised data for the year 1977-78 and 1978-79 and the information for the year 1979-80 is based on the revised final forecast. Table No.13 & 14 gives fully revised data for the year 1975-76 to 1978-79 and provisional data for 1979-80 regarding area irrigated by different sources and area irrigated under different crops respectively. Table No.16 gives availability of underground water for the year 1980-81. Table No.17 provides information of

minor irrigation works excluding wells for the year 1979-80, while details about major and medium irrigation projects in table no.18 shows the position as on 30-6-1980. Table no.19 indicates the agricultural wage rates for all the months of the year 1980 collected from three selected centres in the district. Table no.20 gives information pertaining to agricultural holdings as per the World Agricultural Census, 1976. The tahsilwise data of agricultural implements collected in the 1978 livestock Census are given in the table no.21. Table no.22 gives the famine and scarcity data for the year 1980-81 and the table no.23 gives the history of scarcity revenue circle wise for the last ten years i.e. from 1971-72 to 1980-81 in each tahsil of the district.

IV. ANIMAL HUSBANDRY, FOREST AND FISHERIES :

2.7 There are ten tables in this group. Out of which, table no.24 relate to the tahsilwise livestock data as per the 1978 Livestock Census. The veterinary statistics such as availability of medical facilities for livestock, cases treated and inseminations carried out in each tahsil is given in table no.25 for the year 1980-81.

Table no.26 provides information about disease-wise livestock mortality in the district during the year 1980-81. Information regarding the recognised slaughter houses and animals slaughtered in them for the year 1980-81 is given in table no.27. Table no.28-A gives classified forest area under the control of revenue and forest department while the table no.28-B reveals major and minor forest products and their value obtained from these forests. Table no.29 is divided in three parts. Table no.29(A) and 29(F) provide tahsilwise information about inland and marine fisheries respectively for the year 1980-81 and data regarding quantity of fish brought for curing, salt issued and fish removed during the year 1980-81 is given in table no.29(C).

V. EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY :

2.8 There are in all ten tables in this group. The first three tables viz. table nos.30,31,32 relate to factory statistics for the

years 1979 and 1980 while in table no.33 information regarding important characteristics of industries as collected in the Annual Survey of Industries for the years 1978-79 and 1979-80 is given. The Table nos. 34 and 35 provide Employment Exchange Statistics for the year 1980-81 while tahsilwise information about the works executed under the Employment Guarantee Scheme, employment generated and expenditure incurred there-under during the year 1980-81 is given in table no.36. Employment in different industries as on 31st March 1981 is shown in table no.37. The classification of consumption of electricity according to major uses is shown in table no.38 for the year 1980-81. The table no.39 provides information regarding the towns and villages electrified and population covered during the years 1960-61,1965-66, 1969-70 and 1975-76 to 1980-81.

VI. Co-operation :

2.9 There are eight tables under this group. Data regarding various activities in co-operative sector such as number of co-operative societies of different types, their membership, share capital, working capital, loans advanced, no. of co-operative banks and loans advanced by them are given in the first four tables. (i.e. table Nos. from 40 to 43) for the year 1980-81, while statistics relating to operations of central and primary co-operative marketing societies is presented in table nos.44 and 45. There is no regulated market in the district and hence information in table no.46 is nil. The Table no.47 provides data regarding registered money lenders and loans advanced by them during 1980-81.

VII. Medical and Public Health :

2.10 Five tables are included in this group. Information regarding medical facilities through public and public aided bodies in each tahsil during 1980 is given in table no.48. The tahsilwise data regarding number of births and deaths registered in Ratnagiri district during 1980 is presented in table no.49, while number of deaths due to important causes from 1971 to 1980 is shown in table no.50 for the

district as a whole. The table no.51 gives tahsilwise vaccination statistics and cholera inoculation done during the year 1980 while family planning statistics is given in table no.52 for the year 1980-81.(as on 31-3-1981.)

VIII. EDUCATION :

2.11 The statistics relating to education is presented in table nos.53 to 59. The table no.53 shows the tahsilwise literacy position in rural and urban areas according to the 1971 Census. The table nos. 54 and 55 indicate educational level of rural and urban population as per the 1961 Census as data for the 1971 Census are not available. In table no.56, information regarding educational institutions, pupils and teachers in these institutions for the year 1980-81 (as on 30th Sept.1981) is presented for the district as a whole. The next two tables viz, table nos.57 and 58 in this group relate to backward class enrolment and economically backward class beneficiaries respectively for the years 1979-80 and 1980-81 . The Annual expenditure on primary education for the years 1979-80 and 1980-81 is given in table no.59.

IX. TRANSPORT AND COMMUNICATIONS :

2.12 In all seven tables are included in this group. Rail facility is not available in the district and in the table no.60 therefore, there is no information. The table no.61 provides road length according to category and surface classification as on 31-3-1981. Data of motor vehicles in operation in Ratnagiri district and operational Statistics of nationalised road transport as on 31-3-1981 are presented in table nos.62 and 63 respectively. Data of the Traffic Census conducted during 31c December 1980 by the Public Works Department are presented in table no.64. Information of communication facilities viz. pdst, telegraph, telephone and radio licences issued and renewed together for the years 1961-62, 1965-66, 1970-71 and 1974-75 to 1980-81 is given in table no.65. While the rural broadcasting information as on 31-3-1981 is presented tahsilwise in table no.66.

X. LOCAL BODIES :

2.13 Four tables viz. table nos.67 to 70 in this group pertain to income and expenditure of local bodies such as the village panchayats, the Zilla Parishad and municipal councils. The Table no. 67 shows at a glance income and expenditure of the above mentioned local bodies for the years 1965-66 and 1969-70 to 1980-81. The Table No.69 is divided into three parts (A,B & C) viz. headwise information of receipts, Govt. grants to Zilla Parishad and expenditure of Zilla Parishad for the years 1979-80 (Actuals), 1980-81(Revised) and 1981-82(estimates). The table nos.68 and 70 give sub-headwise income and expenditure of the village Panchayats and Municipal councils respectively for the year 1980-81.

XI. PLAN AND COMMUNITY DEVELOPMENT :

2.14 Out of five tables in this group, the first two tables 71 & 72 give the expenditure and physical achievements of district level plan schemes during the year 1979-80 and 1980-81. The table no.73,74 and 75 relate to the activities pertaining to the community development blocks. The table no.73 gives stagewise coverage, table no.74 depicts total expenditure incurred in each block. Physical achievements in these blocks for the year 1980-81 are shown in table no.75.

XII. PRICES :

2.15 Three tables are included in this group. There is no agricultural produce market committee in the district and hence table no.76 is blank. The monthly averages based on weekly prices of important commodities collected from selected shops at district head-quarters during 1980 have been presented in table no.77. The consumer price index numbers for 1980-81 (Revised series) for working class at Bombay and Jalgaon are given in table no.78.

XIII. MISCELLANEOUS :

2.16 The last group "Miscellaneous" covers official Statistics giving information regarding Police force and crime Statistics, work disposed off in Civil and Criminal Courts, Cinema Statistics,

theatres and their seating capacity, banking offices, scheduled banks and joint stock companies, life insurance statistics, performance of small savings, tahsilwise collection of land revenue, tahsilwise number of presses and publications, distribution of food grains through fair price shops, procurement of food grains through levy, results of general elections and candidates according to party affiliations. In the last table no.93, some important indicators for the district are worked out from the tables in the Abstract, which indicate general trend of development in various sectors over a period of more than two decades.

CHAPTER - III.

Analytical Review of Sectoral Trends :

3.1 An attempt is made in this chapter to study the trends in the development of various socio-economic aspects of Ratnagiri district by working out various indicators from various sectors such as agriculture, co-operation, livestock, electricity, employment, education, medical facilities, prices etc. Generally tahsil is taken as unit and indicators have been worked out to review the progress so far achieved in various sectors of economy. The year 1960-61 (i.e. the last year of Second Five Year Plan) is taken as base year for the sake of comparison and review of the development reached during period in question.

3.2 The development so far made during the period of last 20 years can be assessed from the following indicators. It is seen from the table given below that there was very little increase in double cropping as the percentage of gross cropped area to net area sown was almost constant during the last 20 years for the district as a whole. On the contrary, it was seen decreasing in Ratnagiri, Mandangad, Khed, Chiplun, Sangameshwar, Lanja, Rajapur, Kankavali, Vengurla and Devgad tahsils. This was probably on account of peculiar topographical position of the district and lack of irrigation facilities. There was slight increase in the pattern of double cropping in Guhagar, Dapoli, Kudal, Sawantwadi and Malwan tahsils. Despite strenuous efforts the agricultural backwardness could be prominently seen.

Table No.3.2

Tahsilwise percentage of Gross cropped Area to Net Area Sown in Ratnagiri District during 1960-61, 1970-71, 1978-79 & 1979-80.

Sr. No.	Tahsils	Percentage of gross cropped area to net area sown.			
		1960-61	1970-71	1978-79	1979-80
1	2	3	4	5	6
1.	Ratnagiri ✓	102.08	100.00	103.36	102.14
2.	Guhagar ✗	101.49	101.10	101.13	101.37
3.	Dapoli ✓	101.19	101.29	101.00	101.07
4.	Mandangad ✗	102.15	102.11	100.91	101.59
5.	Khed ✗	102.67	102.78	102.00	101.69
6.	Chiplun ✗	101.42	101.53	102.48	102.05
7.	Sangameshwar ✗	101.54	103.37	101.91	101.89

15.	Devgad ✗	105.18	106.31	104.46	103.62
Dist. Total		102.78	102.98	103.71	103.06

3.3 So far as the cropping pattern is concerned, paddy under cereals, kulthi under pulses, coconut under oil seeds and fruits such as mango and cashewnut are the major crops grown in this district. The table below reveals that the area under total pulses

and total non-food crops decreased during the year under report. This does not however appear consistent with the fact that there was increasing tendency amongst farmers to bring additional area under cultivation. Particularly cultivation of mango, cashewnut and coconut was becoming popular and hence the area under them also increased simultaneously. The extent of increase could not be quantified as the area under mango, cashewnut, coconut is not available for previous years.

Table No.3.3

Percentage distribution of gross area under important
Crops to total gross cropped area in Ratnagiri District.

Sr. No.	C r o p	Y e a r s			
		1960-61	1970-71	1973-79	1979-80

		100.00	100.00	100.00	100.00

3.4 Principal crops of this district can be identified as paddy, kulathi, mango, cashewnut, coconut and betlenut of which yield rate and outturn of paddy alone is available. It is observed from the following table that the production of all crops except Rice was comparatively more than that of the production of 1973-79. Ratnagiri district is known for its quality mangoes. The best quality, known as Alphanso, is grown extensively. Its yield per annum is roughly estimated at 50000 tonnes. It is treated as cash crop since it fetches foreign exchange. Cashew of best quality is also grown in this district.

Table No.3.4

Yield rates and out turn of principal crops.

Sr. No.	C r o p s	Yield per hectare in kg. during				Outturn in '00 M. Tonnes during

7.	Sugarcane	2540	6954	9000	9000	4	29	27	45

3.5 Generally there is very little scope for irrigation in the district because extensive areas are covered by hills and rocky terrain. It is observed from the below table that there was slight increase in an overall percentage of irrigation for the district as a whole. It was however decreased in Dapoli, Khed, Lanja, Chiplun, Rajapur, Sawantwadi, Malwan and Devgad tahsils. There was no area under irrigation in Khed tahsil.

Table No.3.5

Percentage of Net Irrigated area to net sown area.

3.6 Paddy and coconut are the two major irrigated crops of this district, which cover more than 63% of the area irrigated. During the period of last 20 years, irrigated area under paddy was seen decreasing as compared to the year 1960-61 which is not convincing. The details of other crops is indicated in the table given below.

Table No.3.6

Percentage of area under different irrigated crops to gross irrigated area.

Sr. No.	Name of crop	Year			
		1960-61	1970-71	1978-79	1979-80

3.7 In 1979-80, 16626 hectares area was under surface irrigation. Of this 77% area was under surface irrigation and 23% area was under well irrigation. Surface irrigation had increasing trends.

Table No.3.7

Sourcewise net irrigated area.

(in Hect.)

Sr. No.	Source	Y e a r			
		1960-61	1970-71	1978-79	1979-80

1.	Surface Irrigation	8,479	10,660	12,782	12,798
2.	Well Irrigation	4,188	3,050	2,358	3,828
	Total	12,667	13,710	15,140	16,626

3.8 Co-operation: The Co-operative credit societies play vital role in the field of agricultural development by extending credit facilities on an extensive scale. Details of various types of achievements in respect of credit societies are given in the following table. It is seen that the number of primary agricultural societies increased only by one during the year under report. There was also increase in the membership, share capital and loans advanced as compared to the years 1960-61, 1970-71 and 1979-80. During the year 1960-61, per member advance was Rs.28 only which increased to Rs.73 during 1980-81. As compared to per member advance in the year 1980-81 outstanding loan per member was Rs.100 which is an indicator of poor repaying capacity of the members. With all these achievements there still remains much to be done in the field of co-operative sector.

Table No.3.8

Table showing number of primary agricultural societies, their members, working capital, loans advanced, overdues, out standing.

Sr. No.	Items	Unit	Y e a r s			
			1960-61	1970-71	1979-80	1980-81

5.	Loan overdues	000'Rs.	N.A.	5703	13925	9497
6.	Loan outstanding	000'Rs.	N.A.	10972	24889	23173

3.9 Agricultural Wage Rates :

The daily agricultural wage rates are being collected regularly from three centres viz. Harnai from Dapoli block, Nawadi from Sangameshwar block and Talere from Kankavali block. Shiroda centre in Vengurla block was replaced by selecting Talere during the year 1980-81. The average daily wage rates for these centres for the year 1979 and 1980 are shown in the table given below. The average daily wage rates for male ranged from Rs. 5.77 to Rs.6.71 while for female it was from Rs. 3.29 to Rs.4.67 during the year 1980. These wage rates were collected from the selected farmers who employed the labourers on permanent basis. This probably might account for low rates of wages.

Table No.3.9

Table showing wage rates at selected centres.

(In Rs.per day)

Sr. No.	Centre	Year	Annual Average wage Rate for				
			Field Labour		Carpenter	Black smith	Cobbler
			Male	Female

		1980	6.67	4.67	12.00	-	-

3.10 Livestock :

The Livestock makes a substantial contribution to the economy by providing subsidiary income to farmers, food to human population and employment potential to landless labourers. The last livestock Census was carried out during 1978 in Maharashtra and findings regarding the livestock per 100 hectares of cultivable area are quoted in the table given below. It is observed that the bovine and ovine population per 100 hectares of cultivable area was the highest in Malvan tahsil and the lowest in Sawantwadi tahsil. It was less than the district average in Guhagar, Sawantwadi, Dapoli, Mandangad, Sangameshwar and Devgad Tahsils.

Table No.3.10

Bovine and Ovine population per 100 hectares of cultivable land.

Dist. Total		972120	857166	113

3.11. Poultry :

The ratio of poultry to population is shown in the below table. It is observed from the table that there was an increase in the poultry. As compared to human population, there were 619 poultry birds per thousand human population during 1972 while the corresponding figure was 333 during 1973. From the last two Livestock Censuses it is observed that there had been an increase in the number of birds in all the tahsils. Within tahsils, the number was the highest in Rajapur tahsil, followed by Kankawali and Malwan tahsils. It was the lowest in Devgad tahsil.

Table No.3.11

Table showing the ratio of poultry to population in the 1972 and 1973 Livestock Censuses.

District Total		619	333

3.12 Electricity :

It is seen from the following table that 986 villages out of 1519 were electrified till 1980-81. During the year 1980-81, the per capita consumption of electricity was 26.02 kwh. as against 0.85 kwh. during 1960-61. Out of the total consumption during the year 1980-81, 38% electricity was used for domestic purposes, 10% for commercial, 32% for industrial and 3% for agricultural purposes.

Table No.3.12

Villages electrified, pumps energised and the per capita consumption of electricity.

Sr.No.	Item	1960-61	1979-80	1980-81
1	2	3	4	5
1.	Village electrified (as at the end of)	1	878	986
2.	Pump energised (No.)	NA	2457	464
3.	Per capita consumption (kwh.)	0.85	21.32	26.02

3.13 Employment :

Employment generation is one of the most important aims of the Process Planning particularly in a over populated country like India. Employment exchange statistics give an indication of the magnitude of the unemployment problem to a very limited extent. For majority of the unemployed persons do not avail of the facilities provided by the employment exchanges. Position of Ratnagiri district regarding the registration enrolled, vacancies notified and placement made is indicated in the table given below. It is seen from the table that the number of persons on live register was 19333 during 1980-81 as against 2,340 in 1960-61. As against the registration, the employment was provided only to 429 persons during 1980-81 which works out to only 4%.

3.15 Education:

Education is the backbone of socio-economic development and accordingly the priority was attached to educational programme in all the plans that have so far been executed. Statistics pertaining to education has been depicted in the table given below which indicates considerable increase in educational activities during the period of last 20 years.

Table No.3.15

No. of students in different categories of Institutions.

Sr. No.	Institutions	Unit	Y e a r s			
			1960-61	1970-71	1979-80	1980-81
1	2	3	4	5	6	7

4.	Higher Institutions	No.	3	7	12	13
		Student	413	3379	6736	6926

3.16 The above table reveals the speed at which education facilities are expanding at various levels. The following table indicates important ratios in the field of education. It is observed from the ratios that the number of secondary and higher educational institutions was increasing. The number of teachers in relation to students was however decreasing at secondary and higher level education.

Table No.3.13

3.14 Medical Facilities :

Below table indicates medical facilities and their performance during the years 1961,1971,1979 and 1980. It is seen that there was an increase in the number of hospitals during the last 20 years. However, the number of primary health centres and the number of dispensaries remained the same. As compared to the year 1961 there was an increase in indoor and outdoor patients treated by 137% and 61% respectively during 1980. This clearly indicates the extent of expansion of medical facilities over a period of 20 years.

3.17 Commercial Banking :

The tahsilwise number of banking offices and number of households per banking office for the year 1980-81 is given in the following table. The similar information is not available for the years 1960-61 and 1970-71. The number of banking offices increased from 40 in 60-61 to 149 in 1979-80 recording an 273% of increase. The corresponding figures of the number of banking offices in 1980-81 was 157 showing an increase ^{of} 5% over and above the figures for 1979-80. During 1980-81, 509 households was served per banking office.

3.18 Roads :

Roads are one of the important pre-requisites of economic development. This is particularly true in a district like Ratnagiri where the portion is covered by hills and rocky tracts as there is no other means of transport in this hilly district. The special priority therefore was accorded to the road development programme of the district. The total length of the road which was 2382 km. in 1960-61 increased to 6838 km. in 1980-81. The increase in road length during the last 20 years works out to be 187%. During 1960-61 the road length per 100 Sq.km. was 18 km. which was increased to 52 km. during 1980-81.

3.19 Prices :

Since November 1962 the prices of important commodities are being collected by the District Statistical Office at the district head quarters on each Friday. As these prices are collected for selected commodities from the selected shops, they may not represent the district position in general. However, the data may prove useful

as bread indicator of the trend of changes in retail prices over a period of time in the district. The following table indicates the average retail prices of the selected commodities for the years 1962-63, 1970-71, 1979-80 and 1980-81 collected at Ratnagiri. It is observed that there was increasing trend in the prices of all the commodities since the base year 1962. In comparison to earlier year 1979-80 the prices of all commodities were also increased except arhardal.

Table No.3.19

The general consumer price index number for working class is computed for Bombay which was 400 during the year 1980-81. For computation of this index number the year 1960-61 is taken as base year.

C H A P T E R -IV.
ANNUAL PLAN - 1980-81.

4.1 The necessity of Planning at level lower than State has become increasingly relevant. A district is compact area in which conditions are likely to be more homogeneous than in large region or in a whole State. It is also available administrative unit for plan implementation. It may be for the effective popular participation in the planning process. Such planning may also be useful for strengthening the democratic system. Therefore Govt. has accepted the principle of decentralised planning and its implementation. The main objective of district planning are i) The reduction of inter district imbalances. ii) to ensure rational utilisation of resources and iii) proper co-ordination and implementation of development programme.

4.2 The organisational machinery set up in each district for the formulation, monitoring and overseeing of the district plan originally consisted of (a) the district planning board and (b) district development and consultative council. These two bodies have subsequently been amalgamated and formed in a single body known as district planning and development council, which is presided over by the designated Minister of the district. Initially the Chief Executive Officer of Zilla Parishad was to function as the member secretary of this body. However subsequently collector of the district was/is appointed as member secretary with effect from 15-12-1975. The services of the Deputy Chief Executive Officer (Planning) along with the planning cell of Zilla Parishad consisting of one Planning assistant and one junior clerk and two Research Assistants from the Directorate of Economics and Statistics, Government of Maharashtra, were also placed at the disposal of district planning and development council. They have to work under administrative control of Collector and Member Secretary of district planning and development council. To assist the council in its deliberations, a small Executive Committee is appointed under the chairmanship of designa-

ted Minister of the district. The Collector also functions as the member Secretary of this committee.

4.3 The period of the Sixth Five Year Plan is from 1980-81 to 1984-85. Keeping in view broad objectives of Sixth Plan, the Annual Plans under the Sixth Five Year Plan are prepared. The year 1980-81 is the first year of Sixth Five Year Plan. The Annual Plan provided for a total outlay of Rs. 13.28 crores. As against the total outlay, expenditure incurred was Rs. 14.07 crores.

Table No. 4.3

Table showing the major headwise allocation of budget grants and Expenditure incurred during the year 1980-81.

(Rs. in crores.)

Sr. No.	Sector	Plan outlay for 1980-81	Revised outlay	Total Expenditure incurred	Percentage of expenditure to revised outlay.
1	2	3	4	5	6
1.	Agriculture and allied services.	3.05	3.00	3.29	110
2.	Co-operation	0.01	0.01	0.01	100
3.	Water and power development	2.94	2.99	3.30	110
4.	Industries and mining	0.34	0.33	0.42	127
5.	Transport and Communication	4.26	4.30	4.23	93
6.	Community and Social Services.	2.68	2.65	2.82	106
7.	Miscellaneous	-	-	-	-
	Total	13.28	13.28	14.07	106

4.4 The sectorwise allocation in the annual plan 1980-81 was determined taking into account overall capacity already available in the district's economy and the objectives of the plan. A considerable part of the budget provision in the annual plan 1980-81 was for infrastructural development. Of the total outlay of Rs.13.28 crores, provision to the extent of 75 percent was made only for three sectors i.e. Transport & Communication (32%), Agriculture and Allied Services (23%) and Community and Social Services (20%). The expenditure incurred during the year 1980-81 was 106% of the revised outlay.

4.5 An attempt is made in the subsequent paras to review the progress of various schemes implemented under different major heads. There were in all 193 schemes implemented during the year 1980-81.

4.6 Agricultural Programme

Agricultural Programme covers following seven heads under which 57 schemes were implemented during the year.

Table No. 4.6

Sr. No.	Sub-head of development	No. of schemes implemented during	
		1979-80	1980-81.
1	2	3	4
1.	Crop husbandry	11	16
2.	Minor irrigation	5	6
3.	Soil conservation	2	4
4.	Animal husbandry	6	8
5.	Dairy development	2	4
6.	Forest	6	10
7.	Fisheries	8	9
	Total	40	57

4.7 Out of the total provision of Rs. 3.29 crores for agricultural development, the provision of Rs. 1.50 crores (46%) was made for minor irrigation. Considerable provision was made for soil and water conservation (55 lakhs) and fisheries development (34 lakhs). By and large expenditure incurred was satisfactory in respect of all the schemes except animal husbandry.

4.8 During the year financial assistance of Rs. 5.00 lakhs was given to bring 634 hectares area under quality mango. An amount of Rs. 2.10 lakhs was distributed among 709 farmers as compensation on account of increased fertiliser prices. In as many as 4013 hectares of additional area. Insecticides and pesticides were used in order to prevent them falling ^{prev} to different diseases.

4.9 Minor Irrigation

During the year 1980-81, 2065 kacha bandharas were constructed under which 6172 hectares of irrigation potential was created. It is note-worthy here that very few farmers utilise the irrigation facilities available under this scheme. An Irrigation potential to the extent of 300 hectares^e was also created by installing 100 lifts. The financial assistance of Rs. 0.33 lakhs was given to five co-operative societies for construction of new wells and installation of pump sets on them.

4.10 Animal Husbandry

During the year an expenditure of Rs. 3.17 lakhs, which accounted for 66% of budget provision, was incurred. Under the programme 14823 animals were inseminated, 4391 animals were castrated, 2,22,053 animals were treated, 1000 Cockerels were distributed and 16000 animals were treated under the programme of controlling foot and mouth diseases.

4.11 Dairy Development

Of the total expenditure incurred under this head 92% was incurred for re-construction of dairy units (staff quarters and sheds) and 8 percent for rendering financial assistance to the

dairy co-operative societies and for transportation of animals.

4.12 Forest :

Under the General Utility timber development programme 324 hectares was brought under valuable trees during 1980-81. The financial assistance of Rs. 0.50 lakhs was given for preservation of wild animals.

4.13 Fisheries

An expenditure of Rs. 5.43 lakhs was incurred for the construction of pilot project for brackish water fish farming. The work of the project is in progress. The financial assistance of Rs. 19.36 lakhs was given to mechanise 25 indigenous boats. Fingerlings to the extent of 1.26 lakhs were stocked under the programme.

4.14 Co-operation and Community Development :

Under Co-operative activities the expenditure of Rs. 1.12 lakhs was incurred. Of the total expenditure Rs. 1.09 lakhs was given as management subsidy and 0.03 lakh was given as share capital contribution.

4.15 Transport and Communication :

The programme for development of port, harbour and road was undertaken under this major head. New roads of 42 km. length were constructed. The work of modernising roads of 154 km. length and 338 works of cross drainage were completed. Under the development of ports and harbours, draiging of 25000 tonnes, development of 19 jetties and 17 anti sea erosion works were completed. 15 sheds for passenger were also constructed at harbours.

4.16 Irrigation and Power :

The budget provision for irrigation and power for the year 1980-81 was Rs. 298.91 lakhs. An amount of Rs. 129.52 lakhs was spent on three irrigation projects viz, Natuwadi, Gadgadi and Devgad. The work of Natuwadi Project is nearing completion and that of other projects is in progress. An amount of Rs. 200.44 lakhs was spent on various schemes under electrification. Under rural electrification

programme, 108 villages and 73 harijan bastis were electrified. 464 pumps were also energised during the year.

4.17 Industries :

The budget provision of Rs. 33.04 lakhs was made under this major head. The expenditure however exceeded it being 42.38 lakhs. Seedmoney assistance of Rs. 11.66 lakhs was given as aid to 116 educated unemployed. The financial assistance of Rs. 6.32 lakhs was given to three industrial Co-operative societies. Grant in aid on account of interest to as many as 48 S.S.A. under S.A.I. scheme was given.

4.18 Social Services :

There were 12 sub-heads under this major head. The total provision under this major head during 1980-81 was Rs. 264.97 lakhs of which an amount of Rs. 281.59 lakhs was spent. Number of schemes implemented under each sub-head is given below.

Table No. 4.18

Sr. No.	Name of sub-head	Schemes implemented during	
		1979-80	1980-81
1	2	3	4
1.	General Education	31	33
2.	Arts and culture	1	1

10.	Social Welfare	2	5
11.	Labour and Labour Welfare	4	5
12.	Information & Publicity	-	-
Total		77	91

4.19 General Education :

The budget provision of Rs. 29.79 lakhs was made for this. The expenditure was 103% . Targets achieved on various schemes are summarised below.

Table No.4.19

Sr.No.	I t e m s	Unit	Achievements
1	2	3	4
1.	School rooms constructed	No.	25
2.	Education concession to E.B.C. students	"	49
3.	Part time classes for age group 5 to 7	"	6
4.	Establishment of rural sports centres	"	15
5.	Adult education programme(Centres)	"	538
6.	UNICEF aided programme(Kit bags)	"	45
7.	Grant of Scholarships to economically backward class students for higher education.	"	48
8.	Educational concession to backward class students in primary schools.	"	120
9.	Opening of book-banks in primary schools (Beneficiaries)	"	17507
10.	Opening of book-banks in secondary schools(Beneficiaries)	"	8458

4.20 Arts and Culture :

An amount Rs. 60,000/- was given as Grant-in-aid to 102 rural public libraries.

4.21 Technical Education :

The expansion and improvements in Govt. Polytechnic at Ratnagiri was under-taken which mainly consisted of an extension to existing building, development of library, establishment of book-banks.

4.22 Public Health :

Out of the budget provision of Rs.29.48 lakhs the expenditure booked on this sub-head was Rs. 27.27 lakhs which works out to 93%. Expansion of facilities in civil hospital and primary health centres, up-gradation of existing primary health centres were the main works carried out under the scheme.

4.23 Applied Nutrition programme :

The budget provision of Rs. 2.41 lakhs was made under this sub-head and the expenditure incurred was of the order of Rs.1.03 lakhs which works out to 43%. Appointments of staff and construction of community gardens were the items undertaken under the Applied Nutrition Programme.

4.24 Water supply and drainage :

Despite heavy rains all over, the district feels scarcity of drinking water on account of the fact that most of the rain water gets drained off. The scarcity is felt with the onset of summer season and becomes very acute during the entire period. In order to mitigate hardships of the people, a programme of construction of drinking water wells was undertaken on a massive scale. As many as 422 drinking water wells and 96 bore wells were completed during the period under report. The expenditure incurred was over and above the budget provision made.

4.25 Urban Development :

The financial assistance was granted to Six municipal councils for implementation of development plan and an amount of Rs. 16.52 lakhs was spent during the year 1980-81.

4.26 Rural Housing :

The budget provision of Rs. 11.65 lakhs was made under this head during 1980-81 for providing house sites to landless workers in rural areas and construction of huts thereon and for tilling of roofs of huts. The expenditure booked was 100%. As many as 157 houses were constructed and roofing tiles in respect of 801 houses were given.

4.27 Welfare of Backward Classes :

Under this programme, 16 schemes were implemented during 1980-81 by spending an amount of Rs. 16.38 lakhs as against the budget provision of Rs. 11.33 lakhs. Achievements during the year 1980-81 were as follows : Tuition and also, examination fee was granted to 205 B.C. students. Nine B.C. hostels were given grant-in-aid. The financial assistance for construction of houses was granted to individuals as also group housing schemes of the backward class. The number of houses thus assisted was 329. 16 B.C. students in I.T.I. were given stipend. 17 irrigation wells were constructed. The financial assistance by way of subsidy was granted to 102 B.C. farmers for development of land, purchase of fertilisers and implements. The financial assistance was granted to 7 balwadis.

4.28 Social Welfare :

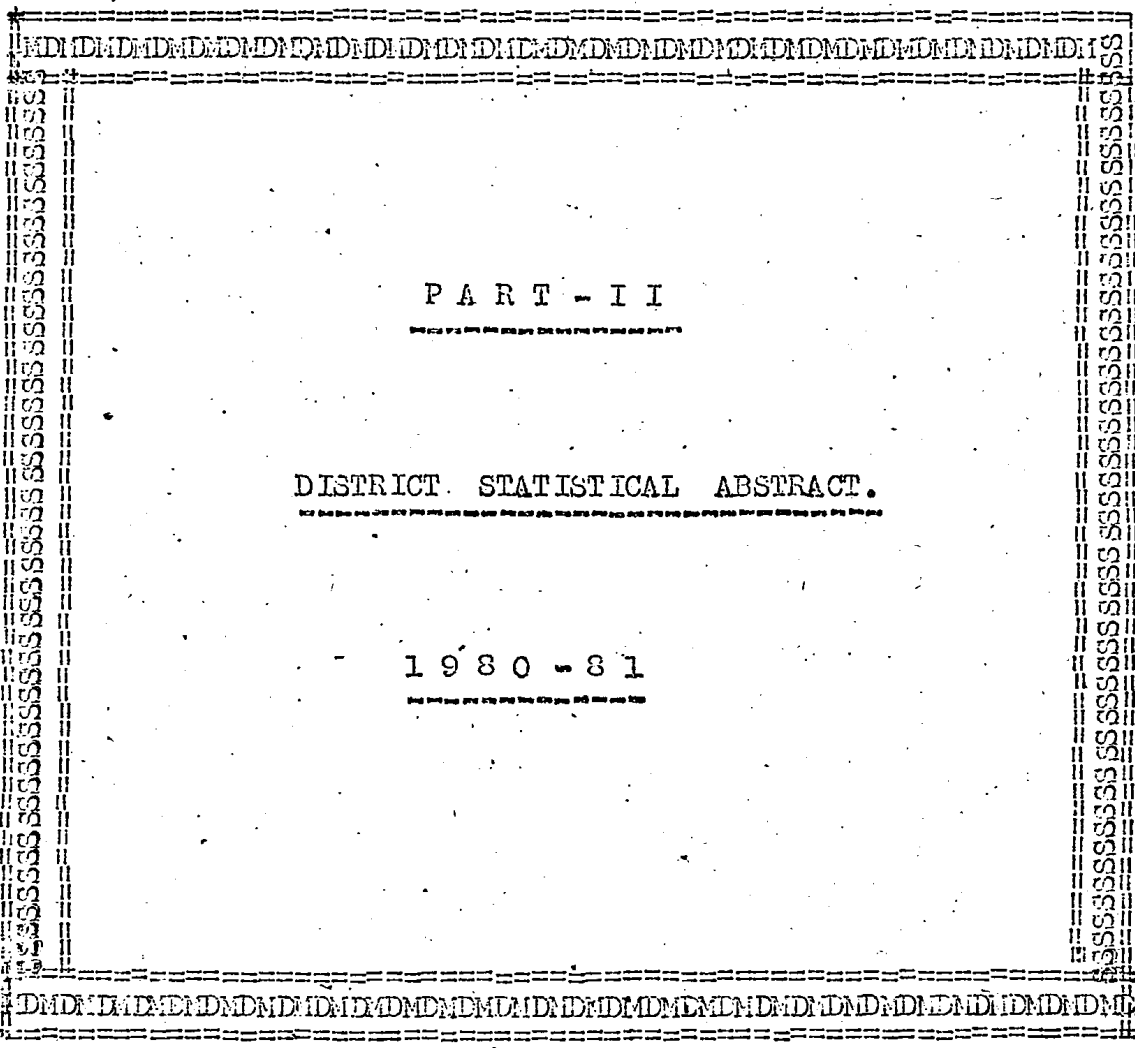

Under the scheme, an amount of Rs. One Lakh was spent for opening of 5 balwadis, rehabilitation of 6 prisoners and opening of one reception centre and state home for women.

4.29 Labour and Labour Welfare :

Under this programme Rs. 9.20 lakhs were spent to provide machines and other material to industrial training institutions and construction of hostels for students.

4.30 Other Programme :

The Employment Guarantee Scheme, was implemented under this head. During 1980-81 Rs. 40.26 lakhs were spent under the scheme. The labour attendance during 1980-81 was 2778 on 65 E.G.S. works. Total employment generated in mandays was 7,82,875 during the year under report.

Note :- The data on Land Holdings given in columns (3) to (8) are based on complete enumeration of all Land Holdings, while the data in the remaining columns (9) to (23) are based on the estimates built up on the basis of sample study. As such, the break up of the Land Holdings according to certain characteristics (shown in col. 9 to 23) may not add up to the aggregates indicated in col. (7) and (8).

PLAN EXPENDITURE UNDER DIFFERENT HEADS IN RATNAGIRI DISTRICT 1980-81

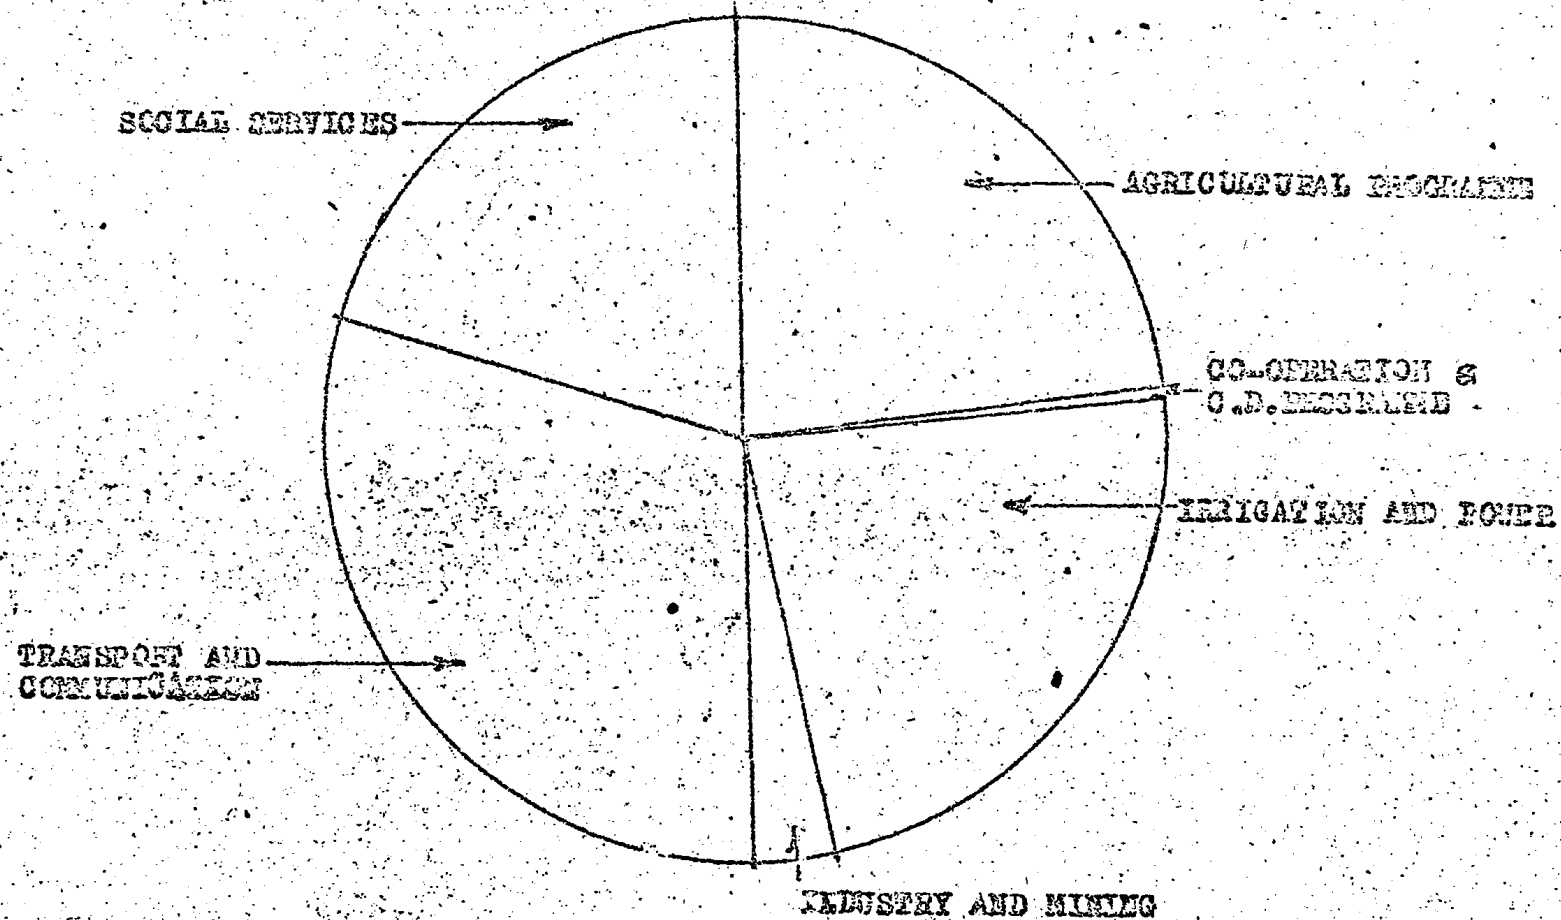

Table No.72

Important Physical Achievements Under Plan Scheme during
1979-80 and 1980-81.

Sr. No.	Name of Development Head/Sub-Head	I T E M S	Unit	Physical Achievements	
				1979-80	1980-81
1	2	3	4	5	6
I.	Crop Husbandry	1. Instalation of Gobar Gas Plants	No.	13	12
		2. Additional area covered by fruits			
		i) Mango	Hect.	532	634
		ii) Mango grafts	000'No	14	14
		iii) Coconut grafts	"	12	10
		iv) Others	"	-	2
		3. Assistance for purchase of sprayers & dusters (No. of sprayers)	No.	-	175
		4. Spraying of pesticides and raticides			
		i) Control of steam bores	Hect.	12	174
		ii) Control of gally fly	Hect.	4	50
		5. Assistance for increasing production of Nagali Crops	"	680	872
		6. Assistance for local animal resources (Competitions)	No.	3	4
II.	Soil Conservation	1. Terracing of land	Hect.	43	41
		2. Mango Plantation	"	461	713
III.	Minor Irrigation	1. Assistance for construction of new wells (wells No.)	No.	5	-
		2. Assistance for construction of Katcha Bandharas (State Sector)			
		i) Bandharas	No.	1200	2000
		ii) Area	Hect.	6000	6000
		3. Construction of Bandharas (Local Sector)	No.	5	5
		4. Lift Irrigation			
		i) No. of Lifts	No.	60	100
		ii) Area	Hect.	130	300
IV.	Ayacut Development	1. Distribution of fertilizers	M. Ton.	676	400
		2. Distribution of Seeds	Quintal	40	62
		3. Demonstration Plots	No.	10	10
