PART-I.

SOCIO-ECONOMIC REVIEW

1934-35.

CHAPTER-I.

Introduction:-

1.1 Physical Features:- Yeotmal district lies between 19°-23' and 20°-42' North Latitude and 77°-18' and 79°-9' East Longitude. It is surrounded by Amravati district in the North, Nanded district and Andhra Pradesh in the South, Akola and Parbhani districts in the West and Chanda and Wardha districts in the East. The district is quite extensive in size, second in Nagpur division and eighth in the Maharashtra State. The area of the district is 13,517 sq. kms. (5,219 sq.miles). Its greatest length from East to West is 192 kms.(120 miles) while the greatest breadth from North to South is about 160 kms.(100 miles). The whole district is occupied by small East West ranges of Ajantha mountains broken by broad river valleys. The central portion of the district is a plateau with steep ghats having an elevation of ³⁰⁵⁴⁵⁷~~305,457~~ metres above mean sea level. The chief rivers of the districts are Wardha and Painganga. The Wardha flows throughout Eastern boundary, while Painganga flows throughout Southern boundaries of the district. The Wardha has two important tributaries viz. Bembla and Nirguda. The Bembla flows across the North of the Yeotmal Taluka below the ghats, while the entire course of Nirguda is in Wani Taluka. The Painganga has six tributaries viz. the Pus, Arunawati, Adan, Waghadi, Khuni, and Vaidarbhi. The Pus river flows through the Pusad taluka while Arunawati and Adan flow

Darwha through ~~Ruzsa~~ Taluka, the Waghadi through Yeotmal and Kelapur talukas, the Khuni through Kelapur taluka and the Vaidarbhi through Wani taluka. All these rivers are flooded in rainy season with little water in the rest of the season particularly in summer, a typical characteristic of the rivers in Vidarbha Region.

1.2. The soil of the district is uniformly good in texture and varies in colour from Black to Dark-brown. The soil, however, is slightly inferior in productive capacity as compared to the soil of Amravati and Akola districts. Three defects are common all over the soil of the district viz. 1. Mixture of pieces of Chunchadi (Limestone) 2. Sloping surface, 3. Excessive admixture of sand. In Wani taluka the soil is uniform but of coarse texture with reddish colour. In Kelapur taluka and southern parts of Yeotmal taluka and hilly parts of Pusad taluka the soil is of coarse, gravelly or of loose friable texture and of colour varying from light brown to grey. In Western part of Yeotmal taluka and central portion of Darwha and Pusad talukas rich fertile soil is found.

1.3. Brief History.

The Yeotmal district which forms a part of Berar was handed over by Nizam to Government of India in 1903. Upto 1833 Yeotmal district was a part of East Berar district. In 1834 the talukas of Yeotmal, Darwha, Kelapur and Wani were separated from that district to form a new district termed as WUN (Wani) district. In 1905 the taluka of Pusad was transferred from Basim district to Wun district and the name of the district

was changed to Yeotmal district. There were no major changes in the district till 1956 when the district was transferred to Bombay State after the States Re-Organisation. The district forms a part of Maharashtra State since 1st May, 1960.

1.4. Administrative Set-Up:-

For administrative purposes the district is at present divided in 5 talukas. The Collector is in-charge of the district. He is assisted by 1 Resident Deputy Collector and 4 Deputy Collectors at Head-quarters. The Collector is responsible for General Administration and Law and Order, Land revenue and Civil Supplies. Under the Collector there are 5 Sub-Divisional Officers of the Deputy Collector's grade, posted at five revenue sub-division i.e. talukas. The revenue sub-divisions comprises of one taluka, in-charge of one Tahsildar who is assisted by few Naib-Tahsildars. The District and Sessions Judge is the head of Judicial Department in the district. The Judiciary is entirely separated from the Executive. The Collector continues to be District Magistrate but those powers are limited to Security proceedings. The District and Sessions Judge is assisted by one Civil Judge (Sr. division) and 5 Civil Judges (Jr. division) and First Class Judicial Magistrate whose Head-quarters are the taluka head-quarters. The police force in the district functions under the District Superintendent of police who is assisted by two Deputy Supdt. In addition to these, there are various District Heads of the Offices under various departments.

1.5. Zilla Parishada and Panchayat Samitis:-

With a view to promote development of democratic institutions and securing greater measure of participation by the people in developmental plans a Zilla-Parishada and 14 panchayat samitis have been established in the district on 1st May, 1962. The area under the jurisdiction of Zilla parishada correspond to the District boundary except for the eight municipal towns which are not covered by them. The area under Panchayat samiti is the respective area of Community Development Block. The Yeotmal Zilla Parishada has 49 directly elected councillors. Out of these 49 seats, two seats are reserved for Scheduled-Castes and 5 for Scheduled Tribes. Besides one Woman councillor has been co-opted by the elected councillors. There are also five associated councillors who are chairmen of 5 Cooperative societies conducting business in the district. The elected Chairmen of 14 panchayat samitis are also ex-officio councillors of the Zilla Parishada. At the block level, the panchayat samiti consists of elected and co-opted councillors from the area of the block. The head of the Zilla parishada is President assisted by Vice-President both of them are elected from amongst elected councillors. One officer in the senior scale of I.A.S. works as Chief Executive Officer of the Zilla parishada. The Zilla-Parishada comprises of various departments and the heads of those departments at district level. The Deputy Chief Executive Officer works as Secretary to Zilla Parishada. The Zilla Parishada functions through a standing committee presided over by the President ~~xxxx~~ and six subject

committees for Finance, Works, Agriculture, Co-Operation, Education and Health. At the block level Panchayat samitis have elected Chairmen and Deputy Chairmen. The Block Development officers work as Secretaries of the Panchayat Samitis. The Panchayat Samitis do not have subject committees.

CHAPTER-II.

1. Climate and Rainfall:-

The climate of the district is hot and dry. The temperature during the summer of 1964 was slightly higher as compared to 1963. The winter during 1964 was cold as compared to 1963. The maximum temperature recorded at Yeotmal and Pusad centres during 1964 were 42.9°C and 43.9°C respectively recorded in the month of May, 1964. The minimum temperature recorded of the above centres was 14.8°C and 10.4°C respectively during December, 1964. The rainfall during 1964 was less as compared to 1963 at all the centres. The rainfall during 1964 was lowest recorded at Pusad centre (744 mm.) while it was highest recorded at Pandharkawada centre (1182 mm.).

2. Area and Population:-

The 1961 population of the district has increased by 17.83 percent over 1951 population. The density of population increased from 69 persons per sq.kilo-metre during 1951 to 82 persons per sq.kms .during 1961. Out of the total 1924 villages in the district 56 % are having population below 500, 28 % between

500 to 1999 while only 16 % are having population above 2000. Out of the eight towns in the district , only the Yeotmal town is having population above 45,000 while rest of them are below 20,000 population.

2.2. Workers:-

Out of every 1000 persons in the district 543 persons are workers. The working population is divided in 9 major classes. 85 % of the working population of the district is engaged in Agricultural occupation. The percentage of Agricultural workers is as high as 90% in rural area while it is only 25 % in urban area. In urban area the workers are mostly engaged in non-agricultural occupation such as manufacturing other than household industry(13%), in trade and commerce(17%) and in other services(31%).

2.3. Non-Workers:-

On an average there were ~~153~~ 457 non-workers per 1000 population in the district. Amongst non-workers 63 % were infant and children not attending school, 19 % were students while 16 % were engaged in household duties.

2.4. Back-ward classes:-

The Scheduled castes accounted for 4 % of the district population during 1961 as against 14 % in 1951. This sudden decrease in Scheduled castes population can be attributed to the large scale conversion of scheduled castes in Buddha religion during the past decade. The scheduled castes population is highest

in Darwha tahsil (27%) while it is lowest in Yeotmal tahsil (11%). The Scheduled Tribes found in Yeotmal, Kelapur and Wani talukas of the district formed 14% of the district population during 1961 census. The scheduled tribes population is highest in Kelapur tahsil (40.%) while it is lowest in Wani tahsil (27.%).

3. Agriculture:-

3.1. Out of the total geographical area of the district 56 % was cultivated area, 23 % was under forests, 16 % was not available for cultivation and 5 % was fallow

land during 1963-64. At the beginning of 1963-64 agricultural season the rainfall was normal. However, during August, 1963 there was heavy rainfall causing excessive flood and damage to the crops. During the subsequent months the rainfall was satisfactory and the overall crop condition improved giving good yields.

3.2. Cropping Pattern:-

During 1963-64, 52 % of the area under crops was under food-crops. Jowar, being major food crop of the district occupied 34 % of the cropped area while pulses occupied 12% of the cropped area. The major non-food crops of the district is cotton and it occupied 42 % of the cropped area. There are very less irrigational facilities in the district and only 0.53 % of the gross-cropped area was under irrigation during 1963-64. The major sources of irrigation in the district is wells, and 96% of the irrigated area during 1963-64 was irrigated by means of wells.

4. Animal Husbandry and Forests:-

4.1. Livestock population :- The total livestock population has increased by 0.32 % during 1961 livestock census over 1956 census. Cattle formed the highest percentage (71 %) of the livestock population of the district. Then came in order goats (18 %); and Buffaloes (9 %).

4.2. Veterinary Aid:-

Facility of veterinary aid is being increased every year and there is an increase of 13 % in animals treated during 1964-65 as compared to 1963-64. As Goat-meat is usually consumed in the district 73 % of the animals slaughtered were goats in the 25 recognised slaughter houses in the district.

4.3. Forests:-

Out of the total forest area of the district 75 % was under reserved forests, 5 % was under protected forests, while 20 % was under un-classed forests. The un-classed forests is under Revenue Deptt. There is appreciable increase in the revenue collected from the forests during 1964-65 as it has increased by 17 % over 1963-64. About 79 % of the revenue collected from forests was from Timber, 3 % from Fuel and 15 % was from other minor forests products such as Grass, and Bamboos.

5. Employment, Industry, Mining and Electricity:-

5.1. Industries:-

About 52 % of the industries in the district

are Cotton ,Ginning and Pressing which employed about 85 % of the total Industrial Workers in the district. Out of the total 71 factories during 1964 about 55 % factories employed less than 50 workers , 18%~~factories~~ factories employed workers between 50 to 99 while 27 % factories employed workers between 100 and 499. However, no factory employed more than 500 workers.

5.2. Employment Exchange:-

The registration of persons during 1964-65 has gone down by 317 as compared to 1963-64. During 1964-65 as high as 78 ^{percent}~~percent~~ were placed in employment out of the total vacancies notified as against only 18 percent during previous year. 9 % of the candidates placed in employment during 1964-65 were from Scheduled Castes and Scheduled Tribes . During 1964-65 ,178 employers made use of the exchange as against 159 employers during previous year. There is an increase of 7 % in the employers using the exchange during 1964-65 ~~as against~~ over 1963-64. Highest percentage of the registration was for Clerical jobs as 35 % of the total registration during 1964-65 was for Clerical jobs. Next came in order the registration for un-skilled labourers(31 %) and for Educational(26 %) .

5.3. Electricity :-

By the end of 1964-65 ,7 % of the villages and all the towns were electrified in the district as against 5 % villages during the previous year. The consumption of the electricity during 1964-65 has increased by more than 1½ times the consumption during 1963-64. The increase in consumption of electrical

energy for Agricultural purpose during 1934-35 is very significant and has gone up by nearly 4 times during 1934-65 as compared to the year 1963-64. About ~~40~~⁴² % of the total consumption was on industrial power, 32 % on irrigation and agricultural purposes, 11 % on domestic purposes, 10 % on commercial and small power while 4 percent was on public lighting.

6. Co-Operation:-

The co-operative movement which started as a credit movement for agriculturists, has now blossomed into a diversified movement and covered other fields of economic activities such as marketing, processing, housing, farming, industrial, etc. The primary agricultural credit societies in the district have covered cent percent villages. Number of cooperative societies of all types has increased by 0.6 % during the year 1964-65, while share capital of the societies has increased by 39 % and working capital has increased by 34 % during the same year.

The co-operative movement still continues to be a predominantly credit movement and primary agricultural credit societies, which numbered 621 in 1964-65 accounted for nearly 57 % of the total number of societies in the district. There has been general increase in membership, share capital, ~~and~~ working capital and loans advanced during 1964-65 as compared to previous year. The membership per society has increased from 131 in 1963-64 to 146 in 1964-65 while loan advanced per member has recorded ~~an~~ decrease from Rs. 351/- in 1963-64 to Rs. 338/- in 1964-65. Though the absolute figure of recoveries have shown an increase during 1964-65 as

compared to previous year, the percentage of over-dues to the loans outstanding, which was about 11 % at the end of 1963-64 has increased to ³³~~23~~ % as at the end of 1964-65.

The other types of societies which deserve mention so far as Yeotmal district/^{is}as concerned, are cooperative farming societies which accounted for 14 % of the societies, cooperative housing societies accounting for 4 % and industrial cooperative which form 14 % of the total number of cooperative societies. Besides, there are 14 primary marketing societies known as Purchase and Sale societies. These agricultural marketing societies have effected purchases and sales of agricultural produce and have also undertaken distribution of agricultural requisites such as improved seeds, fertilizers, implements, etc. About 71 % of the sales effected by these societies were as an agency basis while remaining 29 % as owners, Out of the total sales effected during ¹⁹⁶⁴⁻⁶⁵~~1963-64~~ about 69 % were of agricultural produce, 12 % of agricultural requisites and rest 19 % of consumer goods.

7. Medical and Public Health :-

As per 1961 census 1059 persons were engaged in medical and public health profession in the district. Out of these 40 % were Doctors, Out of the total male doctors in the district 56 % were in rural areas, while only 4 % of the female doctors were in rural areas. At the end of 1964 there were 13 hospitals, 6 Allopathic dispensaries; and 27 Ayurvedic dispensaries in the district. In addition to this there were 12 Primary -

health centres in the district. On an average there is one hospital and 3 dispensaries per lakh of population in the district. Similarly on an average there are 38 beds per lakh of population in the district. The birth rate has gone down from 45.71 per thousand during 1963 to 42.53 per thousand during 1964. The death rate has also gone down from 20.39 per thousand during 1963 to 20.22 per thousand during 1964. The infant mortality rate was 153 per thousand live birth during 1964 as against 138 during 1963. The survey of the drinking water supply sources conducted during 1963-64 revealed that 15 % of the populated villages were without drinking water supply while 36 % of the villages were ~~xxxxx~~ with in-adequate water supply.

8. Education :-

Percentage of literacy was 23.48 percent as per 1961 census. Though the literacy in rural area was 20.30 percent the standard of education of persons in rural area was very poor. In rural area 58 % of the literates were without any educational level, 41 percent literates were having education upto primary level while only 1 percent of the literates were Matric and above. In urban area 35 percent of the literates were without any educational level, 56 percent were of primary level, while 9 percent were Matric and above. Out of the total 1629 populated villages in the district 18 percent villages were without primary schools at the end of 1965. All these 18 percent villages without primary schools were below 400 population. There is an increase of 7 percent in primary schools and

students during 1964-65 as compared to 1963-64. There is an increase of 8 percent in secondary schools during 1964-65. On an average there was 1 secondary student for every 4 primary students in the district. There was 1 secondary school for every 17 primary schools in the district. On an average there were 77 and ³³⁵/~~335~~ students in every primary and secondary schools respectively in the district. There were six colleges and 18 special schools functioning during 1964-65. One Poly-technic has started functioning at Yeotmal during the year. The percentage of female students was 34 percent in primary school, 23 percent in secondary schools and 13 percent in colleges. There is an increase of 47 percent in students taking advantage of free education under E.B.C. concessions during 1964-65. Out of the total students 26 percent students took advantage of the E.B.C. concessions during 1964-65. The expenditure incurred per student under E.B.C. was Rs. 19/-, in primary, Rs. 53/- in secondary and Rs. 168/- in colleges, during 1964-65. There is an increase of 21 percent in the expenditure under the E.B.C. during 1964-65.

9. Transport and Communications:-

The total railway mileage in the district was 17.71 kms. under broad-gauge and 64.40 kms. under narrow gauge. The broad-gauge line connects Wani with Majri railway station on Madras-Delhi Grand-Trunk Line, while the narrow gauge line connects Yeotmal with Murtizapur railway station on Bombay-Nagpur main line. The railway mileage has not changed in the decade.

The road mileage per lakh of population and per hundred sq.kms. was 134 and 11 kms. respectively at the end of 1964-65. Out of the total road length at the end of 1964-65, 4 percent was under National high way, 28 percent was under State high ways, 47 percent was under Major district roads, 10 percent was under other district roads and 11 percent was under village roads. There is an increase of 23 percent in black topped roads during 1964-65. At the end of 1964-65 34 percent of the road length was under black topped, 57 percent under water bound macadam and 9 percent was of lower type. By the end of 1964-65 there were 25 post offices, 1 telegraph and 1 telephone exchange per lakh of population in the district. From the radio-licences issued and renewed it is seen that there were seven radio-sets per thousand population during 1964-65. Out of the total inhabited villages in the district 18 percent villages were having post offices within the village, while 33 percent villages were having post offices within the radius of 3 kms. while 46 percent villages were having post offices above 3 kms distance. By the end of 1964-65, 40 percent village panchayats were provided with radio receiving sets by the rural broadcasting department as against 35 percent village panchayats at the end of 1963-64.

10. Local Bodies :-

10.1 Zilla Parishad:- Out of the Rs.225/- lakhs revenue receipts of Yeotmal Zilla parishada during 1964-65, 93 percent was by way of Government Grants, while only 8 7 percent was from self raised resources. Out of the receipts from self raised resources 49 percent were from local fund cess, 3 percent from taxes, while 48 percent

was from other heads. Zilla parishad has spent on an average Rs. 54/- per person during 1964-65 as against Rs. 45/- during 1963-64. The break-up of revenue expenditure during 1964-65 was 9 percent on General administration, 40 percent on Education, 2 percent on Medical and Public health, 1 percent on Agriculture, 5 percent on Social welfare, 10 percent on Community development, 15 percent on Buildings and communications. During 1963-64 there were 1000 village panchayats in the district. The income and expenditure per village-panchayat was Rs. 3381/- and Rs. 2530/- respectively during 1963-64. Out of the total income of village panchayats, 63 percent was from Govt. and other grants, 21 percent was from taxes and 16 percent was from other sources. There were 8 municipalities in the district. Out of the total income of all municipalities during 1963-64, 49 percent was from rates and taxes while 27 percent was from Govt. grants. Out of the total expenditure of the municipalities 14 percent was on General administration and cost of collection of taxes, 3 percent on public safety, 32 percent on public-health and convenience, 7 percent on public works, 24 percent on public instructions, and 19 percent on other matters. The municipal committees on an average collected Rs. 13 per person by way of taxes during 1964-65.

11. Plan, and Community Development :-

11.1. Third five year plan :- The financial out-lay for the district level schemes being implemented in the third five year plan is Rs. 4.76 crores. The agricultural programmes accounted for 38 percent of the total plan provision while the out-lay on social services

comprising Education, Health, Water supply, Housing, etc. constituted 26 percent of the total plan out-lay. The percentage of out-lay on other head of development viz. Co-operation and community development, small scale industries and transport and communications were 23 percent, 0.5 percent and 12 percent respectively. By the end of 1964-65, 76 percent of the ~~expenditure~~ plan provision was utilised on various schemes. The progress of expenditure on various heads is as below.

1. Agricultural programmes :- The expenditure incurred on agricultural programme was 69 percent. Under this head the expenditure on soil conservation, animal husbandry, forest and fisheries exceeded the plan provision while expenditure on other sub-heads was 37 percent on agricultural production, 35 percent on minor irrigation and 82 percent on Ware-housing and marketing.
2. Cooperation and community development :- The total expenditure on this head exceeded the plan provision. The expenditure on sub-heads was 74 percent on co-operation and 124 percent on community development.
3. Transport and communications :- The expenditure under this head was 78 percent of the plan provision.
4. Social Services :- The over-all expenditure on this head is not satisfactory as only 59 percent of the plan-provision could be utilised by the end of 1964-65. The progress in the various sub-heads which is not satisfactory is General education (57 percent), technical education (45 percent), Medical and nursing (69 percent), Public health (56 percent), and Water supply (18 percent).

5. Small Scale Industries:- The progress under this head was also not satisfactory as only 31 percent of the plan provision could be utilised by the end of 1964-65.

11.2. Community Development :-

By the end of 1964-65 there were six stage I, 5 Stage II, 3 Stage III and one T.D. block covering all the rural population of the district. The average number of villages and population covered per block was 137 and 68,567 respectively. During 1964-65, 8 blocks were in expenditure class 'A', 3 blocks were in expenditure class 'B' while one block was in expenditure class 'C'. Regarding the physical achievement of the blocks it is seen that 8 blocks were in achievement class 'A' and 5 blocks were in achievement class 'B' during 1964-65.

12. Prices :-

The prices of almost all the commodities have shown increase during the year 1964. The percentage increase in prices of some of the major commodities is as shown below.

Sr.No.	Name of the commodity	Prices in January, 1964. Rs. per kilo.	Percentage increased over Jan, 64	
			In June, 1964.	In Dec, '64.
1.	2.	3.	4.	5.
1.	Rice (Medium).	0.69	30	47 (Oct, 64)
2.	Wheat (Medium).	0.69	23	88
3.	Jowar.	0.43	42	N.A.
4.	Tur dal.	0.90	11	55
5.	Gram-dal.	0.72	12	145
6.	Ground nut oil.	2.12	22	32
7.	Dry chillies.	2.42	14	Decreased by 7 %

13. Miscellaneous:-

On an average there was one police-station for 109 populated villages in the district. There is an decrease in the cognisable crimes reported during 1964-65 as compared to 1963-64. There were 14 permanent and 7 touring talkies in the district during 1964. The seating capacity per show per talkies was 811 and 1308 for permanent and touring talkies respectively. Out of the total cases disposed in the civil and criminal courts of the district during 1964, 64 percent were criminal cases while 36 percent were civil cases. As per census of the Govt. employees conducted in 1961 there were 2 percent class-I and class-II Officers, 86 percent class-III employees and 12 percent class-IV employees. Out of the total Govt. servants 59 percent were having salary Rs. 100/- and below, 34 percent were having salary between Rs. 101/- and Rs. 200/-, 4 percent were having salary between Rs. 201/- and Rs. 300/- while only 2 percent were having salary above Rs. 300/-.

By the end of 1964-65, 8 towns and 9 villages were having Banking offices in the district. During 1964-65 there were 12 Scheduled and 18 cooperative banks in the district. On an average there are 3 Banking offices per lakh of population in the district. There is an increase of 25 percent in the Insurance policies issued and 35 percent in the amount insured during 1964-65 as compared to previous year. During 1964-65 the progress under small savings collection was not satisfactory as the withdrawals were more by Rs. 3.48 lakhs than gross collection. The net collection were negative due to the fact that the withdrawals from post-offices savings banks was more by Rs. 6.67 lakhs than the actual collection.

The actual collection of the land revenue during 1964-65 was 83 percent of the total demand(including arrears), as compared to 83 percent collection during 1963-64. The arrears at the end of 1964-65 was 11 percent as compared to ~~12~~ 17 percent at the end of 1963-64. The arrears were ~~maximum~~ highest in Wardha and Pusad tahsils (20 percent) while it is 8 percent in other tahsils, during 1964-65 . The Excise revenue decreased by 23 percent during 1964-65, as compared to previous year. The revenue derived from Sales tax and entertainment tax increased by ~~15~~ 16 percent and 11 percent respectively during 1964-65. On an average the Govt. collected Rs. 221/- as registration fee per lakh of property transferred during 1964. There is an increase of 14 percent in the net-income from registration fee of the documents registered during 1964 as compared to 1963.

General Elections-1962:-

During 1962 General election there were 8 Assembly and one parliamentary constituency in the district. The Wani and Yelabara Assembly constituency were under Wardha Parliamentary Constituency while rest of the six Assembly constituency were under Yeotmal Parliamentary Constituency. The percentage of voting was highest in Pusad Assembly constituency(87 percent) while it was lowest in Yelabara Assembly constituency. The percentage of votes rejected was 1 percent in Yeotmal parliamentary constituency. Percentage of votes rejected was lowest in Pusad Assembly constituency(3 percent) while it was highest in Wani Assembly constituency(9 percent).
