## Chapter-I.

### INTRODUCTION.

#### 1.1 Location:

Akola district lying between 19.51' and 21.16' N latitude and 76°38' and 77°44' longitude, with an area of 4091 Sq.miles is surrounded by Buldhana, Amravati and Yeotmal districts of Vidarbha and Parbhani district of Marathawada.

#### 1.2 Boundaries:

The northern boundary of the district is of Melghat hills, and it is bounded on the east by Daryapur, Amravati and Chandur tahsils of Amravati district and Darwaha and Pusad tahsils of Yeotmal district. Buldhana district lies to the West of this district, while Parbhani district of Marathawada forms the southern boundary.

#### 1.3 Administrative Set-up:

For administrative purpose, the district is divided in 6 tahsils; the details about number of villages, population, area covered by each tahsil are given in the following table:

Tahsilwise Area, population.

Tahsil	Name of headquarter.	Area in Sq.miles	No. of inhabited villages.	No. of towns	1961 population.
Akot.	Akot.	550.0	251	2	1,92,312
Balapur.	Balapur.	530.0	164	2	1,48,930
Akola.	Akola.	739.0	298	1	2,90,534
Murtizapur	Murtizapur	610.0	263	2	1,74,488
Mangrulpir	Mangrulpir	616.0	206	1	1,35,458
Washim.	Washim.	1046.0	325	1	2,47,632
District Akola.		4091.0	1507	9	11,89,354

Source:-1961 Census Handbook.

The Collector is in charge of general administration, law and order, land revenue and civil supplies and is assisted by few Deputy Collectors including Resident Deputy Collector in his office and 6 Deputy Collectors (Sub-Divisional Officers) who are in charge of 6 revenue divisions. Each revenue division corresponds with tahsil and each sub-Divisional Officer is assisted by a Tahsildar and few Naib Tahsildars.

As is customary now, there are many other State Government offices at the district headquarter for facilitating smooth and coordinated working of the government machinery.

Under the Maharashtra Zilla Parishad and Panchayat Samities Act of 1962, a parallel set-up of Zilla Parishad and Panchayat Samities came into existence with their jurisdiction over entire district except the municipal towns. These being the democratic institutions, Zilla Parishad as well as Panchayat Samities have two wings namely deliberative or decision making wing and executive wing. At Zilla Parishad level, the policy making body has 47 directly elected councillors, one co-opted lady member and few associate councillors; and at the Panchayat Samiti level, the policy making body consists of elected, co-opted and associate councillors. The executive wing at the Zilla Parishad level is headed by the Chief Executive Officer, assisted by various departmental heads; and these executive powers at panchayat samiti level are vested in the Block Development Officer. There are 13 Panchayat Samities in this district.

The developmental and administrative subjects transferred to Zilla Parishad and Panchayat Samities cover, by and large, all functions of Government administration including developmental activities, but excluding matters relating to law and order, judicial and Quasi-judicial functions etc. The Zilla Parishad works through various committees. The finance of these local bodies come from two major sources viz. taxes and levies imposed by these bodies and the assistance given by the Government.

#### 1.4. Administrative history.

In the complete overhauling effected in the districts of the Berar in 1905, Akola district, in more or less the present form, came into existence; and there were no major changes in the boundaries of the district and its tahsils since

Chapter 1 (contd).

since 1911 till now. With the re-organisation of States in 1956 Akola district, which till then was part of Madhya Pradesh State, was transferred to Bombay State. The district formed part of Maharashtra State on 1st May 1961. But all these transfers did not affect the territorial boundaries of the district.

1.5 Hills:

Akola district has no mountains of importance; but Satpura plateau exists on its northern border, and a range of steep hills of Ajanta mountains run across the middle of the southern tahsils. On one of the satpura hills stands the large ancient fort of Warnala. To the southern side ranges of hills are very distinct along the junction of Washim with Balapur and Akola tahsils and again in the middle and south-east of Mangrulpir tahsil.

1.6 River System:

The chief river of the district namely Purna river in Betul district of Madhya Pradesh and flows due west through northern parts of Akola district, and is an important tributary of the river Tapta. The chief tributaries of the river Purna are Pendrahi, Lonar, Man, Uma, Katepurna, Morna and Birguna. Katepurna, which is the largest of all tributaries, rises within a few miles of Washim and flows across the eastern part of Akola tahsil and north-west corner of Nurtizapur tahsil. Penganga, which flows south-east across Washim tahsil is another important river of the district. Its major tributaries namely Aran, Arnawati and Pus rise in Washim tahsil and flow through Mangrulpir tahsil, finally joining Penganga.

1.7 Soil:

The soil is basically derived from Volcanic trap rock and are quite fertile. The surface soil of most of the area of the district is rich, black soil. Most of the northern half of the district, central part of Washim tahsil and north-western part of Mangrulpir tahsil have rich, black soil. On the other hand, south of Balapur and Akola tahsils, most of the border of Washim tahsil, south of Mangrulpir tahsil and the east and north-east of Nurtizapur tahsil are shallow, stony and less productive. On the eastern side of the road leading from Akola to Akot there is a saline tract on both sides of river Purna in which formerly salt used to be manufactured.

CHAPTER- II

The preceding chapter has dealt with the geography and administrative set up in Akola District. The Statistical data presented in this Abstract are divided into 13 broad groups. An attempt has been made in the following paragraphs to give a brief summary of these tables and to bring out the salient features of the data presented.

1. Climate :-

The climate of Akola district is extreme, being very hot and dry in summer and very cold in winter. The temperature is recorded by the Regional Meteorological Centre, Nagpur at one place in the district, viz Akola city. May is usually the hottest month. The highest mean maximum temperature recorded in this month in 1964 was  $47^{\circ}\text{C}$ , which was higher by  $2^{\circ}\text{C}$  as compared to corresponding period in 1963. December is the coldest month. The lowest mean minimum temperature recorded in 1964 was  $7.6^{\circ}\text{C}$  which was lower by more than 1 degree as compared to corresponding <sup>month</sup> in 1963. The district receives moderate rainfall, the normal duration of rainy season is of four months from June to September. The normal annual rainfall is 800 m.m. at Akola. The rainfall is more in the southern part as compared to northern part of the district. Washim receives an average 880 m.m. as against 765 m.m. at Balapur.

2. Area and Population :-

The district covers an area of 4091 Sq.miles or 10,596 Sq.Kms. and its population according to 1961 Census is 11,89,354. In terms of area and population Akola district makes 3.46 percent and 3.01 percent of the Maharashtra State respectively. During the last decade i.e. 1951 to 1961 the population increased by 25.06 percent. This growth rate is significantly high as compared to growth rates in past decades. The growth-rate for the period from 1901 to 1951 was 26 percent, thus the district population has become nearly one and half times during last 60 years. The percentage increase during 1951-56 was highest in Akot taluka (30.82) and lowest in Murtizapur taluka (20.98). The average density of population per Sq. mile for the district as a whole is 291 as against 334 for Maharashtra State. The density is highest i.e. 393 in Akola taluka (due mainly to Akola town),

followed by Akot taluka with 350, while it is lowest i.e. 220 in Mangrulpir taluka. There are 9 towns and urban population forms 22.10 percent of the total population. The rest of the population i.e. 77.90 percent is rural population spread over 1507 inhabited villages. Akola district is less urbanised as compared to Maharashtra State as a whole, the urban population of the State being 28.22 percent as against 22.10 percent of the district. Average population per village in 1961 in the district is 614 against the average of 792 in Maharashtra. As regards Sex-ratio, there are 938 females per every 1000 male persons in Akola district, which is comparable with 936 females per every 1000 males for the State as a whole. Urban sex-ratios are observed to be lower than rural. Akola taluka which includes Akola city as the lowest sex-ratio (909), while Washim taluka which is more rural has the highest sex-ratio (961).

Out of the total population of the district, 49.2 percent of the population is classified in 1961 as economically active or workers, while the remaining 50.8 percent is classified as non-workers. Workers engaged in Agriculture form 81.33 percent of the population of workers, indicating that Agriculture is the major occupation of the people in Akola district.

The population of scheduled castes formed 4.70 percent of the total population of the district in 1961. The population of scheduled castes has decreased substantially from 21.04 in 1951 to 4.70 in 1961. It is a result of a large number of persons returning their religion in 1961 census as Buddhist or Nav-Buddha.

### 3. Agriculture :-

The figures in the various agricultural tables (3.1 to 3.5) are shown in hectares. One hectare is approximately equal to 2.47 acres.

Out of the total geographical area of the district, 74.05 percent of the area was under cultivation (net area sown) in 1963-64, while the area under forests was 8.42 percent. Extent of <sup>area</sup> area cropped more than once was negligible in this district, being less than one percent in 1963-64, though it has slightly increased as compared to preceding year i.e. 1962-63.

Out of the total gross cropped area of 7,88,131 hectares in 1963-64, about 51 percent was under food crops, while 49 percent was under non-food crops. Among food crops, Jowar, Wheat and Pulses, particularly Tur and Gram are important. In 1963-64 the area under Jowar accounted for about 30 percent of the gross cropped area while the area under Wheat and Tur was 7.3 percent and 4.07 percent respectively. Cotton is the most important non-food crop of the district and accounted for 41.7 percent of the gross cropped area in 1963-64. Area under total Oilseeds during that year was 6.7 percent, Groundnut covering the major area.

Production of cereals, particularly Jowar and Wheat has decreased considerably during the year 1963-64 as compared to previous year. While production of total pulses has increased during the year, though it was observed that production of Gram declined. Production of Tur has compensated for the fall of production in Gram. Production of Cotton has also shown improvement while the production of groundnut has decreased. (Refer Table No. 3.3).

The area under irrigation in Akola district is negligible being only 0.5 percent of the total cultivated area. This is due to absence of large rivers and lakes in the district. Irrigation is done mainly by wells as they accounted for nearly 95 percent of the net area irrigated in the district during 1963-64. Wheat, Sugarcane, Condiments and spices mainly chillies, Miscellaneous food crops and to some extent cotton are the only crops which are irrigated.

#### 4.- Animal Husbandry, Forest & Fisheries:-

The total livestock population in Akola district according to 1961 livestock census was 8,65,198, of which 66 percent were cattle, 10 percent buffaloes, 6 percent sheep, 17 percent goats and remaining percent other livestock such as horses, donkey, pigs etc. Out of the total cattle population, makes over three years accounted for 39 percent, while 32 percent were females over three years and rest was young stock. Of the total female cattle over three years 99 percent were breeding cows. Among buffaloes, 58 percent were females over 3 years and of them 96 percent were breeding buffaloes.

The number of working bullocks was 2,18,334 , while the gross cropped area in 1961-62 was 7.61 lakh hectares. Thus, on an average there was an area of 7 hectares per pair of working bullocks.

Out of the total geographical area of the district the area under forest was only about 8.43 per cent during 1963-64. Thus forests do not play any important role in the economy of this district. The forests are located mainly in Akola, Balapur, Mangrulpir and Washim tahsils. The forest in the district fall in 'Dry Deciduous type' and teak is the chief specie found. Of the total forest area of the district 97 percent was classified as reserved forests and the rest as protected forests in 1964-65. It was observed that total value of major and minor forest products has declined in 1964-65 as compared to previous year. Fishing activity in the district is naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The main rivers-viz, Purna and Penganga and their tributaries afford a length of about 540 Kms. for fishing. Besides, about 3000 acres of water spread area is available for fishing from 11 perennial and about 150 seasonal tanks. Two reservoirs, one at Ekburji and the other at Katepurna project would afford a large field for development of fisheries. The varieties of fish found in the district being not of fast growing type, imported varieties are therefore released by the Department of Fisheries. About 2 lakh of imported carp fry has been released during 1964-65. There were only 2 Fishermen's Co-operative Societies functioning in 1964-65.

#### 5.- Employment, Industry, Mining and Electricity:-

The total number of registered factories in Akola district increased from 87 in 1963 to 88 in 1964. There are mainly agriculture-based industries in this district. The table No.5.1 shows employment in registered factories submitting returns and factories not submitting returns seperately. Taken together, there were 7752 factory workers in Akola district in 1964 which means, for every 1,00,000 population, there were 651 factory workers in this district.

Cotton ginning and baling formed the major group of organised industries in this district and accounted for 50 of the working factories and about 38 per cent of the factory workers of the district.

Besides there are few large scale factories such as 2 Spinning and Weaving Mills and 1 hydrogenated oil factories. These 3 factories accounted for 50 percent of the factory workers in the district. The other important types of factories are Edible Oil Mills (19), Saw Mills (4), Dal Mills(4). Out of the total working factories during 1964 about 67% factories employed less than 50 workers, 112 percent factories employed workers between 50 to 99, about 18 percent factories employed workers between 100 to 499 while 2 factories employed workers between 1000 to 4999.

This district is not famous for mineral wealth and only minor minerals such as Road Metal, Building Stone, Murrum, Brick earth etc are found.

Registration of persons has gone down in the District Employment Exchange during 1964-65 as compared to 1963-64. During the year 1964-65 nearly 10 percent registrents were placed in employment out of the total vacancies notified.

The power generating station in the district is located near Paras. In 1964-65 this power station has generated 1696 lakh KWS. as against installed capacity of 30 M.W. The propoastion of electricity used for industrial purposes was 59 percent of the total electrical consumption during 1964-65.

Considerable progress has been made towards rural electrification during the year 1964-65 as 204 villages have been electrified as on 31-3-65 as against 147 as on 31-3-64. This means that nearly 13 percent of the inhabited villages covering 27 percent of the rural population of the district have been electrified by the end of 1964-65.

#### 6.- Co-Operation :-

The Co-operative movement has taken great strides during the last three Plan periods. By the end of 1964-65 all the villages in the district have been covered by Agricultural Credit Societies. The Co-operative movement which in the beginning mainly an agricultural credit movement has entered other fields of economic activity such as dairying, fisheries, farming, marketing, processing, industrial etc. However, the movement still continues to be a predominantly agricultural credit movement as agricultural credit societies account for -

78.7 percent of the total number of Societies(1113) in the district.

The number of all types of Co-operative Societies has increased by 1 percent during the year/under report, while their membership 1 share capital and working capital have increased by 19 percent, 30 percent, and 17 percent respectively. There has been increased in the amount of the loans advanced by all types of societies taken together, though there has been decreased in the loans advanced by agricultural credit societies during the year.

Important types of Co-operative Societies besides agricultural credit societies, in Akola district are cooperative farming societies, Consumers Co-operative Societies, Co-operative Housing Societies, Agricultural Marketing Societies, Agricultural processing Societies (Co-operative gining and presing Societies) and Industrial Co-operative Societies. There were 13 Co-operative Agricultural Marketing Societies(Purchase and Sale Societies) in the district at the end of 1964-65. These primary marketing societies have effected purchases and sales of agricultural produce and have also undertaken distribution of agricultural requisitives such as improved seeds, fertilisers, implements etc.

#### 7.- Medical and Public Health:-

As per 1961 population census, 672 persons were engaged as physicians, surgeons and dentists, while 905 persons were engaged as nurses, pharmacists and other medical, health technicians. Out of the total male doctors in the district about 50 percent were located in rural area, while only 13 percent of the female doctors were in rural areas.

At the end of 1964 there were 4 hospitals, 70 dispensaries, 49 aid centres and 12 primary health centres in the district. On an average there were 39 beds per lakh of population in the district.

The survey of drinking water supply sources conducted during 1963-64 reveals that 12 percent of the inhabited villages were without drinking water supply source in them, while 27 percent of the villages were with inadequate would supply.

### 8.- E d u c a t i o n :-

The district has made substantial progress during the last decade in education particularly in respect of literacy among women. The average literacy rates for the district are higher than the state average, both for males and females. The percentage of literacy has increased from 22.60 in 1951 to 31.20 in 1961. Female literacy rate has shown remarkable improvement from 9.00 percent in 1951 to 16.69 in 1961. Though the literacy in rural areas was 27.29 percent, nearly 54 percent of these literates were without educational level, 44 percent were having education upto primary level, while only 2 percent of the literates were Matric and above. In urban area 30 percent of the literates were without any educational level, 60 percent were of primary level, while 30 percent were Matric and above. Out of the total inhabited villages in the district 75 percent villages were with primary school at the end of 1964-65. About 92 percent villages without schools were with population below 500. At the end of 1964-65 there were 13 pre-primary, 1370 primary, 93 secondary and 15 special schools in the district. Besides there were 9 higher institutions. The proportion of female students was 36% in primary schools, 42 percent in secondary schools and 9 percent in Colleges. Proportion of trained teachers in primary schools was 78 percent, while it was 60 percent in secondary schools. On an average there was 1 secondary school for every 14 primary schools in the district.

### 9.- T r a n s p o r t a n d C o m m u n i c a t i o n s :-

Total length of railway routes, was 353 Kms. at the end of 1964-65. Of this railway length 60 percent was meter gauge, 23 percent broad gauge double line while the remaining was narrow gauge. The district headquarter Town viz. Akola is railway junction of the main broad-gauge Bombay-Howrah route and the Khandawa-Hingoli meter gauge line.

The total road length in district was 1102 Kms. at the end of 1964-65. The road length per lakh of population and per hundred Sq. Kms. was 93 Kms. and 10 Kms. respectively. Out of the total road length at the end of 1964-65, about 13 percent was under National Highway, 38 percent was under State Highways, 25 percent under Major district roads, 12 percent under other district roads and 12 percent was under village roads. according to surface-

surfacewise classification of the total road length in the district, 39 percent was under black topped and 61 percent under water bound macadam. By the end of 1964-65 there were 310 post offices, and 22 telegraph offices in the district. The post office population ratio was 3800 people per post office. A total of 1300 telephone connections were in use at the end of 1964-65. The total of Radio licences issued and renewed during 1964-65 was 10382, as against 8318 in 1963-64. The number of villages with post offices within the village was 259 i.e. about 17 percent of the total inhabited villages.

#### 10.- Local Bodies :-

There were 881 Village Panchayats at the end of 1964-65. The Village Panchayats, which included group gram panchayats also, covered all the villages in the district. Since the inception of Zilla Parishads and Panchayat Samitis in the state since May 1962, the powers as well as the sources of income of the Village Panchayats have increased. In the basis of the analysis of income and expenditure of Village Panchayats during the year 1964-65, it is observed that 57 percent of the total income of Village Panchayats is derived from Government and other grants while 13 percent of the income is derived from taxes and fees; and remaining 30 percent from contributions, donations and other sources. High proportion i.e. 52 percent of expenditure was incurred on Public works, while administrative accounts for about 40 percent of total expenditure.

Out of the total income of Akola Zilla Parishad in 1964-65, income in the form of self-raised resources is 8 percent (such as local fund cess, taxes, fees etc) while 77 percent of the income is by way of Govt. grants, including grants for agency schemes and 15 percent income by way of loans, advances, deposits etc. In respect of expenditure of the Zilla Parishad, out of the total expenditure for the year 1964-65, revenue expenditure accounts for 85 percent while remaining expenditure consists of loans, advances, remittances etc. High proportion of the revenue expenditure in 1964-65 is spent over Education, followed by Buildings and Communication and Community Development Programme. There are 9 Municipalities in Akola district. About 72 percent of the total income of all Municipalities in 1964-65 is raised through rates and taxes, 23 percent through grants & contributions,

4 percent per Municipal properties and remaining for other sources. In case of expenditure for the same year, 50 percent of expenditure is incurred on Public health and conservancy, 17 percent on public instructions, while remaining an administrative, public safety, public works etc.

#### 11.- Plan and Community Development:-

The Third Five Year Plan was split up into three types of schemes namely state level, divisional level and district level schemes. From the district level schemes some schemes have been transferred completely or partially to Zilla Parishads for implementation such schemes are called local sector schemes and those implemented by Government departments as State sector schemes. The total revised plan provision for all district level schemes in Akola district was Rs. 4.38 Crores, out of which 55 percent was for the schemes in the State Sector and 45 percent for the local sector scheme. The per capita plan out lay, under district level schemes only, in Akola district is Rs. 37 on the basis of 1961 census population.

The total expenditure incurred on District level schemes during the four years upto 1964-65 was of the order of Rs. 2.64 crores i.e. 60 percent of the revised plan provision. The yearwise expenditure incurred under each scheme and some important items of physical achievements are shown in Table Nos. 11.1 and 11.2

The entire rural population of the district has been covered by Community Development Programme. As on 31st March 1965, about 16 percent of the rural population is covered by 2 stage I blocks, and other 75 percent by 10 stage II blocks and the remaining population under 1 Stage II block. Physical achievements of certain selected items are given in Table No.11.5.

#### 12.- Price Trends :-

The Bureau of Economics and Statistics, Govt. of Maharashtra, collects prices of important commodities every week at each district Head Quarters and every fortnight at the selected rural centres. Commodities are selected for each group like Cereals, Pulses, Sugar and Gur, Edible Oils, Meat, Fish, Condiments and spices, vegetables and fruits, fuel, clothing and other miscellaneous items of consumption. Varieties of each particular commodity are fixed and prices of those varieties only are collected in order to get a comparable picture of the price situation.

13.-

During the year 1964-65, the prices of almost all the important essential commodities under various groups such as Cereals, Pulses, Edible Oils etc showed rising tendency since the beginning of the year. Some of the cereals like Rice and Jowar become very scarce during latter half of the year.

There are 7 Agricultural Produce Market Committees and Cotton Market Committees in Akola district. They were governed, during the year under review, by the C.P. & Berar Cotton Market Act and Agricultural Produce Market Act. Cotton is the most important commodity handled by the regulated Markets. Next in importance are Jowar, Wheat and Groundnut.

13.- Miscellaneous :-

In the last group of statements (13.1 to 13.13) data on miscellaneous items are presented. The items include strength of police force and crime statistics, work disposed off in civil and criminal courts, Cinema statistics, strength of Government employees, statistics relating to Banks, Joint stock companies, insurance policies, small savings, taxes such as land revenue, excise, sales tax, entertainment tax, statistics regarding documents registered, value of property transferred. Data about general elections held in 1962 has also been presented.

PART- II  
C O N T E N T S

.. = STATISTICAL ABSTRACT FOR THE YEAR 1964-65:

Sr. No.	Table No.	Subject.	Page No.
		<u>1. Climate :</u>	
1.	1.1	No. of Rainy days and Total Rainfall at selected Centres.	1
2.	1.2	Mean, Mean Maximum, Mean minimum Temperature at selected Centres.	4
		<u>2. Area and Population :</u>	
3.	2.1	Talukewise Rural and Urban Population according to 1961 Census and variations with 1951 Census.	5
4.	2.2	Talukewise classification of Villages according to Population ranges in 1961 Census.	7
5.	2.3	Talukewise classification of Towns to population ranges in 1961	9
6.	2.4	Number of workers in each Taluka, according to 1961 Census.	11
7.	2.5	Number of Non-Workers in each Taluka according to 1961 Census.	12
8.	2.6	Scheduled Caste and Scheduled Tribes.	13
9.	2.7	Population in Urban Areas according to 1961 Census.	14
		<u>3. Agriculture :</u>	
10.	3.1	Land Utilisation	15
11.	3.2	Area under different Crops in each Taluka.	17
12.	3.3	Yield per Hectare and Out-turn of Principal Crops.	21
13.	3.4	Area Irrigated by different sources in each Taluka	22
14.	3.5	Area Irrigated under different Crops in each Taluka.	23
15.	3.6(a)	No. of Irrigation wells in each Taluka.	25
		(b) Minor Irrigation works	26
		(c) Major & Medium Project.	27
16.	3.7	Percentage distribution of Households engaged in Cultivation Classified by Interest in Land and Size of Land cultivated (Based on 20 percent sample Households).	28

Sl. No.	Table No.	Subject.	Page No.
17.	3.8	Agricultural Wage rates	30
18.	3.9	Agricultural Implements in each Taluka in 1961.	32
19.	3.10	Famine, Scarcity and a kin to Scarcity data.	33
20.	3.11	Progress under Soil Conservation and Land Reclamation.	34
	4.	<u>Animal Husbandary, Forest and Fisheries :</u>	
21.	4.1	Summary of Live Stock Census.	35
22.	4.2	Live Stock in each Taluka.	36
23.	4.3	Veterinary Statistics in each Taluka.	38
24.	4.4	Disease wise Live Stock Mortality	39
25.	4.5	No. of Recognised Slaughter Houses and Animal Slaughtered in each Slaughter House.	40
26.	4.6	Rangewise Forest Area.	41
27.	4.7	Major and Minor Forest Products	42
28.	4.8	Miscellaneous Statistics Relating to Fisheries.	43
29.	4.9	Quantities of Fish brought for curing , salt issued and Fish removed.	45
	5.	<u>Employment, Industry, Mining and Electricity:</u>	
30.	5.1	Employment in Factories.	46
31.	5.2	Distribution of working Factories according to Product and their working strength.	50
32.	5.3	Distribution of Factories according to Nos. of days worked.	53
33.	5.4	Important Industrial and Mineral Production.	56
34.	5.5	Statistics relating to Hand looms and power looms for the year 1963-64 and 1964-65.	57
35.	5.6	Employment Exchange Statistics	58
36.	5.7	Occupational distribution of total Registration of Employment, Vacancies notified and Placements etc.	59
37.	5.8	Changes in the Volume of Employment in different Industries.	60

Sr. No.	Table No.	Subject.	Page No.
38.	5.9	Statistics relating to Annual Survey of Industries.	61
39.	5.10	Generation and Consumption of Electricity.	62
40.	5.11	No. of Towns and Villages Electrified and Population covered.	63
41.	5.12	Installed capacity and Electricity generated.	64
	6.	<u>Co-Operation :</u>	
42.	6.1	Statistics relating to District Central Co-operative Bank, District Industrial Co-operative Bank, District Development Bank.	65
43.	6.2.	Co-operative Societies of each type.	66
44.	6.3	Agricultural Co-operative Societies in each taluka.	68
45.	6.4	Agricultural Marketing Society (Marketing and Distribution) in each taluka.	69
46.	6.5	Number of Registered Money Lenders and Loans advanced by them.	71
	7.	<u>Medical and Public Health:</u>	
47.	7.1	Number of persons engaged in Medical and Public Health professions according to 1961 Census.	72
48.	7.2	Medical Facilities available through Public and Public aided bodies in each taluka.	73
49.	7.3	No. of Patient(In-door, Out-door). treated.	75
50.	7.4	No. of Births and Deaths registered.	77
51.	7.5	No. of Deaths due to important causes.	78
52.	7.6	Vaccination Statistics and Cholera Inoculation.	79
53.	7.7	Statistics of B.C.G. Vaccination.	80
54.	7.8	Hygenic Drinking Water Supply Sources in the Rural Ageas.	81
	8.	<u>E d u c a t i o n :-</u>	
55.	8.1	Literacy in each Taluka according to 1961 Census.	82

Sr. No.	Table No.	S u b j e c t.	Page No.
56	8.2	Education in Rural Areas in each Taluka, According to 1961 Census.	83
