All India Income-tax Statistics 1966-67

P R E F A C E

Introduction

The All-India Income-tax statistics brought out in this compilation are based on the assessment completed by the Income-tax Department during the financial year 1966-67.

2. This is the first compilation to bring out statistics processed on computer to which this Directorate has lately switched over.

Modifications in presentation of data

3. This compilation follows the traditional pattern of presentation of data in the form of All India Statements but a few modifications have been made as indicated below:-

i) An additional statement entitled All India Statement No.5-F has been introduced to give a break-up of data relating to individuals according to un married and married categories.

ii) All-India Statement No.2 has been recast to give a summary of the net budget collections of income-tax as distinguished from gross collections which used to be exhibited in the past.

iii) All-India Statement No.5 and its further sub-classifications have been modified to show the data for "Un-registered Firms" and "Association of Persons" under two separate heads. In the earlier compilations the data was exhibited under a single head in respect of these two categories of assessees. Another modification introduced in these statement is the merger of the data regarding "Local Authorities" with the data regarding "Association of Persons."

Scope and coverage

4. This compilation covers assessments completed during the financial year 1966-67 but such assessments relate to the assessment year 1966-67 as well as for earlier years. The old practice of referring to assessments as assessees has been maintained.

5. The Statistics exhibited in the various All-India Statements appearing in this compilation relate to 17,83,376 assessments - 16,55,811 assessments resulting in tax demand and 1,27,565 assessments resulting in tax refunds. Actually the Department completed 24,18,066 assessments during 1966-67 and the assessments which are not reflected in the statistics analysed in this compilation are those wh

which did not result either in demand or refund i.e. (i) assessments of new industrial undertaking exempt under the Income-tax Act, (ii) assessments in which the entire income is absorbed by depreciation or development rebate or loss, (iii) assessments of Registered Firms with income less than Rs.25,000 and consequently not liable to tax and (iv) other 'no assessment' cases, where the assessable income is computed at a figure less than the taxable minimum.

6. Statistics relating to 1965-66 are still being processed on the computer and are not available for purposes of comparison in this preface. Comparative figures of 1964-65 have, therefore, been given to indicate the trends.

For the sake of uniformity and facility of reference, the State-wise statements bear the same number as the aforementioned All-India Statements. There is also an additional statement under the head "miscellaneous information". A brief description of these Statements and of the salient features of the State-wise analysis of the statistics presented therein is given in the explanatory notes which appear at pages i to vii.

3. The statistics analysed in this compilation have been extracted from assessments completed during the financial year 1966-67. These assessments pertain to the assessment year 1966-67 as well as earlier assessment years. It has also to be borne in mind that assessments which did not result in either demand or refund, are not reflected in the statistical data analysed in this compilation.

3. The total gross demand from all the States (including Union Territories) is Rs. 550 crores, Maharashtra and West Bengal accounting for Rs. 201 crores and Rs. 155 crores respectively. The other leading States whose contribution to the gross demand is Rs. 20 crores and more, are Madras (Rs. 24 crores), Delhi (Rs. 31 crores) and Gujarat (Rs. 30 crores).
