Volume I—Part I

WAGES, DEARNESS ALLOWANCES
AND BONUS

ALLAHABAD :

SUPERINTENDENT, PRINTING AND STATIONERY, UNITED PROVINCES, INDIA

1948

CONTENTS

CHAPTER I

INTRODUCTORY

PARA	PAGE
1. Appointment of Committee and Terms of Reference	1
3. Modification of the Preamble and Terms of Reference ..	7
4. Second Modification	7
5. Appointment of Adviser to Labour	8
6. Appointment of Statistician	8
7. Changes in the Personnel of the Committee.. .. .	8
9. Associate Members	9
10. Preliminary meeting of the Committee, and the Interim Questionnaire	9
11. Nature of response received	10
12. Appointment of Fact-finding Sub-Committees	10
13. Standardization Sub-Committees	11
14. Meetings	12
15. Public sittings at Kanpur	12
16. Visits	13
17. Public sittings at Gorakhpur	13
18. Visits	13
19. Public sittings at Lucknow	14
20. Special references	15
21. Specialists examined	15
22. Further visits	16
24. Interim increase of 12½ per cent. in wages granted to workers ..	16

CHAPTER II

THE WAGE PROBLEM : THE BACKGROUND

26. The scope and importance of the problem	18
28. Interim Questionnaire and the unsatisfactory response from employers	20
29. Response from Trade Unions	21
30. Scantiness of data from other sources	22
31. Sub-committees and the nature of data collected by them ..	23
32. Selection of occupations to overcome difficulty of non-standardized nomenclature	25
33. Innumerable wage rates and unscientific differentials	26
34. Large variations in net earnings in the same occupation ..	27
35. Low and inadequate wages	29
36. Low basic wages in both rural and urban areas : a comparison ..	32

PARA	Page
37. Increase in earnings between 1939 and 1947	35
38. Rise in earnings less than the rise in cost of living	37
39. Wage Nibbling	40
40. Relative wage levels in different industries	42
41. Relative wage levels in different regions of the province approximating to each other	43
42. Wage level in United Provinces approximating to that in other important centres in some industries	47
44. Wage problem in brief	49

CHAPTER III

MINIMUM WAGES

45. Wage position in United Provinces similar to that in other countries in the nineteenth century	51
46. The tendency towards wage legislation	51
47. The new character of the movement for wage regulation	52
48. Conflict of Theories	53
49. Changes in the meaning of living wage standard	55
51. Levels of Living Standards	56
52. Poverty Level	56
53. Minimum Subsistence Level	57
54. Subsistence plus Level	57
55. Comfort Level	58
56. Allowances for variations in size and prices	58
57. Subsistence plus is the basis of our minimum living wage	59
59. Common remedy for common diseases	60
60. Pre-war position in India	60
61. Change in outlook	61
62. Informed opinion's unanimous support	62
63. Support of workers and employers	63
64. Need for widening the scope of minimum wages	64
65. Lack of machinery no argument	65
66. Inflation argument does not carry force	65
67. Minimum wages not inconsistent with low national income	68
68. Low rural wages irrelevant to the issue	69
69. Experience does not show that increase in wages leads to idleness or dissipation of earnings	69
70. Other considerations in favour of fixation of minimum wages	70
71. Main parts of a scheme of minimum wages	72
72. Objectives of the scheme	72
73. Categories of workers to be covered	73
74. One minimum or more	74

PARA.	PAGE
75. Nutrition level to be secured for the lowest category	75
76. A family instead of a worker, as a unit	75
77. 'Natural' or Joint Family	76
78. Average size of natural family	77
79. Average size of joint family	77
80. Pre-war period as base	80
81. Objectives defined	81
82. Methods followed in computing costs	82
83. Food requirements according to Norms	82
84. Cost of food	84
85. Housing Norms	88
86. Housing conditions in United Provinces	88
87. Estimates of accommodation and rent	89
88. Other expenses, the source of pre-war basic estimates	90
89. Alternative methods of estimation	91
90. Scrutiny of existing items of expenditure	91
91. Estimates of Living Standard	93
92. Capacity of Industry to pay—consideration postponed to Chapter VIII	96
93. Criterion of the level of wages inappropriate	97
94. Levels of minimum wages in the country	98
95. Our views about the levels	100
96. Levels recommended by independent witnesses	101
97. Minimum living wage of Rs.30 recommended	102
98. Minimum wages for other categories of workers	105
99. Minimum living wage for clerks	105
100. Second grade for clerks	107
101. Same minimum for all units	108
102. Same minimum living wage for the whole of the United Provinces	109
103. Same minimum for all industries	110
104. Same minimum for women workers	111
105. Same for adolescents and Rs.25 for children	112
106. Same minimum for disabled workers	112
108. Scope of terms pertaining to categories to be decided by an authority	114
109. Recommendations regarding Cottage Industries	115
110. Machinery for enforcement examined in Chapter IX	115

CHAPTER IV

STANDARDIZATION

111. Introductory	116
112. Standardization of wages removes competition between man and man, and mill and mill	117
113. History	117

PARA	PAGE
114. Meaning of 'Standard Rate'	119
115. Time-rate and Piece-rate	119
116. Difficulties of Standardization as pointed out by employers	121
119. Advantages of Standardization Scheme	122
120. How the scheme was evolved	123
Standardization Scheme in Cotton Textile	125
Duty list for various occupations in Cotton Textile	147
121. Need for a 'Joint Committee'	173
124. Standardization Scheme in Sugar	174
125. Retainer	177
127. Joint Committee	178
128. Standardization in Electric concerns	178
130. Standardization in other industries	180

CHAPTER V

COST OF LIVING INDICES AT KANPUR

131. Importance of Cost of Living Index	181
132. Basic Principles of an Index—the 'weighted' average	181
133. The 'Index'	183
134. Method of construction : essential factors taken into account	184
135. Computations	185
136. The Kanpur Series	185
137. Their background	185
138. Circumstances necessitating their continuance	187
139. Criticism of Kanpur Index—(i) Inaccurate since it is higher than Bombay	188
140. (ii) Does not take note of changing standards	188
141. (iii) Family Budget Inquiry limited to winter months	189
142. (iv) Data utilised for weights unrepresentative	190
143. Effect on Index expected to be insignificant	191
144. Labour demand unwarranted	191
145. (v) Weights not adjusted to prices in August, 1939	192
146. (vi) Expenditure not covered by Index does not introduce error by itself	193
147. (vii) Expenditure covered by Index leaves out good many items under 'miscellaneous'	194
148. Error introduced by these omissions	195
149. (viii) Allocation of weights faulty	197
150. (ix) Base period selected too short	198
151. (x) Re-adjustment of weights on cereals necessitated by rationing	199
152. Use of open market prices at Kanpur not objectionable	201
153. Adjustment of weights suggested by Employers' Association open to objection	202
154. Base period weights and hypothetical prices for cereals undesirable	203

PARA	PAGE
155. Collection of prices or substitution of commodities not faulty ..	203
156. Rent Index not improperly prepared	204
157. Prices of other commodities not faulty	205
158. Kanpur Index Vs. Bombay Index	206
159. Summary	207

CHAPTER VI

DEARNESS ALLOWANCE

160. The principles of dearness allowance and its essentials	209
162. Present position—number of factories covered	210
163. Systems in force	212
164. Increases in dearness allowance granted	214
(i) In different wagecategories	218
(ii) In different centres and industries	218
166. Their general inadequacy	219
167. Need for Unification	220
168. The new arrangement	221
169. Industrial units divided into 3 categories for purposes of dearness allowance	221
170. Neutralization Standard	223
171. Peculiar conditions in the Province	224
172. Three rates recommended	225
173. Safeguard against alleged 'go slow' movement	227
174. Consolidation of dearness allowance with basic wages	228
175. Same rates for ministerial cadre and contract labour	229

CHAPTER VII

BONUS

176. Adjustments due to new relationship between Capital and Labour	230
177. Bonus, seen dynamically	230
178. Definition of profit-sharing	231
179. Its career	232
180. Criticisms of profit-bonus	233
181. Co-Partnership Schemes	234
182. Proceeds-Sharing Schemes	234
183. Criticisms	235
190. New Zealand experience	238
191. Essence of the labour case for bonus etc.	239
192. The prevalent system of paying bonus equal to a fixed period's earnings common	240
193. Other systems adopted in India:	241
(a) Equal dividend to share-holders and workers	241
(b) Two days' basic wages for every 1 per cent. dividend	241

PARA	PAGE
194. Present position in the United Provinces	242
195. Bonus is not <i>ex-gratia</i> payment	243
196. Linking of profit bonus to dividends preferable to other schemes ..	243
197. Economic Programme Committee's proposals	244
198. Two days' basic wages for every 1 per cent. dividend recommended	245
199. Conditions of payment	247
200. Accumulated profits and reserves	247
201. Attendance Bonus not recommended	248
202. Production Bonus may be given	250
203. Production Committees to supervise its working and collect data for study	251
204. Limit of profits.	251

CHAPTER VIII CAPACITY OF INDUSTRIES TO PAY

205. 'Capacity to pay' versus 'Economy of high wages'	253
206. Implications of economy of high wages	253
207. 'Capacity to pay' has many connotations	254
208. It can serve as indicator of direction, if judged with reference to a representative firm	255
209. Natural limits of the 'Economy of high wages'	255
210. Conditions taken into account in formulating proposals	257
211. Lack of data regarding financial position	257
212. The nature of figures used for assessing additional burden	258
213. Nature of data available regarding financial capacity	259
214. Responsibility for lack of data on employers	260
215. Procedure followed in assessing additional burden	260
216. Principles followed in estimating financial capacity (a) Reserves excluded from Capital	261
217. (b) So also loans	263
218. (c) Depreciation at high rates regarded as concealed profits	263
219. (d) Other reserves	264
220. Cotton Textiles: Increase involved in our proposals	264
221. Financial position: Comparison with 1938	266
222. Quantitative gains	267
223. The position in 1946 justifies the increase	268
224. Advantages and disadvantages as between Kanpur and Bombay, etc. ..	269
225. Cotton purchase in season	270
226. Low efficiency of labour at Kanpur	270
227. After effects of partition	270
228. Considerations favourable to industry	271
229. Comparative costs of production	272

PARA	PAGE
231. Hosiery Industry : Estimated increase in wage bill	273
232. Financial position in comparison to pre-war period	274
233. Net result for eight-year period.	274
234. Position in 1946 particularly strong	275
235. Jute Industry : Estimate of additional burden on wage bill ..	276
236. Financial position : Capital liabilities	277
237. Working of the Industry in 1938-46	277
238. Position in 1946	279
239. Disadvantageous position of the Jute Industry	279
240. Picture given is not convincing	280
241. Sugar Industry : Estimate of additional expenditure	281
242. Financial position	282
243. Improvement brought about by the rise in prices	283
244. Leather Industry : A peculiar difficulty	284
245. Position of Messrs. Cooper Allen and Co., Kanpur	284
246. Position of Messrs. Kanpur Tannery, Ltd. : Estimate of additional burden	285
247. Financial position	286
248. Other Leather Firms : Estimate of additional burden ..	287
249. Financial position. The Indian National Tannery, Kanpur ..	288
250. The U. P. Tannery Ltd.	288
251. Other favourable factors	289
252. Oil Industry : Estimate of additional increase	289
253. Financial position	290
254. General Engineering and Electrical Engineering : J. K. Iron and Steel Co.	291
255. Electricity Supply Companies	293
256. Estimate of additional burden	293
257. Financial position	294
258. Glass Industry	295
259. Conclusions	297

CHAPTER IX

MACHINERY FOR REGULATION AND ENFORCEMENT OF WAGES

260. Three aspects of the problem of enforcement and regulation ..	298
261. Enforcement on a statutory basis preferred	298
262. Examination of the suitability of existing Acts for enforcing our proposals suggested	299
263. Specifications of wages in the statute not recommended ..	300
264. If possible, recommendations may be enforced before legislation is undertaken	300
265. Permanent machinery needed for regulating wages	301

PARA.		PAGE.
266.	Distinctive nature of wage disputes	302
267.	Separate machinery recommended	304
269.	Forms of machinery	305
270.	Distinctive features of Trade Boards and General Boards ..	306
271.	South African machinery. a compromise between the two ..	307
272.	Peculiarity of Indian conditions	307
273.	Work would be more arduous in India than in other countries ..	308
274.	Shri Gadgil prefers Trade Boards	308
275.	We agree generally but not fully	311
275.	A Provincial Wage Board with features of both a Trade and a General Board recommended	312
277.	Selection of members and their qualifications	313
278.	Chairman, Secretary and term of the Board	314
279.	References to Board	314
280.	Statutory status for Board	314
281.	Factories Inspectorate to enforce wage awards	315
282.	Neighbouring States and other provinces should be pressed to pay equal wages	315

CHAPTER X

CONCLUSIONS AND RECOMMENDATIONS

284	Summary of Chapter I—Introductory	317
285	Ditto II—Wage Problem	318
287	Ditto III—Minimum Wages	319
324	Ditto IV—Standardization	326
334	Ditto V—Cost of Living Index	327
347	Ditto VI—Dearness Allowance	330
358	Ditto VII—Bonus	330
375	Ditto VIII—Capacity of Industry to Pay ..	336
383	Ditto IX—Machinery	337
402.	Efficiency of Labour	340
403.	Acknowledgments	340

TABLE NO.	TABLES	PAGE
I ..	Number of factories surveyed by the sub-committees in each industry in important centres of the United Provinces	25
II ..	Distribution of occupations in each industry according to percentage variations in their minimum and maximum net earnings in March 1939 and March 1947. ..	28
III (a) ..	Distribution of (a) occupations according to net earnings in March 1947 in low income levels in United Provinces	30
III (b) ..	Distribution of (b) factories according to net earnings in March 1947 in low income levels in United Provinces ..	30
IV ..	Rural wages and urban basic wages and net earnings in a few occupations	34
V ..	Average percentage increase in wages (in 1947 over 1939) at certain levels in different industries in the United Provinces	36
VI ..	Statement showing number of factories which show less increase in wages than the cost of living index at Kanpur in March 1947 (241) at certain wage levels ..	38
VII ..	Distribution of factories where rise in earnings between 1939 and 1947 works out to less than that admissible under dearness allowance sanctioned for those factories	41
VIII (a) ..	Average daily net earnings of certain occupations in certain industries at important industrial centres of United Provinces in the years 1939 and 1947.	44
VIII (b) ..	Indices of average daily net earnings of certain occupations in certain industries at important industrial centres of United Provinces in the years 1939 and 1947 ..	46
IX ..	Average annual earnings in the Textile Industry, 1939-45 ..	49
X ..	Distribution of persons in working class families at Kanpur according to income levels	79
XI ..	Balanced vegetable diet for a worker with properties possessed by the diet	84
XII ..	Cost of the balanced diet at important industrial centres in United Provinces at pre-war prices	85
XIII ..	Estimated expenses of the 'Living Standard' for four types of families, calculated by three alternative methods	95
XIV] ..	Group Indices at Kanpur for the month of July 1947 after adjustments of weights to price base-August, 1939 ..	193
XV ..	Statement showing effect of inclusion of more items of expenditure on subsidiary group indices at Kanpur (for July, 1947)	197

TABLE NO.	TABLES	PAGE
XVI	.. Statement showing a comparison of Bombay group indices and the Kanpur indices for July 1947 with their respective and interchanged weights	206
XVII	.. Distribution of factories paying dearness allowance in the United Provinces in different years	211
XVIII	.. Statement showing systems of granting dearness allowance during 1947 by various industries	213
XIX (a)	.. Statement showing extent of dearness allowance granted by various industries shown as percentage over basic wage. (Wage level Rs. 10)	215
XIX (b)	.. Statement showing extent of dearness allowance granted by various industries shown as percentage over basic wage. (Wage level Rs. 20)	216
XIX (c)	.. Statement showing extent of dearness allowance granted by various industries shown as percentage over basic wage. (Wage level Rs. 50)	217
XX	.. Distribution of factories according to percentage increases granted in different wage categories in the form of dearness allowance in 1947	219
XXI	.. Number of occupations in various industries which will have full neutralisation at recommended scales of dearness allowance	226
XXII	.. Distribution of factories according to profit-bonus paid	242
XXIII	.. Number of workers and income per capita in income group below Rs. 80 according to the Family Budget Inquiry Report, 1944	265
XXIV	.. Financial position of Cotton Industry in 1938-1946	267
XXV	.. Rise in cost of different constituents of cost of production	272
XXVI	.. Financial position of the Hosiery Industry from 1938 to 1946	275
XXVII	.. Financial position of Jute Industry from 1938 to 1946	278
XXVIII	.. Financial position of Oil Mills at Kanpur	290
XXIX	.. Financial position of Electricity Supply Companies	294
XXX	.. Financial position of Ganga Glass Works, Balawali and U. P. Glass Works, Bahjoi	296

APPENDICES

A	.. Interim Questionnaire of the Labour Enquiry Committee, United Provinces	345
B	.. List of Employers and Labour Organisations who submitted memoranda and/or replies to the interim questionnaire	352
C	.. Personnel of Sub-Committees	358
D	.. List of witnesses examined by the United Provinces Labour Enquiry Committee	362
E	.. List of Mills, Factories, Institutions, etc. visited by the Committee	376

APPENDIX F.—Statements :

PAGE

1 (a)	.. Net average daily earnings of workers of Cotton Industry in United Provinces in 1947	378
1 (b)	.. Net average daily earnings of workers of Cotton Industry in United Provinces in 1944	384
1 (c)	.. Net average daily earnings of workers of Cotton Industry in United Provinces in 1939	390
2 (a)	.. Net average daily earnings of workers in Cotton Waste Factories in United Provinces in 1947	396
2 (b)	.. Net average daily earnings of workers in Cotton Waste Factories in United Provinces in 1946	397
2 (c)	.. Net average daily earnings of workers in Cotton Waste Factories in United Provinces in 1939	398
3	.. Statement showing daily earnings of workers in Cotton Ginning and Pressing Industry in United Provinces in 1947	399
4 (a)	.. Net average daily earnings of workers in Jute Industry (important occupations only) in United Provinces in 1947	400
4 (b)	.. Net average daily earnings of workers in Jute Industry (important occupations only) in United Provinces in 1944	401
4 (c)	.. Net average daily earnings of workers in Jute Industry (important occupations only) in United Provinces in 1939	402
5 (a)	.. Net average daily earnings of workers in Woollen Industry in United Provinces in 1947	403
5 (b)	.. Net average daily earnings of workers in Woollen Industry in United Provinces in 1944	404
5 (c)	.. Net average daily earnings of workers in Woollen Industry in United Provinces in 1939	405
6 (a)	.. Net average daily earnings of workers in important occupations of Hosiery Industry in United Provinces in 1939	406
6 (b)	.. Net average daily earnings of workers in important occupations of Hosiery Industry in United Provinces in 1944	408
6 (c)	.. Net average daily earnings of workers in important occupations of Hosiery Industry in United Provinces in 1947	410
7 (a)	.. Net average daily earnings of workers in Leather Industry (important occupations only) in United Provinces in 1944	412
7 (b)	.. Net average daily earnings of workers in Leather Industry (important occupations only) in United Provinces in 1947	414
8 (a)	.. Net average daily earnings of workers in Oil Industry (important occupations only) in United Provinces in March 1947	416
8 (b)	.. Net average daily earnings of workers in Oil Industry (important occupations only) in United Provinces in 1944	424
8 (c)	.. Net average daily earnings of workers in Oil Industry (important occupations only) in United Provinces in 1939	432

APPENDIX F—Statements:

	PAGE
9 (a) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Engineering Undertakings) in United Provinces for March, 1939—Important occupations only	440
9 (b) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Water Works) in United Provinces for March, 1939—Important occupations only.	441
9 (c) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Electric Supply Companies) in United Provinces for March, 1939—Important occupations only.	442
9 (d) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Engineering Undertakings) in United Provinces for March, 1944—Important occupations only.	446
9 (e) .. Net average monthly earnings of workers in Electric and Engineering Industry (Water Works) in United Provinces for March, 1944—Important occupations only	447
9 (f) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Electric Supply Companies) in United Provinces for March, 1944—Important occupations only	448
9 (g) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Engineering Undertakings) in United Provinces for March, 1947—Important occupations only.	452
9 (h) .. Statement showing net average monthly earnings of workers in Electric and Engineering Industry (Water Works) in United Provinces for March, 1947—Important occupations only.	453
9 (i) .. Net average monthly earnings of workers in Electric and Engineering Industry (Electric Supply Companies) in United Provinces in March, 1947—Important occupations only.	454
10 (a) .. Net average daily earnings of workers in Glass Industry in United Provinces in 1939—Important occupations only.	458
10 (b) .. Net average daily earnings of workers in Glass Industry in United Provinces in 1944—Important occupations only.	467
10 (c) .. Net average daily earnings of workers in Glass Industry in United Provinces in 1947—Important occupations only.	476
11 (a) .. Net average daily earnings of workers in Shellac Industry in United Provinces in 1947	485
11 (b) .. Net average daily earnings of workers in Shellac Industry in United Provinces in 1944	486
11 (c) .. Net average daily earnings of workers in Shellac Industry in United Provinces in 1939	487

APPENDIX F—Statements:

	PAGE
12 (a) .. Statement showing average daily net earnings of workers in the Kanpur Lace Works in 1947	488
12 (b) .. Statement showing average daily net earnings of workers in the Kanpur Lace Works in 1944	490
13 (a) .. Statement showing net average monthly earnings in Sugar Industry in United Provinces in 1939	492
13 (b) .. Statement showing average monthly earnings of workers in Sugar Factories in United Provinces in 1947	494
14 (a) .. Frequency statement showing distribution of factories in each industry according to percentage increases in their earnings (in 1947 over 1939) of occupations with a normal net earning of Rs. 10 per mensem in 1939	500
14 (b) .. Frequency statement showing distribution of factories in each industry in 1947 according to percentage increases in their earnings (in 1947 over 1939) of occupations with a normal net earning of Rs. 20 per mensem in 1939	502
14 (c) .. Frequency statement showing distribution of factories in each industry in 1947 according to percentage increases in their earnings (in 1947 over 1939) of occupations with a normal net earning of Rs. 30 per mensem in 1939	504
14 (d) .. Frequency statement showing distribution of factories in each industry in 1947 according to percentage increases in their earnings (in 1947 over 1939) of occupations with a normal net earning of Rs. 40 per mensem in 1939	506
14 (e) .. Frequency statement showing distribution of factories in each industry in 1947 according to percentage increases in their earnings (in 1947 over 1939) of occupations with a normal net earning of Rs. 50 per mensem in 1939	508
15 .. Statement showing net earnings of coolies in several industries in important centres in United Provinces in 1939 and 1947	510
16 (a) .. Average net earnings in some industries in important centres of India in 1944	512
