G. F. KEATINGE, Esq., C.I.E., I. C. S.,
Director of Agriculture,
Bombay Presidency;

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department,
Bombay.

Poona, 26th November 1915.

Sir,

I have the honour to submit the Annual Returns of the Rail-borne Traffic of the Bombay Presidency (excluding Sind) for the year ending 31st March 1915.

2. The registration of the rail-borne trade was as usual carried out by the railway administrations concerned, the compilation by the Government Examiner of Accounts, B. B. & C. I. Railway and the review and the publication by this Department.

3. During the year under report there have been seven additions to open mileage of railway in the Presidency aggregating 139 miles. A new line was opened from Dhond on the G. I. P. Railway to Baramati ($27\frac{1}{2}$ miles); another from Broach on the B. B. & C. I. Railway to Jambusar ($2\frac{3}{4}$ miles); a third from Bilimora on the same Railway to Bansa Road ($2\frac{1}{2}$ miles); and a fourth from Petlad on the Petlad-Cambay Railway to Vaso ($15\frac{1}{2}$ miles). Besides, the Gaikwar's Mehsana Railway was extended from Patan to Wagrod ($14\frac{3}{4}$ miles); the Champner-Shivrajpur Light Railway from Shivrajpur to Ghanto (6 miles); and the Wadhwan-Dhrangadhra Railway in Kathiawar from Dhrangadhra to Halwad ($19\frac{3}{4}$ miles).

4. *Season.*—The rabi rains of 1913-14 were deficient throughout the Presidency and particularly so in Sholapur, Bijapur, and the eastern parts of Poona and Satara, which reduced the outturn of late crops much below the average. The rains of 1914-15 were somewhat excessive at an early stage but later on the season improved and the yield of the kharif crops was on the whole satisfactory.

5. *Prices.*—The table in the margin exhibits the variations in prices of the principal articles of trade as obtained in the Bombay market.

Articles.	Percentage rise (+) or fall (-) as compared with previous year's prices.

They were considerably affected by the outbreak of the war which largely dislocated trade. They show a drop below the prices of the previous year in the case of cotton, raw, cotton twist and yarn, rice, oilseeds (except rapeseed) and copper. Other articles were dearer, particularly sugar, wheat, gram and pulse and iron and steel. The prices of raw-cotton fell generally in sympathy with those prevailing in New York. Large accumulations of stock in the market kept down the prices of the local as well as imported yarn. Low demand for export resulted in a decline in the price of oilseeds. Accumulation of supplies in the United States lowered the price of copper

in the early part of the year. The price of sugar rose considerably owing to smaller receipts of the article from Mauritius and Java. The prices of wheat and gram and pulse ruled higher owing to greater demand for these articles for export abroad in the latter half of the year. In spite of large stocks on hand the prices of European as well as Indian piece goods more than maintained their high level.

Total Trade.

6. The subjoined table compares the total trade of the year (exclusive of live animals and treasure) with that of the previous year and the average of the preceding five years.

Description of Trade.	Quantity in lakhs of maunds.			Valuation in lakhs of rupees.		
	Average of 5 years ending 1912-13.	1913-14.	1914-15.	Average of 5 years ending 1912-13.	1913-14.	1914-15.

Grand Total ...	1,584	1,930	1,741	11,784	14,220	11,469

It will be noticed that in quantity the trade under each of the above headings declined as compared with the figures of the previous year, though they are higher than the average for the last five years. In value the fall is more marked, and the value of the trade during the year under report shows a decline when compared with the average of the past five years.

The figures for imports into and exports from Bombay Port mark the dislocation in foreign trade due to the war. The falling off in the quantity of oilseeds brought to Bombay was very marked and wheat showed a considerable decline. Indian coal and sugar, on the other hand, came to Bombay Port in larger quantities to make up for the deficiencies of the foreign articles. The import of skins and hides into Bombay Port was also in excess of the normal.

Of the main articles which Bombay sends to other parts of India the annual increase in the quantity of kerosine oil continued unchecked; the figures for Indian manufactured cotton were the best for ten years past; and the figures for metals and European manufactured cotton which have shown such a steady increase in late years received only a moderate set back.

Imports.

7. The total transactions of the year, of which about 52 per cent. represented the dealings with Bombay Port, showed a net decline of 15 per cent. in volume and 32 per cent. in value below the previous year. Compared with the average they showed a rise of 4 per cent. in volume but a fall of 21 per cent. in value. The principal transactions of the year are noted below and compared with those of the previous year and the average.

Coal and Coke.—Owing to the outbreak of hostilities the imports of foreign coal greatly receded and the trade in the Indian article advanced by 87·5 L. M. or 43 per cent. over the previous year. Considerably larger supplies were received from Bengal and Bihar and Orissa into every block of the Presidency and from the Nizam's Territory into Southern Marátha Country; but those from the latter into Bombay Port and East and West Deccan fell off.

Cotton.—Prices had fallen early in the year and the outbreak of the war caused a further drop. The receipts were smaller by 25 L. M. in volume and by 962 lakhs of rupees in value. More than 91 per cent. of the trade was with the Bombay Port.

Metals.—The bulk of the trade consisted as usual of metallic ores, chiefly manganese ore, which fell from 157 to 93 L. M. owing to smaller demand for export. The receipts from Mysore into Goa showed some increase but those from Central Provinces and Rájputána into Bombay Port and from Madras into Goa largely declined. Among metals proper, West Deccan received larger supplies of brass manufactures from Bengal. The imports of machinery and mill work declined, but those under other articles of iron more than covered the deficiency.

Oilseeds.—The trade in oilseeds, the bulk of which are received at the Port from other provinces for consignment abroad fell from 185·7 to 81·5 L. M. or by 56 per cent. owing to the disorganization of the trade with Europe owing to the outbreak of the war. The figures in the margin show in maunds the net variation under each oilseed as compared with the previous year. The receipts of cotton seed from Nizam's Territory into Bombay Port, of groundnut from Madras into Bombay Port, Deccan and Southern Marátha Country and of miscellaneous seeds from Central Provinces into Bombay Port and from Nizam's Territory into Deccan and Southern Marátha Country showed some small expansion. In other respects there was a general decline under all heads.

Among other articles the transactions of the Bombay Port in hides of cattle nearly doubled owing to the receipt of larger supplies from the United Provinces, Central Provinces and Madras.

EXPORTS.

8. The total exports to outside provinces, which were almost equally divided between the Bombay Port and the rest of the Presidency, fell by about 8 per cent. in quantity and 11 per cent. in value below the previous year though they were still higher by 11 and 12 per cent. respectively than the average. The chief variations are noted below:—

Cotton Manufactures.—The trade in foreign yarn was almost stationary but that in the Indian article advanced by 1 L. M. Bombay Port sent out larger supplies to Calcutta, Madras, Rájputána and Central Provinces, Gujarát to Calcutta, Punjab and Madras, and East Deccan to Nizám's Territory and Calcutta, but the consignments from East Deccan and Southern Marátha Country to Madras fell off. The trade of the Port in foreign piece goods receded by 2·3 L. M. but larger consignments of articles of Indian manufacture were sent out mainly from Bombay Port and Gujarát.

Metals.—The transactions in metals receded by 10·5 L. M. Except Madras, Mysore and Calcutta which received increased consignments, the supplies of both wrought and unwrought metal except machinery and mill work generally fell off particularly those to the United Provinces, Punjáb, Central Provinces and Rájputána. Machinery and mill work were sent to a larger extent to Rájputána, United Provinces and Calcutta.

Oils and Oilseeds.—The trade in kerosine oil showed a small but steady advance in every direction except Mysore and Nizám's Territory which had smaller dealings with Goa. Rájputána, Central Provinces, Mysore and Calcutta made greater demands on the Presidency for miscellaneous oils. The exports of oilseeds advanced by 4·6 L. M. or 48 per cent. over the previous year. Gujarát and North Deccan sent out larger supplies of cotton-seed to Rájputána and Punjáb, and East Deccan to Madras and Mysore but those from Southern Marátha Country to Madras fell off. The dealings in sesamum, rapeseed and groundnut were largely extended.

Salt.—Rájputána received somewhat smaller supplies from Gujarát, Nizám's Territory from Bombay Port and Konkan, and Mysore from Goa. Elsewhere the exports showed a steady increase.

Sugar.—As a result of high prices and demand for the article elsewhere the imports of foreign sugar were very low, and the exports of both refined and unrefined sugar from Bombay Port to the interior fell heavily and showed the lowest total recorded since 1897-98. Deccan and Southern Marátha Country sent out larger supplies of gul to Nizám's Territory, but those to Central Provinces and Rájputána were greatly restricted.

Of the other articles the trade in alizarine and aniline dyes, which were hitherto received mainly from Germany, was restricted to about half of the previous year. Hides of cattle were supplied in smaller quantity to the United Provinces and Rájputána, but the exports of sheep skins to Madras increased. Opium was sent to the United Provinces to the extent of 2,000 maunds and to the Central Provinces to about 200 maunds against nil of the previous year.

LOCAL TRADE.

9. This branch of the trade consists mainly of transactions between the Bombay Port and the rest of the Presidency which formed about 77 per cent. of the total traffic. The remaining 23 per cent. represented the interchange of commodities between the different blocks of the rest of the Presidency. The total trade of the year showed a decline in quantity of 19 L. M. or 2·9 per cent. below the previous year but an excess of 92 L. M. or 16·7 per cent. over the average. The principal fluctuations are noted below:—

Wheat.—Bombay Port received smaller supplies of wheat from Gujarát but the deficit was more than covered by extended transactions with Deccan and Southern Marátha Country. The supplies from North Deccan to Gujarát were larger. Gujarát and East Deccan received larger consignments of wheat flour from Bombay, but the trade of the other blocks fell off.

Metals showed a fall of 10 L. M., but of this nearly fourth-fifths was due to smaller consignments of metallic ores from Gujarát to Bombay Port and from Southern Marátha Country to Goa. Bombay Port sent out larger supplies of unmanufactured brass and manufactured and unmanufactured copper to Gujarát, but the distribution of both from Bombay Port and West Deccan to other places was restricted. Among articles of iron Southern Marátha Country received larger supplies of machinery and mill work, but those to other blocks fell off. There was smaller demand for wrought iron in West Deccan, Southern Marátha Country and Bombay Port, and for other manufactures in Konkan, East Deccan, Bombay Port and Southern Marátha Country, but their dealings elsewhere were extended.

Oils.—Goa had smaller trade in kerosine but the exports from Bombay Port rose by nearly 2 L. M., all the blocks contributing to the increase.

Oilseeds.—The trade in oilseeds receded by 41·7 L. M., or 48 per cent. below the previous year. Of the total deficit 87 per cent. was due to smaller

receipts into the Bombay Port, principally from Gujarát, North Deccan and Southern Marátha Country, mainly for export abroad. The decrease was most noticeable in cotton seed (21·5 L. M.), groundnuts, castors and miscellaneous seeds.

Salt—was supplied in larger quantity to Gujarát and Deccan and showed an increase of 1·4 L. M.

Sugar.—There was a larger transport of gul from West Deccan to Bombay Port, Gujarát and East Deccan, and from Southern Marátha Country to East Deccan and Goa, which raised the total transactions by 1·3 L. M. Transactions in sugar, refined and unrefined, fell by 7·7 L. M.

10. Appendix A shows as usual the value rates of the different articles.

I have the honour to be,
Sir,
Your most obedient servant,
G. F. KEATINGE,
Director of Agriculture.

comprising the Presidencies, Provinces and Native States named in the margin, according to administrative boundaries. These main blocks are called "External" blocks with reference to each other. The trade with the principal sea-ports referred to in the margin is dealt with separately from that of the Presidency or Province in which the port is situated.

The Bombay Presidency (exclusive of Sind) is divided into eight "Internal" blocks, viz. :—

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Bombay Port (Island of Bombay). 2. Gujarát and Káthiáwár (all Gujarát Districts and Káthiáwár). 3. Konkan (Thána and Kolába). 4. North Deccan (Khándesh and Násik). | <ol style="list-style-type: none"> 5. East Deccan (Ahmednagar, Sholápur and Bijápur). 6. West Deccan (Poona and Sátára). 7. Southern Marátha Country (Belgaum, Dhárwár, Kolhápur and Southern Marátha Country States). 8. Goa. |
|---|--|

The last seven of the "Internal" blocks form one group which is known as "Bombay" or "Bombay Presidency excluding Bombay Port" as distinguished from "Bombay Port" which is treated as a separate block.

The trade of the Bombay Presidency is of three kinds :—

- (1) Imports from "External" blocks,
- (2) Exports to "External" blocks,
- (3) Local trade, *i. e.*, traffic between "Internal" blocks,

- (1) G. I. P. Railway.

From these returns quarterly statements are prepared showing—

(i) the trade of each "Internal" block in the Presidency with other Presidencies, Provinces, etc ;

(ii) the trade of the "Internal" blocks of the Presidency with each other ;

from these two a third statement is compiled showing the trade of the Bombay Presidency with the "Bombay Port" and the "External" blocks. This is not published but submitted to the Government of India in manuscript.

The figures contained in statement (i) and (ii) are registered and at the end of the year the postings for the four quarters are totalled and the following three statements prepared for the official year :—

(a) Statement No. II (a) showing imports into "Internal" blocks of the Bombay Presidency from "External" blocks.

(b) Statement No. II (b) showing exports from "Internal" blocks of the Presidency to "External" blocks.

Notes.—(1) Rates of articles classed A relate to articles of foreign merchandise and are furnished by the Collector of Customs, Bombay. These are based on values assigned by the importers at the time of passing the goods out of the Customs House and may be regarded as only approximately accurate.

(2) Rates of articles classed B are obtained from the monthly returns of prices published in the Gazette by the Director of Agriculture. They represent the average of monthly prices ruling on the 20th of each month which are furnished by the Huzar Deputy Collectors according to orders in Government Resolution No. 3653, dated 8th October 1892, General Department. The quarterly averages of the Presidency are founded on the monthly prices at the head-quarters of the principal representative districts. These rates may be regarded as fairly reliable.

(3) Rates of articles classed C are obtained every month by special local inquiry in Bombay, and from the monthly rates thus obtained the quarterly averages are found. These rates may be regarded as merely approximate.

(4) The rates of articles classed D are the rates fixed once for all and they are merely conventional.
