READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the municipalities in the Bombay Presidency during the year 1910-1911.

RESOLUTION.—During the year under review a new municipality was established at Panchgani in the Sátára District, while the municipality at Bhadgaon was abolished. After these changes city and town municipalities numbered 23 and 134 respectively. Pálej in the Broach District, Goregaon, Kandivli, Bháynder, Vikhroli, Bhándup and Mulund in the Thána District, and Kánápur in the Belgaum District were constituted notified areas during the year, the number of such areas being thus brought up to twenty. The period of supersession of the Ahmedabad municipality has been extended for a further period of two years. The Kaira municipality, which continued under suspension, will be reconstituted from the current year.

For some time the attention of the Governor in Council has been directed to the mismanagement of affairs of the Rájápur municipality. The efforts of the district officers to improve the municipal administration failed owing to the apathy of the municipal councillors and to factious obstruction. The Collector recently examined the working of the municipality and his report showed clearly that that body was incapable of efficiently exercising its functions and powers. The municipality has shown extreme and persistent laxity in the realization of its dues, has been culpably neglectful of its obligations in the matter of providing for the sanitary needs of the town, and has imperilled the safety of its water-supply. The municipal accounts have been allowed to fall into a state of disorder and correspondences and petitions have remained long undisposed of. In these circumstances Government directed that the municipality be superseded for a period of three years.

The Ratnágiri municipality, which was warned in 1910 for mismanagement of its affairs, subsequently appointed a Government servant as its chief officer. It is reported that, thanks largely to his efforts and those of Mr. Damle, the new president (since deceased), there has been a marked improvement in the conduct of the affairs of this municipality. A large proportion of the municipal arrears has been recovered, and the municipal records, accounts and correspondence have been put in proper order. The Governor in Council notes these results with satisfaction and trusts that the amelioration thus effected will be permanently maintained. The question of restoring to the municipality the privilege of electing its president will be considered at the time of the next triennial elections.

2. The net increase in the aggregate population of the municipalities of the whole Presidency according to the recent census amounts to a little over 4,000. This result, however, is almost wholly attributable to a marked rise in the figures of population for Sind, for the aggregate recorded population within the municipal districts of the Presidency proper actually declined by about 70,000. This latter decrease in so far as it is attributable to the enhanced mortality caused by outbreaks of plague and cholera or to emigration consequent on the decline of trade, is of a more or less permanent character, but to a great extent it is only apparent and temporary, being explained by the fact that the census was taken at a season of the year when in many cases the town population was camping out or had temporarily left municipal limits in order to escape from plague.

The municipal limits of Rahimatpur were extended during the year under report. Otherwise municipal boundaries remained unchanged during the year.

3. The accompanying Statement A gives information as to the number of municipalities on whom the privilege of selecting their own president has been conferred, the number that have actually exercised this privilege, and the nature of the action taken by Government in cases of failure to exercise the same. It will be seen that of the 87 presidents elected by the prescribed minimum majority of two-thirds 34 were officials.

The Thána municipality was able at last to exercise this privilege granted to it in 1909, and elected its former nominated president. The privilege which had been temporarily withdrawn in the case of the Bhiwandi municipality on account of grave irregularities at a former election was restored to it during the year. The Dhárwár municipality has appointed a chief officer and has resolved to avail itself of the extended elective franchise at the next election. The privilege of electing a president was granted to the Wái municipality in the Sátára district with effect from the 1st October 1910. The same privilege was extended to the Karáchi and Hyderabad municipalities but in neither case could the requisite minimum of two-thirds of the councillors agree as to the election of any one individual. In both cases, however, the choice of the majority coincided with that of the Commissioner in Sind and Mr. H. C. Mules, M.V.O. and Ráo Bahádúr Bulchand Dayaram were accordingly appointed presidents of the municipalities of Karáchi and Hyderabad respectively.

4. The year witnessed an important change in the constitution of the Broach municipality. The municipal area which was originally distributed into 4 wards, was redistributed into 13 wards on account of the extended franchise bestowed on the municipality. The new arrangement is however reported to have proved unsatisfactory. The privilege of electing half the total number of their councillors was conferred on the municipalities of Dhandhuka, Kapadvanj and Bándra, but the first named body still retains its old constitution. The elective element on the Belgaum municipality, which has a council of 24, having been increased from 12 to 16, the municipal district was divided into 16 wards in 1909-10, but the reconstitution of the board did not come into effect until the year under report. A proposal to reconstitute the Ulvi temporary municipality in the Kánara district by reducing the number of the councillors from 16 to 9 has been approved. In the Central Division the extended franchise granted to the Pandharpur municipality in 1909 and subsequently withdrawn in consequence of the refusal of that body to appoint a Government servant as chief officer has now been restored on the board accepting this condition. The Kharda municipality which received the right to elect 6 out of 12 councillors was reconstituted on the new basis during the year. In Sind the election rules of the Karachi and Hyderabad municipalities were modified and the boards were reconstituted.

During the year triennial elections were held in all but 11 of the municipalities of the Ahmednagar, East Khándesh, West Khándesh, Poona, Sátára and Sholápur districts. They were generally keenly contested and aroused considerable local interest. In Dhulia, Bárámati and Sirur the legality of individual elections, formed the subject of civil litigation. The triennial term of office of the Poona city municipality, and of the eight permanent municipalities in the Dhárwár and four municipalities in the Ratnágiri district expired on the 31st March 1911, but owing to census work and other reasons the term was extended by the Commissioner first to the 30th September 1911 and subsequently, in the case of Poona, Hubli, Dhárwár and Nargund, to the 31st March 1912. The triennial term of the Sukkur city municipality expired on the 31st March 1910, but was extended for another year to admit of the completion of the preliminary formalities necessary for the revision of its constitution. The revised constitution came into force with effect from the 1st April 1911. The extended term of the Shikárpur city municipality expired on the 31st March 1910, but as the municipality declined to agree to the appointment of a chief officer, it was reconstituted on the old lines with effect from the 1st April 1910.

The attendance of members at meetings was generally good except in the case of Dhandhuka and Ránpur in the Northern Division. At Kumta the number of meetings of the managing committee adjourned for want of a quorum was seven.

Sources of municipal revenue and changes therein. 5. There were no notable alterations in the system of taxation.

6. A satisfactory increase was recorded in the aggregate gross income of the municipalities which amounted to 97 lakhs compared with 92 lakhs in the preceding year. Deducting the receipts under "Extraordinary and Debt" the net revenue amounted to 74½ lakhs compared with 80½ lakhs in the preceding year. The following table indicates the fluctuations under the principal heads of receipt:—

	1910-1911.	1909-1910.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes:—				
(a) Octroi (net receipts, <i>i. e.</i> , less refunds).	23,28	24,35	...	1,07
(b) Taxes on houses and lands ...	8,12	7,53	59	...
(c) Water rate ...	7,85	7,29	56	...
2. Revenue derived from municipal property and powers apart from taxation ...	12,36	18,45	...	6,09
3. Grants and contributions for general and special purposes ...	10,69	10,87	...	18
4. Extraordinary and debt ...	22,37	11,28	11,09	...

7. There was a decrease of Rs. 1,07,000 under this head as compared with the figures of the preceding year. This is accounted for by a general fall amounting to Rs. 1,69,600 in this class of revenue in Sind due to the marked depression in trade in Karáchi, the general severity of plague and prevalence of cholera, and in the case of Hyderabad, the payment of heavy refunds during the year on goods exported in the course of the previous year. This decrease in Sind was to a certain extent counterbalanced by an increase in the Presidency proper shared in by all three divisions and attributable generally to the improvement of trade and in a few cases to more efficient administration.

8. For the net increase of Rs. 16,000 under this head in the Northern Division, Ahmedabad, Ránder, Kalyán and Bándra are chiefly responsible. The increase in their case is ascribed to the recovery of the arrears of previous years. In the Southern and Central Divisions and in Karáchi there were increases of Rs. 10,000, Rs. 16,500 and Rs. 16,400 respectively. The improvement in the Central Division is ascribed to the above-mentioned cause, while in the case of Karáchi the increase was due to the late recovery of the tax on Port Trust buildings and to the taxation of new buildings.

Under the head "Water Rate" there was an increase of Rs. 39,300 in the Northern Division occurring chiefly in Ahmedabad. It is attributed to the more frequent inspection of meters, especially in the mills, and to the assessment of the rate on the basis of average consumption during periods in which meters were out of order. In the Central Division the increase of Rs. 23,100 was shared by all districts except Násik in which no water rate is levied. The increase was largest in the Sholápur district and was due to the revision of the rates of the Sholápur municipality and to the increased income from private connections in Pandharpur. In the Southern Division there was a decrease of Rs. 3,500, which was mainly due to collection being neglected in Hubli owing, it is said, to the establishment being engaged on the revision of taxes and on census work.

In the Northern Division the figures of demand for the year 1910-11 and of the previous years' outstandings under the head "Taxes on houses and land" were Rs. 3,44,500 and Rs. 46,500 respectively and the unrealized balances at

the close of the year under both heads were Rs. 23,200 and Rs. 16,000 respectively. The following statement shows the unrealized balances in the principal municipalities of the division :—

Name of the municipality.	Previous years' outstanding.	Demand for the year 1910-11.	Written off and remitted.	Balance outstanding on 31st March 1911	
				On account of previous years.	On account of current year.
	Rs.	Rs.	Rs.	Rs.	Rs.
Ahmedabad	9,805	61,668	...	2,336	4,782
Broach	1,932	13,703	...	78	1,570
Surat	5,539	53,479	1,603	3,142	558
Bándra	4,652	25,928	43	1,455	2,696

In the Southern Division information regarding the collection of house-tax has been furnished by the Collectors of Belgaum and Dhárwár only. The total demand for 1910-11 in these two districts amounted to Rs. 70,700, while the outstanding balance on 1st April 1910 was Rs. 23,000. The unrealized balance at the end of the year was Rs. 31,900. Almost the whole of this sum refers to the municipalities of the Dhárwár district where the state of collections appears to be extremely unsatisfactory. No explanation has been offered for these heavy arrears, and the Governor in Council desires that special attention may be given to the matter in the next reports on the administration of these municipalities.

In the Central Division out of a total demand for taxes, including arrears, of Rs. 5,48,300, Rs. 72,600 remained outstanding at the close of the year. More than two-thirds of these outstandings occur under house tax, the municipalities of East Khándesh and Sátára districts being responsible for them. A sum of Rs. 5,800 remained uncollected in Sholápur under water-rate and Rs. 1,200 in Nagar on account of projection fees. The reason assigned for the former is the prevalence of plague towards the end of the year which interfered with recoveries.

The Collectors should be requested to put pressure on the municipalities concerned to take prompt steps for the recovery of these arrears.

The attention of the Commissioner in Sind should be invited to paragraph 7 of Government Resolution No. 1773, dated the 24th March 1911, and he should be requested to supply in his future reports the information called for therein.

9. The large decrease shown under this head was due chiefly to the inflation of the previous year's figures by the payment of Revenue derived from municipal property, etc. in that year to the Karáchi municipality by the Port Trust of six lakhs as the price of land transferred to them. The decrease in Hyderabad was caused by a sudden fall in the demand for building sites which in preceding years had reached abnormal proportions.

10. The receipts under this head are chiefly made up of the grants given by Government to municipalities for the improvement of water-supply and drainage, for the opening up of congested localities and for educational purposes. There was a decrease this year of Rs. 18,000, which was shared in by all Divisions. Government renewed to the Ahmedabad municipality the grant of Rs. 50,000 for the opening up of congested localities which had lapsed the previous year. In the Southern Division the Bijápur municipality received from Government Rs. 1,30,000, being the balance of the grant-in-aid of Rs. 2,00,000 sanctioned for its water-supply scheme, and Rs. 20,000 from the district local board out of the contribution of half a lách promised towards the scheme. Government also made a grant of Rs. 31,700 to the Ratnágiri municipality for the repayment of its water-works debt. The

Gadag-Bettigeri municipality received Rs. 3,000 out of a donation of Rs. 5,000 promised by an anonymous donor towards the construction of a school-house for the Anglo-vernacular school at that place. Ráo Sáheb Pandit contributed Rs. 3,000 towards the construction of a new dispensary at Sirsi. The district local board of Ratnágiri made a contribution of Rs. 3,000 for the construction of a grant-in-aid dispensary at Chiplun. Government re-granted to the Belgaum municipality Rs. 2,000, being the unexpended balance refunded in 1909-1910 of the Government grant of Rs. 50,000. In the Central Division Government contributed Rs. 1,26,200 towards water-supply and other schemes. The Násik municipality received a grant of Rs. 27,500 for town improvements and the opening up of congested areas. The Pandharpur municipality was given a provincial grant of Rs. 75,000 for the completion of its water-works. The Sholápur municipality received a further grant of Rs. 10,000 towards the scheme for improving insanitary areas, and Rs. 10,000 for the same purpose were distributed among three municipalities in the Sátára district. The Poona district local board made a contribution of Rs. 3,000 towards the construction of a dispensary building at Junnar.

There was an increase of Rs. 15,300 under the head "Grants from other sources for general purposes" attributable almost entirely to contributions received from the people of Párola (East Khándesh) for the water-supply of the town. The Málegaon municipality received grants of Rs. 8,000 from Miss Wadia of Bombay and Rs. 2,000 from the district local board for the building of a new dispensary. A small grant of Rs. 500 was given to the Shirpur municipality by a merchant for the construction of a female ward in the dispensary at that place. In Sind there was a net increase of Rs. 78,800 due mainly to the contribution by the Karáchi Port Trust of Rs. 65,000 towards the Lyari training bund. Grants for educational purposes were also given in order to enable the municipalities to meet the extra expenditure thrown on them for giving increased pay to school masters.

11. Of the total income Rs. 49 $\frac{3}{4}$ lakhs were realized from municipal rates and taxes, as compared with Rs. 50 lakhs in the previous year, indirect taxation yielding 23 $\frac{1}{4}$ lakhs or 47 per cent. and direct taxation 26 $\frac{1}{2}$ lakhs or 53 per cent. The corresponding percentages last year were 48 $\frac{3}{4}$ per cent. and 51 $\frac{1}{2}$ per cent. respectively. The incidence of taxation per head of population fell from Rs. 2-2-0 to Rs. 2-1-10 and the incidence of income from Rs. 3-6-11 to Rs. 3-2-9. Karáchi has the highest incidence of taxation (Rs. 5-4-11) and Panáhgani the lowest (Rs. 0-3-5).

12. (Judging by the absence of complaints the octroi system may be regarded as having generally worked satisfactorily. The following remarks by the Collector of Dhárwár serve to explain to a certain extent the excess of the average consumption of dutiable articles over the standards fixed by Government:—

"The excesses are the combined result of the laziness of exporters who ought to claim refunds and do not, and of want of promptness on the part of municipalities in granting refunds when asked for. The refund rules are perfect in themselves but are not worked in the spirit in which they have been framed. That this is the real state of things is borne out by the fact that in one municipality the number of applications for refund is absurdly small in proportion to the amount of goods imported, as in Gadag and perhaps in Byádgi; in another the number of applications outstanding at the end of the year is abnormally large, as in the case of Hubli. The refund rules are liberal and flawless. Unless the traders make up their minds to take full advantage of them, excesses over standards must and will continue."

The joint report from the Commissioners on the question whether the octroi system as worked in the Bombay Presidency is open to the same objections as have been instanced by the committee which recently reported on the system prevailing in the United Provinces, and on a proposal to substitute for octroi a system of terminal taxes is under the consideration of Government,

The Ahmedabad, Dhulia and Jalgaon municipalities have expressed their willingness to abolish octroi and levy in its stead a light terminal tax.

13. The total expenditure of the municipalities was Rs. 96 $\frac{3}{4}$ lakhs compared with 84 $\frac{3}{4}$ lakhs in the preceding year. Excluding "Extraordinary and Debt," the expenditure amounted to Rs. 74 $\frac{1}{4}$ lakhs as against 69 $\frac{3}{4}$ lakhs.

The following table indicates the most important fluctuations under the various heads of expenditure :—

	1910-11.	1909-10.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
(1) General Administration and collection charges	729	677	52	...
(2) Public health and convenience	4,539	4,256	283	...
(3) Public instruction	1,208	1,105	103	...
(4) Extraordinary and debt	2,251	1,492	759	...

14. The increase under this head was shared by all the Divisions in the Presidency including Sind. It was due to the revision of establishments, charges on account of pensions and gratuities, the new appointment of chief officers by several municipalities, the payment of salary during the whole year to the recently appointed chief officers of Belgaum and Hyderabad, and the purchase of a motor car for the chief officer of the Karachi municipality. There was also a more or less general rise in the cost of collection of road-tolls and the rebuilding and repairing of octroi bars.

15. The closer attention paid to sanitation under the stimulus of liberal Government grants is shown by the increase of Rs. 2,83,000 under this head. In the Southern Division the total capital outlay on water-supply for the year amounted to Rs. 4,18,000, the bulk of this amount being spent on the Bijapur and Dhárwár water-supply schemes. In Sind the increase under water-supply occurred wholly in the Hyderabad municipality, while the expenditure in Karachi was normal, the pressure of other work rendering it impossible to take up the extension of the water works. There was, however, a decrease under this head of Rs. 1,35,000 in the Central Division which occurred mainly in the Sholapur and to a less extent in the Násik and West Khándesh Districts and was due in the first named case to smaller expenditure during the year on the Pandharpur water works. On the other hand, the Ahmednagar municipality spent Rs. 2,100 in connection with the preliminary investigation of its water-supply and the Jejuri municipality paid Rs. 14,000 to the Executive Engineer for Irrigation, Poona, for the improvement of its water-supply. As regards the Northern Division a new large pumping engine was provided in Surat.

In connection with drainage the expenditure in the last named Division increased from Rs. 55,700 to Rs. 84,500. The drainage scheme of the Karachi municipality is nearing completion, to which fact is due the large fall in expenditure. The municipality has sanctioned an estimate of Rs. 88,900 for the extension of underground drainage in the Machi Miani quarter, the only section of the old town which remains to be connected with the system.

The expenditure under conservancy in the Northern and Central Divisions rose by Rs. 38,400 and Rs. 7,400 respectively. The increase was due to the purchase of hydrants, watering carts, bullocks, urinals of a new pattern, the employment of additional establishment and repairs to latrines. In Sind the increase of Rs. 22,300 is shared by nearly all municipalities. The appointment of a health officer and two sanitary inspectors by the Hyderabad municipality and the purchase of a number of watering and conservancy carts by the Sukkur municipality were among the principal items.

Large sums were spent on the construction and maintenance of roads in the Central Division. Steam rollers were purchased by the Dhulia and Bársi municipalities, and the Násik municipality paid Rs. 5,000 as compensation for properties acquired to widen the roads in the city. The same municipality also bought up a number of houses and projections and also an open space at a total cost of Rs. 12,000, in order to open up the congested parts of the city. The Poona city municipality purchased 28 pieces of land measuring in all 6,503 square feet for Rs. 14,000 for road widening. In Sholápur four plots were acquired for Rs. 4,900 for sanitary improvements and 17 plots for road widening at a cost of Rs. 2,800. A sum of Rs. 59,200 was spent by the Karáchi municipality on the acquisition of land for widening streets in the old town and the Machi Miani quarters and Rs. 8,200 for other improvements in the latter quarter, and an area of 2,500 square yards was granted to it by Government for widening the Bunder road. The Hyderabad municipality spent a large sum for similar purposes. The increased expenditure in Sukkur was due to the purchase of a steam roller, and both here and in Jacobabad and Kambar to the reticulating of roads. The Dakor municipality purchased a building at a cost of Rs. 3,200 for road widening, while the Surat municipality spent Rs. 6,700 for the same purpose.

Twelve municipalities in the Northern Division and eight in the Southern Division failed to comply with the rule that the whole of the proceeds from wheel-tax and road-tolls must be spent on the maintenance of roads. Of these seven in the Northern Division and the same number in the Southern Division had committed default in this respect in the previous year. Surat is an old offender and its roads are reported to be in bad order. It was not possible for the Bulsár municipality to spend all its tolls income on roads as the sudden increase of receipts surpassed all expectations. Broach, on the other hand, spent more than double the income derived from these sources. The Government grant of Rs. 50,000 to the Ahmedabad municipality for improving congested areas in the town lapsed, but was renewed on the representation of the committee of management and is being spent on the acquisition of the congested Patwa Seri. The Hyderabad municipality acquired land for the relief of congestion in the town at a cost of Rs. 89,100. The Hubli municipality purchased about 30 acres of land for Rs. 17,300 for urban extension.

In the Southern and Central Divisions the total expenditure on buildings amounted to Rs. 14,500 and Rs. 36,600 respectively. The increased expenditure was due to the construction of a store room at Mahád, a dharmshala at Kárwár, chawls for the Dhavads at Mátherán, and a school-house at Ratnágiri. At Kárwár the building for the girls' school which Mr. D. R. Balsarvala, a local citizen, undertook to construct at his cost was completed during the year and was subsequently opened by Her Excellency Lady Clarke. The Junnar municipality paid Rs. 10,000 to the Public Works Department for the construction of a new dispensary building.

The increased expenditure on buildings in the Central Division was due to the purchase by the Bhusával municipality at a cost of Rs. 5,000 of the jail building to be used as a school-house and to the construction of a bathing ghát by the Jejuri municipality and of a new office building for the Baramati municipality. The Karáchi municipality spent Rs. 1,46,800 under "Buildings," which is accounted for by the inclusion under this head of the training bund for the Lyari river bed costing Rs. 83,900 and the cement concrete bottom and walls for the drain from the Railway bridge in Frere Town Quarter to Clifton road. The Hyderabad municipality under this head shows a new musafarkhana and cattle pound.

16. The cost of Public Instruction increased by Rs. 1,03,000. The excess Public Instruction. was shared by all the divisions including Sind and was mainly due to the raising of the pay of trained teachers in the primary schools and to the expenditure on the construction of new school buildings. The Pandharpur municipality spent a sum of Rs. 12,000 in providing additional accommodation and machinery for the Robertson School of Industry. The condition of the schools in Broach city has drawn severe criticism from the Educational Inspector, while in Ankleshvar also their condition is not as satisfactory as it might be.

17. The charges under "Extraordinary and debt" increased by Rs. 7,59,000, being shared by all the divisions, except Sind, where a decrease of Rs. 2,17,000 occurred. The Northern, Central and Southern Divisions contributed Rs. 8,46,300, Rs. 1,02,400 and Rs. 27,300, respectively, to the increase. As regards the increase in the Northern Division, the Collector of Surat explains that in past years the municipalities in his district showed their invested balance, securities received from contractors and securities belonging to prize funds, relief funds and the like, under "Deposits" (column 58, Statement III), but that under his orders these are now shown either in column 49 or in column 50 (Securities and fixed deposits). The increase in the Central Division was due to the fact that the Bhusával, Jalgaon and Parola municipalities placed considerable sums in the Jalgaon branch of the Bank of Bombay on fixed deposit, while the Málégáon municipality deposited a sum of Rs. 12,000 with the National Bank of India. The Pandharpur municipality deposited with the Bank of Bombay a sum of Rs. 35,000 as against Rs. 50,000 in the preceding year. The large decrease in Sind was mainly due to the repayment in the previous year by the Karáchi municipality of the loan of 1899. During the year under review this municipality repaid debentures to the value of Rs. 29,000, while the Sukkur municipality redeemed 90 debentures of the value of Rs. 45,000.

18. The result of the year's operations was an increase of Rs. 86,300 in the total closing balance which rose in the Central and Southern Divisions and Sind by Rs. 2,03,400, Rs. 10,000 and Rs. 1,45,900, respectively, but fell in the Northern Division by Rs. 2,73,000.

19. In the Northern Division the only municipality in debt to Government is Bándra. Of the total debt of Rs. 59,400 outstanding at the beginning of the year the municipality paid off Rs. 4,100, leaving a balance of Rs. 55,300. The Ahmedabad municipality is indebted to the public to the extent of Rs. 22,70,000. It has determined to raise a large loan for the completion of the drainage system in the city in addition to a loan of nearly four lakhs recently sanctioned for improvements in the water-supply. During the year this municipality paid off the balance of the Government loan for water-works amounting to Rs. 68,200, and the Surat municipality paid off Rs. 22,000 of its debt. Of the 14 bodies that were in debt to Government in the Central Division the Wái municipality discharged its plague debt in full, while the outstanding balance of Rs. 45,000 due from the Sholápur municipality has been adjusted against an equal grant-in-aid of its new water-supply scheme. The Násik municipality received a sum of Rs. 1,20,000 out of the loan of Rs. 1,50,000 for its water-supply scheme. The Bhusával and Jejuri municipalities obtained during the year loans of Rs. 75,000 and Rs. 7,500 respectively, the former for the improvement of the town and the latter for water-supply. The total liabilities of the municipalities in the division on the 31st March 1910 amounted to Rs. 6,11,000 against Rs. 5,40,000 on the corresponding date of the preceding year.

In the Southern Division twelve municipalities were in debt to Government. Their liabilities at the end of the year, after deducting Rs. 6,900 paid during the year, amounted to Rs. 4,43,600.

The Karáchi, Hyderabad and Sukkur municipalities are the only municipalities in Sind which have raised loans in the open market. Their liabilities at the end of the year amounted to Rs. 16,36,000.

The total amount repaid by the municipalities in the Northern, Central and Southern Divisions and Sind was Rs. 1,39,600, Rs. 85,400, Rs. 6,900 and Rs. 71,700 respectively.

20. In the Northern and Southern Divisions and Sind the Accountant General's Local Audit Department audited the accounts of all the municipalities, with the exception of those of Borsad and Dohad in the Northern Division and of nine municipalities in the Southern Division. No serious irregularities were noticed. As regards

those noticed in the case of Ránder last year it is reported that matters have since improved. Some of the municipalities in the Northern Division carry out a regular audit of their own independently of the Accountant General's Audit, and a most useful check is thus maintained. The criminal proceedings under section 409 of the Indian Penal Code against the former secretary of the Nipáni municipality ended in his being convicted and sentenced to nine months' rigorous imprisonment and a fine of Rs. 100.

The audit of the accounts of all the municipalities in the Central Division, with the exception of those noted in the margin, was conducted by the Government auditors. The accounts of eight of these bodies were, however, audited by paid or honorary auditors.

Wámbori, Kharda, Sindkheda, Betávad, Indápur, Khed, Jejuri, Rahimatpur, Mhasvad, Vita, Ashta and Sátára Suburban.

margin, was conducted by the Government auditors. The accounts of eight of these bodies were, however, audited by

The Governor in Council is pleased to place on record his appreciation of the thoroughness and efficiency with which the audit of municipal accounts has been conducted by the Local Audit Department. The work is tedious and trying in the extreme but has been excellently performed and the results are most satisfactory.

21. Of the many needs of the municipalities in the Presidency the most pressing are efficient water-supply, improved drainage, good roads, public latrines, municipal office buildings, school houses, dispensary buildings, markets, slaughter-houses, the opening of congested areas, etc. In the Northern Division special attention is being paid to water-supply and the success of the experiment made by the B. B. & C. I. Railway Company, with a deep boring has attracted notice. The Viramgám municipality has not yet moved in the matter, but a boring is being made at Dholka and one is contemplated at Dohad; Government have sanctioned an expenditure of Rs. 1,15,000 for the purchase of boring tools and plants for the purpose of discovering supplies of drinking water. The Godhra municipality has been asked to submit a water-supply scheme. The same subject is engaging the attention of several of the municipalities in the Thána District, and especially in Kalyán and the notified areas in Sálsette. Ahmedabad is about to raise a loan for the purpose of carrying out the second half of its original drainage scheme. In Surat drainage is much needed and schemes have been prepared. In Broach drainage will probably have to be combined with the proposed water-supply. A similar combined scheme is proposed for Kurla. Town improvement by widening streets, etc., has received considerable attention in Surat and is being brought forward more prominently in Ahmedabad as a pressing question. Good roads are needed in many places and good lighting is a marked deficiency even in the larger municipalities. The Pandharpur water works which were built entirely at the cost of Government have now been completed. Government have already approved of the estimates for the extension of the Sholápur water works and a loan of Rs. 3 lákhs has been sanctioned in connection therewith. Accommodation for pilgrims is a long felt want at Pandharpur, and the municipality is reported to have made a beginning by constructing a new dharmshála which is estimated to cost Rs. 20,000. The drainage scheme is also in progress there. The Poona water-supply and drainage works were commenced after the close of the year under report. The work of improvement to the water-supply in Jejuri has also been undertaken and is reported to be nearing completion. The Násik water-supply scheme is in progress. Plans and estimates for the Lonávla water-supply scheme have been approved and Government have sanctioned a grant-in-aid of Rs. 1,60,000 to the municipality towards the cost of the scheme. Plans and estimates for increasing the storage capacity of the Dedargaon tank for the Dhulia water-supply, for the feeder channel in connection with the Dhárwár water works and for the water-supply for the towns of Igatpuri and Karád have been sanctioned. Khán Bahádur Hornasji Manekji Bhiwndivala has generously offered to contribute the sum of one lákhs of rupees towards the cost of the proposed water works for Uran and the salt tract villages of the petha. Other schemes which are

at present under consideration are water-supply schemes for Párola, Yeola, Málegaon and Bársi.

In Sind the Karáchi municipality has raised a loan for and is dealing actively with large and important works for the extension of its water-supply. It is also dealing effectively with the sanitation of markets and slaughter houses. Government have sanctioned the revised plans and estimates for the improvement of the water-supply of the town of Hyderabad. The municipality has also under consideration the question of an up-to-date drainage system. At Sukkur the schemes for the improvement of water-supply and the extension of the town are still under consideration. The question of town extension in Shikarpur is engaging attention. The want of building space in Lárkána is still pressing.

The provision of 9½ lákhs made in last year's budget on account of grants-in-aid to local bodies for sanitary projects included a sum of 2 lákhs allotted from the special grant of 4½ lákhs made by the Government of India for non-recurring expenditure in connection with urban sanitary works which is to be expended in two years (1911-12 and 1912-13). Government have decided that the special non-recurring grant should be expended on schemes for town improvement, for surface drainage in urban areas and for the filling in of insanitary tanks which do not involve large recurring expenditure, while the remainder of the grant which is made up of a recurring assignment of 4½ lákhs from Imperial revenues and a Provincial grant of three lákhs should be devoted chiefly to the promotion of large sanitary schemes, such as water works and sewerage which involve large expenditure spread over a number of years and considerable recurring expense.

From the special non-recurring grant Government have sanctioned the following expenditure against the allotment of 2 lákhs :—

	Rs.
Filling up an insanitary tank in Broach	25,000
Opening out congested areas in Ahmedabad city	50,000
Street improvement and surface drainage in the town of Bhingár	20,900
Street improvements in Násik city	25,000
Opening out the congested area near the Vithoba temple at Pandharpur	27,000
Improving drains behind the Post Office and Kal Peth in the town of Bágalkot	1,200
Drainage channel to carry off storm water which at present floods the whole town of Guledgud	4,000
Drainage of the Musalman quarter of the town of Ránebennur...	6,800
Drainage of the Koney nullah in Kárwár town	11,000
Improvements to gutters in wards I, III, IV and VI in Bijápur town	5,000
Building a wall round Upliburuz Idga in Bijápur town to prevent people committing a nuisance there and thereby improving the present insanitary conditions	500
Filling in the Kafila Serai tank in Lárkána	10,000
	1,86,400

It has been decided to set apart from the balance (2½ lákhs) of the non-recurring grant of 4½ lákhs made by the Government of India a sum of Rs. 50,000 which will be placed at the disposal of the Commissioner in Sind for distribution when approved schemes have been prepared. A sum of Rs. 30,000 is also to be similarly held in reserve for allotment to the Dhárwár municipality for the surface drainage of the town and connected projects if a suitable scheme can be prepared. Government also sanctioned last year the following expenditure from the balance of the sanitary grant of 9½ lákhs :—

	Rs.
Working of the experimental sewage installation at Poona ...	14,000
Contribution towards the cost of a public park at Ahmednagar.	2,500
Further grant-in-aid towards the Poona drainage and water-supply scheme	2,75,000
Purchase of boring tools and plant	1,15,330
Further grant-in-aid towards the Násik water-supply scheme ...	96,852
Alteration in connection with the Pandharpur water works ...	2,745
Original works in connection with the opening up of Sálsette for building	20,000
Grant to the Faizpur municipality for town improvements ...	30,000
Town improvements in Belgaum	1,154
Town improvements in Broach	35,000
Town improvements in Sholápur	25,000
Investigation of Dholka water-supply... ..	600
Feeder channel in connection with Dhárwár water works ...	3,321
Dhulia water-supply	30,000
Drainage of a certain quarter at Ránebnur	1,200
Town improvements in Surat	50,000
Town improvements in Bulsár	10,000
Kalyán drainage scheme	12,500
Lonávla water-supply scheme	20,000
Town improvements in Bándra	18,054
	7,63,256

22. The following table shows the contributions from Provincial Revenues made or promised during the year :—

Grants actually made :

	Rs.
(1) Education	3,96,000
(2) Hospitals and Dispensaries	80,800
(3) Water-supply and drainage schemes	5,03,300
(4) Sanitary improvements	1,17,000
(5) Remission on loans	2,29,400

In addition grants in aid of water-supply and drainage to the extent of ten lákhs have been promised.

23. The following are the most noteworthy features of the administration of the larger municipal towns during the twelve months.

Ahmedabad.—The committee of management of the Ahmedabad municipality has been actively engaged in restoring order in the administration, improving the finances and preparing schemes for the improvement of the town. The municipality has been able to reduce its outstanding arrears of taxes from Rs. 71,200 to Rs. 55,500. The term of office of the managing committee has been extended by two years.

Poona.—The Poona city municipality is busy with its water-supply and drainage schemes. As regards its administration complaints are frequent that the executive are not as exacting as they should be and that roads are left unrepaired, streets uncleaned, and that water-supply is inadequate. The Governor in Council considers that stricter attention to details and a careful and thorough sifting of complaints is necessary if the municipality is to maintain a reputation commensurate with its importance.

Sholápur.—This municipality has lately been the subject of unfavourable criticism at the hands of the Government auditors. Greater attention to details on the part of the President and Chief Officer (both of whom, however, have shown great devotion to duty during the past) appears to be necessary. In other respects this municipality is progressive in its ideas, but must realize that increasing wealth demands increasing sacrifices and that the standard of taxation adopted thirty years ago cannot be retained in perpetuity, or its ideas will never be carried into effect.

Karachi.—The financial position of this municipality is a strong one and it can well afford to embark on a progressive policy. Excellent work was done during the year under the able guidance of the President, Mr. H. C. Mules, M.V.O., whose resignation since the close of the year is a matter of regret. The municipality has simultaneously sustained another loss in the departure of Mr. J. Forrest Brunton, who for nearly 20 years, in the capacity, first of engineer and secretary, and afterwards of chief officer and chief engineer, rendered distinguished service in every department of the municipal administration.

Hyderabad.—In Hyderabad there has been another year of steady progress under the guidance of Ráo Bahádur Bulchand as President. The councillors generally evince an active interest in affairs affecting the welfare of the town, though such interest is still too apt to take the form of obstruction and council table discussions which are often unduly protracted.

24. His Excellency the Governor in Council considers that the record of municipal administration was on the whole satisfactory and, in some instances, distinctly encouraging. But the spirit of faction is still in evidence here and there to the detriment of work and progress. Many municipalities appear to be unduly reluctant to delegate their executive powers to their officers, and when the required authority has been given they exhibit undesirable hesitation in giving their hearty support to its exercise. The result is that the energies of councillors are directed overmuch to trivial administrative details over which valuable time is wasted, rather than to the weighty interests of the public which are entrusted to them. The liberal offers of Government assistance in carrying out schemes of sanitary improvement should encourage local authorities in adopting a more progressive policy than has hitherto lain in their power. But many municipalities have still to overcome their inherent unwillingness to increase taxation, while when such a step is resorted to there is generally a tendency to avoid placing the weight of taxation on the right shoulders. This is especially observable in respect of the financing of water-supply schemes which are too often paid for from the proceeds of general taxation instead of by direct recovery from those who are immediately benefited by such schemes, with the result that the upper and middle class house-owners escape their proper share of the burden involved. This question has been engaging the attention of Government and will shortly be the subject of special instructions as to the conditions on which Government subventions will in future be regulated.

J. L. RIEU,
Secretary to Government.

STATEMENT A.

Division.	No. of municipalities on whom the privilege of selecting their own President has been conferred.	No. of municipalities that have exercised the privilege.	No. of municipalities in which the prescribed majority of 4rds was obtained and the councillor selected was nominated by Government.	Of column 4. No. of		No. of municipalities in which the prescribed majority was not obtained.	No. of municipalities in which Government nominated the councillor who had obtained a majority of votes.	Of column 7. No. of		No. of municipalities in which the privilege has not been exercised at all.	No. of municipalities in which the privilege was withdrawn.

		Grand Total

* Constituted under Government Notification No. 5144, dated 18th October 1910, but no work was done during the year by the Notified Area Committee as taxes had been collected up to 31st March 1911 by the outgoing voluntary committee.

* These are the correct figures though they differ from the figures reported last year.

NOTE.—Besides these the following additional notified area committees were created during the year but no taxes were levied within their limits, the only reason for their creation being to exercise control over building operations:—

1. Goregaon.
2. Kandiwli.
3. Bhaynder.
4. Vikhroli.
5. Bhandup.
6. Mulund.

Presidency during the year ending 31st March 1911.
