READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the municipalities in the Bombay Presidency during the year 1912-13.

RESOLUTION.—The number of municipalities remained unchanged during the year. (Proposals for the constitution of the taluka towns of Muddebihal and Karjat as notified areas having been approved by Government) the number of such areas was brought up to 24. The Erandol Municipality continues to be superseded, while the period of supersession of the Ahmedabad Municipality has been extended to the 31st March, 1915.

2. There was a rise of about 3,000 in the total recorded population resident in municipal districts. In the Northern Division the increase of 13,000 was due chiefly to the Ahmedabad Municipality having added to its figures the 11,000 which represent the population of the suburban area to which municipal taxation was extended with effect from the 1st April, 1912. The limits of the Amalner and Poona Suburban Municipalities in the Central Division, of Ranebennur in the Southern Division and of Hyderabad in Sind were extended during the year under report; otherwise the municipal boundaries remained unchanged.

3. In the Northern Division triennial elections were held in Dholka, Viramgam, Gogha, Modasa, Godhra and Dohad, and in all the municipalities of the Thana District except Bandra and Bassein. In the last mentioned district the elections aroused keen competition everywhere except at Mahim. In the case of the Thana elections there were strong rumours of the prevalence of corrupt practices. In the Central Division triennial elections were held by the Karad, Tasgaon, Islampur, Ashta, Malcolmpeth and Rahimatpur Municipalities in the Satara District and by all the municipalities of the West Khandesh and Nasik Districts except the Dhulia Municipality in the former and the Trimbak Municipality in the latter. The average percentage of voters who attended the poll in the West Khandesh District was only 35, and no particular interest was evinced at the elections except at Karad and Tasgaon. (In the Southern Division new elections for the triennial period commencing from the 1st April, 1913, were held in all the municipalities of the Belgaum District, in all the municipalities of the Kolaba District except Matheran and the municipalities of Bijapur, Karwar, Kumta, Sirsi and Haliyal. Considerable interest is reported to have been taken by the public in the elections in all these places except Nipani and Gokak where the proportion of voters that attended the poll was small. The triennial term of office of the Dhawar, Hubli and Nargund Municipalities which was extended expired on the 31st March, 1912, and the new boards came into being with

effect from the 1st April, 1912.) In Sind triennial elections were held in Hyderabad and Shikárpur and were keenly contested in the former place.

In Government Resolution No. 1134, dated the 20th February, 1912, the amended election rules of the Ahmednagar Municipality were sanctioned. Under these rules voting by proxy is not admissible, the reasons for prescribing such voting being that it unnecessarily complicates the system of voting by ballot and facilitates personation. The municipalities mentioned in the margin* have since followed the example of the Ahmednagar Municipality by adopting the above system, a change which has been attended by eminently satisfactory results. Government have recently directed that the system of voting by secret ballot should be extended to, and voting by proxy abolished in, all the district municipalities of the Presidency.

In the Northern Division the newly constituted boards of Umreth, A'nand and Borsad, to which the elective franchise had been extended in the previous year, came into being on the 1st April, 1912. The elective franchise was restored to Kaira and its municipal board was reconstituted with fourteen councillors. The Dákor and Kapadvanj boards were also reconstituted, two more councillors being added to the non-official element with a corresponding decrease in the number of officials. Dákor also exercised the privilege of selecting its President. Two municipal councillors of Ránder were disqualified under the orders of Government for tampering with the municipal demand registers with a view to bringing partizans on to the list of voters, and a third councillor who was similarly implicated only escaped disqualification by previously resigning. (In the Southern Division the extended franchise was conferred on the Bijápur Municipality, the total number of councillors being increased from 12 to 18 and the elective element from 6 to 12.) In the Northern Division the total number of municipal councillors rose from 469 to 489 in consequence of the changes in Kaira, Umreth, A'nand and Borsad. In the Central Division the number was 811 against 810. In Sind, however, it fell from 356 to 346. In the Southern Division there was no change in the number of councillors (495).

In the Northern Division, except for some improvement in the case of the non-official members of the municipalities in the Kaira and the Panch Maháls Districts and in Ahmedabad, Dholka and Viramgám, the attendance of councillors at meetings was not particularly encouraging. Cases of default in regard to attendance at two-thirds of the meetings are reported in respect of nearly every municipality in the Ahmedabad and Kaira Districts, Dholera in the former and Umreth and Kaira in the latter being the only exceptions. In Nadiád three councillors were disqualified for non-attendance. In the case of Surat, the Commissioner remarks that the municipality appears to have suffered a set-back since the withdrawal of the Collector's control, and that the numerous adjournments recorded do not indicate a healthy administration. In the Central Division the total number of meetings held by the several municipalities was 842, of which no less than 150 or 17·8 per cent. proved abortive owing to want of quorum, as many as fifteen municipalities having adjourned more than 25 per cent. of their meetings for this reason. In the Southern Division and in Sind the attendance of members at the municipal meetings was on the whole satisfactory.

4. A decrease is recorded in the aggregate gross income of the municipalities, which amounted this year to 109½ lákhs as against 116½ lákhs in the preceding year. But deducting the receipts under "Extraordinary and debt," the net revenue shows an increase, being 88 lákhs as compared with 84 lákhs in the previous year. The following table indicates the fluctuations under the principal heads of income:—

	1912-13.	1911-12.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes—				
(a) Octroi (net receipts, i. e., deducting refunds).	25,78	27,89	...	2,11
(b) Taxes on houses and lands ...	8,95	8,50	45	...
(c) Water rate ...	9,30	9,03	27	...
2. Revenue derived from municipal property and powers other than those of taxation.	14,42	13,31	1,11	...
3. Grants and contributions for general and special purposes.	15,05	12,00	3,05	...
4. Extraordinary and debt ...	21,84	32,31	...	10,47

5. The decrease of Rs. 2,11,000 under this head is chiefly due to the diminution in receipts in Sind, which amounted to only Rs. 11,65,000 as against Rs. 14,06,000 in the previous year. This falling off is most noticeable in the Karáchi Municipality, regarding which it is reported that large stocks of duty paid grain which were lying in the port at the close of the previous year were exported and thus became eligible for refunds during the year under report. In the Northern Division, in consequence of a prosperous season, octroi showed an increase of nearly Rs. 30,000 for which Ahmedabad and Broach were chiefly responsible. In the Central Division the decrease of Rs. 16,000 in the Sholápur District was chiefly due to the unfavourable season there, and that of Rs. 4,000 in East Khándesh to the substitution of a terminal tax for octroi by the Jalgaon Municipality. (In the Southern Division the increase of about Rs. 15,000 in the octroi receipts at Dhárwár and Hubli is satisfactory and speaks well for the supervision exercised, seeing that the opening months of the year were months of scarcity.)

6. The receipts under this head rose by Rs. 45,000, of which Rs. 26,000, Rs. 14,000 and Rs. 8,500 were contributed by the Taxes on houses and lands. Northern and Central Divisions and Sind, respectively, these increases being to a small extent counterbalanced by a falling off of Rs. 3,500 in the Southern Division. In the Northern Division the rise in Ahmedabad is due to the extension of municipal limits. In the Central Division the increase was shared by all the districts except Násik, and in Sind it occurred mainly in the Karáchi District. The increase is generally attributable to the recovery of past arrears or to the revision of the assessment registers.

In the Northern Division, although Ahmedabad showed increased realizations from its water-tax amounting to nearly Rs. 7,500 and Bándra made a further advance of about Rs. 1,500, the total decrease of Rs. 11,000 in Thána and Kurla alone resulted in a net deficiency of Rs. 2,300 under this head. In the Central Division the increase of Rs. 6,500 was due mainly to the raising of the water rates by the Jalgaon Municipality and to larger recoveries by the Poona City Municipality. (In the Southern Division the increase occurred in the Dhárwár Municipality and was due to the recovery of Rs. 7,000 on account of private connections.) In Sind, Karáchi, Hyderabad and Sukkur are the only municipalities which are provided with regular water works. The increase of Rs. 8,000 in the case of the Karáchi Municipality was due to a larger consumption of water by the North-Western Railway and the Karáchi Port Trust. The increase in Hyderabad (Rs. 8,500) and Sukkur (Rs. 1,000) was due chiefly to the extension of private water service connections.

In the Northern Division the figures of demand for the year 1912-13 and of the outstandings of previous years under the head "Taxes on houses and lands" were Rs. 3,82,000 and Rs. 42,500 respectively. At the close of the year

Recovery of municipal dues.

the balances still unrealized stood at Rs. 27,600 and Rs. 16,600, respectively, or a total of Rs. 44,200. This represents a slight increase on the corresponding figure of arrears for the preceding year. In the Central Division out of a total demand of Rs. 6,00,000, including arrears amounting to Rs. 55,000, a sum of Rs. 41,000 remained to be realized at the close of the year, the preceding year's unrealized balance being Rs. 54,700. Half of the uncollected balance this year occurred under house-tax, and the Municipalities of Bhusával and Yával in the East Khándesh District, Ahmednagar, Vámbori and Kharda in the Ahmednagar District and Ashta in the Sátára District showed heavy arrears. In the Southern Division the figures of demand for the year 1912-13 and of the previous years' outstandings under the head of house-tax were Rs. 1,33,000 and Rs. 32,000, respectively. The total of the unrealized balances at the close of the year was Rs. 29,000, a distinct improvement on the preceding year's results. The arrears at Dhárwár were again heavy though the collections this year showed a slight improvement, being Rs. 16,000 as against Rs. 14,700 in the preceding year. The figures of collections at Gadág-Bettigeri were also not altogether satisfactory, nearly 25 per cent. of the demand for the year 1912-13 remaining unrealized at the close of the year. Regarding Sind, no information is furnished by the Commissioner as to the progress of collection work during the year under report. The attention of the Commissioner in Sind should again be invited to paragraph 7 of Government Resolution No. 1773, dated the 24th March, 1911, and he should be requested to furnish in future the information referred to therein.

From the foregoing information it appears that, although there has on the whole been an appreciable improvement in the recovery of municipal dues, more attention to this branch of the administration is still generally required. The Collectors should be requested to put pressure on the municipalities concerned to take prompt and effective steps for the recovery of their arrears.

7. Sind contributed Rs. 65,000 towards the increase of Rs. 1,11,000 under this head, the Northern and Central Divisions contributing Rs. 12,000 and Rs. 42,000 respectively. The Southern Division showed a decrease of Rs. 8,000.

Revenue derived from municipal property, etc.

8. The receipts under this head are chiefly made up of the grants given by Government to municipalities for the improvement of water-supply and drainage, for the opening up of congested localities and for educational purposes. During the year under review there were increases under this head of Rs. 2,82,000 in Sind, Rs. 1,24,000 in the Central Division and Rs. 59,000 in the Northern Division, counterbalanced by a decrease of Rs. 1,61,000 in the Southern Division. In the Northern Division, Ahmedabad received Rs. 1,00,000 for opening out congested areas in the Khadia, while grants were made of Rs. 1,00,000 to the Broach Municipality for (1) the opening out of Fort Parsiwad, (2) the Boharwad improvement scheme, and (3) the filling in of Fata Talao, and Rs. 12,500 to Kalyán for its drainage scheme. In the Central Division, Dhulia received a grant of Rs. 50,000 for raising the waste weir at Dedargaon, Karád Rs. 90,000 in aid of its water-supply scheme, Panchgani Rs. 5,000 for the construction of development roads, and Paudharpur Rs. 27,000 for opening up congested quarters. (In the Southern Division grants-in-aid from Government amounted to Rs. 1,20,821, which included Rs. 30,000 for the opening of conservancy lanes in Dhárwár, Rs. 23,000 for the sanitary improvement of the town of Hubli, Rs. 9,000 for a drainage scheme to carry off storm water from the town of Guledgud, Rs. 7,000, each, to Alibág and Pen for opening out insanitary areas, and Rs. 5,000, each, to Bijápur and Bágalkot for the construction of gutters.) In Sind, the Karáchi Municipality received a grant of Rs. 2,00,000 for the extension of the drainage system in the Civil Lines and the Frere Town quarters, and the Kotri and Mirpur Khas Municipalities Rs. 5,000 and Rs. 5,500, respectively, for filling up hollows.

The total increase of Rs. 1,80,000 in the whole Presidency including Sind under grants from Government for educational purposes was distributed over

all divisions and was chiefly attributable to the revision of the grants-in-aid to municipal primary schools with a view to making them equal to half the gross expenditure incurred on these institutions. In the Northern Division Mr. Bhaishankar Nanabhai gave a donation of Rs. 8,000 for the construction of a school house in Raipur. In the Central Division a grant of Rs. 3,500 was made by the District Local Board of East Khándesh towards the construction of a new school house at Erandol. There was also an increase of Rs. 10,500 in the contributions from other sources for educational purposes due to (1) popular contributions received towards the building of a school house at Chopda and (2) a private donation for the construction of a Hindu girls' school in Dhulia. In Sind, liberal donations were received by the Karáchi Municipality during the year from public-spirited citizens for the erection of a girls' school in the Jail quarter.

In the Southern Division contributions from other sources included one of Rs. 50,000 from the Madras and Southern Marátha Railway Company towards the Hubli water-supply scheme, and a sum of Rs. 12,000 contributed by the people of Nargund towards the erection of a dispensary. In Sind, large contributions were made by the citizens of Karáchi for a charitable dispensary in the Ramswamy quarter. The Port Trust gave Rs. 5,000 for facing with stone masonry the basin formed by the Lyari river.

9. Out of the aggregate income of municipalities Rs. 55,01,000 were realized from municipal rates and taxes, as compared with Rs. 56,45,000 in the previous year, indirect taxation yielding Rs. 25,78,000 or 46.9 per cent. of the abovementioned amount and direct taxation, Rs. 29,23,000 or 53.1 per cent. The corresponding percentages last year were 49 and 51 respectively. The incidence of taxation per head of population fell from Rs. 2-6-4 to Rs. 2-5-5, while the incidence of income rose from Rs. 3-9-1 to Rs. 3-11-9. Bándra had the highest incidence of taxation (Rs. 5-4-3) and Betávad the lowest (Re. 0-4-1).

10. Making due allowance for its inherent defects the octroi system may be regarded on the whole to have worked satisfactorily. (In the Southern Division a joint octroi system was proposed for the town and cantonment of Belgaumi. The scheme has since been sanctioned.

(Government have directed that the system of terminal taxation should be introduced tentatively for a period of two years in selected municipalities of the Presidency) the number of such municipalities being fixed at three per division. In the Northern Division, Ahmedabad is the only municipality which has so far been selected for the application of this system of taxation; the rules and by-laws for the levy of the tax are still under the consideration of the Committee of Management of the municipality. Proposals for the selection of the other two municipalities of this Division are awaited. In the Central Division, the municipalities which have been selected for the experiment are Jalgaon, Dhulia and Ahmednagar, and in the case of the first two of these the necessary rules and by-laws have recently been sanctioned by Government. Arrangements in respect of the third municipality, *viz.*, Ahmednagar, have still to be completed. (In the Southern Division, Hubli is the only municipality which has expressed its willingness to introduce the system, but the arrangements for working it are still under consideration) In Sind, the Commissioner has issued instructions for the introduction of the system as a tentative measure for a period of two years in the municipalities of Sukkur, Larkána and Umarnot.

11. The total expenditure of the municipalities was Rs. 119½ lakhs compared with Rs. 106½ lakhs in the preceding year. Excluding the item of "Extraordinary and Debt," the expenditure amounted to Rs. 98½ lakhs against Rs. 86 lakhs.

The following table indicates the more important fluctuations under the several heads of expenditure:—

	1912-13.	1911-12.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	
(1) General administration and collection charges.	8,36	8,01	35
(2) Public health and convenience.	63,00	54,84	8,16
(3) Public instruction ...	15,00	12,75	2,25
(4) Extraordinary and debt ...	21,02	20,74	28

12. The increase of Rs. 35,000 under this head was shared by the Central Division (Rs. 24,000), the Southern Division (Rs. 2,000) and Sind (Rs. 9,000). In the first named the increase is ascribed to the payment of grain compensation and the royal bonus by the several municipalities, the revision of the pay of establishments and the payment of arrears in the Násik and Sátára Districts, and the grant of a gratuity to the Chief Officer of the Poona City Municipality on his retirement. In Sind, the increase under this head occurred chiefly in the municipalities of Karáchi and Sukkur. In the case of the former it was due to the revision of the salary of the municipal staff and to the increase in the remuneration of the legal adviser from Rs. 2,000 to Rs. 3,000 per annum. In Sukkur, it was due to the grant of annual increments, the payment of grain compensation allowance, a durbar bonus, municipal contributions to the provident funds, and the supply of warm clothing to the menial staff.

13. The expenditure under this head, which in the previous year had shown an increase of Rs. 9,45,000, again rose by Rs. 8,16,000, a notable indication of the closer attention which, under the stimulus of liberal Government grants, is now being devoted to the spread of sanitation and the promotion generally of the material welfare of the population of the urban areas.

Capital Outlay.—In the case of the Northern Division the rise under this head from Rs. 1,85,000 to Rs. 2,70,000 occurred chiefly in Ahmedabad, where there was an increase of Rs. 86,000. Nadiád, which is entirely dependent on deep well boring for its water-supply, spent Rs. 1,251 on the purchase of a new apparatus. Thána incurred an outlay of Rs. 3,000 on the survey of the Yeur tank scheme and in raising the dam and waste weir of the Pokhran tank to increase its storage capacity. In the Central Division the increase of nearly 2½ lakhs was due mainly to the municipalities of Násik and Sholápur having paid Rs. 1,50,000 and Rs. 20,000 respectively to the Public Works Department for expenditure on their water works and to the expenditure at Jalgaon of Rs. 18,000 on repairs to the Meherun tank. In the Southern Division, the total capital outlay for the year amounted to Rs. 2,18,000 as against Rs. 2,35,000 in the previous year. (The bulk of the amount, viz., Rs. 1,77,000, was spent on the Bijápur water works.) In Sind, there was a marked increase of expenditure under this head in Karáchi (Rs. 1,51,000) due to the extension of the water works and the laying out of mains in various quarters of the town. The expenditure of the Hyderabad Municipality in connection with its water works improvement scheme was reduced by Rs. 77,000 during the year under report.

In the Northern Division the total expenditure under the head of establishment and repairs fell from Rs. 1,93,000 to Rs. 1,91,000. The diminution was due to the fact of Thána having paid nothing for Tansa water during the year under report and Ránder failing to pay its usual contribution to Surat from which it derives its

supply. In the Central Division, the largest increase occurred in the Ahmednagar Municipality which spent Rs. 20,000 on temporary measures for increasing its water-supply which had run alarmingly low owing to the scanty rainfall. Among the minor improvements were the laying out of new pipes by the Sholapur Municipality at a cost of Rs. 7,000, the purchase of pumping engines by the Yeola and Bársi Municipalities, and the improvements effected by the Dhulia Municipality to its water-supply at a cost of Rs. 7,600. In the Southern Division, the total expenditure for establishment and repairs amounted to Rs. 43,200 as against 34,000. The increase was marked in Dhárwár, Hubli and Alibág. In Sind, there was an increase of Rs. 6,700 in the actual expenditure under this head in the Karáchi Municipality, due chiefly to a larger consumption of coal for pumping water at Dunlotte, the short rainfall having rendered increased pumping necessary. At Hyderabad there was increased expenditure on fuel and stores, and a sum of Rs. 1,100 was spent in overhauling the Fort lift.

In the Northern Division, the total receipts from water rate in Ahmedabad increased from Rs. 1,58,000 to Rs. 1,65,000, of which ^{Financial working of water installations.} Rs. 56,000 came by direct taxation and Rs. 1,10,000 by indirect, the proportion of revenue from the direct sale of water and from indirect taxation being as one to two. The total expenditure amounted Rs. 1,45,000, which included Rs. 62,000 on account of interest and sinking fund and Rs. 8,000 partly contributed to the depreciation fund and partly spent on repairs to machinery. The net profit realized was Rs. 20,000. The percentage of profit on the total capital outlay of Rs. 12,29,000 was 1.6 as against 3.5 in the previous year. The falling off is ascribed to the high prices of fuel and the cost of the execution of various new works. In Surat, the total receipts remained at Rs. 90,000, direct and indirect receipts being classified as Rs. 89,000 and Rs. 1,000 respectively, the latter purely miscellaneous. The expenditure decreased from Rs. 96,000 to Rs. 86,000, of which interest absorbed Rs. 13,500, instalments in repayment of loans Rs. 17,400, and sinking fund Rs. 3,000. The percentage of profit on the total capital outlay was .3 only. The receipts in Ránder which were all direct amounted to Rs. 6,000. As no contribution was paid to Surat the expenditure side showed Rs. 1,500 only. From the Pokhran tank, which is Thána's installation, the municipality's direct receipts amounted to Rs. 5,500 as against Rs. 9,500 in the preceding year, the decrease being due to the fact that it was not necessary to indent on the Bombay Municipality for a supplementary supply, so that the public were charged a lower rate for water. Indirect receipts amounted to Rs. 2,000, of which Rs. 1,800 were from the water-tax and the rest miscellaneous. The proportion of revenue from the direct sale of water and that from indirect taxation was 3 : 1. The capacity of the Pokhran tank has been found insufficient for the needs of Thána and the municipality contemplate embarking upon another project known as the Yeur scheme which is still under the consideration of the Sanitary Engineer. The Varála Tank—the source of Bhiwndi's water-supply—yielded the same revenue as last year, viz., Rs. 2,100. The cost of upkeep was Rs. 700 leaving a net profit of Rs. 1,400. No regular water-tax is levied by the municipality, its income being derived from an annual charge of Rs. 9 for each house-connection. The tank, requires improvements in various ways and private subscriptions are being raised for the purpose.

In the Central Division, Jalgaon incurred a capital outlay of Rs. 3,16,000 on the Meherun tank works. The direct income from water rates in this municipality was Rs. 14,500, and the revenue from indirect taxation Rs. 4,500, the expenditure amounting to Rs. 18,000 which included Rs. 10,000 on account of loan instalments and interest. The total income at Dhulia was Rs. 88,500, being Rs. 43,000 from direct receipts and Rs. 45,500 from indirect receipts, while the expenditure was Rs. 80,000 which was made up of (1) Rs. 60,000 on account of capital outlay, inclusive of a Government contribution of Rs. 30,000 for raising the waste weir and dam of the Dedargaon tank, and (2) Rs. 11,000 on account of repayment of loan and interest.

In the Southern Division, the income derived by the water works at Dhárwár amounted to Rs. 11,500, of which Rs. 500 are classed as direct receipts and Rs. 11,000 as indirect receipts. The expenditure incurred on the works was Rs. 35,000. This serious divergence between income and expenditure requires careful attention at the hands of the municipality to whose notice it should be specially brought. The receipts and expenditure on account of the Hubli water works were Rs. 30,000 (inclusive of direct receipts amounting to Rs. 5,000) and Rs. 11,000, respectively.)

The attention of the Commissioner in Sind should be again invited to paragraph 5 of Government Resolution No. 4202, dated the 2nd July, 1912, and he should be requested to include in his next municipal administration report information regarding the financial working of the water installations in his charge.

With regard to the expenditure on drainage the small net increase of Rs. 500 under this head in the Northern Division indicates little general progress. In Ahmedabad, however, sewer extensions, new house connections and improvements at the sewage farm were executed at a capital cost of Rs. 12,000 with a consequent decrease of Rs. 9,000 in expenditure on establishment and repairs. In the Central Division, the decrease of Rs. 37,000 under capital outlay was due to the smaller expenditure incurred in Poona City on the new drainage works and the absence of expenditure at Bhusaval and Dhulia on the construction of new drains. Liberal grants from Government enabled some of the municipalities in the Southern Division to incur large expenditure under this head, the capital outlay rising from Rs. 7,000 to Rs. 37,000. The increase of Rs. 8,000 at Bijapur was due to the new drainage scheme carried out during the year of report, and that of Rs. 4,000 at Guledgud to the construction of a channel to carry off storm water and to the repair of old gutters. The increases of Rs. 8,000 at Ranebennur and of Rs. 14,000 at Kárwár represent expenditure on the drainage of the Musalman quarters in the former town and of the Koney Nullah in the latter.) In Sind, the extension of the drainage system into the Civil Lines and Frere Town quarters of Karáchi was taken in hand. Altogether the project is estimated to cost Rs. 5,64,000 to which the Government contribution is Rs. 2,00,000.

The expenditure under conservancy in the Northern, Central and Southern Divisions rose by Rs. 19,000, Rs. 35,000 and Rs. 10,000, respectively. These increases were due to such causes as the erection of new latrines, the purchase of dustbins and night soil and refuse carts, the employment of additional establishment, and additions to the salaries of existing establishment, etc. In the Central Division, the considerable increase of Rs. 13,000 in the Ahmednagar District was due to the compensation for the acquisition of land for open spaces paid by the Ahmednagar City Municipality out of the special grant made by Government. In Sind the increase occurred chiefly in Karáchi (Rs. 19,000) and Larkána (Rs. 3,000).

The large increase of Rs. 50,000 in the expenditure under this head in the Northern Division testifies to the closer attention paid to communications. The acquisition of land for road widening absorbed the bulk of the expenditure in Ahmedabad, Dakore and Broach. River floods in Bulsar necessitated special repairs to the Bandar road. The increase in Bandra was due almost entirely to the construction of two new roads for which the municipality received a Government subsidy of Rs. 23,000. The Central Division showed a decrease of Rs. 30,000 under this head. The Southern Division expended Rs. 99,000 on roads as against Rs. 77,000 in the previous year. In Sind there was a marked fall under this head of Rs. 81,000 in the Karáchi Municipality, due to the extraordinary expenditure incurred in the previous year on a number of objects connected with the improvement and extension of communications. The Hyderabad and Shikarpur Municipalities, however, showed increases of Rs. 24,000 and Rs. 36,000, respectively, the former

municipality having spent Rs. 64,000 on compensation for land acquired for widening lanes and opening up congested areas in the city.

The eleven municipalities of the Northern Division noted in the margin failed to observe the rule that the whole of the proceeds of wheel tax and road tolls should be expended on the maintenance of roads, the deficit being more than 50 per cent. in the case of those asterisked. For Nadiad the explanation offered is that the municipality had budgeted for an expenditure equal to its wheel and toll income, but that, owing to the zigzag alignment and the steep gradient of its roads, it was advised to pave them with stone slabs instead of the usual metalling, a change of plans which delayed execution as the stones were not received in time for use. Rander failed to purchase gravel and metal. The Kalyan and Mahim Municipalities had incurred very heavy expenditure in the previous year. In the Southern Division the defaulting municipalities, a list of which is given in the margin, numbered fourteen. In some cases the municipalities are reported to be accumulating funds with a view to substantial improvements; in others urgent calls in other directions or the fact of special expenditure having been incurred previously are offered in explanation of the default. When resources are being accumulated for future expenditure it seems desirable that the savings should be credited to a special fund and not merged in the general balances.

In the Northern Division the expenditure under this head rose from Rs. 26,000 to Rs. 58,000. The acquisition of buildings for the extension of the municipal offices resulted in the additional outlay of Rs. 19,000 by Ahmedabad, while the Broach Municipality spent an extra Rs. 5,500 on the erection of its Victoria Memorial Clock Tower. The new municipal office and town hall at Bandra cost Rs. 7,000 in addition to the expenditure previously incurred on it. In the Central Division, there was an increase of Rs. 17,000 in the East Khandesh District on account of the construction of a new school building at Parola, improvements to the municipal office at Jalgaon, and the purchase of a site for school houses at Bhusaval, and of Rs. 6,000 in the West Khandesh District due to the construction of a new municipal office by the Shirpur Municipality. In Sind, there was a decrease of Rs. 1,19,000 under this head, which occurred principally in Karachi. Some of the principal works executed by the Karachi Municipality during the year were two dispensaries, *viz.*, the Nadirshaw Edulji Dispensary and a dispensary in the Lyari quarter, a vaccination office in the same quarter, foot-paths along roads, a meat market in Dhobi Ghat, a new sea dues office and a new octroi office. In Shikarpur there was an increase of Rs. 2,000 due to additions and repairs to municipal buildings.

14. The cost of Public Instruction, which was already last year Rs. 67,000 in advance of the preceding year's figure, now shows a further considerable increase of Rs. 2,25,000. The excess, which is contributed to by all the divisions including Sind, is accounted for mainly by the raising of the pay of trained teachers in primary schools and the construction of new school buildings. In the Northern Division, the purchase of sites for four primary schools and the revision of the schools' establishment in Ahmedabad alone were accountable for Rs. 34,000 out of the total increase of Rs. 73,000. In the Central Division, payments were made by the Erandol, Chopda, Rahimatpur and Barsi Municipalities for the construction of new school houses; lands were purchased by the Dhulia and Yeola Municipalities for school buildings and a school house was bought by the Nasik Municipality. In the Southern Division, the most important fluctuations occurred at Bagalkot in the Bijapur District and Gadag-Bettigeri in the Dharwar District. In the former an increase of Rs. 12,000 was due chiefly to the

erection of a new house for the Maráthi school, and in the latter there was a decrease of Rs. 21,000 resulting from the heavy expenditure incurred in the preceding year. In Sind, there was an increase of Rs. 79,000, nearly half of which was contributed by Karáchi and was due to the construction of a boys' school in the Rámabágh quarter and of a girls' school in the Jail quarter. In Hyderabad the increase of Rs. 27,000 was mainly due to the construction of composite buildings for the municipal Fort and Sanskrit schools. The municipality also paid building grants aggregating to Rs. 10,500 to the Hindu Social Girls' school, the New Girls' school, the New Vidyálaya building and the Navalrai Hiranand Academy Hostel.

15. There were increases in the charges under this head of Rs. 1,17,000 and Rs. 2,06,000 in the Southern Division and in Sind respectively, which were counterbalanced by decreases of Rs. 1,12,000 and Rs. 1,82,000 in the Northern and Central Divisions. Under "Investments" the net decreases in Ahmedabad and Surat were Rs. 1,36,000 and Rs. 29,000, while Thána and Kurla together had a further decrease of Rs. 9,300. The Ránder Municipality deposited Rs. 2,700 with the Bank of Bombay on account of its sinking fund. In the Central Division, there was a decrease of Rs. 19,000 under "Investments" in securities and of Rs. 10,000 under those in savings banks. The Málcolmpeth Municipality was the only one which invested in Government securities during the year. In the East Khándesh District the Chopda Municipality invested Rs. 11,000, being the amount of the popular contributions towards the construction of a municipal school. In the Southern Division, Rs. 5,000 were invested by the Byádgi Municipality in Government securities as a dispensary fund, while Rs. 500, Rs. 600, Rs. 1,100 and Rs. 12,000 were deposited, respectively, by the Ilkal, Guledgud, Hubli and Navalgund Municipalities. In Sind, the Karáchi Municipality repaid debentures of the value of Rs. 60,000, while the Sukkur Municipality redeemed 30 debentures amounting to Rs. 15,000 remaining out of a loan of Rs. 1,00,000. The entry of Rs. 2,10,000 under "Deposits" represents the refund of deposits to contractors and investments on account of provident sinking funds.

16. The result of the year's operations was a decrease of Rs. 9,63,000 in the total closing balance, which was reduced in the Northern, Central and Southern Divisions and in Sind by Rs. 27,700, Rs. 29,400, Rs. 2,34,000 and Rs. 6,72,000, respectively. The total closing balance was Rs. 47,70,500.

17. In the Northern Division the only Municipality in debt to Government is Bándra. Of its total debt of Rs. 50,900 outstanding at the beginning of the year the municipality paid off Rs. 4,500, leaving a balance of Rs. 46,400.

In the Central Division, the total liabilities at the end of the year amounted to Rs. 5,12,000, the amount of the instalments repaid being Rs. 57,000 inclusive of interest. The recovery of the debt still due by the Bhingar Municipality has been postponed pending consideration of the proposals for the inclusion of the municipal district in the Ahmednagar Cantonment. The Sholápur Municipality paid off the balance of Rs. 6,900 of the plague loan raised in the open market in 1900, and the Sátára Municipality is now free from debt, having paid off the last instalment (Rs. 7,100) of its loan for the construction of the Kás water-works. During the year under report, Lonávla and Sholápur received instalments of Rs. 40,000 each of the water-supply loans granted to them. The Poona City Municipality obtained Rs. 2,50,000 on account of the second instalment of its loan for the drainage scheme.

In the Southern Division, ten municipalities were in debt to Government. Their liabilities, after deducting Rs. 26,500 paid during the year, now amount to Rs. 5,76,900.

None of the municipalities in Sind are in debt to Government.

18. In the Northern and Southern Divisions and in Sind, the Accountant General's Local Audit Department audited the accounts of all the municipalities with the exception of Borsad, Bulsár and Bhiwndi in the Northern Division, Athni, Saundatti-Yellamma, Sirsi, Kumta and Honávar in the Southern Division, and Mánjhand and Tando Adam in Sind. No serious irregularities were disclosed in any case. On the occasion of a surprise visit by the auditors to the octroi collecting stations at Panvel the balance in the hands of a nákedár was found short. The deficit was recovered from the defaulter and he was dismissed from municipal service. This was the second case of its kind brought to light by the auditors in connection with the Panvel Municipality. In the Northern Division certain municipalities in the Kaira and the Panch Maháls Districts arranged to have their accounts audited locally, and in the Southern Division the accounts of the smaller and temporary municipalities were examined by municipal councillors or local Government officials. In the Central Division, the accounts of the marginally* noted municipalities were not scrutinized by the Government auditors, those of the first seven bodies having been audited by paid or honorary auditors.

* Kharda, Vámbori, Sindkheda, Indápur, Mhasvad, Vita, Rahimatpur, Botávad, Jejuri, Islámpur, Ashta, Sátára Suburban and Sángola.

19. Of the many needs of the municipalities of the Presidency the most pressing are a wholesome and plentiful water-supply, efficient drainage, the opening up of congested localities to light and air, broad well-aligned thoroughfares and hygienic school-houses with adequate play-grounds, and although loans and liberal grants from Government have helped the more advanced municipalities to make appreciable progress towards the attainment of some of these desiderata, it is evident that a vast amount of work still remains to be done before it can be said that even the most elementary requirements of sanitation and public convenience are adequately provided for. In the Northern Division, the most pressing need both in Dholera and in Viramgám is a good potable water-supply which it is hoped to secure by deep boring. In Ahmedabad the Committee of Management has drawn up an extensive programme of improvements, and steps are being taken to deal with its more pressing items as funds permit. Wider streets combined with the opening up of congested areas and the establishment of a pucca drainage system are ugent needs in Nadiád and Dákor, while in the former a city survey is also very desirable. Both these municipalities as well as those of Borsad, Kapadvanj, Godhra and Dohad are in crying need of a better water-supply. In Broach the work of slum improvement has received some attention, but the heavy cost makes progress very slow. In the case of Surat, although the question of the provision of sewers is of paramount urgency, it is regarded as undesirable that its consideration should indefinitely delay the disposal of the important one of the construction of hygienic school buildings regarding which the municipality has approached Government for assistance in the carrying out of an exhaustive three year programme. It has been decided therefore that both questions should be considered simultaneously, and Government have recently appointed a special committee for the purpose with instructions to formulate definite proposals for the financing and execution of both schemes. The need of an adequate water-supply is keenly felt in Kalyán and the municipality's application for a loan and grant-in-aid from Government is under consideration. A system of surface drainage in aid of which the municipality have been promised a grant of Rs. 12,500 is being considered by the Sanitary Engineer. The Kurla drainage scheme is at present in abeyance, while the experiment of deep well boring in Máhim is reported to be still in its primary stage. In the Central Division, the new water-supply schemes for Ahmednagar and Nandurbár have received the sanction of Government, and projects for improved water-supply for Álandi and Wái are under consideration. The proposals for a drainage scheme at Dhulia have been considered by the Sanitary Board. The Násik water-works are nearing completion. Good progress is also being made with the new water-supply and drainage works in Poona City. Work on the tank at Lonávla and on the dams at Ahmednagar and Igatpuri has been started. The works in connection with the improvement of the water-supply and the construction of school-houses in the Sholápur City are about to be taken up by the municipality, Government having sanctioned loans for them in addition to a grant-in-aid for the former work. Government have also

sanctioned a loan and a grant-in-aid to the Karád Municipality and a grant-in-aid to the Bársi Municipality for their water-supply schemes. The Sátára Town Municipality has paid off its loan for the Kás water-works, and now proposes to prepare a project for laying iron pipes in place of the present earthenware ones. Government have given a grant of Rs. 28,000 for paving the Mánik Nulla in Poona City, and plans and estimates for the work are ready. The special grant of Rs. 20,900 made by Government for improvements to streets and for surface drainage in Bhingar could not be utilized and was withdrawn from the municipality and deposited in Government treasury pending consideration of the proposal to merge the municipal area in the cantonment. (In the Southern Division, a combined scheme for water-supply and drainage for the town and cantonment of Belgaum is being investigated by the Sanitary Engineer. Investigations have also been undertaken by the Sanitary Engineer's staff regarding an improved water-supply project for Nipáni, and these are almost complete. The Bhutnal Tank at Bijápúr is nearly completed. For the Dhárwár City improvement scheme Government sanctioned a sum of Rs. 30,000 for acquiring sites needed for sweepers' passages and improving existing thoroughfares, and this sum has subsequently been supplemented by an additional grant of Rs. 26,300. A special acquisition officer has been appointed, and proceedings for the purchase of the necessary sites have already been instituted.) In Karáchi the most pressing needs are a municipal office and council hall, the improvement of the water-supply and the street lighting, the extension of sewers and water mains, the construction of roads in the Machi Miani and Ranchcre quarters and the improvement of the Lyari quarter. A water-works improvement scheme including the installation of a high level service tank in the Fort Tower, underground drainage, and the reclamation of tanks are among the most pressing wants in Hyderabad.

Last year's budget contained an aggregate provision of Rs. 21½ lakhs on account of grants-in-aid to local bodies for sanitary Grants for sanitary and town improvement schemes. ✓ projects. This provision was made up of (i) the imperial recurring assignments amounting to Rs. 10½ lakhs for the improvement of sanitation in large towns, (ii) an allotment of Rs. 9 lakhs representing one-third of the special imperial non-recurring grant of Rs. 27 lakhs intended primarily for expenditure on urban sanitation and (iii) a provincial grant of Rs. 2 lakhs. Government have decided that the special non-recurring grant should, generally speaking, be expended on schemes for town improvement, for surface drainage in urban areas, for the filling in of insanitary tanks, etc., which do not involve heavy recurring expenditure, while, on the other hand, the recurring imperial and ordinary provincial grants should be devoted principally to the promotion of important sanitary schemes, such as water-works and sewerage, which involve an outlay spread over a number of years and considerable maintenance expenditure.

The following grants were accordingly sanctioned against the special imperial non-recurring allotment of Rs. 9 lakhs :—

Northern Division.

		Rs.
Boharwad slum improvement scheme, Broach	50,000
Deep boring operations at Dholka	3,240
Works for the development of Sálsette suburbs	55,000
	Total ...	1,08,240

Central Division.

Improvements to the water-supply at Sholápur	90,000
Laying out of building sites at Sholápur	15,000
Sholápur town improvement scheme	3,200
Opening out of congested quarters at Bhusával	15,000
Improvements to the water-supply at Jalgaon	14,535
Additional grant for village water-supply	12,000
	Total ...	1,49,735

<i>Southern Division.</i>			Rs.
Dhárwár town improvement scheme	26,300
Belgaum town improvement scheme	35,000
Widening of streets, opening out of congested quarters and provision of sites for town extension at Hubli	34,500
Construction of masonry drains at Gadag-Bettigeri	20,000
Filling in of a tank in Ratnágiri	3,233
Improvements to water works at Panvel	1,105
Total			1,20,168

<i>Sind.</i>			
Further grants for filling in hollows at Mirpurkhas	597
Filling in of Fulton tank at Shikarpur	3,500
Filling in of tank No. 1 at Hyderabad	20,000
Filling in of a tank at Kambar	10,000
Filling in of two tanks at Ratodero	3,000
Total			37,097
Grand Total			4,15,240

Government also sanctioned last year the following expenditure from the imperial recurring and provincial grants of Rs. 12½ lakhs :—

Ahmedabad water-supply scheme	3,74,000
Ahmednagar water-supply scheme	3,20,000
Bársi water-supply scheme	2,36,500
Poona drainage and water-supply scheme	1,75,000
Total			11,05,500

Besides the above grants, an allotment of Rs. 1 lakh was placed last year at the disposal of the Sanitary Board, who have been authorised by Government to sanction sanitary projects of a non-recurring nature costing up to Rs. 20,000 and to make grants up to a limit of Rs. 10,000 for any work. The amount was distributed by the Board as shown below :—

<i>Sind.</i>			Rs.
At the discretion of the Commissioner in Sind for sanitary improvements of a non-recurring nature	10,000
<i>Northern Division.</i>			
Replacing the main pipes in connection with the Bhiwandi water-supply.	10,000
Construction of a meat market at Godhra	4,468
Gandhi Bazar improvement scheme at Broach	4,007
New Mahomedan burial ground at Broach	2,000
<i>Central Division.</i>			
Pandharpur town improvement scheme	14,725
Construction of a surface drain for storm water at Shirpur Budruk in the West Khándesh District	2,000
Provision of public latrines at Taloda in the West Khándesh District	750
Sanitary improvements at Sawda in the East Khándesh District	20,000
Opening up of congested quarter at Lonavla	1,250
Public latrines at Jejuri in the Poona District	2,000
Minor sanitary improvements such as latrines, dustbins, etc., at Talegaon in the Poona District	1,000
Construction of public latrines at Junnar in the Poona District	1,000
Construction of public latrines at Saswad in the Poona District	2,000
<i>Southern Division.</i>			
Removal of prickly pear and filling up insanitary hollows in the park area at Bijápur	7,000
Widening streets at Byadgi in the Dhárwár District	950
Providing masonry gutters at Kalgargalli in Dhárwár	750
Filling up tank, constructing gutters and improving water-supply at Byahatti in the Dhárwár District	1,500
Constructing gutters at Shiggaon in the Dhárwár District	2,000
Filling in a ditch and hollow at Ranebennur in the Dhárwár District	4,000
Constructing public latrines at Rajapur in the Ratnágiri District	500
Channelling the nulla through the western part of the town of Alibag	2,500
Channelling the stream through the town of Roha in the Kolába District	5,000
Channelling a drain in Mahad in the Kolába District	600
Total			1,00,000

20. *Ahmedabad*.—The Committee of Management of the Ahmedabad Municipality continues to be actively engaged in restoring order in the municipal administration, improving the finances of the municipality and preparing schemes for the improvement of the city. Its term of office has been extended to the 31st March, 1915.

Remarks regarding the principal municipalities.

Surat.—Practically no progress has been made in the direction of proceeding with the important schemes which are before the municipality. Reference has already been made to the appointment by Government of a special committee to deal with the questions of sewerage and school buildings. The valuable recommendations of Mr. Thiselton-Dyer, who was specially deputed to see what could be done to prevent the shortage of water-supply during the hot weather, were under the consideration of the municipality. That body appears to be lacking in the capacity for dealing with important schemes in a reasonably expeditious and businesslike manner.

Poona.—Perhaps the most important event of the year was the issue of orders by Government instituting the ballot system at the municipal elections and abolishing voting by proxy in the case of female voters. These orders were rendered necessary by the gross malpractices which disgraced the elections of 1912-13. The working of the municipality has suffered from repeated changes of Chief Officer. As regards general improvements the councillors have taken considerable interest in the various schemes put before them, *viz.*, the extension of the municipal limits, the construction of a new bridge over the Mutha river, the opening up of the city by wide arterial roads, the provision of public parks and so forth. The Commissioner observes, however, that unfortunately this undoubted interest occasionally results in barren discussions of inordinate length and that apparent inability to take a broad view of local questions leads to the adoption of an unduly critical attitude towards proposals which militates against effective progress.

Sholapur.—Under the guidance of an efficient President this municipality has made great progress in clearing congested areas and laying out extensions of the town. The municipality has also taken up a loan for the improvement of its water-supply and educational buildings. Having regard to these facts it is to be regretted that the defects to which reference has been made in previous years, *viz.*, an unwillingness to impose the moderate scale of taxation necessary to provide for the growing needs of the administration of a rising town and a factious spirit of opposition to proposals with this end in view, should be still noticeable. Sholapur has grown in wealth and population as fast as, or faster than, any other big city in the Presidency, and the city can beyond question bear a higher scale of taxation than has hitherto been imposed upon it.

Nasik.—This municipality sustained a great loss through the death of its President, Ráo Sáheb N. V. Gole, in the course of the year. It is fortunate in having the services of a very competent Chief Officer who has raised the efficiency of the administration to a high level. The town will soon have the benefit of an improved water-supply; it is to be hoped that there will be no disposition on the part of the councillors to avoid imposing the taxes necessary to pay for it as well as for the drainage which must necessarily follow. The town is so largely dependent on the pilgrim traffic that any epidemic which interferes with that traffic is a cause of heavy financial loss. Expenditure on improvements in sanitation is therefore, as rightly observed by the Commissioner, less a matter of administrative expedience than a sheer commercial necessity.

Karachi.—The administration of the Karachi Municipality is undoubtedly progressive, but the progress has not been as fast as the remarkable expansion of the city and port demands. These developments call for the initiation of an enterprising policy of large far-reaching schemes of improvement. A stage, in fact, is being reached in the affairs of this city when extraordinary measures are required to supplement the ordinary administrative machinery of a district municipality. The bill now before the Legislative Council providing for the appointment, in those municipalities where it appears desirable, of a chief executive officer corresponding in status and functions to the Municipal Commissioner for the City of Bombay, is calculated to meet the requirements of the situation. The wards of the city have recently been redistributed in

accordance with a scheme drawn up by the Collector and designed to give larger representation to the quarters of the city which were formerly inadequately represented, and the results of the elections which were held on the new basis have shown that the redistribution was sound.

Hyderabad.—In Hyderabad the water improvement scheme is nearing completion and a good head of water will be obtained when the reservoir is constructed in the Fort Turret. The municipality have laid themselves open to some criticism in regard to the state in which they have allowed their existing installation to lapse, and it will be necessary to insist on guarantees being forthcoming that the new water-works will not be exposed to the same neglect and mismanagement. The scheme for underground drainage is hanging fire, but it is expected that a start in this direction will be made soon. Several works of public utility, *viz.*, the Navalrai market, the Sanskrit school, and the Musafirkhana have been completed. In spite of the puerile bickerings and irrelevant interpellations which frequently form an undesirable feature of its meetings, the municipality has come through the year under report without incurring grave discredit. This result must be largely attributed to the good work of the President, Ráo Bahádur Bulchand Dayaram.

21. His Excellency the Governor in Council is pleased to note that the record of municipal administration during the year under review is on the whole distinctly progressive and encouraging. The administration of the municipalities has, generally speaking, been carried on with discretion and energy under the direct control of the non-official presidents, who have as a body shown that they realize the personal responsibility which devolves on them for the efficient working of the municipal machinery. An increased interest in municipal affairs is also generally observable amongst councillors, notwithstanding the fact that the spirit of faction and self-interest is still in evidence here and there to the detriment of work and progress. On the whole, signs have not been wanting to indicate that the results of the extended franchise conferred on municipalities and the withdrawal in great measure of control by official and nominated presidents have justified these important steps in the direction of decentralization. The net revenue of the municipalities showed a large increase during the year under review, and the expenditure, generally speaking, was equitably distributed in satisfaction of the various public requirements.

With a view to the improvement of the sanitary services in urban areas the Government of India have offered, subject to certain conditions, to bear half the cost of the entertainment of qualified health officers engaged by municipalities. The local Government have also agreed to bear one-third of the remaining cost in the case of health officers and the same proportion of the whole cost in the case of sanitary inspectors. The share of the cost devolving on the municipalities

which accept the scheme will thus be one-third as regards health officers and two-thirds in the case of sanitary inspectors. Availing themselves of this assistance, the municipalities noted in the margin* have already agreed to appoint health officers and sanitary inspectors under the scheme.

It is gratifying to note that the liberal offers of Government assistance in carrying out schemes of sanitary improvement have encouraged local authorities to adopt a more progressive policy than has hitherto lain in their power, as is evidenced by the many important schemes of water-supply, drainage and town improvement which are in various stages of actual progress. Government have now had under consideration a question of sanitary improvement in another direction, namely, the prevention of the contamination of the milk-supply in large mofussil towns. Hitherto, except in cantonment areas, no systematic action has been taken in this respect. Much, however, can be effected by the provision of properly constructed and hygienic stables and dairy buildings which could be let to dairymen at low rentals, and by the supply to the latter at a moderate charge of milk vessels and dairy appliances of approved pattern.

These are measures which municipalities can usefully undertake for the purpose of remedying, to some extent, the grossly insanitary conditions in which the milk trade is at present generally conducted in urban centres, and Government, although they are of opinion that the ultimate and only completely satisfactory solution of the question will be found in the total removal of the trade from those centres, which should in future be served by depôts supplied from purely rural dairy farms, are desirous of encouraging, as an initial step in the direction of reform, the adoption of such measures, merely palliative as they are. They have accordingly decided that approved schemes on the lines indicated will in future be entitled, *pari passu* with other sanitary projects, to support from the provision annually made for grants-in-aid to local bodies for the improvement of urban sanitation. Government have also declared that in cases where financial assistance is required to enable municipalities to maintain a normal standard of efficiency of administration, they will be prepared to consider proposals for the grant of such assistance. It is, however, an essential condition that any proposals that may be submitted must be supported by satisfactory evidence that the potential resources of the municipality concerned are already being drawn upon to the full extent practicable.

J. L. RIEU,
Secretary to Government.

*Abstract of Statement No. 1 accompanying the review of the district municipal reports
for the year 1912-13.*

Particulars.

Number of municipalities constituted under the Bombay District Municipal Act, 1901	157
Population within municipal limits	23,52,248
Number of towns of which the municipal committees are appointed partly by election and partly by nomination	118
Number of towns of which the municipal committees are appointed by nomination only	39
Aggregate number of members of municipal committees—					
Ex-officio	372
Nominated	830
Elected	943
Of the above—					
Officials	458
Non-officials	1,698
Europeans	126
Indians	2,025

STATEMENT No. I.

Statement showing the Constitution of the Municipalities in the Bombay Presidency during the year ending 31st March 1913.

* American.

† Of these 17 meetings 2 were of non-officials only: the figures in column 9 are calculated on 15 meetings.

‡ Of these 28 meetings 1 was of purely non-officials to select a delegate for electing a member for the Legislative Council and hence figures in column 9 are calculated on 27 meetings.
