GOVERNMENT OF BOMBAY.

GENERAL DEPARTMENT.

Resolution no. 7640.

Bombay Castle, 31st October 1917.

Read—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the municipalities in the Bombay Presidency for the year 1915-16.

RESOLUTION.

Number of municipalities and notified areas.—The number of municipalities, namely 156, remained unchanged during the year under review. The Hyderabad municipality was superseded during the year, while the municipalities of Rajapur, Erandol and Vambori continued under supersession. The Rajapur municipality, however, has since been converted into a notified area, and the Erandol municipality has been reconstituted with effect from the 6th September 1917. The Dharangaon municipality remained under supersession until the 30th June 1915, and was reconstituted with effect from the date next following. The Bhingar municipality has been abolished since the 1st August 1916, and the demunicipalised area has been included within the limits of the Ahmednagar cantonment. The number of notified areas increased from 27 to 29 on account of the constitution of notified areas at Dhond in the Poona District and at Hirekerur in the Dharwar District. Of the thirteen notified areas in the Northern Division, six exist merely for the control of buildings and have therefore no income to spend. Malsiras, Rajapur, Dondaicha-Warvada and Indi have since been added to the list of notified areas. Two local areas comprising lands outside the limits of the Ahmedabad municipal district, namely, one situated within a radius of one mile from the Kankaria railway station and the other lying within a distance of one mile from the Asarwa, Sabarmati and Ellis Bridge railway stations, have also been constituted as notified areas, with a view to regulate the construction of buildings. Proposals for the constitution of notified areas at Varangaon and Jamner in the East Khandesh District and at Khed in the Ratnagiri District have received the approval of Government. The Ghatkopar-Kirol notified area has been converted into a municipality with effect from the 1st October 1916.

2. *Changes in the population and boundaries.*—The decrease of 4,487 in the total recorded population resident in municipal districts is due to the abolition of the Yamkanmardi municipality. The Commissioner in Sind and the Commissioner, S. D., have, however, not taken into account the increase of 422 and 475 which occurred in the population of the municipalities of Umarnot and Sirsi, respectively, on account of the extension of their boundaries. The actual decrease in the total municipal population of the Presidency should accordingly have been 3,590. The boundaries of the Saundatti-Yellamma municipality in the Belgaum District were also extended during the year under report, with a view to include some ginning factories in the municipal limits. Owing to the abolition of the Jacobabad cantonment, the boundaries of the Jacobabad municipality were extended so as to include the cantonment area. Elsewhere the municipal boundaries and figures of population remained unchanged.

3. *Municipal elections.*—Triennial elections in the Northern Division were held in the municipalities of Dholka, Viramgam, Modasa, Gogha, Kaira, Godhra, Dohad, Bulsar and Ankleshwar, and in all the municipalities in the Thana District except Bandra and Bassein, the new boards having come into office on the 1st April 1916. The elections in some of the wards in the municipalities of Kaira, Kalyan and Bhiwandi were keenly contested. In the Central Division triennial elections were held in all the municipalities in the West Khandesh District

except Dhulia, and also in the towns of Dharangaon, Sinnar, Igatpuri, Yeola, Karad, Tasgaon, Islampur, Ashta, Mhasvad and Rahimatpur. Except at Shirpur, there was very little competition at the elections held in the West Khandesh District, and not even one-half of the total number of voters qualified to vote exercised the privilege. The elections in the Satara District resulted in two applications to the District Court, one from Tasgaon and the other from Karad. In the case of the former the election of the candidate was set aside as he was found to have resorted to corrupt practices, and he was therefore disqualified for five years, while in the case of the latter the candidate in question was held to have been duly elected. The triennial period in the case of the municipalities of Nasik and Malegaon expired on the 31st March 1916, but their term of office was extended by six months in order to enable them to hold elections under the revised election rules which provided for the system of voting by secret ballot. In the Southern Division triennial elections were held in the municipalities of Nipani, Athni, Saundatti-Yellamma, Bijapur, Dharwar, Hubli, Nargund, Byadgi, Karwar, Kumta, Sirsi and Haliyal. In all these towns new boards were constituted with effect from the 1st April 1916, with the exception of Nargund and Byadgi, where the term of office of the new boards commenced on the 1st October 1915. The elections at Bijapur and Kumta aroused keen competition. The term of office of the municipalities of Alibag, Mahad, Pen, Belgaum and Gokak was extended by six months up to the 30th September 1916 with a view to enable them to hold elections under the revised election rules. In Sind triennial elections were held in the municipalities of Shikarpur and Jacobabad, and the new boards entered upon office with effect from the 1st April 1916. The elections in Shikarpur were keenly contested.

Most of the municipalities in the Presidency, which enjoy the elective franchise, have introduced the system of voting by secret ballot and have abolished the practice of voting by proxy. By Government Order no. 1964, dated the 24th March 1917, a committee was appointed to examine the existing election rules of municipalities in so far as they related to the system of voting by secret ballot and to suggest improvements in them. The report of the committee has been received, and a complete and revised set of model election rules, embodying the new rules relating to the secret ballot system recommended by the committee, has been prepared and copies of it forwarded to all Commissioners and Collectors for information and communication to the municipalities in their respective charges.

4. *Constitution of municipalities.*—In the Northern Division the increase in the total number of councillors from 485 to 504 was due to the reconstitution of the Ahmedabad municipality with effect from the 1st April 1915. The Nadiad municipality, which originally consisted of nine elected and nine nominated councillors, was reconstituted with an extended elective franchise, so that it now consists of 12 elected and 6 nominated councillors. In the Central Division the total number of councillors rose from 800 to 814, as the superseded municipality of Dharangaon was reconstituted during the year with 14 members—7 elected and 7 nominated. The abolition of the Yamkanmardi municipality in the Southern Division involved a decrease of 12 councillors, which was partly counterbalanced by an increase of two councillors on the temporary municipal board of Yamanur. This resulted in a reduction in the total number of councillors from 501 to 491. In Sind the total number of municipal councillors during the year under review is reported to be the same as that for the preceding year, *viz.*, 375. As, however, the Hyderabad municipality, which consisted of 24 councillors, has been superseded with effect from the 6th December 1915, the total number of councillors in Sind should have been 351 at the close of the year.

5. *Presidents of municipalities.*—In 1908 Government declared that the privilege of selecting their president would be conferred generally on all municipalities not excepted for special reasons, on condition that the selection must be approved by two-thirds of the whole body of councillors, whereupon the appointment would be made by the Governor in Council under section 23 (2) (a) of the Bombay District Municipal Act, 1901, in accordance with the wishes of the municipality. Accordingly this privilege is at present exercised by a large number of municipalities in

the Presidency. In this connection it has been recently directed that no revenue officer of Government shall be eligible for selection by a municipality for appointment as its president, and that if a municipality is unable or unwilling to exercise its privilege of selection from amongst its own councillors other than revenue officers of Government, the fact should be reported to Government, who will then proceed to make the appointment under section 23 (2) (a) of the Act. Government have also ruled that, in future, where there are more candidates than one for the office of president of a municipality to which the privilege of selection has been conceded but which fails to exercise it, the one who secures the highest number of votes will be appointed to be president of the municipality under section 23 (2) (a) of the Act, unless one who is not a candidate is appointed.

Up to the year 1914, the only municipality which enjoyed the privilege of electing its president under section 23 (2) (c) of the Act was the Poona city municipality, upon which it was conferred in the year 1885. In 1915 Government directed under section 23 (2) (c) of the Act that the president of any municipality for which a Municipal Commissioner was appointed should be elected by such municipality. Accordingly the Ahmedabad municipality, which entertains the services of a Municipal Commissioner, exercised the privilege of electing its president for the first time during the year under review, while the Surat municipality, which has also a Municipal Commissioner, exercised it recently. In 1916 Government also directed under section 23 (2) (c) of the Act that the municipalities of Broach, Nadiad, Ahmednagar, Nasik, Dhulia, Sholapur, Belgaum, Bijapur, Dharwar, Hubli and Gadag-Bettigeri should elect their presidents and that the arrangement should come into force when the office next fell vacant. Accordingly the municipalities of Bijapur, Dharwar and Hubli have elected their presidents for their new triennial terms which commenced on the 1st April 1916. The question whether a similar privilege should be conferred on the city municipalities in Sind has been left to the decision of the Commissioner.

6. *Changes in the system of taxation.*—Apart from the introduction of the system of terminal taxation in certain municipalities, which has been referred to elsewhere, the changes which the system of taxation underwent during the year are noted below. In Nadiad the revised rules for the levy of the wheel and property taxes and the sanitary cess were introduced during the year under review, while in Surat the revised schedules of tolls and wheel-tax came into force from the 1st April 1915. The municipalities of Bulsar and Khed imposed a general sanitary cess, the former municipality having also raised its rate of special sanitary cess from Rs. 2 to Rs. 3 per annum. The municipalities of Raver, Chopda and Dharangaon revised their sanitary cess rules, while the Matheran municipality imposed a sanitary cess on private houses, which yielded a revenue of Rs. 4,000. The Shikarpur municipality also made certain changes in respect of the levy of the halalkhore cess. The Karad municipality imposed tolls and wheel-tax, while the Satara municipality revised its wheel-tax rules. The Thana municipality levied a tax on motor cars and cycles, while the Amalner municipality imposed a pilgrim tax. The Kharda municipality levied octroi for the first time, while the municipalities of Mhasvad, Alibag, Nipani, Nargund and Navalgund revised their octroi schedules. With reference to the question of the levy of house-tax by municipalities, Government have directed in their Resolution no. 3751, dated the 27th May 1916, that the sliding scale for assessment on the annual rental value of houses, which was suggested in Government Resolution no. 1829, dated the 3rd June 1892, should be cancelled and that in future the levy of the tax should be regulated on the principles (i) that the incidence of taxation on the more valuable houses should not be less than that on the poorer houses and should ordinarily be somewhat higher, and (ii) that the estimate of the letting value of houses should be based on the value of both the ground and the building. Government trust that these principles will, as a rule, be followed by municipalities.

7. *Municipal income.*—A decrease is recorded in the aggregate gross income of the municipalities which amounted this year to 118½ lakhs as against 124½ lakhs in the preceding year. But deducting the receipts under the head "Extraordinary and debt", the net revenue shows an increase, being Rs. 92½ lakhs as

4

compared with Rs. 91 lakhs in the previous year. The following table indicates the fluctuations under the principal heads of income :—

	1915-16.	1914-15.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes—				
(a) Octroi (net receipts, <i>i. e.</i> , deducting refunds) and terminal tax.	25,56	23,87	1,69	...
(b) Taxes on houses and lands	10,03	10,25	...	22
(c) Water rate	12,18	11,95	23	...
2. Revenue derived from municipal property and powers other than those of taxation.	15,55	15,39	16	...
3. Grants and contributions for general and special purposes.	13,29	12,80	49	...
4. Extraordinary and debt	25,56	33,67	...	8,11

8. *Octroi and terminal tax.*—There was an increase of Rs. 1,69,000 under this head, of which Rs. 56,000, Rs. 51,000 and Rs. 90,000 were contributed by the Central and Southern Divisions and Sind, respectively, these increases being partly counterbalanced by a decrease of Rs. 28,000 in the Northern Division. For the falling off in the Northern Division the Ahmedabad municipality was mainly responsible in that its income under this head was less than that for the previous year, partly owing to the fact that when the accounts were closed, the proceeds of the terminal tax for two months had not been received from the Bombay, Baroda and Central India Railway Company, which collects the tax at the Ahmedabad railway station on behalf of the municipality. The Railway Company usually remits the receipts two months after their collection, and the deficit, which is only apparent, will automatically set itself right in future years. A bad season and the effects of the war were also partly responsible for the decrease. In the Central Division the increase was shared more or less by all the districts and was mainly due to the imposition of octroi by the Kharda municipality, to the larger earnings from the terminal tax at Jalgaon and Dhulia, and to normal increases in Nandurbar, Shirpur, Barsi and a few other towns. The increase in the Southern Division was shared by most of the municipalities, being prominent in Bijapur, Bagalkot, Dharwar, Gadag-Bettigeri, Belgaum and Nipani, which contributed Rs. 8,800, Rs. 7,000, Rs. 6,800, Rs. 10,000, Rs. 3,600 and Rs. 7,000, respectively. The increase in Bijapur and Bagalkot is chiefly due to the larger importation of grain into these towns on account of the favourable character of the season, coupled with closer supervision. In Dharwar it is ascribed to careful supervision and larger imports due to the return of more or less normal conditions in trade compared with the dislocation caused in the first year of the war. In Gadag-Bettigeri it is attributed to the introduction of the revised rates of octroi, in Belgaum to the extension of the octroi limits by the inclusion of the cantonment area within the octroi cordon, and in Nipani to the brisk trade in tobacco. In Sind the satisfactory agricultural season, combined with a partial restoration of trade which had languished at the outbreak of the war, and the comparative absence of plague led to an increase of income under this head. Rs. 46,000 were contributed by the Hyderabad municipality alone, where better supervision in respect of the levy of octroi was an additional reason for the enhanced receipts.

9. *Taxes on houses and lands.*—The receipts in the Northern Division under this head fell off by Rs. 51,000, while in the Central and Southern Divisions and in Sind there was an increase of Rs. 17,000, Rs. 8,000 and Rs. 4,000, respectively. Thus the total revenue under this head diminished by Rs. 22,000. In the Northern Division the Ahmedabad municipality was mainly responsible for the decrease, its income under this head having been reduced by Rs. 70,000 on account of the introduction of the new system of taxation under which a terminal tax was substituted for the (intra mural) octroi and the (extra mural) house-tax. There was, however, an increase of Rs. 9,200 in Surat, due to the revision of the assessment lists.

10. *Water rate.*—The receipts under this head rose by Rs. 25,000. The increase in the Northern Division was principally shared by the municipalities of Ahmedabad and Surat. In the former municipality the extra revenue (Rs. 11,200) is ascribed to a greater consumption of water in mills and for trade purposes, followed by prompt recoveries, while in the latter the additional income (Rs. 5,200) is attributed to an increase in the number of water connections and in the quantity supplied for trade and garden purposes. In Kurla the recovery of the outstandings of previous years also led to an increase of Rs. 6,000. In the Central Division the Nasik municipality was responsible for the increase, which was due to a large number of house connections having been given during the year under review. In the Southern Division the increase was mainly contributed by the municipalities of Hubli, Dharwar and Bijapur, and was due to the recovery of arrears and to the extension of private water service connections. In Sind the municipalities of Karachi, Hyderabad and Sukkur alone maintain regular water supply installations. The decrease of Rs. 21,600 under this head in Karachi is attributed chiefly to a smaller consumption of water by the North-Western Railway and by the Port Trust, Karachi, owing to the slackness caused by the war in the shipping trade. An excess of Rs. 6,800 which resulted in Hyderabad was due to larger supplies to the cantonment, to the recovery of arrears and to the increase in the number of private connections.

11. *Recovery of municipal dues.*—In the Northern Division the total arrears on account of taxes on houses and lands, which at the commencement of the year amounted to Rs. 32,308, were at its close reduced to Rs. 24,594. The Bhiwandi municipality showed greater activity than in former years by recovering a large amount of its outstandings on account of the house-tax. The municipalities of Thana, Kalyan, Kurla and Bandra are responsible for a very large proportion of the total arrears on account of taxes in the Northern Division. The Collector of Thana should be requested to call upon these bodies to take effective steps for the recovery of their dues in time. In the Central Division, out of the total demand of Rs. 7,92,496 on account of taxes, which included arrears for the previous years amounting to Rs. 51,971, a sum of Rs. 63,602 remained unrealised at the close of the year. The outstandings in some of the municipalities in the Sholapur, East Khandesh and Ahmednagar Districts were particularly heavy, and their attention has been drawn by the Commissioner to the need of greater energy in the prompt recovery of their dues. There has been some improvement, on the whole, in the collection of municipal dues in all the districts in the Southern Division, except Kanara, the aggregate of the arrears to be recovered having been reduced from Rs. 46,000 to Rs. 34,000. Of the municipalities reported in the previous year for a high percentage of arrears, Hubli, Honavar, Saundatti-Yellamma, Karwar, Uran and Panvel have shown a slight improvement in this respect, but the arrears are still large enough to call for active measures for their recovery. The Collectors concerned should again be requested to impress upon all these bodies the necessity of recovering their outstandings without delay. In case recovery is found to be impossible, the arrears should be written off under proper authority. In Sind there is an improvement in the collection of municipal dues, the outstandings amounting to Rs. 38,400 for the previous years having been brought down to Rs. 13,100. The Hyderabad and Kotri municipalities collected a considerable portion of their arrears during the year under report. There were, however, large outstandings in Karachi, which were chiefly due to the Port Trust not having paid house-tax (Rs. 9,000) on their properties, and to appeals against the enhanced assessment in some quarters not having been disposed of till the end of March 1916. Similarly the arrears of water rate and conservancy tax were due to the non-payment of the bills for February 1916 by the railway authorities and the public before the close of the year under report.

12. *Revenue derived from municipal property, etc.*—There were increases of Rs. 75,000, Rs. 37,000 and Rs. 22,000 under this head in the Northern, Central and Southern Divisions, respectively, counterbalanced to a large extent by a decrease of Rs. 1,18,000 in Sind. The falling off in Sind is chiefly due to the fact that in Karachi extensive land sales in the previous year were followed by a lull in the year under report.

13. *Grants and contributions for general and special purposes.*—The receipts under this head consist chiefly of grants made by Government to municipalities for the improvement of water-supply and drainage, for the opening up of congested areas and for educational purposes. During the year under review there were increases of Rs. 2,12,000 and Rs. 13,000 in the Northern Division and Sind, respectively, which were to a considerable extent counterbalanced by decreases of Rs. 1,39,000 and Rs. 37,000 in the Central and Southern Divisions, respectively. In the Northern Division the Ahmedabad municipality received a special grant of Rs. 2,75,000 towards the cost of its water-supply project. In the Central Division grants of Rs. 1,34,760, Rs. 26,770 and Rs. 30,000 were made to the municipalities of Alandi, Lonavla and Karad, respectively, towards the cost of their water works. The grant of Rs. 1,34,760 sanctioned to the Alandi municipality was, however, subsequently withdrawn. The previous year's grant of Rs. 2,36,500 to the Barsi municipality for its water-supply scheme was not repeated during the year under review, which accounts for the decrease of Rs. 1,39,000 in the total grants allotted to municipalities in the Central Division. The decrease of Rs. 37,000 in the receipts for the Southern Division is chiefly due to the fact that the municipalities received during the year grants of smaller amounts for sanitary improvements. In Sind special grants aggregating Rs. 20,000 made by the Sanitary Board during the previous year for effecting various sanitary improvements in certain municipalities did not recur during the year under report.

Grants from Government for educational purposes amounted to Rs. 6,07,300 during the year under review as against Rs. 6,33,000 in the previous year. In the Northern and Central Divisions there was a decrease of Rs. 3,600 and Rs. 47,600, respectively, in the receipts under this head. The falling off in the Central Division is due to the absence of provincial grants during the year. In the Southern Division, however, there occurred an increase of Rs. 8,700. The Ranebennur municipality received a large grant of Rs. 19,683 for the construction of its primary schools. There was also an increase of Rs. 16,800 in Sind, which was shared by the municipalities of Tatta, Kotri, Hyderabad and Matari. The reduction of Rs. 5,000 in the receipts of the Karachi municipality under this head is accounted for by the fact that the municipality received no building grant during the year under review.

14. *Working of the octroi system.*—With the increased gross collections from octroi, the percentage of refunds to gross collections remained stationary in the Central Division, namely 12, whereas in the Northern Division it declined from 12.7 to 10.6. In the latter division it was the highest in Kalyan, being 47.3, while Broach and Ankleshwar stood next with percentages of 26.7 and 20, respectively. The explanations given in the previous year for the high percentage of refunds in Kalyan and Broach still hold good. No explanation is forthcoming for the high percentage of refunds in Ankleshwar. With regard to the municipalities in the Southern Division the Commissioner observes that the enquiry instituted into the large fluctuations in the percentage of refunds to gross collections for the previous year has elicited no satisfactory explanation, and that the Collectors have again been asked to attend to this matter and to record the results in their next reports. The proportion of refunds was again high in Sirsi and Hubli. The explanation given for the large refunds in Sirsi is that the merchandise intended for the surrounding talukas and some talukas of Mysore passes through it. The Hubli municipality disposed of 2,059 refund applications, while 1,883 were pending at the close of the year. The latter, which involved a refund to the extent of Rs. 19,000, related mostly to the year under report and had to be held over for want of funds. The necessity for a change in the existing system of taxation has now been recognised by the municipality, and proposals for the introduction of the terminal tax are at present under consideration.

15. *Terminal taxation.*—In the Northern Division the system of terminal taxation on imports has been introduced as an experimental measure by the municipalities of Ahmedabad, Nadiad and Ankleshwar, and in the Central Division by the municipalities of Jalgaon, Dhulia and Lonavla. In Sind the terminal tax system has been introduced tentatively by the municipalities of Karachi, Sukkur, Larkana and Umarkot. The new system has been reported to be working

satisfactorily in all the municipalities mentioned above. The change promises to add materially to the municipal income owing to the abolition of the unsatisfactory system of refunds and to the curtailment of the establishment hitherto required for the collection of the octroi at the various nakas.

16. *Expenditure.*—The total expenditure of the municipalities during the year under report was Rs. 1,31,19,000 as compared with Rs. 1,26,15,000 in the preceding year. Excluding the item of "Extraordinary and debt", the expenditure amounted to Rs. 103 lakhs as against Rs. 100½ lakhs in the previous year. The increase in the ordinary expenditure was therefore Rs. 2½ lakhs.

The following table indicates the fluctuations under the principal heads of expenditure :—

	1915-16.	1914-15.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. General administration and collection charges	10,15	9,23	92	...
2. Public health and convenience	64,86	60,68	4,18	...
3. Public instruction	16,40	15,87	53	...
4. Extraordinary and debt	28,24	25,72	2,52	...

17. *General administration.*—The increase of Rs. 92,000 under this head was shared by all the divisions, being Rs. 27,000 in the Northern Division, Rs. 11,000 in the Central Division, Rs. 25,000 in the Southern Division and Rs. 29,000 in Sind. In the Northern Division the increase in expenditure in the municipalities of Ahmedabad and Surat was due to the appointment of officers of the Indian Civil Service as Municipal Commissioners for these cities. The large excess expenditure of Rs. 15,000 incurred under this head by the Bulsar municipality has not been explained. In the Central and Southern Divisions the increase is ascribed to the general revision of establishments with a view to secure greater efficiency and better collection of municipal dues, and to the payment of charges on account of pensions and gratuities, etc. The large increase in the Belgaum and Hubli municipalities was due to the refund by the former of Rs. 7,040 representing the Government grant for school buildings, and by the latter of Rs. 7,314 received from the purchasers of building sites in the extension area.

18. *Public health and convenience.*—The closer attention paid to sanitation under the stimulus of liberal grants from Government is shown by the increase of Rs. 4,18,000 in the expenditure under this head. The Governor in Council regrets to find that the practice in certain municipalities in the Central Division of expending the revenue derived from the pilgrim tax on objects other than sanitation, which was commented on last year, still continues. The Collectors should again be requested to take the necessary action.

19. *Water-supply.*—In the Northern Division, while the expenditure under the head "Capital outlay" increased from Rs. 3,32,000 to Rs. 3,79,000, that under the head "Establishment, repairs, etc." decreased from Rs. 2,64,000 to Rs. 2,52,000. The increase under "Capital outlay" chiefly occurred in the municipalities of Ahmedabad and Surat. In the former it is attributed to the debit of the whole water-supply grant-in-aid of Rs. 2,75,000 to the Public Works Department, and in the latter to the purchase of a Venturi meter and a meter testing apparatus at a total cost of Rs. 6,284. The increase in Ahmedabad is, however, not an actual one, as at the close of the year under review there remained with the Public Works Department an unexpended balance of Rs. 2,23,408 out of the Government grant of Rs. 2,75,000. In the Central Division there was an increase of Rs. 4,35,000 under "Capital outlay", which is ascribed to the enhancement of expenditure on the water works at Ahmednagar, Karad and Vita, to the transfer to the Public Works Department of funds required for the execution of the water works at Barsi and Nasik, and to the handing over to the Executive Engineer of the grant-in-aid made by Government to the Aland;

municipality for its water-supply scheme. The last named grant has, however, since been withdrawn. In the Southern Division there was an increase of Rs. 2,67,000 and Rs. 12,000 in the expenditure under the heads "Capital outlay" and "Establishment, repairs, etc.", respectively. Under the former head the large amount of Rs. 3,20,000 in Hubli represents merely the adjustments in the accounts of sums spent in the past on the water-supply scheme. On the other hand, the completion of the Bijapur water works in the previous year accounts for the decrease of Rs. 42,600. The loan of Rs. 7,945 granted by Government to the Pen-municipality for the improvement of its water works was not fully utilised. In Sind the expenditure under the head "Capital outlay" increased by Rs. 97,000, and that under the head, "Establishment, repairs, etc." by Rs. 31,000. The increase under the former head is chiefly contributed by the Karachi municipality, which paid Rs. 1,36,000 in connection with the extension loan account as against Rs. 24,000 in the preceding year. The increase was, however, to some extent counterbalanced by decreases in Hyderabad and Sukkur aggregating Rs. 17,000. The reduction is accounted for by the fact that operations in these two towns in connection with the improvement of water-supply were less extensive than in the previous year. The increase under the head "Establishment, repairs, etc." is largely shared by the Karachi municipality, which, owing to the prolonged absence of rain, had to spend Rs. 36,000 as against Rs. 10,000 in the previous year on the pumping of water at the Dumlotte wells in order to maintain an adequate supply. In Hyderabad an additional sum of Rs. 1,900 was expended on repairs to the engines and water works lifts.

20. *Financial working of water-supply installations.*—In the Northern Division the total receipts from water rates in Ahmedabad increased from Rs. 2,90,682 to Rs. 3,01,941, of which Rs. 2,06,756 as against Rs. 1,94,405 in the preceding year were derived from direct taxation, and Rs. 95,185 as against Rs. 96,277 from indirect taxation. The total expenditure including the payment of interest on loans (Rs. 35,944), the instalments of Rs. 45,645 and Rs. 12,000 towards the sinking and depreciation funds, respectively, and the cost of working and other expenses amounted to Rs. 1,69,318 as against Rs. 1,97,859 in the previous year. The municipality therefore realised a net profit of Rs. 1,32,623 as compared with Rs. 92,823 in the previous year. The percentage of profit on the total capital outlay of Rs. 19,81,912 was 6.6. The increase in the profit is chiefly due to the diminution of expenditure on the working of the installation and to the smaller amount paid as interest on the loan. The Surat municipality derived a revenue of Rs. 1,05,547 by direct sale of water and Rs. 934 by indirect taxation. The total expenditure amounted to Rs. 81,657, including Rs. 12,320 on account of interest, Rs. 22,500 on account of repayment of loans and Rs. 3,000 towards depreciation fund. The profit gained by the municipality amounted to Rs. 24,824 as against Rs. 32,496 in the preceding year. The percentage of net profit on the total outlay of Rs. 10,74,500 declined from 3.05 in the previous year to 2.3 in the year under review. The municipalities of Rander and Thana made a profit of Rs. 2,632 and Rs. 8,216, respectively. In the case of the latter municipality the percentage of net profit on the total capital outlay of Rs. 1,06,362 works out to 7.7. In the Central Division the Ahmednagar municipality spent under the head "Capital outlay" Rs. 1,51,400 on its Pimpalgaon tank works. The total income of the municipality from the water-supply arrangements was Rs. 37,476, namely, Rs. 8,995 from direct taxation and Rs. 28,481 from indirect taxation, while the expenditure amounted to Rs. 20,526. The municipality thus derived a net profit of Rs. 16,950. The accounts of the Jalgaon municipality show a capital outlay of Rs. 828 on its water-supply installation during the year, the total outlay up to the end of the year being Rs. 3,23,178. The income of the municipality from this source was Rs. 17,543 (Rs. 13,139 from direct and Rs. 4,404 from indirect taxation), and the expenditure Rs. 16,849, leaving a net profit of Rs. 694. The head water works of the Nasik municipality remained in charge of the Public Works Department. The income derived by the municipality from direct taxation was Rs. 11,112 and from indirect taxation Rs. 16,500, while the working expenses including the instalments paid towards the extinction of the capital debt amounted to Rs. 30,033. Thus there occurred a deficit of Rs. 2,421. In the Southern Division the income from direct and indirect taxation at Bijapur was Rs. 18,022, while the expenditure,

excluding the working expenses to be credited to the Public Works Department, which were then not settled, amounted to Rs. 13,735. With regard to the working expenses Government have recently directed that, in lieu of charging a fixed rate for the water pumped through a meter, the Bijapur municipality should be called upon to pay in half yearly instalments the actual cost of running the water-supply installation up to the point where local distribution commences, and that these instalments should be in lump, subject to adjustment when the final accounts for the year, which are required to be audited, are ready. The total capital outlay on the water works at the end of the year amounted to Rs. 7,31,386. In the case of the Dharwar water works the income and expenditure amounted to Rs. 24,811 and Rs. 34,520, respectively. The installation is not self-supporting as it shows a deficit of Rs. 9,709. The proposals submitted by the Dharwar municipality for the revision of its water rates did not go far enough to meet the working expenses, and were therefore returned by the Commissioner for further modification. In Hubli the total revenue amounted to Rs. 39,444 and the expenditure to Rs. 37,892, showing a profit of Rs. 1,552 which, however, is illusory, as the expenditure does not include the amount of the instalment paid in repayment of the loan. The Commissioner should be requested to call upon the Hubli municipality to revise its water rate rules so as to make the installation self-supporting.

In Sind the revenue from water rates levied by the Hyderabad municipality rose from Rs. 46,000 to Rs. 53,000, the latter sum being made up of Rs. 49,000 direct receipts and Rs. 4,000 indirect receipts. The expenditure decreased from Rs. 86,000 to Rs. 80,000. The net result of the year's working is a loss of about Rs. 27,000. The Commissioner has, however, since the close of the year under review, sanctioned the enhancement of the rates for domestic and general water services with the object of making the water works self-supporting. The Sukkur municipality derived an income of Rs. 9,200 from the direct sale of water and Rs. 17,400 from indirect taxation, the latter sum including octroi receipts amounting to Rs. 7,600. The working expenses amounted, as in the preceding year, to Rs. 31,000, leaving a deficit of Rs. 4,400. The circumstances in which octroi receipts were credited to the water works revenue are being investigated by the Commissioner, as the procedure is contrary to the existing practice of making the water-supply installations pay for themselves.

21. *Drainage.*—The only municipality in the Northern Division which possesses a drainage system is Ahmedabad. Its expenditure under "Capital outlay" decreased by Rs. 5,401, while under "Establishment, repairs, etc." the expenditure showed an increase of Rs. 3,126. In the Central Division the decrease of Rs. 2,71,189 under the head "Capital outlay" is due to the absence from the accounts of the expenditure incurred by the Poona city municipality on its drainage works in the previous year. The increase of Rs. 38,144 under "Establishment, repairs, etc." is due to the entertainment of an additional establishment by the Poona city municipality for the management of house connections and the high and low level pumping stations transferred to that body for maintenance. In Sind, the Karachi municipality continued the work of extending the drainage system in Civil Lines and Frere Town Quarters, and expended Rs. 3,000 in reclaiming a site for the erection of latrines on the road to Kiamari. In Hyderabad, however, the expenditure fell off by Rs. 8,000 and in Shikarpur by Rs. 1,000. The Karachi municipality is chiefly responsible for the decrease of Rs. 5,857 under the head "Establishment, repairs, etc.", which is due to its having purchased coal in a smaller quantity than in the previous year.

22. *Conservancy.*—The total expenditure under this head during the year under report amounted to Rs. 14,82,772 as against Rs. 14,93,936 in the previous year. The resultant decrease, namely Rs. 11,164, is, however, only apparent, as the expenditure on account of the entertainment of health officers and sanitary inspectors, hitherto included under the head "Conservancy", has, in accordance with the instructions of Government, been shown separately in a column headed "Charges on account of health officers and sanitary inspectors". The total expenditure under this latter head amounted to Rs. 76,751 during the year under review. In the Northern Division, although almost all the municipalities except Ahmedabad incurred greater expenditure under this head, the opening of the

new column led to a nominal reduction of Rs. 11,595. The increase of expenditure in these municipalities is due to such causes as the construction of public latrines, the purchase of dust-bins and refuse carts, the employment of additional establishment and the revision of the pay of the existing conservancy establishment. The falling off in Ahmedabad is due to less expenditure having been incurred on the construction of new latrines and the purchase of land. In the Central Division all the districts except Satara and Sholapur shared in the increase of Rs. 33,400, which is due to causes similar to those assigned for the increase in the Northern Division. The increase of Rs. 4,200 in the Southern Division is contributed by the municipalities of Matheran, Alibag, Panvel, Gadag-Bettigeri, Bagalkot and Ratnagiri, and is generally attributed to the employment of additional establishment and to a rise in the pay of sweepers. In Sind the decrease of Rs. 34,000 in Karachi is, as observed above, chiefly explained by the fact that the charges on account of the entertainment of health officers, sanitary inspectors, etc., which were shown in past years under the head "Conservancy" are shown separately during the year under review. The reduction of Rs. 5,100 in Hyderabad is similarly explained. In Shikarpur the decrease of Rs. 11,000 is principally due to the fact that in the preceding year a new apparatus was purchased at a cost of Rs. 13,000. On the other hand, there occurred increases of Rs. 5,300 and Rs. 3,500 in Sukkur and Jacobabad, respectively. The reason why the Sukkur municipality, unlike other municipalities, does not levy a conservancy cess is being enquired into by the Commissioner.

In connection with the conservancy arrangements of municipalities the Commissioner, Northern Division, remarks: "As there did not exist in most of the municipalities satisfactory arrangements for the speedy and complete removal of all night-soil and rubbish from the vicinity of habitations and its disposal, the importance of which has been emphasised in a recent resolution of the Government of India, the Deputy Sanitary Commissioner was asked to work out a definite standard of sanitary appliances and conservancy establishment necessary for a town with a population of 10,000 souls. This has been forwarded to the Collectors in Gujarat, and they have been asked to advise the municipalities in their districts to set their towns in order by revising their arrangements in proportion to that standard." This action of the Commissioner commends itself to the Governor in Council, and he accordingly desires to bring it to the notice of the other Commissioners.

23. *Road expenditure.*—In the Northern Division the expenditure under this head declined from Rs. 2,71,000 to Rs. 2,32,000. The decrease of Rs. 39,000 is accounted for principally by the falling off in the expenditure of the Ahmedabad municipality due to the fact that the preceding year's figures were swelled by the purchase of a new steam road roller and by large disbursements on the maintenance and remetalling of roads, the acquisition of land for the Khadia Jalovali Naka Road and the paving of streets in *pols*. Broach spent Rs. 6,100 more on the construction and maintenance of roads and culverts, including the widening of streets, while Surat and Rander incurred an excess expenditure of Rs. 15,800 and 2,100, respectively, on the acquisition of land required for road improvements and on the construction of new metalled roads. The decrease of Rs. 41,700 in the Central Division is shared by all the districts except Satara. An increase of Rs. 5,200 in the Satara district is due to a larger outlay by certain municipalities on road repairs. In Sind the outlay on roads decreased by Rs. 1,67,000, of which Rs. 1,65,000 were shared by the Karachi municipality alone. The total outlay on roads in Karachi includes a sum of Rs. 35,000 invested by the municipality in fixed deposit from the current balances of the new Road Construction Fund. The actual decrease in expenditure in Karachi was therefore Rs. 2,00,000, and is attributed to the fact that the previous year's figures were inflated by a large expenditure on the Machi Miani improvement scheme. On the other hand, slight increases occurred in the municipalities of Jacobabad, Sukkur, Larkana and Bubak. In the last named municipality the increase is ascribed to the Government grant of the preceding year having been spent on the pavement of streets during the year under report.

Section 91A of the Bombay District Municipal Act, 1901, as amended by Bombay Act VIII of 1914, imposes upon municipalities the duty of prescribing

the regular line of every public street within their areas. In the Northern Division all the city municipalities except Nadiad are reported to have made some progress in this direction. In municipalities other than city municipalities no appreciable progress has been made. With regard to the municipalities in the Central Division, the Commissioner observes that the new provisions of section 91A have so far remained a dead letter and that he has desired the municipalities to attend to the duty prescribed by section 91A and then to proceed with their street widening schemes. In the Southern Division no action in this matter has been taken by any of the municipalities in the Dharwar, Belgaum and Ratnagiri Districts. The Bijapur municipality has entertained the services of a measurer circle inspector for the alignment of roads, while the Bagalkot municipality has determined the future line of public streets in the case of two roads. The Haliyal municipality has appointed a sub-committee for the purposes of section 91A of the Act. No information on the subject has been furnished by the Commissioner in Sind, who should be requested to notice in his future municipal administration reports the action taken by the several municipalities in this respect.

24. *Appropriation of wheel-tax and road tolls.*—In the Northern Division the municipalities of Jambusar, Bulsar, Bandra, Bassein and Gogha failed to comply with the rule that the whole of the proceeds of the wheel-tax and of road tolls should be expended on the maintenance of roads. In the preceding year the municipalities of Bulsar and Jambusar were called upon to submit to Government their explanation for the infringement of this rule. In the circumstances stated by these municipalities and in view of the recommendation made by the Commissioner, Northern Division, they were permitted to include the whole of the road watering expenditure in the road maintenance charges up to the financial year 1916-17. In the Southern Division the municipalities of Nipani, Athni, Gokak, Dharwar, Hubli, Nargund, Navalgund, Haveri, Bhatkal, Mahad and Vengurla were the principal offenders against the rule referred to. The explanation offered by the municipalities of Dharwar, Hubli, Nargund and Navalgund is that as the receipts exceeded the estimates, the whole amount could not be spent within the year, and that the balance was earmarked for expenditure on its legitimate object during the following year. The Nipani municipality states that the unspent balance has been appropriated for the construction of drains. In the case of Athni the unspent balance has been credited to a special fund for eventual expenditure on roads, while in the case of Gokak it is explained that owing to the prevalence of plague for more than six months the whole amount could not be utilised and that the balance would be spent in the succeeding year. The explanation given by the Haveri municipality is similar to that tendered in the preceding year, namely, that its financial position did not admit of the whole proceeds being spent on roads. The municipality has since revised its schedule of taxation and has given an assurance that there will be no occasion for the violation of the rule in future. The Vengurla municipality reports that the whole amount was not spent as it was not possible to execute the contemplated works for want of labour owing to the prevalence of plague. The municipalities of Bhatkal, Mahad and Vengurla have been called upon by the Commissioner to credit the unspent balances to a special fund for eventual expenditure on roads. The Gadag-Bettigeri municipality, which had failed to comply with the rule in the previous year, has reduced the balance of the fund from Rs. 8,258 to Rs. 3,084 after having spent on roads the whole of the proceeds realised during the year. With regard to the municipalities in Sind it is reported that they generally incur expenditure on the maintenance of roads far in excess of the revenue realised by them from the wheel-tax and tolls on roads, that the deficiency in one year is amply made up in the subsequent years, that they are fully alive to the advantages of good roads, and that their activities in this direction are only restrained by the state of their finances. No information on the subject has again been furnished regarding the municipalities in the Central Division. The Commissioner, Central Division, should be requested to embody the necessary particulars in his future municipal administration reports.

25. *Expenditure on buildings.*—In the Northern Division the expenditure under this head during the year under review amounted to Rs. 14,000 as against Rs. 46,000 in the preceding year. In the Central Division there occurred an

increase of Rs. 40,400, which was contributed by all the districts except West Khandesh. The Amalner municipality incurred an outlay of Rs. 21,000 on the erection of a Marathi school building, while the Alandi municipality spent Rs. 12,154 on the construction of a new dispensary building and an infectious diseases hospital. In the Southern Division the total outlay under this head amounted to Rs. 8,500 only as against Rs. 48,000 in the preceding year. The previous year's figures were, however, inflated by the incorrect inclusion of the Government grant of Rs. 34,500 spent by the Hubli municipality on the widening of streets, the opening out of congested areas and the provision of sites for town extension. In Sind the reduction of Rs. 1,64,000 in the expenditure under this head is explained by the absence of certain large works involving considerable outlay which were undertaken by the Karachi municipality in the previous year. The increase of Rs. 11,000 in Tatta is due to the expenditure incurred on the construction of the new Anglo-vernacular school building.

26. *Public instruction.*—The total cost of public instruction amounted to Rs. 16,40,000 as against Rs. 15,87,000 in the previous year. There were increases under this head of Rs. 14,900 and Rs. 55,300 in the Northern and Central Divisions, respectively, which were partly counterbalanced by decreases of Rs. 16,000 and Rs. 1,200 in Sind and the Southern Division, respectively. The increase in the Northern Division is generally ascribed to the grant of code pay to teachers, the entertainment of additional teachers on account of the increase in the number of pupils, the construction of buildings for an Anglo-vernacular school and the Lady Clarke Girls School at Kapadvanj and Godhra, respectively, and the extension of the buildings occupied by the main schools at Umreth and Dakor. In the Central Division the increase is shared by all the districts except Sholapur. It is mainly due to the refund by the Dhulia municipality of the building grant of Rs. 20,711 made by Government for Marathi and Urdu girls schools and to the payment by the same municipality of Rs. 13,924 to the Public Works Department for the erection of a building for the Marathi girls school. The enhancement of the salary of teachers in some of the municipalities in the East Khandesh District also constitutes one of the reasons for the increase. The decrease in Sind is attributed to the curtailment of building grants by Government owing to the existing financial situation.

27. *Closing balances.*—The result of the year's operations was a decrease of Rs. 12,70,000 in the total closing balance, which was shared by the Northern Division (Rs. 44,000), the Central Division (Rs. 4,54,000), the Southern Division (Rs. 1,15,000) and Sind (Rs. 6,57,000). The aggregate closing balance of the municipalities amounted to Rs. 41,47,000.

28. *Audit of accounts.*—The Accountant General's Local Audit Department audited the accounts of all the municipalities with the exception of Mehmabad and Mahudha in the Northern Division and a few minor municipalities in the Central Division. No serious irregularities were disclosed, except in the case of the municipalities of Saundatti-Yellamma, Karwar and Kotri. In the case of the first mentioned municipality the conduct of the municipal secretary is reported to be under enquiry. Owing to the suspicion of fraud in the accounts of the Karwar municipality for the year 1915-16, a detailed audit of the accounts for the year was carried out by the Local Audit Department. As a result, several instances of delay on the part of the municipal secretary in crediting to the treasury the revenue received from the collecting karkuns and in making payments of money drawn from the treasury were noticed. The matter was thoroughly investigated by the vice-president of the municipality, with the result that the services of the secretary were dispensed with and an employé of the Revenue Department was appointed in his place. In the Kotri municipality owing to a succession of incompetent secretaries the accounts had fallen into chaos. Steps are reported to have been taken to overhaul thoroughly the municipal machinery. At the special request of the Municipal Commissioner for the City of Ahmedabad, the Local Fund Audit Department conducted a detailed audit of the engineering accounts of the municipality and suggested various improvements in the system of keeping accounts.

The Governor in Council notes with regret the dilatoriness shown by some of the municipalities, in spite of the repeated orders of Government, in taking measures to remedy the irregularities and defects pointed out by the Local Audit

Department. With the increase of the popular element in local self-government and the gradual elimination of the nominated and official representatives, the annual audit will acquire a new degree of importance, and indeed it is quite possible that special legislation may be necessary to define the auditor's position and give him specific powers. In the meantime, the Collectors and their Assistants have been asked to see, as far as possible, that the defects brought to light by the auditors are remedied by the municipalities concerned in their districts and that the suggestions made receive prompt consideration. The Governor in Council trusts that the instructions hitherto given to the defaulting municipalities will have the effect of securing greater punctuality and more serious attention on the part of these bodies when dealing with the reports of the auditors.

It is gratifying to note the progress, though a very slow one, reported to have been made by municipalities in the Northern and Central Divisions in regard to the framing or the revision of rules and by-laws under sections 46 and 48, respectively, of the Bombay District Municipal Act, 1901. The reports, however, do not show whether any progress in this direction has been made by the defaulting municipalities in the Southern Division and Sind. The attention of the Commissioners concerned should once more be invited to paragraph 4 of Government Order no. 8805, dated the 16th November 1915, and they should be requested to see that every pressure is brought to bear on the defaulting municipalities in regard to their duty of framing or revising the rules and by-laws without further delay.

29. *Municipal needs.*—As usual, some of the most pressing and general needs of the municipalities in the Presidency are efficient water-supply, improved drainage, the opening up of congested and insanitary localities, good roads, hygienic school buildings, improved conservancy arrangements, municipal office buildings, dispensary buildings, markets, slaughter houses, etc. Hitherto, with the help of loans and liberal grants-in-aid from Government, some progress was made towards the attainment of a few of these objects. In view, however, of the existing financial situation, Government are not in a position to assist municipalities freely in financing their schemes.

Turning to the circumstances of individual municipalities, it may be observed that in the Northern Division the new bore sunk at Viramgam has proved a great success and has given the town a good water-supply, of which it stood in pressing need, and a scheme for the distribution of water to the town by pipes is under consideration. A similar bore is proposed to be sunk at Dholera. The Dholka water-supply scheme, the Ara-Valley scheme for the supply of water to Salsette and the Yeur scheme for supplying Thana with water are still under the consideration of the sanitary authorities. A revised project for the supply of water to Godhra is awaited from the Sanitary Engineer. Although during the year there was no trouble on account of salt tides reaching the water works of the Surat municipality, the water-supply was extremely unsatisfactory. The Collector of Surat has already been asked in Government Order no. 7529, dated the 13th November 1916, to communicate to the municipality the report of the Mechanical Engineer to Government on the water-supply and to invite the attention of that body to the views expressed by the Chief Engineer, Roads and Buildings, on the subject. The most crying need of Broach city is that of a water-supply. If the boring operations, which are reported to be in progress there, fail, the more ambitious scheme for bringing water from the river Narbada near Janore will have to be considered. In view of the prohibitive cost amounting to Rs. 33½ lakhs, the Surat municipality has postponed the consideration of the question of the provision of an underground drainage system and hygienic school buildings for the city. In view of the disclosure of serious irregularities in the water-supply and meter departments of the Bandra municipality, Government appointed Mr. R. A. Collett, Temporary Engineer in charge, Poona Water-Supply, to examine thoroughly the working of these departments and to suggest measures for placing them on a satisfactory footing. All the charges incidental to his appointment have been borne by Government. Mr. Collett's report has been received and is at present under the consideration of Government. In the Central Division the Lonavla water works are nearing completion, and a few

private connections have already been given. The Nasik water-supply scheme is also reported to have been completed. A revised scheme for the supply of water to Mahabaleshwar is under preparation. The progress of the other water-supply schemes in hand has been greatly hampered by the difficulty of obtaining machinery from England. In the Southern Division the water-supply schemes for the towns of Belgaum (including the cantonment), Nipani and Saundatti-Yellamma are under the consideration of the Sanitary Engineer. The Nipani municipality has already set apart Rs. 40,000 for the provision of water-supply, but in the case of the Belgaum municipality the execution of the water-supply scheme is likely to be delayed for some years for want of funds. The execution of the Matheran water-supply scheme, already approved by Government, has, for the present, been postponed. The Uran water-supply scheme is being further revised by the Sanitary Engineer with a view to reduce its cost, which was estimated at over Rs. 6 lakhs. In Sind, drainage schemes for the towns of Nawabshah and Sehwan have been approved, but their execution has been deferred pending the improvement of the existing financial situation. The Hyderabad water-supply is reported to be in urgent need of improvement.

The Town Planning Act has now been extended to the whole of the Poona municipal district. City survey operations are reported to be in progress in Shikarpur. As regards Karachi, the Collector points out the necessity for a resurvey of the city as a preliminary to the undertaking of a comprehensive town planning scheme. He has been separately asked to submit to Government proposals for the resurvey of the city.

In the opinion of Government no set of town improvement schemes can possibly do as much good as the enactment of properly considered building regulations and their strict enforcement. With a view to regulate the construction of buildings on hygienic principles, Government in 1914 called upon the larger municipalities in the Presidency to take into consideration the question of the incorporation in their building rules of the principles of the 63½° air plane and light plane rules. So far no progress in this direction is reported to have been made by any of the municipalities on account of their inability to follow the principles involved. In order, therefore, to enable municipalities to bring their building by-laws up to a satisfactory standard, model building by-laws suitable for these bodies are being drawn up.

30. *Grants for sanitary and town improvement schemes.*—In view of the financial situation created by the war, a provision of Rs. 5 lakhs only was made in the budget for the year 1915-16 under the head "24—Medical" to meet the absolutely necessary demands from local bodies for sanitary projects. This provision was subsequently supplemented by a sum of Rs. 50,000. The grants made are enumerated below:—

<i>Northern Division.</i>		Rs.
Original works in connection with the development of Salsette as a residential area	40,000
<i>Central Division.</i>		
Alandi water-supply scheme	1,34,760
Additional allotments for the Poona water-supply and drainage schemes	56,461
Additional allotment for the Karad water-supply scheme	30,000
Additional allotment for the Lonavla water-supply scheme	26,770
<i>Sind.</i>		
Filling in of the bed of the Lyari River	10,000
<i>Miscellaneous.</i>		
Purchase of boring tools and plant in connection with the improvement of water-supply	1,48,566
Total	4,46,557

In view of the financial stringency, a sum of Rs. 29,000 only was expended on original works in connection with the development of Salsette as a residential area, and the balance (Rs. 11,000) was surrendered to Government. The execution of the Alandi water-supply scheme referred to above has since been held in

abeyance, partly in view of the necessity for stringent economy and partly on account of the success which appeared to have attended the temporary water-supply arrangements made at the Kartiki fair. The grant-in-aid of Rs. 1,34,760 for the scheme has therefore been withdrawn. Arrangements have already been made to carry out, in lieu of the originally sanctioned scheme, a less costly one suggested by the Executive Engineer, Poona District, and the Sanitary Commissioner. A sum of Rs. 1,10,377 only was spent during the year on the purchase of boring tools and plant.

During the year under review an allotment of Rs. 1 lakh was placed at the disposal of the Sanitary Board, who have been authorised by Government to sanction sanitary projects which do not cost more than Rs. 20,000, and to make grants up to a limit of Rs. 10,000 for any single work. Out of this allotment, grants to the extent of Rs. 11,790 were given by the Board to certain municipalities for their sanitary works, and the balance was surrendered, partly on account of the existing financial situation and partly because many of the schemes before the Board were either incomplete or unsatisfactory. The sanctioned amount of Rs. 11,790 included a grant of Rs. 5,000 to the Roha-Ashtami municipality towards the cost of the work for channelling the stream through the town. As, however, the municipality failed to utilise the allotment before the 31st March 1917, it was called upon to refund the amount to Government.

31. *Remarks regarding the principal municipalities.—*

Ahmedabad.—Government are of opinion that there are few features in the record of the administration of the Ahmedabad municipality during the year under report on which it is possible to dwell with satisfaction. They note with regret that the new system, under which the Municipal Commissioner has become the executive officer of the municipality, is not working smoothly, but they trust that, as time goes on, the relations between the members of the municipality and the head of the municipal executive will become more harmonious and that the tendency to judge questions of public interest from a personal standpoint will become less marked. Ahmedabad is now, in wealth and population, the second city in the Presidency, and it is hoped that the efficiency of its municipal administration will be raised to a level more worthy of the importance and traditions of the city.

Surat.—Government notice with satisfaction that there has been an improvement in the financial condition of the Surat municipality since the appointment of a Municipal Commissioner for the city. The Commissioner, Northern Division, observes: "The year under report was one of considerable importance in the history of the Surat municipality. On June 1st, a Municipal Commissioner was appointed and took over many of the functions of the President and various committees. Transition periods are generally fraught with difficulty, and it says much for the good sense of all concerned that the change was made so smoothly. In particular, acknowledgments are due to Rao Bahadur Thakorram Kapilram, the President, who did everything in his power from the very first to make the way easy for the Municipal Commissioner, thereby displaying a somewhat rare and very commendable form of public spirit. The marked success of the first year's working under the new system is largely due to the influence of the President."

Broach.—This municipality is reported to have performed its functions with fair efficiency during the year under review. Rao Bahadur Motilal, its President, discharged his duties with tact and assiduity.

Bandra.—The administration of the Bandra municipality was reported to be unsatisfactory. With a view to improve its executive, Government have recently sanctioned the appointment of Mr. N. D. Mehta, District Deputy Collector, to be chief officer of the municipality for a period of two years. In view of the existing state of the municipal finances, and with the object of assisting the municipality in carrying on its administration efficiently with a more highly paid chief officer at the head of the executive, Government have sanctioned for a period of two years a special grant-in-aid to the municipality towards the cost of his entertainment. Government hope that with the assistance of Mr. Mehta the municipality will try its utmost to raise the administration to a higher level of efficiency.

Poona.—The Collector's report constitutes a serious indictment of the working of the Poona city municipality. The financial position of the municipality is

drifting into a serious state. As long ago as the year 1900 the municipality agreed to take steps to increase its income by raising taxation under various heads. Except with regard to octroi, this promise has not yet been fulfilled. Meanwhile, the municipality has incurred heavy liabilities in the matter of repayment of loans and maintenance charges for drainage and water works. Moreover, there are serious defects in the actual administration of the municipality. Notwithstanding the large number of meetings held, the actual outturn of work is small. Building by-laws, which were under discussion for a period of nearly eight years, are reported to have been only just passed. By-laws for regulating sanitation and drainage works are urgently needed but have not yet been framed. The octroi schedule urgently requires revision. The engineering department of the municipality, with an inexperienced head, is reported to be expensive. The condition of the roads and works maintained by the municipality is far from satisfactory. The municipal councillors have generally failed to realise the importance of the duties assigned to them. Party feeling runs high, debates are lengthy, but there is an entire failure on the part of the members to make anything like sustained efforts to improve the efficiency of the administration. The Commissioner recommends that Government should utilise the power vested in them by section 186A, sub-section (1) (a), of the Bombay District Municipal Act, 1901, and appoint a Municipal Commissioner for the City of Poona. In view, however, of the scarcity of competent officers arising out of the war, Government are at present unable to give effect to this recommendation, though they feel that, in view of the importance of the city and the necessity of improvement in its municipal administration, such an officer should be appointed as soon as normal conditions return. Government have had occasion elsewhere to comment on the administration of the municipality, and the Commissioner has, under their directions, conveyed a warning to the municipality that it should, before the end of the calendar year 1917, take effective steps to remedy the defects noticed above. The Governor in Council trusts that the admonition and instructions already given to the municipality will have the effect of securing improvement in its administration at an early date.

Ahmednagar.—This municipality is reported to have continued to show reasonable efficiency in its administration. It is fortunate in having a good president and is amenable to advice.

Sholapur.—This municipality is also reported to have continued to do good work. The Commissioner observes that the recent inspection by the Collector has revealed a certain amount of disorganization and slackness in the municipal office and in the ordinary administration. Now that the irregularity has been brought to light, it is hoped that efforts will be made to effect an improvement.

Karachi.—The Honourable Mr. Harchandrai Vishindas continued to preside with distinction over the affairs of the Karachi municipality.

Sukkur.—The Sukkur municipality spent another year of usefulness under the presidentship of the Honourable Khan Bahadur Pir Baksh, whose services in the interests of the public are deserving of acknowledgment.

32. *General Remarks.*—During the year under report the net income of the municipalities rose by about Rs. 1½ lakhs, and the ordinary expenditure by about Rs. 2½ lakhs. The rise in expenditure is a general evidence of the recognition by municipal bodies of a higher standard of comfort, convenience and sanitation now demanded of them. His Excellency the Governor in Council is pleased to observe that the record of the municipal administration during the year under review is, with a few exceptions, distinctly progressive and encouraging. The affairs of the municipalities have, generally speaking, been conducted with discretion and energy under the direct control of the non-official presidents, who have, as a body, shown that they realise the responsibility devolving on them for the efficient and smooth working of the municipal machinery. An increased interest in municipal affairs is also generally noticeable amongst councillors, notwithstanding the fact that the spirit of faction and self-interest is still in evidence here and there to the detriment of work and progress.

In 1908 Government announced that, as a general rule, two-thirds of the members of a district municipality which contained a population of not less than 15,000 should be elected, subject to any exclusions which might be recommended by the Commissioners, on special grounds. It was further laid down in 1909 that

city municipalities should be allowed a free hand in regard to the creation and filling up of the appointment of chief officer, subject to the control vested in Government by sections 177 and 182 of the Bombay District Municipal Act, 1901, and that in the case of municipalities other than city municipalities, to which the privilege of an extended elective franchise was conceded, the chief executive officer, whose employment was a condition to the concession, should be a Government servant. The Governor in Council has, however, very recently decided that one of the conditions hitherto attached to the grant of an extended elective-franchise to a municipality other than a city municipality, namely, that it should have a population of at least 15,000, should hereafter be disregarded. He has also decided that the other condition attached to the grant of an extended elective franchise to a municipality other than a city municipality, namely, that it should appoint a Government servant as its chief executive officer, need no longer be enforced so far as the appointment of a Government servant as chief executive officer is concerned. Accordingly in future the number of elective members on any municipality in the Presidency constituted under section 10 (1) of the Bombay District Municipal Act, 1901, and enjoying the privilege of selecting its president by a two-thirds majority shall not be less than two-thirds of the total number of its councillors, provided that the municipality complies with the conditions (i) that it appoints as its chief executive officer a person approved by Government, (ii) that it agrees to pay him a salary according to a scale laid down by Government, and (iii) that it delegates to him such powers as Government may from time to time prescribe. It has been further decided that if any such municipality desirous of enjoying the privilege of an extended elective franchise appoints of its own accord a Government servant as its chief executive officer on conditions (ii) and (iii) mentioned above, Government will be prepared to assist that body in defraying the expenditure involved by making a grant to it equivalent to his pension and leave contributions.

With a view to improve the sanitary services in urban areas, a scheme was prepared for the appointment of health officers and sanitary inspectors by municipalities having a minimum population of 20,000 souls. Under this scheme the Government of India bear half the cost of the entertainment of qualified health officers, while the Bombay Government bear one-third of the remaining cost in the case of health officers and the same proportion of the entire cost in the case of sanitary inspectors. The share of the cost devolving on the municipalities is thus one-third as regards health officers and two-thirds in the case of sanitary inspectors. It is gratifying to note that most of the municipalities concerned have availed themselves of this liberal assistance, and are at present entertaining the necessary sanitary staff. The Sanitary Commissioner has prepared a revised scheme embodying proposals for the regrouping of municipalities for the purpose of the appointment of health officers and sanitary inspectors. As this scheme involves considerable additional expenditure of a recurring nature, its consideration has been deferred pending the improvement of the existing financial situation.

It may be of interest to note that the question of granting loans to municipalities and building societies registered under the Co-operative Societies Act, 1912, for the encouragement of house building on approved sanitary lines was considered by this Government in 1914-15 in view of a suggestion conveyed in a resolution moved by the Honourable Rao Sahab V. S. Naik at a meeting of the Legislative Council. One of the proposals submitted to the Government of India on the subject was that whenever the state of the finances permitted, advances should be placed at the disposal of municipalities, under the Local Authorities Loans Act, to enable them to finance schemes for the erection of dwellings on the areas developed by them, such advances to be conditional on the adoption of a prescribed standard of sanitation in the construction of these buildings. In view, however, of the present financial situation, the Government of India have decided to defer the further consideration of this proposal; but they have suggested that it may be possible in the meantime for municipalities to undertake from their own resources the erection of a few selected model dwellings to serve as standards for private houses, and, further, to use such powers as they already possess to ensure the construction of dwellings within municipal limits on approved sanitary lines. In Government Order no. 4887, dated the 21st June 1915, the Governor in Council has already communicated to municipalities the suggestions made by the

Consulting Surveyor to Government for the improvement of the housing conditions in small towns and villages, and has impressed upon them the desirability of either themselves constructing or of assisting in the construction by private agency of inexpensive model dwellings on hygienic principles.

33. Copies of this Resolution should be submitted to the Secretary of State and the Government of India, and should be forwarded to all Commissioners and Collectors and to the other officers and departments concerned.

G. A. THOMAS,

Secretary to the Government of Bombay.

Abstract of Statement no. 1 accompanying the Review of the District Municipal Reports for the year 1915-16.

Number of municipalities constituted under the Bombay District Municipal Act, 1901	156
Population within municipal limits	23,67,323
Number of towns of which the municipal committees are appointed partly by election and partly by nomination	119
Number of towns of which the municipal committees are appointed by nomination only	37
Aggregate number of members of municipal committees—					
<i>Ex officio</i>	384
Nominated	801
Elected	999
Of the above—					
Officials	452
Non-officials	1,732
Europeans	108
Indians	2,076

* The closing balance of the Malegaon Municipality for the year 1914-15 was Rs. 52,541. The increase of Rs. 4,325 is due to the fact that the body had received a Government grant of Rs. 4,385 for the dispensary building for 1914-15, but it could not be shown in the preceding year's report as the intimation of it was received from the Accountant General so late as September 1915, the Municipality having submitted the report in June 1915. This sum has therefore been added to the opening balance of it for 1915-16.

* The President, Sirsi Municipality, reports that the figures given last year in column 5a of form III were not correct. They should have been 6,278 and not 6,283. The amount of Rs. 1,945 on account of additional Government grant for improvements to Pen Water Works was adjusted on 4th October 1915 as being received on 31st March 1915 by the Accountant General's No. Dep. 8-208, dated 27th September 1916. Hence the balance shown in the statement of the year 1914-15 is less by Rs. 1,945.

NOTE—In previous returns when the octroi system was in operation, the net imports were arrived at by deducting from the gross imports on which octroi was paid, the quantity again exported on which refund of octroi were paid. Such net imports represented local consumption and the consumption per head of the population could be shown in the returns.

From October 15th, 1915, the octroi system was abolished and the Terminal taxes substituted. Under the Terminal Taxes system, the gross and net imports are the same, but owing to subsequent export which the Municipal Returns do not show, the imports by no means represent local consumption, and this is particularly the case of Grains, Class I, Oil seeds under Class III, Wool, Hides and Skins under Class VII, and to a lesser degree Timber under Class IV and Tobacco Class VI.

The complete return, the figures showing the average consumption per head of population have been shown in the column provided, based on the other figures in the
