GOVERNMENT OF BOMBAY.

GENERAL DEPARTMENT.

Resolution no. P.—55.

Secretariat, Fort, Bombay.

Dated the 30th September 1921.

Read the reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the Municipalities in the Bombay Presidency for the year 1919-20.

RESOLUTION.—*Number of Municipalities and Notified Areas.*—The Bail-Hongal Notified Area in the Belgaum District and the Chalisgaon Notified Area in the East Khandesh District having been converted into Municipalities with effect from the 1st June, and 1st October 1919, respectively, the total number of Municipalities in the Presidency including Sind increased from 155 to 157, and the number of notified areas in the Presidency proper decreased from 36 to 34. Of the 14 Notified Areas in the Northern Division, eight exist merely for the control of buildings and have therefore no income to spend. The Hyderabad and Vambori Municipalities, which had been superseded, were restored during the year.

2. *Changes in the Population and Boundaries.*—The population resident in the municipal districts increased by about 6,200. There was an increase of 15,000 in the Central and Southern Divisions owing to the addition of Chalisgaon and Bail-Hongal to the list of Municipalities, which was counterbalanced by a decrease of 7,500 in the Northern Division due to the abolition of the Kelva-Mahim Municipality. The limits of the Ahmedabad Municipality were extended so as to include the additional area within the town planning scheme. The limits of the Poona City Municipality were also extended, but those of the Karwar Municipality were curtailed from 10½ square miles to 5½ square miles.

3. *Municipal Elections.*—In the Northern Division triennial elections were held in the Municipalities of Prantij, Dhandhuka, Sanand, Kapadwanj, Broach, Rander, Thana, Kalyan, and Kurla. In the first four, the competition appeared not to be at all keen. One noticeable feature in the election of the Rander Municipality was that a member of a depressed class stood for election and though he failed he was able to secure 64 votes; he was afterwards nominated as a councillor. In the Central Division elections were held in the Municipalities of Nasik, Malegaon, Sinnar, Igatpuri, Khed, Sholapur and Barsi. In the last two they were especially hotly contested. In the Sholapur elections four councillors were disqualified under section 22 (3) (a) of the Bombay District Municipality Act, 1901. The terms of office of the Municipalities of Sirur in the Poona District and of Karad in the Satara District were extended up to the 31st July and 31st March 1920, respectively, to enable them to conduct their elections under revised election rules. In the Southern Division elections were held at Belgaum, Gokak, Bail-Hongal, Bagalkot, Ilkal, Guledgd, Dharwar, Kamta, Alibag, Mahad, Pen, Panvel, Roha Ashtami and Uran. The elections at Belgaum, Gokak and Dharwar were keenly contested, the percentage of votes recorded being 69, 76 and 74, respectively. Four civil suits were filed to contest the legality of the elections in Belgaum but were withdrawn. In Bagalkot a civil suit was filed and the District Court directed the Municipality to select by lot one of the two candidates. In Sind the terms of the Municipalities of Hala, Tando Allahyar, Matari and Tando Mahomedkhan were extended with a view to the introduction of an elective franchise.

4. *Constitution of Municipalities.*—In the Northern Division the Municipalities of Viramgam, Kapadvanj, Godhra, Kalyan and Kurla were granted an extended elective franchise, the number of councillors being increased from 16 to 18, 14 to 15, 16 to 18, 14 to 18 and 12 to 18, respectively. This increase of 15 councillors was counterbalanced by a decrease of 16 councillors of the abolished Kelva-Mahim Municipality, the total number of councillors in the Division being 519 as against 520 in the preceding year. In the Central Division the total number of councillors rose from 819 to 847. Six Municipalities in West Khandesh and 5 in East Khandesh began a new term of office with two-thirds elective franchise from the 1st April 1919. The hill station Municipality of Lonavla in the Poona District and the Municipalities of Rahimatpur, Mhaswad, Tasgaon, Islampur, Ashta and Vita in the Satara District were also reconstituted with a two-thirds elective franchise. In the Southern Division the total number of councillors increased from 520 to 536. The new Municipality at Bail-Hongal and the reconstitution of the Nargund and Byadgi Municipalities with a two-thirds elective franchise led to an increase of 18 but there was a decrease of 2 owing to the reconstitution of Saundatti-Yellamma with similar franchise. In Sind, the total number of municipal councillors at the end of the year was 409 as against 363 during the previous year. Of the increase of 46, the restoration of the Hyderabad Municipality is responsible for 45, while the remaining one is due to an increase of 2 councillors in the Mirpurkhas Municipality counterbalanced by a decrease of one councillor in the Jacobabad Municipality on the introduction of an elective franchise in those Municipalities. The reconstituted Municipality of Hyderabad contains a two-thirds elective element and is based on communal representation. The Municipalities of Mirpurkhas, Jacobabad, Tatta and Tando Adam were reconstituted with a two-thirds elective franchise and with communal representation.

5. *Attendance at Municipal Meetings.*—There was an appreciable increase in the total number of meetings in all the Divisions, the number in the Northern Division having increased from 804 to 942, that in the Central Division from 963 to 1,016, and that in the Southern Division from 780 to 803. In the Northern Division the percentages of attendance of officials declined from 44.10 to 41.28 and of non-officials from 65.28 to 64.17. The Central Division showed a slight improvement in this respect as the percentage of attendance increased from 48.22 to 50.7 and 61.54 to 62.76, respectively. In the Southern Division the average percentage of attendance of officials was 40.3 as against 42.1 and that of officials 59.3 as against 58.8. In Sind, the attendance of councillors was reported to be on the whole satisfactory.

6. *Changes in the system of Taxation.*—The changes which the system of taxation underwent during the year under report are noticed below. A Sanitary cess was introduced in the Municipalities of Dholka, Kaira, Mahudha, Karad, Saswad, Athni and Guledgud. The Municipalities of Dakor, Belgaum, Parnel and Dhulia revised their schedules of special sanitary cess. The last mentioned Municipality also revised its general sanitary cess. The Kalyan Municipality substituted a general sanitary cess for the old cess-pool or moritax and also changed its system of levying the special sanitary cess. The Poona City and Karmala Municipalities revised their conservancy cess. The Belgaum Municipality enhanced the non-privy cess, which was also brought into force by the Poona City and Ahmednagar Municipalities. The Poona City Municipality levied a new tax called the drainage and cess-pool tax from the 1st October 1919. In Karwar the levy of general conservancy tax which had been introduced in the previous year was suspended on a complaint from the people, pending the construction of public latrines. The Hyderabad Municipality abolished the halalkore cess which was being levied only in one quarter of the town. The halalkore cess schedule was revised in Shikarpur and Garhi Yasin Municipalities, and the latter Municipality also imposed a house tax. The Municipalities of Karachi, Mehmedabad, Borsad, Ankleshwar, Khed, Dhulia, Karmala, Nandurbar, Taloda, Sindkheda, Shahada, Gokak, Hubli and Halyal revised their house tax schedules. The rate of house tax in Karachi was increased from 3 per cent. to 7 per cent. with a further increase of 4 per cent. for one year only, making altogether 11 per cent. with effect from

the 1st April 1920. A toll tax was introduced in Modasa and a wheel tax in Shirpur and Athni; Tasgaon and Karmala introduced both the wheel and toll taxes. The Godhra, Athni and Bagalkot Municipalities revised their toll tax schedules and Ankleshwar, Godhra, Poona City, Dhulia, Satara City, Ratnagiri, Karachi, Shikarpur and Rohri their wheel tax schedules. The Nipani Municipality introduced octroi and those of Kalyan, Bassein, Athni, Gokak, Guledgud, Karwar, Haliyal, Bhatkal, Hala, Matiyari, Tando Allahyar, Bubak, Shahadadpur and Tando Adam revised their octroi schedules. The Market fee rules were revised in Bassein and Sangamner. In Kurla the spindle tax was abolished and a 40 per cent. house tax on annual rental value was imposed. The Dharangaon, Garhi Yasin and Mirpurkhas Municipalities introduced a terminal tax and Jacobabad revised its terminal tax schedule. In Mirpurkhas a terminal tax on the export of ginned cotton at the rate of 1 anna per maund was levied, the collection being made through the railway authorities. In Bandra green grass, firewood and hay not pressed in bales were exempted from the terminal tax, and the tax on live stock was slightly increased. The cotton manufacturing tax was abolished by the Jalgaon Municipality. Taxes on foot boards and road-side open spaces were brought into force by the Poona City Municipality from the 1st October 1919. Karmala imposed a new tax for levying fees from persons occupying public streets on weekly market days. Mhaswad levied fees on sale certificates of cattle sold at the Nath and Nagoba fairs.

7. *Municipal Income.*—A considerable increase was recorded in the aggregate gross income of the Municipalities which amounted to Rs. 182 lakhs as against Rs. 158 lakhs in the preceding year. Deducting the receipts under "Extraordinary and Debt" the net income amounted to Rs. 149 lakhs as against the previous year's total of 124 lakhs. The following table shows the fluctuations under the principal heads of income:—

	1919-20.	1918-19.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes:—				
(a) Octroi (net receipts, i. e., deducting refunds) and terminal tax	84.98	84.08	90	...
(b) Taxes on houses and lands	14.67	12.54	2.13	...
(c) Water tax	17.99	16.01	1.98	...
2. Revenue derived from municipal property and powers other than those of taxation	21.61	22.19	...	58
3. Grants and contributions for general and special purposes	21.85	18.04	8.81	...
4. Extraordinary and debt	88.15	88.49	...	34

8. *Octroi and Terminal Tax.*—Under this head there was an increase of Rs. 1,25,000 in the Presidency proper, which was counterbalanced by a decrease of Rs. 35,000 in Sind. The Northern, Central and Southern Divisions were each responsible for an increase of Rs. 23,000, Rs. 57,000 and Rs. 45,000, respectively. In the Northern Division there was a decrease of about Rs. 24,000 in the terminal tax of the Ahmedabad Municipality owing to the sudden outbreak of influenza and the abnormal prices which reduced the bulk of imports. The revenue from octroi increased in Surat, where the monsoon was more favourable, by Rs. 28,323 owing principally to the larger receipts from octroi on grain, timber and cloth. In the Kaira and Broach Districts again octroi realizations decreased, imports of commodities being reduced owing to the bad monsoon of 1918, and to restrictions on transport facilities under the control of food grains. In the Thana District all the municipalities reported large increases in octroi revenue. The increase of Rs. 57,000 under this head in the Central Division has not been explained. In the Southern Division all the districts except Bijapur have contributed to the increase of Rs. 45,000. In Nipani there was an increase of Rs. 5,307 due to the favourable tobacco season. In Athni, Guledgud and Byadgi receipts increased respectively by Rs. 3,698, 3,022 and 3,474 owing to the revision of the octroi schedules. Dharwar showed an increase of Rs. 9,437, but refunds amounting to Rs. 4,848 were pending.

Malwan showed an increase of Rs. 10,934, mainly owing to closer supervision. Municipalities in Kanara showed an increase of Rs. 14,380, mainly due to imports of Burma rice. The receipts fell in Belgaum (Rs. 3,203), Bijapur (Rs. 6,601) and Bagalkot (Rs. 2,655) owing to smaller imports and in Hubli (Rs. 3,171) owing to the payment of refunds. In Sind, the receipts of the Karachi Municipality under this head fell by Rs. 1,49,000. The causes assigned for this were the failure of the monsoon, the restrictions on the booking of food grains from up-country and the exemption from taxation of large quantities of goods imported either by Government or by contractors on behalf of Government. The Hyderabad Municipality showed a further increase of Rs. 25,000 due principally to the rise in the price of cloth and other articles on which *ad valorem* rates are charged. The increase of Rs. 7,000 in Mirpurkhas was due to large realizations from the tax on the export of cotton; that of Rs. 8,500 in Tando Adam, to the revision of the octroi schedule and to the rise in the price of cloth; and that of Rs. 12,000 in Jacobabad, to the extension of the terminal tax schedule. The increase of Rs. 11,500 in the income of municipalities of the Larkana District is attributed to the excellent character of the inundation and the consequent good crops resulting in larger imports into municipal limits.

9. *Taxes on Houses and Lands.*—The increase of Rs. 2,13,000 under this head was general throughout the Presidency including Sind and was mainly attributable to the revision of the house tax schedules and better recovery of past arrears. The Northern, Central and Southern Divisions contributed increases of Rs. 35,000, Rs. 18,000 and Rs. 10,000 respectively and Sind Rs. 1,50,000. In Sind the Karachi Municipality alone was responsible for an increase of Rs. 1,45,000 which was due to the recovery of arrears of house tax on Port Trust properties and the revision of assessment in some quarters of the city. The shortage of funds of which many Municipalities complain is frequently due in part to their failure to re-value house property for assessment purposes at the rates now prevailing.

10. *Water Rate.*—There were increases of Rs. 1,28,000, Rs. 85,000 and Rs. 10,000 under this head in the Northern, Central and Southern Divisions, counterbalanced by a decrease of Rs. 26,000 in Sind. The increase in the Central Division consisted mostly of arrears recovered in the Sholapur and Karad Municipalities and that in the Southern Division was due chiefly to the revisions of water rates in Bijapur, Dharwar and Panvel. Karachi was responsible for the decrease in Sind, the bills of the Railway and Military Departments for the months of February and March having remained unpaid up to the close of the year.

11. *Recovery of Municipal Dues.*—In the Northern Division the Ahmedabad Municipality showed better results than last year in the matter of recovering its dues. Virangam had the largest arrears of house tax. Nadiad has shown some activity in the recovery of house tax and sanitary cess. Anand and Dohad showed a clean slate as regards arrears. Godhra is again a defaulter in this respect and showed more arrears than in the last year. The Collector of Broach reports "The collection of taxes was not carried on with sufficient promptitude at Broach where there are in consequence large arrears of wheel tax. In this connection the President of the Broach Municipality has made a novel suggestion that the police should co-operate by refusing to renew the license of conveyances for which there are arrears of tax due." The Surat Municipality showed larger arrears of all taxes, especially wheel tax, than in the last year, although considerable remissions were granted in respect of house tax, water rate and conservancy tax. In the Thana District the principal outstanding are under house tax in all the municipalities, water rate in Thana, Kurla and Bandra, and conservancy in Thana, Kurla, Kalyan and Bandra. In the Bandra Municipality the arrears of land tax and house tax amounted, respectively, to Rs. 29,270, and Rs. 10,101. In this connection the Collector states "the latter are due to the fact that agricultural huts which were assessed have been removed and owners are not traceable and the former (*i. e.*, the land tax) also to the difficulty experienced in tracing the ownership. The Municipality has now divided the whole area into wards and assigned each to one bill collector with a sliding scale of commission. The result will be watched".

In the Central Division out of a total demand of roughly 12 lakhs there were non-collected arrears outstanding at the end of the year of Rs. 1,60,000, i.e., about 13 per cent. These outstandings were due to neglect in a small number of municipalities, the worst offenders being Poona (18 per cent.), Lonavla (26 per cent.), (Karad 51 per cent.), Sholapur (10 per cent.), Ahmednagar (10 per cent.), Dharangaon (15 per cent.), Sindkheda (90 per cent.) and Malegaon (36 per cent.). Roughly half the total amount of arrears were on account of house tax. In the Southern Division the Municipalities of Belgaum, Bijapur and Dharwar are again responsible for the bulk of arrears. The arrears in Bijapur amounted to Rs. 11,000—the largest arrears in the Division. The reasons assigned are (i) that the house tax demand could not be fixed earlier than November owing to numerous appeals against revised rates remaining undecided and (ii) that the collection staff was employed on the preparation of the electoral roll. The Municipality has been asked to clear off the arrears. The other municipalities which showed high percentages of arrears were Athni (44 per cent.), Bail Hongal (43 per cent.), Byadgi (35 per cent.) and Mahad (29 per cent.). The arrears of Bagalkot, Guledgud, Ranebennur, Ratnagiri, Chiplun, Kumta and Haliyal are very small, while Ilkal, Honavar, Bhatkal, Gokarn and Ulvi showed a clean sheet. The Commissioner has pointed out to the municipalities in the Southern Division that a collection karkun on a pay of Rs. 15 cannot collect taxes, and that to strike at the root of the evil they must strengthen their collection staff and that in the smaller municipalities the secretaries should assist in collections.

In Sind, the total outstandings amounted to Rs. 1,07,000 as against Rs. 74,000 for the preceding year. The arrears against Karachi were in the main due to the bills for February and March remaining unrecovered at the close of the year. Of the arrears at Shikarpur, Rs. 2,800 have been recovered since the close of the year, while Rs. 4,500 are reported to be irrecoverable. In Sukkur also arrears amounting to Rs. 1,150 have since been recovered.

12. *Revenue Derived from Municipal Property.*—In the Northern Division the revenue under this head (Rs. 4,77,000) remained almost the same as in the previous year. In the Central and Southern Divisions there were increases of Rs. 58,000 and Rs. 89,000, respectively. Sind, however, showed the very considerable decrease of Rs. 2,05,000, which is caused by a decrease of Rs. 3,50,000 in the Hyderabad Municipality due to the sale during the preceding year of an unusually large number of plots, counterbalanced by an increase of Rs. 1,38,000 to the credit of the Karachi Municipality, where after the Municipality had passed a new rule restricting the time limit for the construction of buildings on newly leased plots, the sale of lands was resumed.

13. *Grants and Contributions for General and Special Purposes.*—The receipts under this head, which chiefly consist of grants made by Government to Municipalities for the improvement of water supply and drainage, for the opening up of congested areas and for educational purposes, increased from Rs. 13,04,000 to Rs. 21,35,000. The increases in the Northern and Central Divisions and Sind amounted to Rs. 3,14,000, Rs. 1,98,000 and Rs. 3,24,000, respectively. The Southern Division showed a small decrease of Rs. 5,000. The increase in Sind is accounted for by Government grants to the Hyderabad Municipality of Rs. 2,10,000 made up of Rs. 1,75,000 for the Hyderabad Water Works Improvement Scheme and Rs. 37,000 for the filling of tank no. 2 and the Doman Wah hollows, and to the Sehwan Municipality of Rs. 72,000 for the entire cost of the Sehwan Drainage Scheme. Grants from Government for educational purposes increased from Rs. 7,89,400 to Rs. 13,45,602. This increase was due to the enhanced grants equal to one-half of the total expenditure on education, including the time-scale pay and war allowances to school teachers. In the Northern Division the Ahmedabad Municipality alone received from Government Rs. 4 lakhs for school buildings and Rs. 15,259 for other educational purposes. The Shikarpur Municipality received contributions of Rs. 12,500 and Rs. 5,000 from Seths Tirithdas Teekchund and Chellasing Satramsing, respectively, towards the construction of the Hathi Gate Dispensary and the Central Hospital.

14. *Nature of Income and Incidence per Head of Population.*—Of the aggregate income of the Municipalities, Rs. 84,92,000 were realised from municipal rates and taxes, as compared with Rs. 77,37,000 in the preceding year, direct taxation yielding Rs. 49,94,000 or 58·8 per cent. and indirect taxation Rs. 34,98,000 or 41·2 per cent. of the total. The corresponding percentages in the previous year were 55·95 and 44·05, respectively. The average incidence of taxation per head of population increased from Rs. 3-4-1 to Rs. 3-9-1 and that of income from Rs. 5-3-5 to Rs. 6-4-4; that is to say, the Municipalities raised 5 annas per head more than before, and received, mainly from Government, 12 annas per head more than before.

15. *Working of the Octroi System.*—In the Northern Division the percentage of refunds to gross collections from octroi was reduced to 7·5 per cent. as against 9 per cent. in the previous year, while in the Central and Southern Divisions it was practically the same as in the preceding year, viz., 8·8 and 8·6, respectively. In the Northern Division a very high ratio was reached in Broach, viz., 30·3 as compared with 25·9 in the preceding year. The percentages in Thana and Kalyan declined to 5·8 and 6·7, respectively, as compared with 30·6 and 44 last year. In Bhiwadi the percentage rose from 20·8 to 21·4; this was due to an appreciable increase in the net receipts due to revised octroi rates. In the Ahmedabad District refunds were negligible in the case of octroi-levying municipalities. In the Southern Division the Hubli Municipality under continuous pressure paid off its octroi refunds of the past few years amounting to over Rs. 20,000. Government have, however, recently sanctioned the abolition of octroi here and the imposition of a terminal tax in its place. In Dharwar no refunds were granted and 866 applications, which remained pending, are being investigated by a special committee. Refunds in Sirsi fell from 40 per cent. to 26 per cent. The only other municipality in Kanara which showed a high percentage of refund (25 per cent.) was Honavar. In Kumta there were 2,184 applications for refund at the close of the year as against 1,962. The Municipality has, however, under continuous pressure disposed of all applications presented last year and as it cannot work its refunds satisfactorily it has agreed at the request of the Commissioner to levy a terminal tax. In Sind certain Municipalities revised their octroi schedules with a view to greater simplicity and facility of calculation.

16. *Terminal Taxation.*—The introduction of the system of terminal taxation was in the first instance sanctioned as a tentative measure in the Municipalities of Ahmedabad, Bandra, Nadiad, Ankleshwar, Umreth, Mehmedabad, Prantij and Anand in the Northern Division; Jalgaon, Dhulia, Raver, Dharangaon and Amalner in the Central Division; Roha Ashtami and Vengurla in the Southern Division; and Karachi, Sukkur, Jacobabad, Larkhana and Umarnkot in Sind. In all these Municipalities the new system having been found on the whole to have worked satisfactorily, Government have decided that it should be introduced as a permanent measure in those Municipalities in which it has already been tried as well as in other Municipalities in which local conditions are favourable for its introduction and which may desire to adopt it. It has since been introduced also in the Municipalities of Mehmedabad, Hubli and Ahmednagar in the Presidency proper and in those of Garhi-Yasin, Mirpurkhas and Shikarpur in Sind.

17. *Expenditure.*—The total expenditure of the Municipalities during the year under report was 179 lakhs as compared with 156 lakhs in the preceding year. Excluding the item of "Extraordinary and Debt" the expenditure amounted to Rs. 147 lakhs as against Rs. 117 lakhs in the previous year. The increase in the ordinary expenditure was therefore 30 lakhs. The following table indicates the fluctuations under the principal heads of expenditure:—

	1919-20.	1918-19.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. General administration and collection charges.	19,86	12,36	1,50
2. Public health and conveniences ...	71,16	58,84	12,32
3. Public instruction ...	26,69	21,72	4,97
4. Extraordinary and debt ...	81,41	39,07	7,66

18. *General Administration.*—The increase of Rs. 1,50,000 under this head was shared by all the Divisions and Sind, being Rs. 36,000 in the Northern Division, Rs. 39,000 in the Central Division, Rs. 2,000 in the Southern Division and Rs. 73,000 in Sind, and was mainly due to the payment of war and grain compensation allowances to establishments.

19. *Public health and convenience.*—There were increases of Rs. 2,20,000, Rs. 4,35,000, Rs. 53,000 and Rs. 5,24,000 under this head in the Northern, Central, Southern Divisions and in Sind respectively.

20. *Water supply.*—In the Northern Division the expenditure under "Capital outlay" decreased by Rs. 6,700 but that under "Establishment, repairs, etc." increased by Rs. 1,30,000. Out of this latter amount the Ahmedabad Municipality is alone responsible for about Rs. 1 lakh which is chiefly attributed to the adjustment of outstanding bills of the previous year relating to the consumption of coal and enhanced rates for the materials required for water works repairs. The increase of about Rs. 4,000 in the Surat Municipality under "Establishment, repairs, etc." is accounted for by the expenditure incurred on the payment of war allowance to the water supply establishment and that of Rs. 15,000 in the Thana Municipality to the payment of the water rate bill for Tansa water supplied by the Bombay Municipality. In the Central Division the increase of Rs. 2,43,000 in the "Capital outlay" on water supply was due to the expenditure incurred on water by the Municipalities of Sholapur, Trimbak and Ahmednagar. In the Southern Division the increase of Rs. 10,000 in Dharwar under "Establishment, repairs, etc." was due to higher cost of fuel. In Sind, the Karachi Municipality was almost wholly responsible for the increase (Rs. 53,000) under "Capital outlay" as it incurred larger expenditure on the Dumlotte extension works and the laying of mains along roads. The Hyderabad Municipality recorded a decrease of Rs. 25,000 due to smaller expenditure on the Water Works Improvement Scheme. Under "Establishment, repairs, etc." the expenditure in Sind decreased by Rs. 11,000. A decrease of Rs. 30,000 occurred in the Karachi Municipality, less money being spent on pumping owing to the comparatively heavy rainfall during the year under report. On the other hand, there was an increase of Rs. 16,400 in the Hyderabad Municipality due principally to special repairs to the old pumping plant, purchase of spare pipes and a weigh-bridge and the construction of a new public standpost.

21. *Financial working of water supply installations.*—The figures given under this head in previous reports have been found on examination to be largely illusory owing to the practice adopted in many municipalities of crediting to the water supply fund income derived from other sources of revenue. The effect has been to show that the water supply installations were working at a profit in many municipal towns in which in fact they were working at a very considerable loss to the general tax-payer. These figures, therefore, concealed the fact that in many cases the owners of houses with private water connections, usually of course comparatively well-to-do people, were getting their water at less than its real cost to the Municipality; in other words, the richer classes were getting their private water supplies partly at the expense of the poorer classes. The question of amending the forms for water supply accounts maintained by the Municipalities in such a manner as to exhibit the true position is engaging the attention of Government, and when the correct facts have thus been made apparent it will be for the Municipalities concerned to revise their rates in such a way as to be fair to all classes.

22. *Drainage.*—The only Municipality in the Northern Division which possesses a drainage system is Ahmedabad. Its expenditure showed a decrease of Rs. 1,300 under "Capital outlay" and of Rs. 20,000 under "Establishment, repairs, etc." In the Central Division under "Capital outlay" there was an increase of Rs. 45,000 and under "Establishment, repairs, etc." of Rs. 31,000. Towards these increases the Poona City Municipality contributed Rs. 5,000 and 25,000 respectively. In the Southern Division there was an increase of Rs. 6,000 under "Capital outlay" due to the construction of Haveri Peth Gutter by the Dharwar Municipality. In Sind, under "Capital outlay" the Karachi Municipality incurred an expenditure of Rs. 30,000 of which Rs. 22,000 were

spent on additions and alterations to the sewage main ejector, Rs. 5,400 on building quarters and a compound wall for ejector inspectors, and Rs. 2,700 on engine-hose alterations.

23. *Conservancy.*—The total expenditure under this head during the year under report amounted to Rs. 22,05,000 as against Rs. 19,02,000 in the previous year, thus showing an increase of Rs. 3,03,000. The Northern and Central Divisions contributed Rs. 83,000 each and the Southern Division and Sind Rs. 14,000 and Rs. 1,23,000, respectively. In the Northern, Central and Southern Divisions the increase was shared by most of the Municipalities and was due to increased equipment, the payment of increased salaries and war allowances to the conservancy staff and to the high cost of feeding the bullocks maintained for the purpose of conservancy. In Sind, out of the increase of Rs. 1,23,000 under this head the Karachi Municipality was responsible for Rs. 37,500, chiefly due to the high prices of fodder and materials and to the employment of additional sweepers. The Hyderabad Municipality was responsible for an increase of Rs. 6,000 due to the grant to the staff of arrears of war allowance, the construction of a night-soil sub-depot, and the provision of a hydrant for washing conservancy carts. The increase of Rs. 46,000 in the municipalities in the Sukkur District was due to the grant of war allowance to the establishment, increased rates of payment for refuse carts, purchase of conservancy and road watering carts and increased cost of repairs.

24. *Road Expenditure.*—In the Northern and Central Divisions and in Sind the expenditure under this head rose by Rs. 18,000, Rs. 6,000 and Rs. 1,67,000, respectively; the Southern Division recorded a slight fall of Rs. 3,000. In Sind, the Karachi Municipality alone showed an increase of Rs. 1,12,000 due to increased expenditure on the acquisition of land and the re-metalling and construction of roads. An increase of Rs. 56,000 occurred in the Ratodero and Sehwan Municipalities of the Larkana District. In the former Municipality the increase was due to the fact that formerly the expenditure was shown under the head "Buildings"; at Sehwan the expenditure was incurred on raising the level of streets. The Hyderabad Municipality also recorded an increase of Rs. 4,500 due to increased expenditure on the acquisition of land. The expenditure on road construction and repairs was less owing to the fact that the steam roller ordered from England to replace the old one taken over in February 1919 by the Munitions Board did not arrive till January 1920. The increase of Rs. 4,500 in the Mirpurkhas Municipality was almost entirely due to the metalling of the Tando Allahyar road and repairs to the Robertson Bazar and Mir Wah road. There was also an increase of Rs. 2,000 in the expenditure of the Jacobabad Municipality. As a set off there were decreases of expenditure of Rs. 1,450 in the Kotri Municipality due to fewer repairs being carried out, and of Rs. 10,000 in the Sukkur Municipality due to less being expended on the acquisition of land for road improvements.

Section 91-A of the Bombay District Municipal Act, 1901, as amended by Bombay Act VIII of 1914, imposes upon municipalities the duty of prescribing a regular line for public streets. In the Northern Division no progress was made by the Municipalities in the Ahmedabad and Panch Mahals Districts. In the Kaira District, Nadiad has so far taken no step in the matter except to appoint a Committee to consider it. Dakor and Kapadvanj have made some progress. In the latter Municipality regular lines for public roads have been laid down and the question of the width of the road from Antisaria Gate to Kadia's Masjid has been finally decided. Anand has also done some work in this direction. In Mehmedabad the work is entrusted to a committee and is in progress. Borsad, Umreth and Ankleshwar are awaiting the city survey maps before taking up the work. The Broach Municipality has sanctioned an alignment of $4\frac{1}{4}$ miles during the year. In the Thana District, Bandra, Kalyan and Thana have done some work, while Bhiwndi has appointed a committee to formulate proposals. In the Central Division, the Collector of Ahmednagar reports that action is being taken by all the Municipalities in his district. The Sangamner Municipality has fixed the lines of the roads and is awaiting the introduction of a city survey. The Vambori Municipality's consideration of this subject has already led to the introduction of a city survey. In the Nasik District, the Yeola Municipality fixed the regular line for one road during

the year. The Trimbak Municipality has laid down the regular line of public streets and improvements are proposed and undertaken gradually as funds permit. In the Poona District, the lines of 26 public streets within the Poona city municipal limits have been fixed and the work of the remaining streets is in progress. The Baramati, Junnar and Jalgaon Municipalities and those of Satara (Suburban), Mahableshwar and Wai in the Satara District have completed the work of laying out the regular line. The work is in progress in the Satara City Municipality. The Sholapur Municipality has made some progress in aligning two more streets and the Barsi Municipality has completed this work in nearly half the town. In Pandharpur, the Pradakshina road and nine other roads have been measured and maps prepared; the lines of the Pradakshina road and five other roads have been proposed and marked out on the maps and the Municipality has sanctioned a proposal to improve the Pradakshina road. In West Khandesh, the Dhulia Municipality has almost completed the work so far as the new town is concerned. In Nandurbar objections to the proposed lines are under consideration. In the Southern Division three streets were aligned in Saundatti-Yellamma. The Nipani Municipality has called for the advice of the Consulting Surveyor to Government on the subject of extensions and alterations in the town. In Bagalkot regular lines for twenty-two streets were determined. The Guledgud Municipality is preparing a map for the purpose. Matheran has aligned all its streets. Malvan has prescribed a regular line and engaged a competent measurer. Ratnagiri has measured its roads and in Chiplun a Circle Inspector is making a survey. Concerning Sind, the Commissioner reports that the fact that most of the municipal towns were not surveyed prevented compliance with the provision of section 96-A. In Karachi the resurvey of the city is in progress and its completion is awaited before the lines of the existing streets are prescribed. The city survey map of Kotri has been printed and the Municipality has approved a regular alignment for the main road from the Octroi office to Raswah and for the main bazar from its beginning to Sayad street. At Hyderabad the work of prescribing the regular line of streets in quarters other than the congested portion on the plateau is in progress. At Garhi-Yasin the survey has just been finished and the Municipality now promises to take action in this respect. It is a matter for regret that some Municipalities have not yet taken any action in this matter and the necessity for carrying out the duties imposed upon them by law should be brought to their notice.

25. *Appropriation of Wheel Tax and Road Tolls.*—In the Northern Division the Municipalities of Dholka, Viramgam, Modasa, Dhandhuka, Ankleshwar, Jambusar, Surat, Bulsar and Thana are the principal defaulters in respect of the general rule that the whole proceeds of the wheel tax and road tolls should be expended on the maintenance and repairs of roads. The Ahmedabad Municipality after spending most of the proceeds carried forward a sum of about Rs. 6,000 to this special head for expenditure in the following year. Although the Ahmedabad Municipality had provided a large amount from the Improvement Fund for the remetalling of roads, the repairs could not be carried out, the Railway Company having failed to supply the municipal contractors in time with the necessary wagons for carrying the metal from Sevalia to Ahmedabad. For the default of other Municipalities in the Ahmedabad District no explanation is forthcoming. In the Ankleshwar and Jambusar Municipalities in the Broach District the expenditure was less than the income under this head. The Collector has, however, drawn the attention of both the Municipalities to their shortcomings. Surat and Bulsar have spent, respectively, only Rs. 44,000 and Rs. 9,000 out of the total receipts of Rs. 61,000 and Rs. 13,000 and Thana Rs. 4,200 out of the total receipts of Rs. 8,600. It is satisfactory to note that the Municipalities of Kapadvanj, Godhra, Dohad, Broach, Rander, Kalyan, Bandra, Bassein and Bhiwandi have spent on roads even more than their incomes from these sources. In the Central Division, Yawal and Chalisgaon are the only defaulting Municipalities in the East Khandesh District. In the Nasik District the Municipalities of Nasik and Yeola failed to utilize completely the receipts on roads, the former having spent Rs. 10,000 less and the latter about Rs. 1,000 less than the receipts from road

taxes. In the Poona District, Saswad spent Rs. 539 less than the income, but has credited the amount to a special fund for ultimate expenditure on roads. The Municipalities of Poona City, Indapur, Talegaon Dabhade, Lonavla and Alandi have spent larger amounts on their roads than they raised from wheel tax and tolls. In the Satara District all the Municipalities except Satara City and Mahableshwar failed to comply with the rule. In West Khandesh almost all the Municipalities, especially those of Shahada, Taloda, Dhulia and Shirpur, spent much smaller amounts on their roads than they earned and only the Shahada Municipality has credited the balance of Rs. 2,305 to a special fund for eventual expenditure on roads. In the Southern Division, Bijapur, Bagalkot, Guledgud, Matheran, Ratnagiri and Chiplun spent all the proceeds from the wheel tax and road tolls on roads. The Municipalities of Karwar, Sirsi, Roha, Panvel and Vengurla and those in Dharwar except Byadgi and Haveri spent less but have credited the balance to a special fund for eventual expenditure on roads. The Municipalities of Belgaum, Ilkal, Alibag, Mahad and Pen, where the expenditure on roads was less than the receipts from wheel tax, have been asked by the Commissioner to credit the balances to a special fund. The Vengurla Municipality which has been treating expenditure on repairs to Dharamshalas as expenditure on roads has been asked by the Commissioner to make up the balance of the toll fund by restoring the amount so debited. Where the expenditure on roads is glaringly inadequate the Commissioner has pointed out that the wheel tax and road tolls cannot be permitted if they are not properly spent. Government concur with the Commissioner that it is unfair on the public to levy these taxes and to give nothing back in return. In Sind, the Municipalities of Tatta, Kotri, Tando Mahomed Khan, Kambar, Tando Adam, Garhi Yasin and Ratodero failed to observe the rule and their attention has been drawn by the Collector concerned to the necessity of complying with it.

26. *Public Instruction.*—The total expenditure under this head amounted to Rs. 26,69,000 as against Rs. 21,72,000 in the preceding year. There were increases of Rs. 1,36,000, Rs. 1,84,000, Rs. 1,03,000 and Rs. 74,000 in the Northern, Central and Southern Divisions and in Sind, respectively. The increased expenditure was mainly attributable to the revision of the pay of primary school teachers, and the grant of war allowance to them. In the Northern Division, the increase in the Kaira Municipality was due to the construction of an Urdu School and in Mahad to the construction of an additional hall in the Anglo-Vernacular Girls' School No. 1. The Ankleshwar Municipality spent Rs. 23,000 out of its total income of Rs. 43,000 on education. The expenditure on education is disproportionate when compared with Broach which spent only 20 per cent. The high expenditure is also accounted for by the maintenance of a High School, Broach being free from this expense owing to the existence there of a Government High School. In the Thana District the increase is attributed to the increased pay of teachers, the introduction of free and compulsory primary education in Bandra and the opening of two new schools and the purchase of furniture in Kurla. The decrease in expenditure in Mehmedadad was due to the posts of Head Masters of the main vernacular and Urdu Schools having remained vacant throughout the year. In Dakor and Kapadvanj there was a decrease because these Municipalities spent larger amounts in the previous year on the construction of a girls' school and the extension of the Anglo-Vernacular school respectively. In the Southern Division free primary education has been introduced in the Municipalities of Honavar, Haliyal, Panvel, Athni, Saundatti-Yellamma, Dharwar, Byadgi, Matheran, Chiplun and Guledgud (experimental). From as much of the working of the free primary education system in these Municipalities as has come under his observation the Commissioner records his views as follows:—“It is obvious that mere remission of fees causes some loss to Municipalities without materially increasing the number of pupils at least from those classes which it is most desired to attract. Nor can the numbers be seriously increased unless the Municipality is willing to incur heavy expenditure in the direction of staff and buildings. This there is no prospect of their doing, as they already complain of the burden of educational expenditure. The schools, particularly those for girls and low castes, are often so wretchedly housed that one cannot desire a large increase in the numbers

attending them." Towards the increase of Rs. 74,000 under "Public Instruction" in Sind, the Karachi Municipality contributed Rs. 57,000. There were decreases of Rs. 13,400 in the Manjhand Municipality due to the allotment to the Public Works Department last year of a sum of Rs. 13,620 for the construction of a new School, Rs. 5,000 in the Hyderabad Municipality due to the payment in the previous year of a building grant of Rs. 9,000 to the Nava Vidyalaya High School, Rs. 1,000 in Tatta due to the war allowance for the last 3 months not having been paid to the staff and Rs. 1,500 in Tando Adam due to the cessation of the grant of Rs. 1,500 paid during the last three years to the Navalrai Hiranand Academy.

27. *Closing Balances.*—The year's working resulted in an increase of Rs. 11,26,000 in the total closing balance. The increases in the Northern and Southern Divisions and in Sind amounted to Rs. 4,61,000, Rs. 72,000 and Rs. 6,06,000, respectively. These were counterbalanced by a decrease of Rs. 13,000 in the Central Division. The aggregate closing balance of the Municipalities amounted to Rs. 63,39,000 as against Rs. 52,13,000 in the preceding year.

28. *Audit of Accounts.*—The Accountant General's Local Audit Department audited the accounts of all the Municipalities in the Presidency including Sind during the year, with the exception of Virangam, Mehmedabad, Borsad and Umreth. In the Northern Division serious mistakes were detected in the accounts of the Mehmedabad Municipality for 1917-18. The Government Pleader's opinion was obtained and the Municipality was asked to lodge a complaint against the Secretary under section 417 of the Indian Penal Code. The accounts of the Virangam Municipality were not audited owing to the destruction of the records by fire in the riots of April 1919. The late bill collector of the Bandra Municipality, who was alleged to have embezzled the funds of the Municipality, is reported to have died and the criminal prosecution has ended, but a civil suit has been filed for the recovery of the money from his surety. Another bill collector of the same Municipality altered figures in counter-foils of receipts and pocketed small sums recovered in excess from the tax-payers. He is no longer in service and no action has been taken as the Municipality has not lost anything. Considerable confusion was disclosed in the accounts of the Kalyan Municipality, which is ascribed by the President to lack of competent hands owing to low salaries and the high cost of living. Confusion in the account system of the Bandra Municipality was also brought to notice, the late Accountant being responsible for it. The Municipality is now trying to obtain a competent trained accountant. In the Central Division it is reported that little or no progress has yet been made in giving effect to the instructions of Government regarding the keeping of separate accounts of receipts from pilgrim tax and of expenditure incurred for the health, convenience and safety of pilgrims in the Municipalities of Pandharpur, Nasik, Trimbak, Jejuri and Amalner. This matter is, however, being attended to by the Commissioner and it is hoped that in the next year's report substantial progress will be recorded. Cases of misappropriation of municipal funds were found in Bhusaval, Barsi and Sirur. In the Jalgaon Municipality abuses were found in the collection of terminal tax, wealthy persons being allowed to import large quantities of goods free of charge on a mere oral statement that they were required solely for personal use. In the Southern Division the Public Works Department accounts of the Dharwar Municipality were found to be in a most unsatisfactory state. In Sind no serious irregularities were brought to light.

29. *Municipal needs.*—As usual a wholesome and plentiful water supply, efficient drainage, the opening up of congested and insanitary localities, good roads, hygienic school buildings with adequate play grounds, improved conservancy arrangements, municipal office buildings, dispensary buildings, markets, slaughter houses, etc., are among the most pressing and general wants of the municipalities, most of which suffer from want of funds on account of their unwillingness to impose taxation; Government, however, have hitherto, so far as the state of their finances permitted, assisted these bodies towards the attainment of the more important of the objects mentioned above by sanctioning loans and liberal grants-in-aid from time to time. In the Northern Division the crying need of the Ahmedabad Municipality is the drainage system. Surat also

requires an underground drainage and a surface drainage in localities where it does not exist at present. The Sanitary Engineer has been asked to take up the water works scheme at Dakor and experiments are being made with a steam engine in the temple well. The Kapadvanj Municipality is reported to have intimated its willingness to accept a water supply scheme on a 20 gallon basis combined with drainage, and the scheme is at present under the consideration of the Sanitary Board. The receipt of a fair project for the supply of water to Borsad is also awaited from the Sanitary Board. The boring plant put up at Nadiad has bored to the depth of 600 feet and it is hoped that the boring will prove successful. In the Central Division the question of extending the Poona Drainage Scheme and of remedying the existing defects in the scheme in accordance with the recommendations made by Mr. Watson is at present under the consideration of Government. In the Southern Division the Matheran water supply scheme is at present being revised by the Sanitary Engineer to Government in the light of certain suggestions made by Lieutenant-Colonel H. A. F. Knapton, I.M.S., and Mr. R. G. Gordon, I.C.S. The larger and more expensive scheme for the supply of water to the town of Uran has been abandoned and a simpler and cheaper scheme for supplying the Kharapat villages with water has been approved by Government. The fair plans and estimates of the project are being prepared by the Sanitary Engineer. In Sind the Karachi Municipality has prepared a comprehensive water supply and drainage extension scheme for meeting immediate requirements and for providing for the future residential and industrial development of the city and has submitted an application for permission to raise a loan in the open market for that purpose, which is under the consideration of Government. In Hyderabad the execution of the improvements to the water works is proceeding.

The plans and estimate of the partial scheme for improving the Sukkur water supply are still awaited from the Sanitary Engineer.

30. *Grants for sanitary and town improvement schemes.*—A sum of Rs. 7,00,000 was provided in the budget for the year 1919-20 under the head "24-B—Sanitation" to meet demands from local bodies for sanitary projects. The principal grants made during the year are mentioned below:—

Northern Division.

	Rs.
Original works in connection with the development of Salsette as a residential area	1,00,000

Central Division.

Chemical treatment of the Poona City water supply	14,298
Additional grants-in-aid for the Poona water supply and drainage scheme	19,299
Junnar water supply	1,000
Additional grant to the Dhond Notified Area for sanitary improvements	4,040
Additional grant-in-aid to the Barsi Municipality towards the cost of its water supply scheme	25,000

Southern Division.

Allotment of funds in connection with the Uran water supply	44,789
---	--------

Sind.

Grant to the Mirpurkas Municipality for the survey of the town in connection with its drainage	500
Grant-in-aid to the Hyderabad Municipality towards the cost of the improvement of its water works	1,75,212

Miscellaneous.

Trial surveys for preliminary investigation of sanitary projects.	6,609
---	-------

An allotment of Rs. 1 lakh was also placed at the disposal of the Sanitary Board, who have been authorised by Government to sanction sanitary projects which do not cost more than Rs. 20,000 and to make grants up to a limit of Rs. 10,000 for any single work. Out of this allotment, Rs. 94,050 were

sanctioned by the Board as grants-in-aid towards the cost of minor sanitary works in several districts. From the provision out of the surplus excise revenue made in the budget (1919-20) under the head "45-Civil Works (Civil)" on account of grants to local bodies for the promotion of sanitary improvements, the following grants were sanctioned :—

	Rs.
<i>Central Division.</i>	
Grant-in-aid to the Trimbak Municipality for its water supply.	1,02,300
Grant-in-aid to the Nasik Municipality for an intercepting drain on the left bank and for filling up the hollows in the rocks of both banks of the Godavari river	29,790
<i>Sind.</i>	
Grant-in-aid to the Hyderabad Municipality for filling the Doman Wah Hollows	37,015
Grant-in-aid to the Sukkur Municipality for filling in the Gharibabad tank	29,090
Grant-in-aid to the Sehwan Municipality for drainage scheme	72,443

31. *Remarks regarding the principal Municipalities.—Ahmedabad.*—The Commissioner, N. D., observes :—“In every Municipality for healthy administration there must be opposing parties and it is satisfactory to find that notwithstanding opposing elements the Municipality was able to record a year of progress under its able President Rao Bahadur Ramanbhai M. Nilkanth. The Municipality's closing balance improved from Rs. 70,972 to Rs. 2,00,510 and this improved condition of the Boards' finances is mainly due to the recovery of past arrears, which were reduced from Rs. 1,70,936 in the preceding year to Rs. 58,598”.

Surat.—The year was one of little progress. The arrears of taxes increased from Rs. 8,758 to Rs. 20,567. The pressing needs of the city remain the same as before. The drainage scheme, which admittedly is one of the most urgent needs of the city, has been held in abeyance owing to lack of funds, which are largely absorbed by the free and compulsory primary education introduced by the Municipality since 1st January 1920 and by the increased pay and war allowances to teachers. Meanwhile the sanitation of the town is reported to be going from bad to worse, and the improvement of the water supply of the city also needs early attention, a state of affairs which is not creditable to the Municipality of a large and wealthy city.

Nadiad.—The Municipality has improved its financial position a little by revising its terminal tax schedule and increasing the rates of special and general sanitary cesses, but while it constantly complains of its inadequate resources it makes very poor efforts to improve them.

Poona.—The Commissioner, C. D., remarks :—“The financial position of the Municipality is unsound in spite of recent increases of taxation. The normal income is a good deal behind the normal expenditure and the annual charges on account of water and drainage are about 50 per cent. in excess of the taxation-revenue under these heads. Unless and until the charges under these main heads of water, drainage and conservancy are fully supported by corresponding taxation, the Municipality will find it very difficult to finance the loans which are necessary for improving these services in the interests of the public health”.

The Commissioner has been requested in Government Order No. 623, dated 18th January 1921, to investigate the financial position of the Municipality and to report what action he deems necessary for its improvement. His report is awaited.

Karachi.—The Commissioner in Sind observes :—“The year has been, for the most part, bare of achievement. It is, however, satisfactory to note that the Municipality has faced the question of supplementing its seriously declining income from terminal tax by a substantial increase in the rate of house tax. A portion of this increase is permanent, but the remainder was imposed for one year only. The question of further extending this period is now under consideration. It is doubtful whether the Municipality will be in a position to meet absolutely necessary expenditure unless it maintains the present enhancement of its direct taxation.” A claim against Government put forward by this

Municipality on account of having used its resources during the war without compensation is under consideration.

Hyderabad.—As observed by the Commissioner in Sind, the administration of the Municipality is cramped on every side by lack of funds, due to the persistent refusal of the people to submit to any system of direct taxation and the consequent dependence of the Municipality on octroi receipts as practically their sole source of revenue. As only 1/7th of the receipts were obtained from octroi nakas other than the two close to the Railway station, as the expenses of collection are heavy, and as several frauds have lately come to light, the attention of the Municipality has been drawn in Government Order No. 5837, dated 9th May 1921, to the desirability of considering the question of introducing the system of terminal taxation in lieu of octroi.

32. *General Remarks.*—Government are gratified to note that the year under report was on the whole one of fair progress so far as the general administration of the Municipalities in the Presidency including Sind is concerned. The net income of the Municipalities, which was Rs. 149 lakhs, exceeded the previous year's income by about Rs. 25 lakhs. The ordinary expenditure, which amounted to Rs. 147 lakhs, was also in excess of the previous year's expenditure by Rs. 30 lakhs, and was, generally speaking, equitably distributed in satisfaction of the various public requirements. It is, however, evident that the pecuniary difficulties of most Municipalities have been greatly aggravated by the increase in the cost of administration, due to a certain extent to economic conditions over which they had no control, and that the financial situation of some has become so grave that unless they endeavour to strengthen their resources considerably by a proper and judicious increase of taxation they will be on the verge of bankruptcy. In Sind, the Commissioner remarks, the demand for improvement in respect of municipal administration is making itself felt with increasing insistence and the necessity with which the Municipalities are now confronted of exploiting new sources of revenue is thus urgent. The Municipalities have for the most part been content here and there to make alterations in their rates of indirect taxation and there is at the same time a perceptible tendency to seek salvation along the line of least resistance by the adoption of terminal taxation in substitution of octroi. Government deprecate this tendency on the part of the Municipalities on whom it should be strongly impressed that an expansion of resources such as is required for the introduction of a higher standard of administration cannot be expected so long as municipal taxation continues to run exclusively on the old lines of indirect taxation in the form of octroi or terminal tax, and so long as Municipalities fail to ensure that those who have the benefit of special services, such as water supply and conservancy, pay in full for the services rendered, instead of, as they do at present, transferring the burden to the shoulders of the poorer general ratepayers. In this connection the attention of the Municipalities should be invited to paragraph 2 of Government Order No. 8661, dated 13th August 1920.

33. The attention of the Commissioners of Divisions and the Commissioner in Sind should be invited to paragraph 1 (1) of Government Order No. 7495, dated 5th September 1919, and they should be requested to see that the orders issued therein are strictly carried out in compiling statements nos. II and III showing the income and expenditure of Municipalities.

34. Copies of the Resolution should be submitted to the Secretary of State and the Government of India, and should be forwarded to all Commissioners and Collectors and to the other officers and Departments concerned.

By order of the Government of Bombay
(Transferred Departments),

S. N. ZIMAN,
Deputy Secretary to Government.

Abstract of statement no. 1 accompanying the review of the District Municipal Reports for the year 1919-20

Number of municipalities constituted under the Bombay District Municipal Act, 1901	157
Population within municipal limits	2,381,064
Number of towns of which the municipal committees are appointed partly by election and partly by nomination.	135
Number of towns of which the municipal committees are appointed by nomination only	22
Aggregate number of members :—			
<i>Ex-officio</i>	311
Nominated	750
Elected	1,250
Of the above—			
Officials	377
Non-officials	1,934
Europeans	81
Indians	2,230

Appendix to Government Resolution, General Department, no. P. 55, dated the 30th September 1921.

THE PROGRESS OF MAHOMEDAN EDUCATION.

Northern Division.—Ahmedabad has nine Urdu day schools and three night schools employing 79 teachers, of whom 49 are trained and the rest untrained. Out of 6,249 Mahomedan children of school-going age, 1,913 attend indigenous schools, 1,920 attend non-municipal aided schools and 1,299 attend municipal schools. It thus appears that 72 per cent. of the Mahomedan children of school-going age receive education voluntarily while 28 per cent. do not. In the Ahmedabad District, the municipalities of Dholka, Virangam, Parantij, Modasa, Dhandhuka and Raupur each maintain one Urdu school, but Sanand and Dholera have none. The Gogho Municipality maintains one Urdu girls' school and has on its rolls 40 girls. In the Kaira District all the municipalities except Anand and Dakor maintain at least one Urdu school; Nadiad has two for boys and one for girls. The attendance at the schools is reported to be fair. In the Panch Mahals there is one Urdu school at Godhra which 172 boys attended. There is no such school for girls but it is reported that the Mahomedans have arranged for the education of their girls in private Madressas. The Borahs, Ghanchis and other Muslims of Godhra each have their own Madressa; they are reported to be popular and to be doing good work. The Dohad Municipality maintains two schools, one for boys and the other for girls; the former has 115 and the latter 122 pupils on the rolls. Urdu is taught in the schools through the medium of Gujarati. The Broach and Jambusar Municipalities, each maintain one Urdu school for boys and another for girls. The Broach Municipality gives grants to three private Mahomedan institutions. In Surat the number of municipal Urdu schools rose from 11 to 16 and the number of pupils from 971 to 1,034. There were 6 recognised and 12 unrecognised schools imparting education to 288 and 482 children, respectively. With the permission of the Director of Public Instruction all the municipal schools have introduced the teaching of the Koran out of school hours. A Madressa called the Tayebia Madressa has been established for the benefit of the Borah community with four branches in different parts of the city. The municipal schools employed 54 teachers, of whom 5 were qualified, 14 trained and 35 untrained. In Bulsar, the number of Mahomedan pupils on the rolls rose from 189 to 216. In Rander, Mahomedan education showed no progress. It has one municipal and three private madressas. In the Thana District, the Thana Municipality has only one school for boys. Kalyan too has one school, in which the average attendance is 133. There is an Anjuman school also, with 300 boys, to which the Municipality pays a grant of Rs. 200 over and above the expenditure of Rs. 1,328, which it incurs on the municipal school. Kurla has opened a second school with an additional Moulvi to instruct in the Koran. Both schools are progressing well, the attendance having increased from 24 boys and 14 girls to 68 boys and 34 girls. Bandra had two boys' and one girls' school. Owing, however, to the introduction of compulsory primary education the Municipality has had to open another girls' school. The attendance of boys in Bandra has increased from 177 to 194 and that of girls from 58 to 61. It is reported that the Mahomedans ask for teachers of their own religion but that it is difficult to find them. Religious instruction is given in two schools and is being arranged for in the other two at the cost of the people. Such instruction is given outside school hours though in the school buildings. Bassein has two boys' schools, both teaching three standards. Bhiwadi continues to maintain five schools including a night school (three for boys and two for girls). The Municipality spent about Rs. 4,000 on the schools, but the attendance

declined from 284 to 186. This is, however, due to the opening of two private schools to which some of the pupils have been diverted. This Municipality also complains of the want of trained Mahomedan teachers. The two boys' schools, which are now full primary ones, had trained head masters throughout the year, and the result was very satisfactory.

Central Division.—In the Ahmednagar District, the Collector reports that, in spite of financial stress, the Municipalities have not neglected Mahomedan Education. In the East Khandesh District all the Municipalities maintain Urdu schools for Mussalman boys and girls. In the Nasik District, the Municipalities of Nasik, Yeola, Malegaon and Igatpuri maintain Urdu schools. At Malegaon there are in all five such schools, out of which three are day schools and one a night school for boys and one is for girls. The Collector reports that most of the Momin population of Malegaon belong to the weaver class, and owing to the introduction of improved hand-looms their business has become more profitable than before. The result is that they do not wish to send their boys to school as they can earn from 4 to 6 annas a day. In the Poona District, the Poona City Municipality has 10 Urdu schools including one night school—six for boys and four for girls, and the Baramati and Junnar Municipalities have one each; the Poona Suburban, Indapur, Khed, and Sirur Municipalities have Urdu classes attached to the vernacular schools. The Indapur and Khed Mahomedans want Urdu education for their children only in order to enable them to read their religious books, and they wish it to be imparted through Marathi. The remaining Municipalities in the district have no Urdu schools or classes on account of the small Mahomedan population and the apathy of that community towards education. In West Khandesh there are 12 Urdu schools. At Taloda there is a privately conducted "Maktab" with 24 boys and 9 girls which received a grant of Rs. 70 from the Educational Department. There are six special scholarships of Rs. 3 per mensem for deserving Mahomedan boys. The Urdu boys' school at Sirpur has been made a full primary school. There are 10 Mahomedan girls' schools in the district. In the Sholapur District two new schools were started by the Sholapur Municipality and the number thus rose to 7—5 for boys and 2 for girls. In the remaining municipalities the number of Urdu schools remained the same as last year.

Southern Division.—Each of the Municipalities in the Belgaum District maintains one Urdu school for boys. The Belgaum Municipality also maintains one Urdu class for boys and two girls' schools. The Athni and Bail Hongal Municipalities maintain a girls' school. 655 boys and 372 girls are under instruction in the Belgaum District. In the Bijapur District Government maintain a boys' school in each of the municipalities of Bijapur, Guledgud and Ilkal and in Bagalkot two boys' schools and one girls' school. There is a private boys' school at Bijapur. 578 boys and 249 girls attended the schools in the district. In the Dharwar District the number of schools and the attendance increased and the progress in Hubli was marked. A female Urdu training class has been opened by Government at Hubli and there is a secondary Urdu High School to which the Hubli Municipality makes a grant of Rs. 800. A library has also been opened there by the Anjuman Committee. In the Kanara District seven schools (including one girls' school) and two classes were maintained by the Municipalities. Four hundred boys and 70 girls attended these schools and classes. In the Kolaba District there are three Urdu schools maintained in Alibag and one each in Roha, Panvel, Pen and Mahad. In Mahad a separate class for girls has been opened. Matheran has sanctioned the opening of an Urdu class. The Mahomedans have opened two schools of their own in Uran and there is no need for a separate municipal school. In the Ratnagiri District, Ratnagiri and Malwan each maintain one Urdu school. In Chiplun there are private schools. Vengurla Municipality proposes to open a school if it is likely to fill and if a building is provided by the Mahomedans.

In Sind, 857 Mahomedan boys and 699 girls and 7 mistresses received education in the municipal schools at Karachi at a cost of Rs. 63,377. Of the 857 boys, 64 after completing the primary course were qualified to join English schools. Out of the 24 boy pupils belonging to various communities who were admitted free in the municipal schools, 22 were Mahomedans. In the Female Normal Class 7 out of the 16 mistresses receiving training were Mahomedans; six of them were stipendiaries. The Municipality also paid grants-in-aid amounting to Rs. 10,721 to 19 Mahomedan boys' schools and 7 girls' schools. There were 2,964 boys and girls on the attendance rolls of aided schools. Out of the total municipal expenditure of Rs. 1,97,654 on education, Rs. 74,098 were spent on the education of Mahomedans. At Tatta the number of Mahomedans in English and vernacular schools was 21 and 88, respectively. The number of Mahomedan boys in the municipal school at Keti Bandar remained at 25. At Kotri there were 55 Mahomedan boys out of a total of 207 in the vernacular school and 16 out of 66 in the Anglo-vernacular School, besides 65 out of 77 in two other schools. The Municipality maintains a girls' school where 34 Mahomedan girls received education. In Manjhand only 5 out of the total number of pupils were Mahomedans. In the Hyderabad District 354 Mahomedan boys and 129 girls received education in the municipal schools in Hyderabad. All the girls are given free education while 270 boys enjoy a similar concession. Six Mahomedan girls received scholarships of Rs. 2 to Rs. 3 per mensem.

each. In the remaining five municipalities, *viz.*, Hala, Tando Allahyar, Nasarpur, Matiari and Tando Mahomedkhan, the number of Mahomedan boys who attended the municipal schools was 319, of whom 86 received free education. There are besides a number of Mulla schools in the various municipalities which are attended by a number of boys and girls. In the Sukkur District the number of Mahomedan boys in Sukkur was 209 in the vernacular schools and 93 in the Anglo-Vernacular schools. The Shikarpur Municipality had 365 Mahomedan boys and 131 girls in its schools. Of the two scholarships sanctioned for teachers sent to receive education in the Hyderabad Training College one was awarded to a Mahomedan teacher during the year. The Garhi Yasin Municipality has created two scholarships of the value of Rs. 3 per mensem each for Mahomedans and increased the percentage of free students from 15 to 40. At Rohri the number of Mahomedan pupils receiving secondary education was 15 and that of pupils receiving primary education was 110. The number of female pupils was 40. The Municipality has increased the number of free studentships to give encouragement to the cause of Mahomedan education. In the Larkana District the number of Mahomedan students in Larkana was 137 out of a total number of 579 students. The figure 137 is, however, exclusive of those attending the various Mullah schools and the Madressah-Tul-Islam to which the Municipality pays a contribution of Rs. 300 a year. Kambar had 54 Mahomedan students out of a total of 205. Rato Dero has both Anglo-vernacular and vernacular schools and the number of Mahomedan pupils in each was 17 and 62. At Sehwan there were 11 and 29 Mahomedan boys in each of the Anglo-vernacular and vernacular schools. 10 students received free education. At Bubak there is only one vernacular school with 43 Mahomedan students, 16 of whom were exempted from the payment of fees. In the Thar and Parkar District there is one municipal primary school at Mirpurkhas having 23 Mahomedan pupils out of a total number of 152. In the Nawabshah District the number of Mahomedan children at school changed very little. At Jacobabad in the Upper Sind Frontier District the number of Mahomedan boys on the rolls remained at 50 per cent during the year under report. A separate boarding house is provided for them within the school premises. Out of 29 free studentships 15 were allotted to Mahomedan boys who were unable to pay the prescribed fees.

No. II—continued.

Total receipts excluding opening balance.	Total receipts including opening balance.	Incidence of taxation (column 23) per head of population.	Incidence of income (column 25) per head of population.	Remarks.
58	59	60	61	62
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	
44,51,681 0 0	70,02,747 0 0	6 15 4	17 8 8	The incidence of taxation in columns 60 and 61 is calculated in the census figures of 1911. The population in the interval has considerably increased. Further the revenue from water is derived not only from the population of the Municipal district but also from the Cantonment area, Military Shipping in the Harbour, and the North-Western Railway for conveyance out of Municipal limits, the population so served not being included in the census figures. The item incidence of taxation per head of population is therefore misleading as it is calculated on a smaller population than that which contributes to the revenue shown. Besides this year a sum of Rs. 9,50,050 is realized as receipts from grain shops which sum has been excluded from the total receipts for calculating incidence.
