INTRODUCTORY NOTE

The present list is a 'bibliography of bibliographies'. Titles of those books which have been added to the Library during the period between 1 January 1964 and 30 June 1970, and which contain bibliographies on the relevant subjects are presented here in a classified order. It is hoped that this endeavour would further enable the reader to have fuller bibliographical control on the subject of his interest.

The contents pages give in detail the plan of the work and the subjects that are covered by the present list. Each item gives information regarding the author of the book, the title, the edition, the date of publication, and lastly, the page numbers of the book where the bibliography would be found. In the case of books where the bibliographies are scattered at various places in the book, generally at the end of each chapter, the pages are indicated by the letters 'v.p.' inside brackets.

The present bibliography was prepared by the Bibliographical Unit of the Library.

Suggestions for improvement in the present work are welcome.
