GENERAL DEPARTMENT.

The Right Hon'ble the Governor in Council having sanctioned the publication of a weekly paper to be styled the "BOMBAY GOVERNMENT GAZETTE," notice is hereby given, that after this day all advertisements and other public papers of the government, will be printed in the BOMBAY GOVERNMENT GAZETTE only; and all orders or other public notices, appearing in that paper, under the signature of the secretaries, or other public officers of the government, are hereby ordered and directed to be conform'd to and obeyed accordingly. Published by order of the Right Hon'ble the Governor in Council,

MARINE DEPARTMENT.

The following Notices are published for general information.

NOTICE TO MARINERS. NEW SOUTH WALES.

Harbour Master's Office,
Sydney, 22d August 1836.

Notice is hereby given, that a Floating Light is now placed near the Rocks called the Sow-and-Pigs, within the Heads of Port Jackson. It is moored in 22 feet (low water spring tide) at the distance of 190 yards N. W. (by compass) from the Beacon on the dry part of the Sow-and-Pigs shoal, and at about 60 yards outside of a rock detached from the shoal, in the direction of the Beacon, over which there is only 7 feet water, and will exhibit Two Lights placed one over the other.

DIRECTIONS FOR ENTERING.

With a Southerly Wind—Being at $\frac{1}{4}$ or $\frac{3}{4}$ of a mile from the shore under the Light House, steer N. W. until the Light Vessel is seen over the extremity of the inner South Head, then haul up to W. N. W. until it bears S. W. which will lead clear of the inner South Head; haul to the wind keeping the Light Vessel on the larboard bow, pass her on the larboard hand, and in turning to windward between the shoal and the land, come no nearer the former than to bring the flat roofed house (being the 3rd to the right or to the Westward of the Windmills) in sight over the bluff of Point Bradley. When the Light House bears S. E. by E. $\frac{1}{2}$ E. a ship is to the Southward of the shoal. Another mark for having passed the shoal is the rock called the "Bottle and Glass," under a conspicuous road on the hill. By night, the mark for turning up the channel, between the Sow-and-Pigs and the shore, is to keep the Light Vessel to the East of N. E. $\frac{1}{2}$ N.; but, on approaching George's Head, vessels

should stand no nearer the 3 Fathom Knowl than to get the Light to bear N. E. until the Light House bears S. E.-by-E. $\frac{3}{4}$ E.

The least water on the Knowl is 16 feet at low water.

With a fair Wind—Enter as before directed, pass the Light Vessel as close as convenient, and steer towards George's Head until the westernmost Windmill is over the bluff of radley Point. This mark will lead over the deepest channel. In entering by night, after passing the Light Vessel, steer S. W. $\frac{1}{4}$ W. until beyond the line of bearing, between the Light House and George's Head, or until the former bears S. E.-by-E. $\frac{3}{4}$ E.

Harbour Master.
