### FORT WILLIAM, SECRET DEPARTMENT.

THE 4TH DECEMBER 1840.

The Right Hon'ble the Governor General in Council is pleased to order, that the following copy of a despatch from Major General Sir R. Sale, K. C. B. to the address of Major General Sir W. Cotton, G. C. B. and K. C. H., Commanding the Troops in Afghanistan, reporting his operations against the Enemy on the 2nd ultimo, and the subjoined abstract from a despatch from Major General Nott, to the address of Sir W. Cotton, dated from Kelat the 3d ultimo, be published for general information.

By Order of the Right Hon'ble the Governor General of India in Council,

Secy. to the Govt. of India,

(COPIES.)

TO MAJOR GENERAL

SIR WILLOUGHBY COTTON, G. C. B. & K. C. H.  
&c. &c. &c.,

SIR,

Cabul.

Having received intelligence that Dost Mahomed Khan, with a number of armed followers, had taken possession of some Forts in this direction, from which he proposed moving to day towards the Ghorebund Pass, with the view of effecting a junction with his Son Mahomed Afzul Khan, I determined on endeavouring to frustrate the attempt.

Accordingly at 6 A. M. I broke up my Camp at Baian, the Fort of Meer Musjeedee, and moved on this position.

An advanced column, consisting of four Companies of H. M. 13th Light Infantry, the two Flank Companies of the 37th N. I. one Company of the 27th N. I., the two 6 pounders of the Shah's, two Squadrons of the 2d Light Cavalry, and 200 of Anderson's Horse, the whole under the command of Lieutenant Colonel Salter, preceded the main body which was commanded by myself.

On approaching Purwan, the Forts and Villages were rapidly evacuated by the Enemy, who were seen flying to the Hills in great numbers; I cannot compute them at fewer than 500 Horses and 3500 foot, the native reports received swell their numbers to a much higher amount.

Dr. Lord, who accompanied Col. Salter to procure information, sent word that he believed if the Cavalry proceeded in advance they would be able to cut off some of the fugitives, and in compliance with his request the 2d Cavalry were ordered to skirt the hill to the right, while the Shah's Horse under Captain Anderson took post on the left of the Pass, to prevent any of the Enemy attempting to escape in the direction of Ghorebund. The Infantry followed, but their movements were greatly retarded by the Guns,

the progress of which was much impeded by the numerous water-courses that intersected the road.

The 2d Cavalry had preceded the column about a mile when a body of the Enemy's Horse about 200 in number, supposed to be headed by Dost Mahomed in person, came down the Hill to attack them. The Cavalry was formed into Line and led on to the charge by Captains Fraser and Ponsonby, Commanding the two Squadrons. It is my painful duty to record that the gallant bearing of these Officers was but ill seconded by their men, they both found themselves in the midst of the Enemy unsupported by their Troopers, and after being most severely wounded, extricated themselves with difficulty, and found their men flying before the Enemy. I deeply regret to state that Lieutenant Crispin, the Adjutant of the Regiment was cut down and killed, leading his men into action; Dr. Lord was also most unfortunately killed in this affair, and Lieutenant Broadfoot, of the Engineers, who was also in advance, is missing.

Of the gallantry of Captain Fraser and the other Officers of the 2d Cavalry, who led the Squadrons of the Regiment on this occasion, I cannot speak too highly, and I regret that their noble example and the opportunity offered to the

2nd Cavalry of adding to its laurels, have been thus neglected by them.

The two Flank Companies of the 37th Regiment, and one Company of the 27th Regiment, supported by two Guns from Captain Abbott's Battery, and followed by some of the Jaun Bazees, now ascended the hill overlooking the Pass and Valley of Purwan, which was crowded by the Enemy's Infantry, and cleared it in brilliant style, the Enemy deserting their positions one after the other and flying in the direction of the Punjshere Valley, where they still cover the hill side in great numbers.

The Enemy however are at too great a distance to admit of my following up the advantage I have obtained this evening, the whole of the Troops having been under arms for 9 hours, I have therefore encamped on the ground, taking every precaution to guard against a night attack.

I beg to enclose the accompanying Casualty Return, from which you will perceive that, excepting the serious disaster sustained in the affair of the 2nd Cavalry, but little loss has resulted from the day's operations.

I have, &c.,

J. D. DOUGLAS, *Captain,*

*Extract from a Despatch from Major Genl. Nott, dated Camp Kelat, November 3d, 1840.*

I have the honor to acquaint you, for the information of Major General Sir Willoughby Cotton, G. C. B. and K. C. H. Commanding in Afghanistan, that the Troops under my Command this morning entered and took possession of the Town and Citadel of Kelat—the rebel Chiefs having evacuated this strong Fortress on the approach of the British Force.

After making the usual and necessary arrangements, I shall deliver the place over to the Political Authorities, leaving a complete Regiment to garrison that important Fortress until the pleasure of Government shall be known.

Although the Bengal Sepoys have not had, on the present occasion, an opportunity of distinguishing themselves in action with the Enemy, yet I beg to assure you, that nothing could be finer than their conduct, the zealous and cheerful manner in which they conveyed the Battering Train during a march of near 300 miles of the most difficult country in the world, dragging these heavy Guns over the Kajok Mountains, through beds of rivers and deep ravines, exceeds all praise, and has called forth the admiration of their European Officers and of the European Artillery-men attached to the Battery; their patience under fatigue and privation, and their soldier-like and orderly conduct deserve my warmest thanks, and their anxious and active zeal to hasten the march and to encounter the Enemy, has confirmed me in the conviction, that they are, when they perceive that confidence is placed in them, fully equal to any Troops in the world.

I cannot close this letter without bringing to your notice the great assistance I have received from Colonel Stacy, Commanding the 43rd Regiment, Major Clarkson, Commanding the 42nd Regiment, Captain Macan, Commanding the Troops of His Majesty Shah Shoojah Ool Moolk, and my best thanks are due to that excellent Officer, Captain William Anderson, in Command of the Artillery, and to Captain T. Walker, Commanding the Cavalry.

My best thanks are also due to Captain Polwhell, Brigade Major, and to Lieutenant Tytler, Deputy Assistant Quarter Master General, for their constant exertions in the public service.

I have, &c.

Published by order of the Hon'ble the Governor in Council,  
L. R. REID, Chief Secretary.

Bombay Castle, 21st December 1840.

*Note.*—In all Custom House transactions, the "Indian Maund" is the measure of weight, and the "Imperial Gallon" the measure for Liquids. For all, except the most minutely accurate calculations, 5 Imperial Gallons may be considered equal to 6 Gallons of Old Wine measure, as 100 Imperial Gallons are equal to Gallons of former times 120-032 Decls.

#### NEW INDIAN WEIGHTS:

- 1 Tola is equal to 180 Grains Troy.
- 80 Tolas, or 1 Seer, equal to 14,400 Grains Troy.
- 40 Seers or 1 Indian Maund, equal to 5,76,000 Grains Troy, or 100 Hs. Troy.

Then as 7,000 Grains Troy, are exactly equal to 1 lb. avoirdupois.

1 Seer of 14,400 Grains Troy, is exactly equal to  $2\frac{1}{2}$  lbs. avoirdupois.

and.  
1 Maund of 5,76,000 Grains Troy is exactly equal to 82 $\frac{1}{2}$  lbs. avoirdupois.

- 35 Seers, are exactly equal to 72 lbs. avoirdupois.
- 7 Indian Maunds, are equal to 576 lbs. or 5 $\frac{1}{4}$  Cwt.
- 49 Ditto Ditto, are equal to 4032 lbs. or 36 Cwt.
- 245 Ditto Ditto, are equal to 180 Cwt. or 9 Tons.

The following Rules for the conversion of New Indian Weight into Avoirdupois Weight and vice versa, deduced from the foregoing data, are given in the volume of "Useful Tables" published by Mr. James Prinsep, in Calcutta, in 1834, Page 66.

*Rule 1st.—To Convert Indian Weight into Avoirdupois weight.*

1st.—Multiply the weight in Seers by 72, and divide by 35, the result will be the weight in lbs. avoirdupois.

2nd.—Or Multiply the weight in Maunds by 36, and divide by 49, the result will be the weight in Cwt. avoirdupois.

*Rule 2nd.—To Convert avoirdupois weight into Indian weight.*

1st.—Multiply the weight in lbs. avoirdupois by 35, and divide by 72, the result will be the weight in Seers.

2nd.—Or Multiply the weights in Cwts. by 49, and divide by 36, the result will be the weight in Maunds.
