NOTICE.

Change of Pilot Station for the River Houghly.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st. A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of Water.

2d. This Vessel will exhibit by day, when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to Warn Vessels coming from the Southward of her near neighbourhood. She will not, however, have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in

from 16 to 20 fathoms water, and from 6 to 8 miles South West of the present South Channel Buoy, that Buoy lying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich and in 12 fathoms water.

3d. For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack, (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour, and also by Guns fired every four hours, say at 8 P. M., midnight, and 4 A. M., with good Rockets discharged at the same time.

4th. All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th. Lastly, All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station, on their own accounts, no less than that of the Public, as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention.

to Duty, or Carelessness of any kind whatever.

Extract, Court's letter No. 12, dated 3d February 1841.

Letter dated 15th June 1840 (No. 67.)

Submit for Court's orders, a reference from Bombay as to whether a Member of the Medical Board is entitled to resume his former situation in the Board, on his return from sick leave to Europe, and what allowance he is to draw in the event of his having to wait for a vacancy. [23. When framing the Regulation contained in our letter of 27th August 1828, para: 13, that Superintending Surgeons who come to England on sick certificate, shall resume their rank and station on their return to their duty, it was not in our contemplation that any Member of the Medical Board, who might come to England on sick certificate, would desire to return to India for the purpose of completing the residue of his tour of Service in the Board, or we should then have provided for such an occurrence. We can now have no difficulty in authorizing the readmission of the Medical Officer so circumstanced, to the Medical Board in his proper rank, from the date of his arrival at the capital of his Presidency. The period of Service of the Junior Member, who will in consequence revert to his former position of Superintending Surgeon, will count as so much passed out of the term of five years to which Service in the Medical Board is limited.
