NOTICE TO THE PUBLIC.

GENERAL POST OFFICE.

August 1840.

The practice of sealing letters passing to and from the East and West Indies, and other warm climates with Wax, is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the Wax, and adhesion of the letters to each other.

In the case of a Mail recently received from India, considerable delay was occasioned at this office, and notwithstanding the greatest care was taken in separating the letters, which owing to the cause already mentioned, adhered closely together, many were much damaged and torn; the Public are therefore recommended, in all possible cases, to use Wafers in preference to Wax, in sealing their letters sent to India or other warm climates, and also to advise their correspondents in those countries to pursue the same course.

Post Masters are also enjoined to give every publicity to this caution.
