## Notice to Mariners.

### *Floating Light off the Roman Rocks in False Bay.*

Rear Admiral the Honorable JOSCELINE PERCY C. E., Commander in Chief of Her Majesty's Ships and Vessels on the Cape of Good Hope Station, hereby gives notice, that, in pursuance of Instructions from the Lords Commissioners of the Admiralty, a floating light is moored off the Roman Rocks, in  $7\frac{1}{2}$  fathoms water, distant therefrom one cable's length, due North, (by Compass.)

It is a bright revolving light, 37 feet above the level of the Sea, and may be seen in clear weather at a distance of 10 miles from a ship's deck. It will be lighted at Sun-set all the year round, and extinguished half-an-hour after day light.

The Light Vessel is painted red, and during day light will hoist a red flag when a Sail is in sight.

The following remarks made by Mr. BROWN, Master of H. M. Ship *Winchester*, are herewith subjoined, for the guidance of Ships navigating False and Simon's Bay.

By Command of the Commander-in-Chief,

WILLIAM DYER, *Secretary.*

H. M. S. *Winchester*, Simons Bay,  
10th January 1845.

### REMARKS FOR SHIPS BOUND INTO

#### SIMON'S BAY.

The Light Vessel is moored on the North side of the Roman Rocks, and distant therefrom one cable's length. It is a bright revolving light, 37 feet above the level of the Sea, and may be seen in clear weather at a distance of 10 miles from a ship's deck.

From this light the Compass bearings are, Whittle S. S. E. distance 7 miles, on which there is only 12 feet water.

Miller's Point, S.  $\frac{1}{2}$  W. distance 4 miles.

Seal Island, E.  $\frac{1}{2}$  S. distance  $6\frac{1}{2}$  miles.

Dock Yard Jetty, W.  $\frac{1}{4}$  N. distance  $1\frac{1}{2}$  miles.

Ships steering or beating into False Bay from round the Cape of Good Hope, will open the Light clear of Miller's Point, (which is the point 7 miles and  $\frac{1}{4}$  from Cape Point, off which, but close to, are some rocks above water,) when it bears N.  $\frac{1}{4}$  E.; and if intending to beat up inside the Whittle, the light should not be brought to the Westward of N. by W.  $\frac{1}{4}$  W., or to the Eastward of North, until you are certain of being within 5 miles of the light, when you must be Northward of the Whittle, and may bring the light, in standing to the Northward, to bear N. W. by W., working up towards her by short tacks, and passing to the North, leaving her on your Larboard hand, distant  $\frac{1}{4}$  of a mile.

If outside the Whittle do not bring the light to the North of N. N. W.  $\frac{1}{4}$  W. or to the Westward of N. W. by W.  $\frac{1}{4}$  W., on ac-

count of Seal Island, and the rocks which lay off  $1\frac{1}{2}$  miles to the Southward, turn up by short tacks until you are certain of being within 5 miles of the light, which will insure your being Northward of the Whittle, and may bring the light in standing to the Westward to bear North. With a leading wind bring the light to bear N. by W., you will be well inside the Whittle, and may run up keeping it on that bearing until within  $\frac{1}{4}$  of a mile of the light, when you must open it on your Larboard side, and round it not less than  $\frac{1}{2}$  a mile distant; when the light bears S. S. W. steer in West for the anchorage, and come to in 14, 12 or 10 fathoms according to the weather. If a fine night, you may choose a berth among the shipping; if otherwise, anchor in an outside berth for the night.

Ships rounding Hanglip must bear in mind, that the Whittle lies nearly in a direct line between that Cape and the Light Vessel, from which it bears, S. S. E.; therefore, if coming up with a fair wind outside the Whittle, bring it to bear N. N. W.  $\frac{1}{4}$  W., or N. W. and by N., and run for it.

These remarks are principally intended for seamen not acquainted with Simon's Bay; of course, those who know the passage between Roman Rocks and Noah's Ark need not pass to the North of the former, but I would call their attention to the Phoenix Rock, and recommend their running for the anchorage at all times by a bearing of the light.

As I am aware of the great difficulty in judging of distances at night, and this Light Vessel being moored on the North side of the rocks to protect her from the S. E. gales, — I do recommend it as a fixed rule, that all Ships should at night pass to the Eastward, and haul round the North side of the Light Vessel.

If you pass to the Southward bear in mind the passage between Noah's Ark and the Roman Rocks is barely  $\frac{1}{2}$  of a mile; and as the light is to the Northward of these rocks two cables' length, do not come within full  $\frac{1}{2}$  a mile of the light; but I do not recommend this passage to strangers.

The following Compass bearings were taken from the Light Vessel, —

Miller's Point,	S. 8 W.
Outer Roman Rock,	S. 15 E. distant 100 fathoms.
Elsey Peak,	N. 5 W.
Noah's Ark,	S. 47 W.
Doek Yard Jetty,	W. 3 N.
Hanglip,	S. 23 E.
Seal Island,	S. 85 E.
Whittle,	S. 25 E.

(Signed) J. BROWN,  
Master, H.M.S. *Winchester.*

*Bombay Castle, 19th June 1845.*

No. 69 of 1845.—The following despatch from the Hon'ble the Court of Directors No. 33, dated 16th April last, is published for general information.

Letter dated 30th December 1844. No. 101. } Para 1. The conduct of Mr. Midshipman Macdonald  
Misconduct of Mr. Midshipman A. Macdonald } reported in the proceedings which accompanied your letter,  
Indian Navy. } is so opposed to all principles of correct discipline that we  
cannot permit it to pass unpunished.

2nd In considering the degree of punishment to be awarded in this case, we have been led to notice the youth of Mr. Macdonald and the short period he has been in the service, and although the offence of which he has been guilty would, in an older officer, have justified the passing of a severe sentence on him, we have been induced from these circumstances and his promise of future correct behaviour, to mitigate its severity, and to decide that he be reduced two steps in the line of service.

3rd We accordingly direct that his name on the list of Midshipmen do stand next below that of Mr. Midshipman A. T. Windus.

*Rombay Castle, 20th June 1845.*

No. 70 of 1845.—The following extract paras. 3 and 4 of a despatch from the Hon'ble the Court of Directors, No. 36, dated 23rd April last, is published for general information.

3. We sanction the adoption of the following scale instead of that in present use for the remuneration of the absent and Acting Officers in the Persian Gulf, viz :—

For the Commodore absent on sick certificate from his station for the first 3 months	Rupees	800	per month.
And afterwards,.....	.....	700	per month.

being pay, and

For the Senior Officer left in charge of the Squadron.

If a Captain .. .. .	.....	Rupees	300	per month.
„ Commander, .. .. .	.....	„	200	per month.
„ Lieutenant, .. .. .	.....	„	100	per month.

in addition to the command allowance of his Vessel being "Table money" at a reduced rate proportioned to the rank of the Senior Officer so left in charge. Any absence under sick certificate during the period in which the Commodore receives the superior allowance above authorized, must be accounted as a part of the three years to which his command is restricted.

4. The Lieutenant in charge of the absent Commodore's ship will, (in the event of the next Senior officer not moving into her) receive the difference between the absent Pay drawn by the Commodore and the regulated command allowance of the vessel, on the principle laid down in the 4th Para. of our despatch No. 54 dated 15th July 1840.

*Bombay Castle, 25th June 1845.*
