Legislative Council of India.

5th June 1858.

The following Act, passed by the Legislative Council of India, received the assent of the Right Honorable the Governor General on the 18th May 1858 (communicated to the Legislative Council on the 5th June 1858), and is hereby promulgated for general information:—

ACT No. XX. OF 1858.

An Act to Facilitate the Recovery of Land and other Real Property, of which Possession may have been Wrongfully taken during the recent Disturbances in the North-Western Provinces of the Presidency of Bengal.

Preamble.

Whereas there is reason to believe that, during the recent disturbances in the North-Western Provinces of the Presidency of Bengal, many persons have, without authority of law, been dispossessed of land or other real property; and it is expedient to provide a more easy and speedy means whereby they may obtain redress than is afforded by the ordinary remedy of a regular Civil Action; It is enacted as follows:—

Appointment of one or more Special Commissioners.

I. It shall be lawful for the Executive Government of the North-Western Provinces of the Presidency of Bengal to appoint one or more Special Commissioners for the summary determination of cases of wrongful dispossession of land or other real property in any part of the territories subject to its jurisdiction; and to assign, from time to time, such local jurisdiction to the Special Commissioner or Commissioners so appointed as may appear proper.

Notification of appointment.

II. Whenever any Special Commissioner, appointed under this Act, shall be vested, by order of such Executive Government, with jurisdiction in any District or Districts, or in any part or parts of any District or Districts, notice thereof shall be given by a written proclamation, of which copies shall be affixed in the several Courts, and in the Offices of the several Collectors and Magistrates of such District or Districts; and the powers heretofore vested in the Courts of such District or Districts, in respect of all cases cognisable by the Special Commissioners appointed under this Act, shall be suspended until such Courts shall be informed by an order, under the signature of the Secretary to Government, that the local jurisdiction of the Special Commissioner has ceased, of which notice shall be given by proclamation in the manner aforesaid. Provided that nothing in this Section shall interfere with the trial and decision of any case which may be pending before any Court at the time of the passing of this Act, unless such case be transferred for trial and decision to a Special Commissioner appointed under this Act.

Certain powers of the Civil Courts temporarily suspended.

Proviso.

Disposal of pending cases.

III. Any case pending before any Court sitting as a Court of original jurisdiction at the time of the passing of this Act, in respect of a matter made cognisable by a Special Commissioner appointed under its provisions, shall, on the application of the party complaining, be transferred to the Special Commissioner within the limits of whose jurisdiction the

property in dispute is situate; and such Commissioner shall summon the defendant, and proceed to dispose of the case in the same manner as if it had been instituted before himself.

Court of the Commissioners where to be held.

IV. The Special Commissioners appointed under this Act may hold a Court at any place within the limits of their jurisdiction, which may appear most convenient for the trial of cases brought before them.

Issue of proclamation.

V. Whenever any Special Commissioner shall be vested with jurisdiction under this Act, such Commissioner shall issue a proclamation, requiring all persons within the limits of his jurisdiction who may, without authority of law, have taken possession of any land or other real property, situated within such limits, subsequently to the 10th May 1857, to deliver up the same, within a period to be fixed in the proclamation, to the party who was in possession at the time when such unlawful possession was taken; and warning all persons that, in the event of their failing to comply with such requisition, and of its being afterwards proved, on the complaint of the party ousted, that they had, without authority of law, taken possession of the land or other real property mentioned in the complaint subsequently to the said 10th May 1857, and that they continue in possession of the same, they will not only be ejected from such land or other real property, and be compelled to account for any mesne profits that they may have accrued during the period that they may have held possession thereof, but will also be liable to such punishment as the Special Commissioner may award under the powers vested in him by this Act. Copies of such proclamation shall be affixed in the Court of the Special Commissioner, and in the several Courts and in the Offices of the several Collectors and Magistrates of the District or Districts to which the jurisdiction of the Special Commissioner may extend.

Applications by persons unlawfully dispossessed.

VI. After the expiration of the period mentioned in the proclamation, any person who may, without authority of law, have been dispossessed of any land or other real property subsequently to the said 10th May 1857, may apply to the Commissioner within whose jurisdiction such land or other real property is situate, to be reinstated in the possession of the same. The application may be written on plain paper, and shall contain the following particulars:—

1. Name, description, and place of abode of the Plaintiff.

2. Name, description, and place of abode of the Defendant.

3. The subject of the complaint, the title under which the Plaintiff claims to have been in possession thereof, and the date on which he was dispossessed.

Procedure before day of hearing.

VII. Whenever such application may be made, the Special Commissioner shall examine the Plaintiff on oath or solemn affirmation as to the truth of his complaint; and if satisfied that there is probable cause for instituting the complaint, he shall issue a summons requiring the Defendant to appear and make defence in person on a day to be fixed in the summons; or, if he see sufficient cause for so doing, he may issue his warrant for the arrest of the Defendant, and for his being brought before his Court on a day to be fixed in the warrant. Provided that the Special Commissioner may, for any good or sufficient reason, excuse the Plaintiff or Defendant from attending his Court in person, and allow him to appear by a duly authorised representative, who may be examined instead of such Plaintiff or Defendant.

Attendance of witnesses.

VIII. On the day fixed for the appearance of the Defendant, the parties shall bring their witnesses into Court, together with any documents on which they may intend to rely in support of their respective statements; and if either party require the assistance of the Special Commissioner to procure the attendance of a witness on such day, he shall apply to the Special Commissioner in sufficient time before the day fixed for the appearance of the Defendant, and the Special Commissioner shall issue a subpœna requiring such witness to attend his Court on that day.

Procedure on day of hearing.

IX. On the day fixed for the appearance of the Defendant, or as soon after as may be practicable, the Special Commissioner shall proceed to examine the parties or their representatives (in cases where personal attendance is excused), or such of them as may be present, and their witnesses; and if, upon such examination, and after inspecting the documents of the parties, and making any further inquiry which may appear to him necessary, the Special Commissioner shall be of opinion that the complaint is substantiated, he shall order the Plaintiff to be put again into possession of the property in dispute, and to be maintained in possession thereof: he may also adjudge the Plaintiff to be entitled to recover from the Defendant mesne profits for the period during which the Defendant may be found to have been in possession of the property. It shall further be lawful for the Special Commissioner, on proof that the Defendant continued in possession of the property in dispute after the expiration of the period fixed by the proclamation, to sentence him to imprisonment in the Criminal Jail, with or without labour, for a period not exceeding Seven years, or to a fine, or to both imprisonment and fine.

Attendance, examination, &c. of witnesses.

X. The provisions of the Regulations and Acts for procuring the attendance of witnesses, and for the examination, remuneration, and punishment of witnesses in suits before the Civil Courts, shall be of equal force and effect in complaints tried under the Act.

Enforcement of order of Special Commissioner.

XI. The order of the Special Commissioner for giving possession of the whole or any portion of the land, or other real property to which the complaint may relate, shall be immediately executed; and it shall be competent to the Special Commissioner to call in the aid of the Magistrate, if necessary, for the purpose of enforcing the same. If

Adjustment and recovery of mesne profits.

the order adjudge the Defendant to be liable to pay to the Plaintiff mesne profits, it shall specify the period for which the same shall be paid, and the Commissioner shall refer the case to the Collector to adjust the amount. In cases so referred, it shall be competent to the Collector to levy the amount which may be awarded by him, and also the amount of any fine which may have been imposed by the Special Commissioner upon the Defendant, by the same process as is authorised for the recovery of arrears of the public Revenue. All proceedings of a Collector under this Section shall be subject to the control and revision of the next superior Revenue authority, whose order shall be final.

Order of Special Commissioner to be final.

Saving of right to institute a regular suit.

XII. All orders passed by a Special Commissioner, in cases cognisable under this Act, shall be final; but nothing in this Act shall be held to preclude either of the parties to the case from instituting a regular suit to establish his right to the property in dispute under the rules applicable to regular Civil Actions.

Act may be extended by the Executive Government to places other than the North-Western Provinces.

XIII. This Act may be extended by the Governor General in Council, or by the Executive Government of any Presidency or place, to any District or Districts within the limits of their respective Governments in which disturbances shall have taken place subsequently to the said 10th May

1857; and it shall be lawful for the Governor General in Council, or such Executive Government, to exercise, in the District or Districts to which this Act may be so extended, all the powers vested by this Act in the the Executive Government of the North-Western Provinces.

II. In like manner, any Civil Court in the North-Western Provinces may receive and try, or re-admit any original suit or appeal in which the period allowed by law for instituting or prosecuting the same may have expired subsequently to the said 10th May 1857, if it shall appear to the satisfaction of such Court that the complainant or appellant in such suit or appeal was precluded from instituting or prosecuting it within the limited period, owing to the disturbed state of the country, whereby access to such Court was rendered dangerous or difficult; provided that the complainant or appellant, according as the case may be, shall present his petition of plaint or appeal, or, if the suit or appeal shall have been previously instituted, but shall have abated for want of prosecution, shall make an application for the re-admission of the same within three months from the passing of this Act, or from the time when the cause above stated shall cease to exist.

Further time allowed for prosecuting certain suits and appeals in consequence of the difficulty of access to the Courts.

Certificate of Zillah Judge to be conclusive evidence of the suspension of the sittings of the Court, &c.

VI. For the purposes of this Act, the certificate of the Zillah Judge that the sittings in any Court within his jurisdiction were suspended, or that access to any such Court was rendered dangerous or difficult, owing to the disturbed state of the country during any particular period, shall be deemed conclusive evidence of the fact.

Marine Department.

Bombay Castle, 15th June 1858.

The Right Honorable the Governor in Council is pleased to republish, for general information, the following Admiralty Notice respecting Lights and Fog Signals to be carried and used by Sea-going Vessels, to prevent Collision :—

By the Commissioners for executing the Office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, &c.

By virtue of the power and authority vested in us, we hereby revoke, as from and after the Thirtieth day of September 1858, the regulations made and published by us on the First day of May 1852, relating to the Lights to be carried by Sea-going Vessels to prevent collision: And we hereby make the following Regulations, and require and direct that the same be strictly observed and carried into effect on and after the First day of October 1858 :—

STEAM VESSELS.

All Sea-going Steam Vessels, when under steam, shall, between sunset and sunrise, exhibit the following Lights :—

1. A bright White Light at the Foremast Head.
   A Green Light on the Starboard side.
   A Red Light on the Port side.

2. The Mast-head Light shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 5 miles, and shall show an uniform and unbroken light over an arc of the horizon of 20 points of the compass, and it shall be so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side.

3. The Green Light on the Starboard side and the Red Light on the Port side shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 2 miles, and show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, and they shall be so fixed as to throw the light from right ahead to 2 points abaft the beam on the Starboard and on the Port sides respectively.

4. The side Lights are to be fitted with inboard screens projecting at least 3 feet forward from the Light, so as to prevent the Lights from being seen across the bow.

5. Steam Vessels under Sail only are not to carry their Mast-head Light.

Fog Signals.

All Sea-going Steam Vessels, whether propelled by paddles or screws, when their steam is up, and when under-way, shall in all cases of Fog use as a Fog Signal a Steam Whistle, placed before the Funnel at not less than 8 feet from the deck, which shall be sounded once at least every five minutes; but when the steam is not up, they shall use a Fog Horn or Bell, as ordered for Sailing Ships.

SAILING VESSELS.

1. All Sea-going Sailing Vessels, when under-way or being towed, shall, between sunset and sunrise, exhibit a Green Light on the Starboard side and a Red Light on the Port side of the vessel, and such Lights shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 2 miles, and shall show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, from right ahead to 2 points abaft the beam on the Starboard and on the Port sides respectively.

2. The Coloured Lights shall be *fixed* whenever it is practicable so to exhibit them; and shall be fitted with inboard screens projecting at least 3 feet forward from the Light, so as to prevent the Lights being seen across the bow.

3. When the Coloured Lights cannot be fixed (as in the case of small vessels in bad weather), they shall be kept on deck between sunset and sunrise, and on their proper sides of the vessel, ready for instant exhibition, and shall be exhibited in such a manner as can be best seen on the approach of, or to, any other vessel or vessels, in sufficient time to avoid collision, and so that the Green Light shall not be seen on the Port side, nor the Red Light on the Starboard side.

Fog Signals.

All Sea-going Sailing Vessels, when under-way, shall, in all cases of Fog, use, when on the Starboard Tack a Fog Horn, and when on the Port Tack shall Ring a Bell. These Signals shall be sounded once at least every five minutes.

Sailing Pilot Vessels are to carry only a White Light at the Mast-head, and are to exhibit a Flare-up Light every 15 minutes, in accordance with Trinity House Regulation.

VESSELS AT ANCHOR.

All Sea-going Vessels, when at anchor in roadsteads or fairways, shall, between sunset and sunrise, exhibit, where it can best be seen, but at a height not exceeding 20 feet above the hull, a White Light in a Globular Lantern of 8 inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon, at a distance of at least 1 mile.

Given under our Hands this 24th day of February 1858.

„ R. S. DUNDAS.

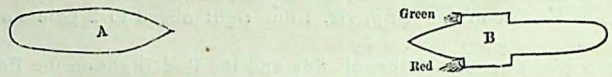

By Command of their Lordships,

(Signed) W. G. ROMAINE,
Secretary.

The following Diagrams are intended to illustrate the use of the Lights carried by vessels at sea, and the manner in which they indicate to the vessel which sees them the position and description of the vessel which carries them:—

FIRST.—When both Red and Green Lights are seen:

A sees a Red and Green Light ahead;—A knows that a vessel is approaching her on a course directly opposite to her own, as B;

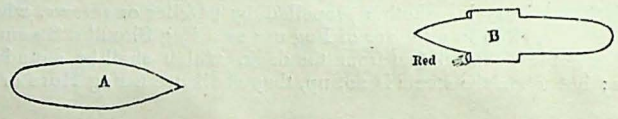

If A sees a White Mast-head Light above the other two, she knows that B is a steam vessel.

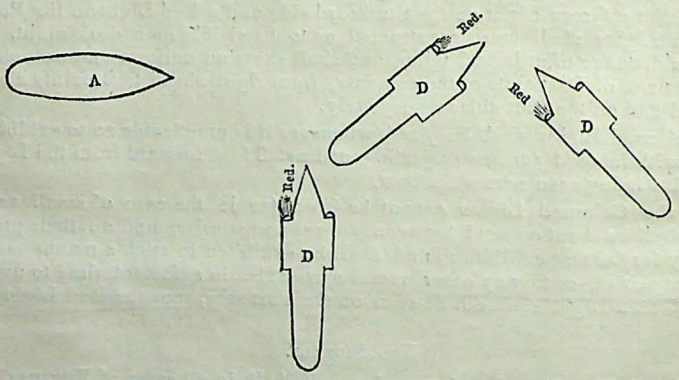

SECOND.—When the Red, and not the Green Light, is seen:

A sees a Red Light ahead or on the bow;—A knows that either,

1st, a vessel is approaching her on her port bow, as B;

or, 2nd, a vessel is crossing in some direction to port, as D D D.

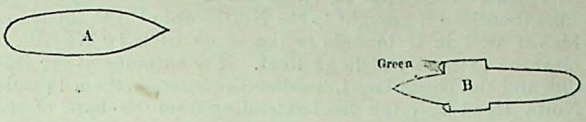

If A sees a White Mast-head Light above the Red Light, A knows that the vessel is a steam vessel, and is either approaching her in the same direction, as B, or is crossing to port in some direction, as D D D.

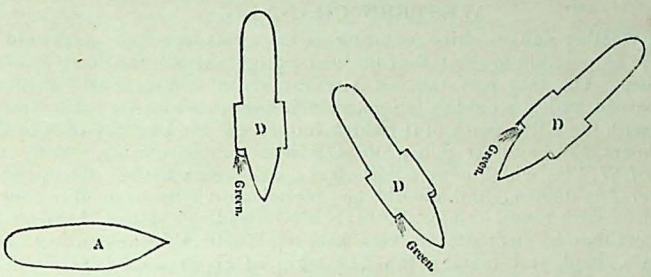

THIRD.—When the Green, and not the Red Light, is seen:—

A sees a Green Light ahead or on the bow;—A knows that either,

1st, a vessel is approaching her on her starboard bow, as B;

or, 2nd, a vessel is crossing in some direction to starboard, as D D D.

If A sees a White Mast-head Light above the Green Light, A knows that the vessel is a steam vessel, and is either approaching her in the same direction as B, or is crossing to starboard in some direction, as D D D.

By order of the Right Honorable the Governor in Council,

P. M. MELVILL, Colonel,
Secretary to Government.

Marine Department.

The Honorable the Secretary for Finance and Trade directs the publication of the following Notice, for general information.

(Signed) HENRY LANE,
Secretary to the Treasury.

The Treasury, New South Wales, 6th May 1858.

NEW LIGHTHOUSE ON THE INNER SOUTH HEAD, AT THE ENTRANCE OF PORT JACKSON.

Notice is hereby given, that on and after the 1st day of June 1858, a bright, white, fixed catoptric light will be exhibited between sunset and sunrise, from the Lighthouse recently erected on the Inner South Head, at the entrance of Port Jackson.

The Lighthouse stands on the edge of the Cliff forming the Inner South Head, at an elevation of 60 feet above the sea level. It consists of a tower 30 feet in height, which is painted in vertical stripes of red and white.

The light is of the first order, and will be visible within the arc of its range from an 18 feet elevation, at a distance of 15 miles.

On and after the same date, a fixed red Harbour light will be exhibited from the Tower on Fort Denison, formerly known as "Pinchgut Island."

The following Sailing Directions are also published for general information, copies of which, in a pamphlet, together with a Coast Chart, showing the Soundings within the range of the Lights, may be obtained at the Harbour Master's Office.

By order of the Board,

(Signed) H. H. BROWNE,
Chairman.

" JOHN CROOK,
Harbour Master.

" W. J. WILSHIRE,
Secretary.

Steam Navigation and Pilot Board Office, Sydney, 6th May 1858.

APPROACH AND ENTRANCE.

Vessels approaching the Harbour, having made the High Lighthouse, should keep it within bearings from NW. to SSW., which will leave the Low Lighthouse open, and ensure its being seen when within its radius. Care must be taken not to shut the High Lighthouse in with the Cliffs south of it, which it will do if brought to the Northward of NW. by N., nor close it in with the North Head, which it will do if brought to the south of S. by W. ½ W., the latter bearing being the guide to clear the extremity of Long Reef. The entrance of the Harbour lies betwixt the Signal Station Cliff and the North Head, the distance between them 1¾ miles, which contracts betwixt the Inner North Head and the Reef extending from the base of the Low Lighthouse erected on the Inner South Head to ¾ of a mile, and is further contracted about 300 yards in the channel between the tail of the reef and the precipitous Middle Head, which bears WNW. from it.

WESTERN CHANNEL.

To preserve a weather gauge, ships entering with winds from the southward or eastward should pass as close as possible to the tail of the reef, which extends 450 feet from the base of the Low Lighthouse. On this reef the sea always breaks. With a commanding breeze the breakers may be passed within a cable's length, in 8 fathoms, care being taken not to close the High Lighthouse with the Cliffs north of it (which it does on the bearing of S. by E.) until the Low Lighthouse bears SW., and the two white Obelisks on the western shore are brought in one, on a bearing of W. ½ S., which course will clear a dangerous 16 feet patch, lying 800 yards west of the Lower Lighthouse, and should be steered until Elizabeth Mansion, an imposing white square building with round dome, closes behind Bradley's Head, bearing SW. ¾ S. A SW. ¾ S. course must then be steered (carefully keeping Elizabeth Mansion just closed over the low part of Bradley's Head, and leaving the Lightship at about a cable's length on the port hand), until the High Lighthouse has opened its own breadth north of the red and white chequered obelisk below it, on the bearing of SE. by E. ½ E., when the ship will have passed the shoal and deepened her water to 9 fathoms, and may safely proceed up the Harbour and choose her anchorage by giving either shore a berth of a couple of cables' length. Beating up the Western Channel, the deep water will be found on the western shore, with the exception of a small shoal patch, having 18 feet on it, which lies in Obelisk Bight, in a line betwixt George's Head and Middle Head, 500 yards from the former. Avoiding this patch, you may make free with the western shore to within half a cable's length, but in standing over to the opposite eastern side, beware of the 16 feet patch before alluded to as lying west of the Low Lighthouse; to avoid it do not bring the Lightship to the westward of S. by W. ¾ W. Betwixt George's Head and the upper south-western tail of the Sow and Pigs Shoal, the channel is contracted by an 18 feet detached bank to the width of about 350 yards; to clear this the Lightship must not be brought so far to the westward as to bring her and the obelisk on the North Head in line until the High Lighthouse is open at least its own breadth north of the chequered obelisk below it; when you will be past the shoal, and be able to work up with plenty of room in from 9 to 16 fathoms water.

Vessels of lighter draught than 15 feet can pass over these two shoal patches, and the upper portion of the Sow and Pigs Shoal, and stretch right across from shore to shore by not, when passing to the southward of the Lightship, coming nearer to her than two cables' length, or not before the line from George's Head to the North Obelisk on the eastern shore bearing E. ½ S. is passed, remembering that the deepest water over the Sow and Pigs, 22 feet, is obtained by closing Elizabeth Mansion behind Bradley's Head, and keeping the high Windmill which stands on the heights east of the Elizabeth Mansion a sail's breadth open of the Head.

Having cleared the Sow and Pigs Shoal the navigation up the Harbour is free from obstructions, with the exception of a ledge extending a cable's length from Bradley's Head, and a reef of the same extent off Shark Island, the first Island that will be approached. A knoll, which lies 500 yards west of the Bottle and Glass (conspicuous rocks forming the south boundary of Watson's Bay), having 4½ fathoms on it, cannot, of course, impede a ship which has passed through either of the channels. It is, therefore, only necessary to keep at a cable's length from the shore, and, when anchoring, to take a berth which will admit of a long scope being veered to southerly squalls.

The following schedule of courses, distances, and soundings, will show at a glance the nature of the navigation in the Western Channel, commencing from the position where the Lighthouse touches the Cliffs north of it, and the two western obelisks are in one:—

Courses.	Distances.	Soundings.
1st.—W. ½ S.	½ mile and 100 yards	From 8 to 7 fathoms.
2nd course—SW. by S.	⅔ of a mile	7 fathoms to 4 fathoms, and then suddenly to 21 feet.
3rd course—SSW. to abreast Bradley's Head.....	1¼ miles	21 and 20 feet, and deepening rapidly to 6, 10, and 13 fathoms.
4th course—to Sydney West, passing Fort Denison on either hand.	1¾ miles	Gradually shoaling from 13 fathoms to 7.

EASTERN CHANNEL.

Now that Obelisks have been erected as leading marks for the Eastern Channel, it may, in particular cases, be advisable to pass through it, although, on account of its limited width in several parts, and the necessity, when entering it from seaward, for suddenly changing the course at right angles, it presents less advantages than the Western Channel. It may, however, be safely navigated by attending to the following instructions:—

First, as in the case for the Western Channel, to clear the South Reef you must pick up the line of the two western obelisks in one, W. ¼ S., and immediately after passing two cables' length on that course westward of the meridian of the Low Lighthouse, two obelisks, at high-water level, on the strand of the eastern shore, will suddenly unmask, bearing S. ¼ E. When they come in one, which they will do very rapidly, haul sharp up for them, carefully preserving them in line for the first quarter of a mile, until on your port quarter you observe the North and Inner South Heads locking, when you may edge off and pass the northernmost of the two obelisks at half a cable's distance, taking care not to open the obelisk on the slope of the North Head (after having once closed it with the Inner South Head) until you observe the spire of St. James' Church (the only spire which makes out in Sydney) its breadth open of Bradley's Head SW. ¾ W. When the high Lighthouse is seen to the northward of the chequered obelisk you are above the Sow and Pigs Shoal, and may bring up in safe anchorage, or proceed up the Harbour, there being no obstructions to the navigation except the Reefs off Bradley's Head and Shark Island, mentioned in the directions for the Western Channel.

ENTERING IN THE NIGHT.

Vessels approaching in the night with southerly or westerly winds should keep the sea until daylight, but with winds from the northward or eastward, and favourable weather, they may safely enter, observing the following directions:—

The revolving light having been made, it should be kept between the bearings of NW. and SSW. ¼ W., until the lower fixed light appears insight. This light being brought to bear W. by S., a course should be shaped to pass a cable's length to the northward of the breakers on the reef extending from it, in 9 fathoms water which depth is found at a distance of about 450 yards from the Lighthouse. After the meridian of the Low Light is passed, and it has been brought to bear to the eastward of south, a W. by S. course may be steered until the Floating Light bears S. by W. ¾ W., when a course should be shaped so as to leave the Lightship a cable's length on the Port hand. After passing the Lightship the course is SW. by S., until the Revolving Light bears ESE., when you will be above the Sow and Pigs Shoal, and have deepened the water to 10 fathoms, and by hauling up SE. for a quarter of a mile will find convenient anchorage in 8 or 9 fathoms, sandy bottom; or may proceed further up the Harbour, taking care to avoid vessels and boats lying in the way.

ANCHORAGES WITHIN THE HEADS.

Ships of large tonnage, or drawing more than 18 feet, ought not, with a fresh head wind, to attempt to work through the narrow channels between the Sow and Pigs Shoal and the shore, neither should they anchor to the northward of the Lightship with the Heads open, but rather bear up for Spring Cove or North Harbour, in which safe anchorage may be found. Spring Cove, where the Quarantine Station is established, is a small bay (capable of containing four or five moderate sized ships) on the western side of the promontory forming the North Head of Port Jackson, and lies due north from the Inner South Head Lighthouse. Vessels seeking shelter in it should bring this Lighthouse to bear S. by E. before the North Head is closed with the Inner North Head about E. ¼ S., when they must steer a course about N. by W., passing at a cable's length distance the hummocky point, with a flagstaff upon it, which forms the southern boundary of Spring Cove, when they will be abreast of the anchorage, and may shoot into the Bay until the Inner South Head Lighthouse just touches the hummocky point before mentioned, and anchor in 6 or 7 fathoms, sandy bottom.

If a ship which has run for Spring Cove should find its limited space so filled by vessels as to prevent her taking up a berth, she may proceed on a course about N. by W. until a quarter of a mile to the northward of the north point of Spring Cove, and then anchor in 6 fathoms at a cable's length from the eastern shore of North Harbour. Here a ship will be sheltered from the sea which SE. winds send into the middle and western portion of this harbour.

Strangers to the Port may deem it objectionable to run to leeward for a confined anchorage, and those who have not got a Pilot had better stand out again until one can be obtained, unless they feel confident of being able to take in sail smartly and bring up quickly.

Between Grotto Point and Middle Head, and due west of North Head, lies Middle Harbour, an arm of the sea extending several miles in a North-West direction. It is open to the eastward, and not navigable for vessels drawing more than 9 feet, a bar of that depth running across its mouth. Neither does Hunter's Bay, situated at the entrance to Middle Harbour, afford good anchorage, being open to easterly winds, and the bottom foul.

TIDES.

The tides in the Harbour of Port Jackson do not run with great velocity, the maximum rate of the ebb being two, and of the flood one-and-a-half knots. Their course is generally that of mid-channel, except at the entrance, where the ebb tide, running strong near the North Head, leaves a considerable space of slack water to the southward, of which Vessels working in can avail by tacking to the southward whenever the Floating Lightship is seen open of the Inner South Head. The times of high-water, full, and change, are at the Heads 8h. 15m., and at Sydney, 8h. 30m.; rise and fall 6 feet.

All bearings herein given are magnetic, and the soundings those at low-water spring tides.

GENERAL DEPARTMENT.

Pending the Promulgation of Permanent Rules for the General Regulation of Grants-in-aid of Education, the following Provisional Rules, approved of by the Government of India, will be followed in the Bombay Presidency :—

1. The Local Government, at its discretion and upon such conditions as may seem fit in each case (reference being had to the requirements of each District as compared with others, and to the funds at the disposal of Government), will grant aid, in money, books, or otherwise, to any School in which a good secular education is given, through the medium either of English or the Vernacular tongue, to males or females, or both, and which is under adequate local management.

2. In respect of any such School for which application for aid is made, full information must be supplied on the following points :—

1*st.* The pecuniary resources, permanent and temporary, on which the School depends for support.

2*nd.* The average annual expenditure on the School.

3*rd.* The average number of pupils instructed, the ages of the pupils, and the average duration of their attendance at the School.

4*th.* The persons responsible for the management and permanence of the School, and the time for which they will continue to be responsible.

5*th.* The nature and course of instruction imparted.

6*th.* The number, names, and salaries of Masters and Mistresses, and subjects taught by each.

7*th.* The Books in use in the several Classes of the School.

8*th.* The nature and amount of aid sought, and the purpose to which it is to be applied.

3. Any School to which aid may be given shall be at all times open to inspection and examination, together with all its Current Accounts and Lists of Establishment and Scholars, by any Officer appointed by the local Government for the purpose. Such inspection and examination shall have no reference to religious instruction, but only to Secular Education.

4. The Government will not in any manner interfere with the actual management of a School thus aided, but will seek, upon the frequent reports of its Inspectors, to judge from results whether a good secular education is practically imparted or not; and it will withdraw its aid from any School which may be for any considerable period unfavourably reported upon in this respect.

5. In giving Grants-in-aid, the Government will observe the following general principles :—Grants-in-aid will be given to those Schools only (with the exception of Normal Schools and Female Schools) at which some fee, however small, is required from the Scholars; and, whenever it is possible to do so, they will be appropriated to specific objects, according to the peculiar wants of each School and District.

6. No Grant will in any case exceed in amount the sum expended on the Institution from private sources, and the Government will always endeavour so to give its aid, that the effect shall not be the substitution of public for private expenditure, but the increase and improvement of Education.

7. It is to be distinctly understood that Grants-in-aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any School on the ground that any particular religious doctrines are taught or not taught therein.

By order of the Right Hon'ble the Governor in Council

W. HART,
Secretary to Government.

Compulsory Prepayment of Letters to the United Kingdom.—From the 1st of September next the present system of *optional* Prepayment of Letters sent from India to the United Kingdom will be abolished, and from that date the Prepayment of Postage on Letters posted in any part of India for the United Kingdom, whether marked *viâ* Southampton or *viâ* Marseilles, will be *compulsory*. The Rates of Postage are as under:—

Marseilles ..	0-6	0-8	0-14	1-0	1-10	1-12	1-14	2-0	And so on, adding 8 Annas for every additional ounce, or fraction of an ounce, in addition to 2 Annas (French Postage) for every additional quarter of an ounce, or part of a quarter.

All Letters posted on or after the 1st of September upon which at least a single rate of Postage—that is to say, 4 Annas on a Southampton Letter, and 6 Annas on a Marseilles Letter—has not been paid, will be returned to the senders. But in order to obviate the inconvenience which would be caused to the public by detaining and returning to the senders Letters which, *through inadvertence*, may be posted without the full amount of Postage being paid upon them, Letters insufficiently prepaid, but on which at least a single rate of Postage has been paid, will be forwarded, charged with the deficiency of Postage and a fine of Sixpence, or four Annas.
