Territorial Department, Revenue. NOTICE.

*Deputy Commissioner's Office,
Lingsoogoor, 16th October 1858.*

It is hereby notified for general information, that, on and after the 1st February 1859, there will be opened, in the District of Raichore Doab, two Cotton Marts, one at the Station of Lingsoogoor, and one at Raichore. The former place is situated sixty miles East of Kulladghee and ninety miles North-east of Dharwar. Sholapore, to which place the Railway is approaching, is little more than one hundred miles to the north, and there exists no impediment to the free passage of carts, all duties being removed. Raichore lies fifty-seven miles to the East of Lingsoogoor, and carts can travel between the stations at any time.

Parties trading in Cotton are invited to attend the Marts, and, as the supply of carriage is at present limited, they will find it to their advantage to import Salt, Molasses, Sugar, Suparee, Iron, Steel, and Leather.

It is calculated that about 200,000 acres of Cotton are sown in the District, quarter of which is used for home consumption, and the residue exported. American Cotton was introduced in small quantities last year.

Saw-gins will be established at the respective Marts; and Agents appointed by Firms to trade here will receive every information and assistance from the undersigned.

R. N. TAYLOR,

Deputy Commissioner, Raichore Doab.

Notice to Mariners.

THE "CAIRNSMORE" ROCK.

The position of this Rock, upon which the British Ship *Cairnsmore*, of Liverpool, John Bragg, Master, bound from Hongkong to Shanghai, was totally wrecked, on the 26th of June last (see *North China Herald*, July 3rd), is given as follows, by Lieut. Ward, R. N., in charge of H. M.'s Yacht *Emperor*, from observations taken whilst the Wreck was upon it:—

"The *Cairnsmore* Rock lies in Latitude 30° 42' 10" North, and Longitude 122° 34' 40" East, very nearly in mid-channel between the Parker Islands and the Saddle Group. The following are the Bearings of the most conspicuous objects seen from the Rock:—

South-east point of Senhouse Island. . South.

A small rugged rock close to the South-east point of Raffles Island, and in a line with the point. } S. 59° W.

The Northernmost Rock of the Group off Chesney Island (very conspicuous) } N. 59° W.

On approaching this dangerous Rock, the lead can give no warning whatever, as the Rock is very small, apparently not more than 30 or 40 feet in diameter, and rises very abruptly.

It will be prudent, in future, for vessels navigating this channel, to keep on the Saddle Island side. When, *going North*, the Bit rock opens South of South Saddle Island, they will be to the Northward of the *Cairnsmore* Rock, and, when *going South*, the same Rock opens to the Northward of the South Saddle, they will be to the Southward of it."
