Bombay General Post Office, 6th October 1855

DUNCAN DAVIDSON,
 Post Master General.

NOTICE.

The following Rules, which, under the orders of the Government of India, have been issued for the guidance of the Officers of the Post Office, are published for general information :—

I. Letters arriving at the Presidency towns by Mail Steamers will be immediately sorted for delivery, without any reference to instructions which may have been received regarding change of address. Such changes will be left to be discovered by the Delivery Officers, and be corrected in the Forward and Unclaimed Departments of the Office.

II. A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

III. Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged, in addition to all other Postage due or paid thereon, upon every letter without exception which may be re-directed in any Post Office. For example, if a letter posted in Calcutta, and addressed to Hooghly, is, under instructions which may have been received from the addressee, re-directed in the Calcutta Post Office, and sent to Barrackpore, Forward Postage will be charged in addition to the Postage which would have been due had the letter been despatched to Hooghly according to its original address.

IV. The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters not only imposes much labour upon them, but, in large Offices, seriously retards the delivery and despatch of the Mails. A Register of instructions regarding changes of address will be kept in every Post Office, but it must be understood that it is impossible to guarantee that they shall be attended to, except in the case of letters received for delivery.

Camp, 7th November 1855.

(Signed) H. B. RIDDELL,
 Director General of the Post Office in India.

The Mails from the undermentioned Stations reached the Bombay General Post Office in time for despatch by the P. & O. Co.'s Steamer "MALTA," which started on the morning of the 17th January 1856.
