**SAILING DIRECTIONS FOR THE  
PORT OF AKYAB, IN THE  
ARRACAN RIVER.**

Ships sailing for Akyab during the South-West Moonsoon should steer for the South end of the Western Bolongo, in Lat.  $19^{\circ} 50' N.$ , Long.  $93^{\circ} 3' E.$ , then standing along the Coast to the Northward and Westward about five or six Miles off Shore, until the Light is sighted on the Great Savage, at the entrance of the Arracan River, then steer so as to bring it to bear N. by East or N. N. E., and if they intend to run in during the night, with either of these bearings they will cross the bar in the best water, in three fathoms low water spring tides.

After deepening across it, the course should be altered to N. by W. or even N. N. W., according to the state of the Tide and Sea at the time, to avoid the Western Rocks (above water) bearing from the Light S. W.  $\frac{1}{2}$  S., distant nearly half a mile; the Flood Tide sets in on these Rocks.

When the Light bears East in six to nine fathoms on the edge of the flat to the Westward, the course must be altered to N. N. E. and N. E. by N.; having brought the Light to bear S. E. by S.  $\frac{1}{2}$  S. the Ship will be inside of Passage Rock, which is five to seven feet above water, and bears from the Savage Light N. W.  $\frac{1}{2}$  N. distant a quarter of a mile, and should then steer N. E. Easterly, to avoid the Reef projecting from Faqueer's Point, a mile in extent to the South; some of the Rocks are above water at half ebb. There is a Red Buoy placed on the Southern entrance, in about nine fathoms, which with attention may be seen in a clear night without the Moon, and after bringing Faqueer's Point to bear N. W. by N. to N. W. the Ship should anchor.

On Faqueer's Point a small Light House is nearly finished, the Light of which will be a deep red, and will be seen about six miles, or three miles beyond the Bar, as a leading mark to clear the Western Rocks, keeping it a little open to the Westward of the Savage Light when steering in or out, also to point out when the Ship is inside of the Reef off Faqueer's Point. With this Light bearing N. W. by N. to N. W. is good anchorage, having excellent holding ground, and perfectly sheltered from the Sea.

A stranger should not attempt to run in at night, particularly in the rains, except at high or low water, as the ebb tide runs very rapidly in strong eddies off the Passage Rock, over the dangerous flat to the Westward, and the flood in strong eddies upon the Rocks.

During the N. E. Monsoon, Ships bound to Akyab, from the Northward, should endeavour to make the Table Land of the Western Bolongo in Lat.  $20^{\circ} 1' N.$ , then steering due East they will avoid the Oyster Reef in Lat.  $20^{\circ} 5' N.$ , Long.  $92^{\circ} 40' E.$ , which is distant from the Savage Light fifteen miles due West. This course is recommended, as although in favorable weather the Savage Light is seen, outside the Reef in 16 to 17 fathoms water, the depth suddenly decreases, and the probability of hazy or rainy weather would prevent the Light being seen, and steering boldly in to sight it, to the Northward of Lat.  $20^{\circ} 1'$  would endanger the safety of the Vessel, by sud-

denly falling upon the Oyster Rock or Reef before sighting the Light House.

I would not advise strangers on any occasion to make use of the Channel inside of the Oyster Rock or Reef.

**JAMES PATERSON,**  
*Comdr. H. Co.'s Ship "Amherst."*

The directions above given by Captain Paterson were published in 1844. The Red Light referred to was finished and first exhibited in 1845. In 1848 a Red Buoy was laid on the N. E. edge of the Bar, in  $3\frac{1}{2}$  fathoms low water.

The following additional directions are therefore considered necessary by the Port Master, and by Captain Dicey, of the Hon'ble Company's Steamer *Tenasserim*.

In the event of the Red Buoy on the edge of the Bar breaking adrift, it is recommended in working across the Bar not to bring the Great Savage Light to bear more Easterly than N. E. by N. until you deepen over. When you do so, Captain Paterson's directions may be followed.

Captain Paterson's caution as to not going in at night, must still be attended to, as the Red Light is not seen till the Bar is crossed.

## Notice

Is hereby given, that sealed Tenders will be received at this Office on Saturday, the 5th proximo, until 2 o'clock, P. M., from such persons as are desirous of entering into a Contract with this Department for the supply of Cloths of Europe and China Manufacture, for the term of one year from the date of the acceptance of the Tender.

All persons desirous of tendering, may, on application at this Office, from 11 A. M. to 5 P. M., daily (Sundays excepted), obtain a list of the prices, and such other information relating thereto as they may require.

The Tenders must specify, both in words and figures, the rates per cent. above or below the prices in the list above adverted to, at which they will undertake to furnish the articles therein embraced, of unexceptionable quality, in such number or quantity as may from time to time be demanded; on the distinct understanding, that the articles are to be supplied according to musters which may be seen in this Office, and delivered to the Indenting Departments free of all further expenses, and that the same will be liable to examination and rejection by a Committee of Officers appointed on the part of Government.

No tender for the Contract in question will be received unless accompanied by a cash deposit of Rupees (959) nine hundred and fifty-nine, in cash, which will be forfeited in the event of delay, evasion, or refusal to execute the necessary deed of Contract, should their offer be accepted; in which latter case, the Tenderer must be prepared to give unexceptionable bonded security to the extent of Rupees (3838) three thousand eight hundred and thirty-eight, to be held by Government for the due fulfilment of the Contract.

The party or parties whose Tender may be accepted will be required to sign and seal a Contract, stipulating to the above effect, and that he or they will comply immediately with all emergent demands for the articles included in the above-mentioned list, and will meet other demands of less urgency within the periods stated in the requisitions made upon him or them; in failure whereof, or if the supply be condemned by a Committee of Officers, as aforesaid, the Cloths or such other articles as may be required in lieu of them, shall be purchased by this Department, without reservation, at his or their risk and cost, and in all such cases an advance of Rupees (30) thirty per cent. upon the amount of expenses incurred, or a fine of Rupees (50) fifty, at the option of the executive officer, may be levied as liquidated damages for each and every such breach of Contract, as often as the same shall happen; also the Contract may, in all such cases, be put an end to on the part of the East India Company.

It is to be distinctly understood, that Bills for the quantities of articles included in the above-mentioned list, supplied, shall be preferred with-in or before the expiration of one month from the date of the delivery of the articles, in default of which, the Contractors shall be liable to forfeit the full value or amount of the supplies for which Bills have not been so preferred, unless it shall clearly appear that the delay was unavoidable.

The amount of retrenchments made by the Military Board on the Contractors' Bills will be recovered from the first bills preferred for payment by the Contractors; but in the event of such retrenchments, or any portion thereof, being remit-

ted, the amount, or so much of the amount as shall be so remitted, will then be refunded to them.

The Annual Outlay on the above Contract is estimated at Rupees 19,159, or thereabouts. All further particulars will be communicated on application of this Office, or on the receipt and opening of the Tenders.

No reason will be assigned for the rejection of any offer.

Notice

Is hereby given, that on the 15th of November next, a fixed Light will be exhibited from a Sandy Hill abreast of the Santapillay Rocks, about 150 feet above the level of the Sea. In ordinary weather it will be visible from the deck of a Ship about 12 or 13 miles.

The following information is furnished by Captain Biden, Master Attendant at Madras, who surveyed the Rocks in 1846.

### NOTICE TO MARINERS.

SAILING INSTRUCTIONS as a guide when Ships or Vessels are on the Coast of Orixá, or off the SANTAPILLAY ROCKS.

1. Whereas a recent survey of the SANTA-PILLAY ROCKS under the direction of Lieutenant Fell, I. N., and a further inspection thereof by the Master Attendant, on the 6th instant, clearly prove that those Rocks comprise one of the most dangerous shoals in the Indian Seas, and as no well-defined land-mark has hitherto been notified for the purpose of indicating their locality, and warning Commanders of Ships and Vessels of their near approach to those Rocks, it is therefore expedient to publish the following remarks for the guidance of all Mariners who may navigate the Coast of Orixá, and the Bay of Bengal.

2. The Santapillay Rocks are in  
Latitude 17° 59' 25" N.  
Longitude 83° 47' 37" E.

and are distant from the Coast between 5 and 6 miles. They are about ten feet under water, steep to on all sides, and their extent is not beyond 200 yards in length. When there is but little wind and a smooth sea, this shoal presents no indication by broken or discolored water, as Lieutenant Fell, when in search of it during very fine weather, brought the Surveying Brig "Kristna" to anchor within 100 yards of the Rocks before he could observe the slightest appearance of a Shoal. He then proceeded in one of that Vessel's boats over the Rocks, and found 10½ feet on the shoalest part; on the Eastern side 7 and 10 fathoms; and on the Western limit 10½ fathoms, rocky bottom.

3. The Master Attendant surveyed the Santapillay Rocks in the H. C.'s Steam Vessel "Hugh Lindsay," on the 6th instant, during fine weather; and with a moderate breeze from S. W. and a ground swell, the breakers were clearly discerned from the mast-head at the distance of 6 or 7 miles, bearing due South, and Santapillay Peak bearing W. b. N. in 7 fathoms, off shore about 2 miles. The breakers were soon after seen from the deck; and at 11 h. 45 m. A. M., when the Reef, which broke with considerable force, bore from S. 56° E. to S. 57° E., and Santapillay Peak was bearing N. 43° W., the "Hugh Lindsay" was anchored in 9½ fathoms, coarse sand and shells, distant from the reef 2 miles; and from the Coast 3½ miles. Latitude, by an indifferent observation, 18° 1' N.

4. Two boats were sent under Captain Crawford, to examine the reef, and they carried regular soundings from the Steamer of 9 and 9½ fathoms until within a quarter of a mile, and in less than 100 yards of the breakers, where they found 10½ and 10½ fathoms, rocky bottom. The breakers were too high to admit of the boats crossing over the reef; but Captain Crawford pulled round it, and gave as his opinion that the Shoal, which lies N. N. W. and S. S. E. is in circum-

ference about a quarter of a mile, with ten fathoms all round very close to the rocks. From the "Hugh Lindsay" the breakers seemed to extend the length of 200 yards.

5. The inner channel is safe for Ships and Vessels of every class, as soundings of 5 fathoms within a mile of the Coast, and 9½ fathoms within ¼ of a mile of the Rocks afford a clear space of nearly four miles in breadth.

6. In fair weather, and when the Peak of Santapillay is visible, that lofty and remarkable land-mark affords an infallible guide to the true position of the Santapillay Rocks. This Peak is at least 2,000 feet above the level of the Sea, and presents a striking contrast to all the hills in its vicinity. It bears N. 50° W. from the Rocks, and the base of the mountain is not more than 7 or 8 miles from the Coast.

7. But in thick weather, when no well-defined land-mark is discernible, then it becomes absolutely necessary to approach the Coast between Ganjam and Vizagapatam with great care and caution. Change of current, and the absence of all means, by night or day, of obtaining a single observation may, without strict and unremitting attention to soundings, place a Ship or Vessel in imminent peril close to, or upon the Santapillay Rocks, which should not be approached from the Eastward, by day or night, under 17 fathoms.

Master Attendant.
