No. 879, dated 29th October 1859, it is decided that the Bounty of Men of Her Majesty's Indian Army, who defer their re-enlistment until after twelve months from the close of their previous engagement, shall be half of the present authorised rate, or £2 10s.

No. 341 of 1860.—His Excellency the Governor in Council is pleased to publish the following despatch from Her Majesty's Principal Secretary of State for India, dated 7th April 1860, No. 59 :—

“ With reference to the General Order in Council of India, No. 2, dated 6th June last, relative to the grant of furlough to Europe to well-conducted and deserving Non-Commissioned Officers, I have to request that the particular attention of the Commander in Chief may be directed to the opinion of Her Majesty's Government on the subject, as expressed in paragraphs 29 to 31 of my despatch to India, No. 373, dated 30th October last, copy of which is herewith forwarded for your information and guidance ; and to desire that the furlough granted be strictly limited to the few special cases contemplated in paragraph 30 of that despatch.

2. Her Majesty's Government have established for such cases the following Rules :—

The leave of those men whose state of health may render a change of climate advisable, who are considered deserving of the indulgence, and who may be fit to do duty with invalid and discharged men on the voyage from India, is to be limited to a short leave to visit their friends in Europe.

The furlough granted under medical certificate, as absolutely necessary, will expire in England at the period of one year from the date of quitting India.

Every man whose state of health has not sufficiently recovered at the period when he is called upon to return, will undergo a medical examination as to the probability, within a reasonable period, of his being fit for further duty in India.

Those men who may be reported unequal to further service with the Regiment or Department to which they belong, will not be permitted to return to duty, but will be dealt with under the Regulations ; and in no case will any man be allowed to return to India with a view to his being placed upon the Invalid Establishment in that country.

No period of leave passed by any man out of India will be allowed to reckon as service for Pension.

It is to be distinctly understood that no man, enlisted under the Limited Service Act, be allowed to come to England during his first period of service.

The only allowance to be paid to men who obtain leave of absence will be the rate of pay for the time being for men of the same rank in Her Majesty's British Army, and Good Conduct Pay when in possession of that reward.

3. With reference to the extract from a General Order by the Commander in Chief at Bombay, dated 30th July last, quoted in the margin, I have to state that, in conceding the grant of furlough with a free passage to and from Europe to deserving Non-Commissioned Officers of Her Majesty's Indian Army, whose health requires a change of climate, it is not the intention of Her Majesty's Government that passages at the public expense should also be provided for the wives or families of those men; but, with the view of assisting such married men as may desire to bring their wives and families with them, you are authorised to grant them an allowance of (£20) Twenty Pounds."

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Notice to Mariners.

DANGEROUS SHOAL IN THE MIDDLE OF THE PERSIAN GULF.

A dangerous shoal was reported some time back to exist in the middle of the Persian Gulf, by the Commander of the Ship "Shah Allum," who first discovered and sounded on it; and, in consequence thereof, the shoal which has lately been carefully surveyed, has been called the "Shah Allum Shoal."

It lies in the middle of the Persian Gulf, equidistant from the Islands Sheykh Shayb and Halool, and its bearing from the Westward end of Sheykh Shayb is S. 55° W., distant 44 miles. The shoal forms a small bank of sharp and rugged rocks, and that portion of it where the soundings are under 20 fathoms, is only 2½ miles wide in a North and South direction, and 2 miles in an East and West direction. The dangerous part is at the North end, where is not more than one-third of a mile across, on which there is generally from 4 to 5 fathoms in overfalls, but in one spot there are rocks having only from 15 to 17 feet on them, according to the tide, the time of which is not accurately known. The least water on any part of the shoal is not less than 12 feet.

The "Shah Allum Shoal" is steep to all round, having 37 fathoms at its South extremity, and from 40 to 45 fathoms at its North, about a mile distant from the shoal, which renders it all the more dangerous, as this great depth of water produces no discolouration on its surface, nor does it allow the shoal to be seen from aloft until on it, but the bottom may be seen, when in seven fathoms, and

plainly when under that depth. Sea-birds frequent the site of the shoal, and flocks of them are generally to be seen hovering over it. There are sometimes also slight marks observable on the water, in its vicinity, supposed to be caused by the tides.

In clear weather, the mountains on the coast of Persia between Taurie and Nakhiloo, can be distinctly seen from the shoal, and the well known landmark called Assaloo Notch bears from it N. 51° E.

The shoalest spot is in Latitude 26° 25' 20" North, and 1° 40' 13" East of Bushire Residency Flagstaff.
