** Military, No. 145.*

HIS EXCELLENCY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—With reference to the General Order in Council of India, No. 7, dated 6th June last, relative to the grant of furlough to Europe to well-conducted and deserving Non-Commissioned Officers, I have to request that the particular attention of the Commander in Chief may be directed to the opinion of Her Majesty's Government on the subject, as expressed in paragraphs 29 to 31 of my Despatch to India, No. 373, dated 30th October last, copy* of which is herewith forwarded for your information and guidance, and to desire that the furlough granted be strictly limited to the few special cases contemplated in paragraph 30 of that despatch.

2. Her Majesty's Government have established for such cases the following Rules:—

The leave of those men whose state of health may render a change of climate advisable, who are considered deserving of the indulgence, and who may be fit to do duty with invalids and discharged men on the voyage from India, is to be limited to a short leave to visit their friends in Europe.

The furlough granted under medical certificate, as absolutely necessary, will expire in England at the period of one year from the date of quitting India.

Every man whose state of health has not sufficiently recovered at the period when he is called upon to return, will undergo a medical examination as to the probability, within a reasonable period, of his being fit for further duty in India.

Those men who may be reported unequal to further service with the Regiment or Department to which they belong, will not be permitted to return to duty, but will be dealt with under the Regulations; and in no case will any man be allowed to return to India with a view to his being placed upon the Invalid Establishment in that country.

No period of leave passed by any man out of India will be allowed to reckon as service for pension.

It is to be distinctly understood that no man, enlisted under the Limited Service Act, be allowed to come to England during his first period of service.

The only allowance to be paid to men who obtain leave of absence, will be the rate of pay for the time being for men of the same rank in Her Majesty's British Army, and Good Conduct Pay, when in possession of that reward.

3. With reference to the extract from a General Order by the Commander in Chief at Bombay, dated 30th

The Commander in Chief is pleased to announce that passage to Europe will be provided for the families of Non-Commissioned Officers obtaining furlough under the provisions of G. O. C. No. 2, of the 6th June 1859.

July last, quoted in the margin, I have to state that, in conceding the grant of furlough, with a free passage to and from Europe, to deserving Non-Commissioned Officers of Her Majesty's Indian Army, whose health requires a change of climate, it is not the intention of Her Majesty's Government that passages at the public expense should also be provided for the wives or families of those men; but, with the view of assisting such married men as may desire to bring their wives and families with them, you are authorised to grant them an allowance of Twenty (£20) Pounds.

I have, &c.

"The following paragraph of a Military letter, from the Right Honorable the Secretary of State for India No. 148, of the 14th April 1860, is published for general information :—

I have had under my consideration in Council the rule under which Officers of twenty-two years' Indian Service are entitled to retire on the pay of their Regimental rank. This privilege, which is granted to Officers under the joint operation of the Regulations of 1796 and 1854, may, in some cases, be rendered inoperative by the Regulation of 1801, which precludes them from claiming for retirement the benefit of rank which they may attain after the expiration of twelve months from the date of their landing in England. It has therefore been resolved to rescind this restrictive rule, so far as it affects the cases of Officers who, after twenty years' Indian Service counting for retiring pension, may return to this country on leave, and to allow such Officers to claim for retirement the benefits of any rank they may attain prior to the expiration of their twenty-two years' service.

Lemon, or Lime Juice, as hereafter ordered.

2. The foregoing Scale shall have effect for one year, and from the 1st August next on board Vessels receiving this order before that date; otherwise, from the date of receipt, which should, in that case, be communicated to the Auditor General.

3. On a complaint being made by any of the Officers or Ship's Company that the Salt Meat supplied has, from age or from inferior quality, lost in boiling more than one-half of its original weight, the Captain will order the Surveying Officers of the Ship to inquire into the circumstances, and see whether the Meat has been properly cut up and cooked. If it shall be proved to their satisfaction that the daily allowance to the Officers and Ship's Company, or the portion supplied to any particular Mess, has fairly lost by boiling more than one-half of the original weight of the Meat when put into the coppers, the Captain, if he consider an extra allowance necessary, may direct the Purser to issue an additional quantity equal to half the original allowance complained of, placing his initials in the proper column of the Statement as an authority for the total extra issue on each day.

4. As these extra issues are authorised only for the purpose of making up the dinner allowance, and as they are to be made only when the Captain may consider them actually requisite for the proper subsistence of the Officers or Men, no portion, either of such extra issue, or of the original ration of Salt Meat in respect of which they may be made, is to be paid for as savings.

5. In case of the Surveying Officers having difficulty in deciding the claims for such extra issue, a fair selection of pieces of the Meat are to be weighed before being put into the coppers, and also after being cooked.

[Note.—Salt Meat is always to be steeped for two or more hours before being put into the coppers. It has been proved by experiment that one-hour-and-a-half is sufficient time to cook the Meat.]

6. When a Ship shall be about to proceed to a Foreign Station, the Purser is to make a demand, approved by the Captain, for a supply of Lime Juice and Sugar, according to the time for which she shall have been ordered to be victualled, or to the probable consumption during that time, according to the following Rules, or to the capability of the Ship for stowing the same.

7. Neither Lime Juice nor Sugar for Lime Juice is to be issued to the Crew while supplied with Fresh Meat and Vegetables, nor within a fortnight after the issue of either, unless, from the state of health of the Crew, the Surgeon shall consider it necessary, nor unless the Captain shall give an order for the issue, which order will accompany the Purser's Accounts. Under these restrictions, the Crew may receive Lime Juice and Sugar at the rate of half-an-ounce of each per man per day; but as the supply may be prejudicial to some persons of the Crew, the Surgeon should deliver to the Purser a List of those to whom the Lime Juice and Sugar should not be issued.

The Lime Juice and Sugar are not to be issued separately. They are to be mixed and made into Sherbet before issue.

By order of His Excellency the Honorable the Governor in Council,

W. F. MARRIOTT, Captain,

Acting Secretary to Government.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Notice to Mariners.**DANGEROUS SHOAL IN THE MIDDLE OF THE PERSIAN GULF.**

A dangerous shoal was reported some time back to exist in the middle of the Persian Gulf, by the Commander of the Ship "Shah Allum," who first discovered and sounded on it; and, in consequence thereof, the shoal, which has lately been carefully surveyed, has been called the "Shah Allum Shoal."

It lies in the middle of the Persian Gulf, equidistant from the Islands Sheykh Shayb and Halool, and its bearing from the Westward end of Sheykh Shayb is S. 55° W., distant 44 miles. The shoal forms a small bank of sharp and rugged rocks, and that portion of it where the soundings are under 20 fathoms, is only 2½ miles wide in a North and South direction, and 2 miles in an East and West direction. The dangerous part is at the North end, where is not more than one-third of a mile across, on which there is generally from 4 to 5 fathoms in overfalls, but in one spot there are rocks having only from 15 to 17 feet on them, according to the tide, the time of which is not accurately known. The least water on any part of the shoal is not less than 12 feet.

The "Shah Allum Shoal" is steep to all round, having 37 fathoms at its South extremity, and from 40 to 45 fathoms at its North, about a mile distant from the shoal, which renders it all the more dangerous, as this great depth of water produces no discolouration on its surface, nor does it allow the shoal to be seen from aloft until on it, but the bottom may be seen, when in seven fathoms, and plainly when under that depth. Sea-birds frequent the site of the shoal, and flocks of them are generally to be seen hovering over it. There are sometimes also slight marks observable on the water, in its vicinity, supposed to be caused by the tides.

In clear weather, the mountains on the coast of Persia between Taurie and Nakhiloo, can be distinctly seen from the shoal, and the well known landmark called Assaloo Notch bears from it N. 5¼° E.

The shoalest spot is in Latitude 26° 25' 20" North, and 1° 40' 13" East of Bushire Residency Flagstaff.
