DANGEROUS SHOAL IN THE MIDDLE OF THE PERSIAN GULF.

A dangerous shoal was reported some time back to exist in the middle of the Persian Gulf, by the Commander of the Ship "Shah Allum," who first discovered and sounded on it; and, in consequence thereof, the shoal which has lately been carefully surveyed, has been called the "Shah Allum Shoal."

It lies in the middle of the Persian Gulf, equidistant from the Islands Sheykh Shayb and Halool, and its bearing from the Westward end of Sheykh Shayb is S. 55° W., distant 44 miles. The shoal forms a small bank of sharp and rugged rocks, and that portion of it where the soundings are under 20 fathoms, is only 2½ miles wide in a North and South direction, and 2 miles in an East and West direction. The dangerous part is at the North end, where is not more than one-third of a mile across, on which there is generally from 4 to 5 fathoms in overfalls, but in one spot there are rocks having only from 15 to 17 feet on them, according to the tide, the time of which is not accurately known. The least water on any part of the shoal is not less than 12 feet.

The "Shah Allum Shoal" is steep to all round, having 37 fathoms at its South extremity, and from 40 to 45 fathoms at its North, about a mile distant from the shoal, which renders it all the more dangerous, as this great depth of water produces no discolouration on its surface, nor does it allow the shoal to be seen from aloft until on it, but the bottom may be seen, when in seven fathoms, and plainly when under that depth. Sea-birds frequent the site of the shoal, and flocks of them are generally to be seen hovering over it. There are sometimes also slight marks observable on the water, in its vicinity, supposed to be caused by the tides.

In clear weather, the mountains on the coast of Persia between Taurie and Nakhiloo, can be distinctly seen from the shoal, and the well known landmark called Assaloo Notch bears from it N. 5½° E.

The shoalest spot is in Latitude 26° 25' 20" North, and 1° 40' 13" East of Bushire Residency Flagstaff.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Notice to Mariners.

DIRECTIONS FOR CROSSING THE BAR OF THE BANCROOT RIVER.

Notice is hereby given, that two Conical Buoys, painted white, have been placed on the Bar of the Bancroot River, and these two buoys in line show the deepest channel over the Bar.

The Outer Buoy is in 16 feet at low water spring tides, and is a little outside of the deepest part of the Bar, where there is 8 feet at low water.

The Inner Buoy is about three quarters of a mile further in than the Outer one, bearing from it E ½ N., and is moored in 18 feet at low water spring tides.

From the inner buoy the Fort at the water's edge on Bancroot Point, is about 1 ½ miles distant, bearing N. E. by E. ¼ E.

Vessels running into the Bancroot River from Seaward have only to bring the buoys in line and run from one to the other, passing them so as to keep them a few yards on the Port side. When the Inner Buoy is reached, steer N. E. by E ¼ E. for the Fort on Bancroot Point, rounding it at a distance of 60 yards, and thence to the anchorage off the Village.

The least water on the bar at low water spring tides, in the line between the two buoys, is seven feet, and the rise and fall at that period is about eleven feet.

Bombay Postal Guide.—Parties seeking for information regarding Postal matters are recommended, instead of constantly troubling the Post Office with inquiries, to consult the Bombay Postal Guide. If that does not furnish what is required, application should be made to the Postal Authorities, who will cheerfully attend to all requisitions.

English Postage Labels.—The Public are warned not to affix (as many persons now do) English Postage Labels to Letters posted for despatch by the Overland Mails. Such labels are not recognised in this country; and, when sent from India, are ignored by the London General Post Office.

Change of Residence.—In order to facilitate the delivery of letters, &c., parties arriving at and leaving Bombay are requested to send notice of their movements and whereabouts to the Bombay Post Office.

Zanzibar, Johanna, and Mozambique.—Letters and Newspapers addressed to Zanzibar, Johanna, and Mozambique, will be forwarded *via* Aden, except in the months of December, January, and February, when they will be sent direct as opportunities may offer.

Officers to pay Forward Postage.—It has been ruled by the Supreme Government, that the order, exempting Officers with the Army from the charge of Forward Postage on all re-directed Letters to their address, shall cease to have effect from the 1st of May 1860. Officers serving in the field should take steps to ensure their Letters being correctly addressed.

Bombay, Post Master General's Office, 4th January 1860.

Refusal to pay Postage.—Many cases having recently occurred, in which parties have refused to pay Postage justly claimed by the Post Office, it is considered advisable to intimate to the Public, that the Postal Authorities are authorised by Law (Section XXXVII. Act XVII. of 1854) to stop, without giving any intimation, the delivery of letters, packets, &c., for parties so refusing to pay Postage, and that the Law will be strictly adhered to.

Letters to Hongkong.—From this date Letters addressed to Hongkong, and other places in China at which there is a British Post Office, can be registered in India under the same rules and on payment of the same Fee, *i.e.* Four Annas, as is payable on Letters registered for Great Britain.
