NOTIFICATION.—The following Notice of the Rules and Regulations in force in the Customs Houses of the Spanish Government at the Philippine Islands, is republished for general information:—

‘NOTICE.—*Consulate of Spain in Singapore.*

Her Majesty the Queen of Spain, by Royal Ordinance, dated the 29th September last, has directed as follows:—

The Spanish Consuls in every Foreign Country are obliged to make observed the Rules of the Spanish Custom House, and oblige the Shippers to present Notes and Duplicates of all the Goods that they wish to embark, with the name of the Vessel, Captain, Port of destination, sort of Bales, Goods, Boxes, Barrels, and other Merchandize. They are obliged to put on everything their marks and numbers, expressing on every Bale, Box, Barrel, &c., its contents. They are obliged to mention the weight, the Merchant consigned to, certifying that all which has been manifested in the Notes are the true contents of the Packages, without any other thing. The number of Duplicate Notes must be as many as the number of the Consignees or Proprietors of the Goods shipped. In consequence of which, the undersigned Consul for Spain, begs leave to notify to the Commercial Community of Singapore, that no Ship whatever, either Foreign or Spanish, will be able to trade in any Spanish Port if she has not complied with the Regulations before-mentioned, and belonging to the First Article of the Spanish Custom House Rules. They oblige it to pay to the Spanish Consulate the duties established in the Tariff of the Article No. 7, as follows, viz:—

From one to six Boxes of any size, or Parcels, she may take on board, the sum of Spanish Dollars one, and Cents twenty (§ 1-20); from six to twelve, Dollars two (§ 2); and from twelve to any number whatever, Dollars four (§ 4).

By the Royal Ordinance, dated the 25th May last, all Merchant Vessels, either national or foreign, large or small, with Cargo or in Ballast, going to any Spanish Possessions, shall have to pay, for every Manifest, Spanish Dollars four (§ 4); consequently the Captain of the Merchant Vessel under the Spanish Flag will have to present his Manifest to the Spanish Consul of this place, and pay the above-mentioned amount, agreeably to the established law, which places on the same footing both Spanish and Foreign Merchant Vessels. The undersigned begs leave to notify that, in some recent cases, the laws regulating the landing and importing of Merchandize into the Philippine Islands have been disregarded, therefore this Notice is again given to the Commercial Community and Ship Masters, that no Vessel is allowed to trade at any other Port except to those expressly mentioned, viz:—

Manila.
Ylivilo.

Sual.
Zainboanga.

And should any Vessel act against the Regulations of the Royal Ordinance dated the 29th September last, or against the Royal Ordinance dated the 26th of May of the present year, and to all that has been notified to the public in the present Notice, and in the three numbers of the *Straits Times* of the months of June and August last, will be amenable to the Spanish Laws in force in all the Dominions of Her Majesty the Queen of Spain.

CAPE OF GOOD HOPE LIGHT.

*Colonial Office, Cape of Good Hope,
16th February 1860.*

His Excellency the Lieutenant Governor has directed the publication of the following Notice,

describing the new CAPE OF GOOD HOPE LIGHT, which will be exhibited on the First day of May 1860.

By Command of His Excellency the Lieutenant Governor, administering the Government,

RAWSON W. RAWSON,
Colonial Secretary.

CAPE OF GOOD HOPE LIGHT.

The bearings are true, and the distances nautical miles.

An iron tower has been erected on the Cape of Good Hope,—a light from which will be exhibited on the First of May 1860.

The tower is 30 feet above the ground, and is painted white; the light is 816 feet above the sea, and is visible in all directions from N. 34° W.,

round by the West, South, East, and North, to N. 7° W., *save and except* on a sector included between N. 54° W. and N. 61° W., where it is obscured by the intervention of a high peak, 800 feet above the sea, and 1,800 yards from the light tower.

The light is on the catoptric principle, and of the first class; it is white—revolving—and shows its most brilliant beam once in a minute for the space of twelve seconds of time, and it is visible, in clear weather, from a deck 16 feet high at the distance of 36 miles.

Latitude of the light.... 34° 21' 12" S.

Longitude..... 18° 29' 30" E.

The light tower stands N. 49° W., 925 yards from the Dias Rock, which is the southern extremity of the Cape Peninsula.

The following bearings and distances are given from the light:—

Anvil Rocks..... S. 54° E. 1·8 miles

Bellows „ S. 1° W. 2·1 „

S. W. Reef..... S. 55° W. 1·8 „

Whittle Rock N. 27° 30' E. 7·2 „

A current of varied strength sets round the Cape, and turns to the N.W. from the Bellows Rock. This Rock always breaks; but not so the Anvil, which only breaks at low water, and with a heavy swell. Sailing-vessels should not pass between these dangers and the Cape, unless with a commanding breeze. The rocky patch, "S.W. Reef," lies South 42° W., one mile only from the S.W. corner of the Cape Peninsula, and there is foul rocky ground between it and the shore.

Ships from the eastward should not bring the light to bear more westerly than W. by N., by which they will clear all dangers off Cape Hanglip. A tongue of low land stretches from this Cape in a S. 23° W. direction for 1½ miles, rendering caution necessary in passing Hanglip in hazy weather, especially if bound into Simon's Bay. If bound for Table Bay from the eastward, vessels, after rounding the Cape of Good Hope and passing Slangkop Point, should not shut in the light with that point until the Green Point light becomes visible (which will be on a N. 41° E. bearing). This course will carry them about two miles to the westward of the Vulcan Rock, which lies off the northern entrance to Hout Bay; a course for Table Bay may then be shaped with safety.

Vessels from the westward, bound for Simon's Bay, after rounding the Cape of Good Hope, and having brought the southern end of the lofty Zwartkop range (which stands over the northern side of Smith's Winkle Bay) to bear west, should keep the light on Cape Point between S. 2° W. and S. 23° W., until the Roman Rock light bears between N. 30° W. and N. 47° W., when they may haul towards it. These limits leave the rocks off Millar's Point on the one hand, and the Whittle Rock on the other, half-a-mile distant. Should the weather be hazy, and the whitewashed mark and beacon for the Whittle Rock indistinct, there is a dark peak over the southern side of Hout Bay, which, being brought on with Elsey Peak on a N. 42° W. bearing, will lead clear (but close) to the westward of the Whittle Rock.

F. SKEAD, Master, R.N.,
Admiralty Surveyor.

Notice to Mariners.

DANGEROUS SHOAL IN THE MIDDLE OF THE PERSIAN GULF.

A dangerous shoal was reported some time back to exist in the middle of the Persian Gulf, by the Commander of the Ship "Shah Allum," who first discovered and sounded on it; and, in consequence thereof, the shoal which has lately been carefully surveyed, has been called the "Shah Allum Shoal."

It lies in the middle of the Persian Gulf, equidistant from the Islands Sheykh Shayb and Halool, and its bearing from the Westward end of Sheykh Shayb is S. 55° W., distant 44 miles. The shoal forms a small bank of sharp and rugged rocks, and that portion of it where the soundings are under 20 fathoms, is only 2½ miles wide in a North and South direction, and 2 miles in an East and West direction. The dangerous part is at the North end, where is not more than one-third of a mile across, on which there is generally from 4 to 5 fathoms in overfalls, but in one spot there are rocks having only from 15 to 17 feet on them, according to the tide, the time of which is not accurately known. The least water on any part of the shoal is not less than 12 feet.

The "Shah Allum Shoal" is steep to all round, having 37 fathoms at its South extremity, and from 40 to 45 fathoms at its North, about a mile distant from the shoal, which renders it all the more dangerous, as this great depth of water produces no discolouration on its surface, nor does it allow the shoal to be seen from aloft until on it, but the bottom may be seen, when in seven fathoms, and plainly when under that depth. Sea-birds frequent the site of the shoal, and flocks of them are generally to be seen hovering over it. There are sometimes also slight marks observable on the water, in its vicinity, supposed to be caused by the tides.

In clear weather, the mountains on the coast of Persia between Taurie and Nakhiloo, can be distinctly seen from the shoal, and the well-known landmark called Assaloo Notch bears from it N. 5½° E.

The shoalest spot is in Latitude 26° 25' 20" North, and 1° 40' 13" East of Bushire Residency Flagstaff.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Banghy Post.—The Public are hereby informed that the transmission of Books and other Parcels by Banghy Post during the Monsoon months, unless they are originally packed so as to be waterproof, is attended with much risk, more especially on roads on which the Banghy Mail is conveyed by Runners, and which are often during the rains intersected by deep watercourses through which the Runners have to wade. Book-packets and parcels not made water-tight by parties posting them will be liable to receive damage from wet.

Despatch of Expresses prohibited.—The Director General of the Post Office of India begs to inform all Public Officers that, with the sanction of the Government of India, he has prohibited the despatch of Expresses on any line on which there is a Telegraph, unless the Officer sending the Express certify in writing, in the manner indicated below, that its despatch is absolutely necessary for the Public Service.

The Certificate must be in the form of a letter to the Director General, explaining why the Express is sent, and what saving of time is expected.
