14. Articles of great size or weight, the placing of which will require considerable labour, must be sent before Saturday, the 1st of March 1862; and manufacturers wishing to exhibit machinery, or other objects, that will require foundations or special constructions, must make a declaration to that effect on their demands for space.

35. No counters, or fittings, will be provided by Her Majesty's Commissioners. 36. (37—42.)*

43. Exhibitors must be at the charge of insuring their own goods, should they desire this security. Every precaution will be taken to prevent fire, theft, or other losses, and Her Majesty's Commissioners will give all the aid in their power for the legal prosecution of any persons guilty of robbery or wilful injury in the Exhibition, but they will not be responsible for losses or damage of any kind which may be occasioned by fire or theft, or in any other manner.

* Several numbers are left blank, with the view of incorporating future decisions.

100. Foreign and Colonial Exhibitors should apply to the Commission, or other Central Authority appointed by the Foreign or Colonial Government, as soon as notice has been given of its appointment.

101. Her Majesty's Commissioners will consider that to be the Central Authority in each case which is stated to be so by the Government of its Country, and will only communicate with Exhibitors through such Central Body.

102. No articles of foreign manufacture, to whomsoever they may belong, or wheresoever they may be, can be admitted for exhibition, *except with the sanction of the Central Authority of the Country of which they are the produce.* Her Majesty's Commissioners will communicate to such Central Authority the amount of space which can be allowed to the productions of the Country for which it acts, and will also state the further conditions and limitations which may from time to time be decided on with respect to the admission of articles. All articles forwarded by such Central Authority will be admitted, provided they do not require a greater aggregate amount of space than that assigned to the Country from which they come; and, provided also that they do not violate the general conditions and limitations. It will rest with the Central Authority in each Country to decide upon the merits of the several articles presented for exhibition, and to take care that those which are sent are such as fairly represent the industry of their fellow Countrymen.

103. Separate space will be allotted to each Foreign Country, within which the Commissioners for that Country will be at liberty to arrange the productions entrusted to them in such manner as they think best, subject to the condition that all Machinery shall be exhibited in the portion of the building specially devoted to that purpose, and all Pictures in the Fine Art Galleries, and to the observance of any general rules that may be laid down by Her Majesty's Commissioners for public convenience.

104. By arrangements made with Her Majesty's Government, all Foreign or Colonial Goods intended for exhibition, sent and addressed in accordance with Regulations hereafter to be issued, will be admitted into the Country, and allowed to be transmitted to the Exhibition Building without being previously opened, and without payment of any duty. But all Goods which shall not be re-exported at the termination of the Exhibition will be charged with the proper duties, under the ordinary Customs' Regulations. (105—108.)*

109. It is not the intention of Her Majesty's Commissioners to take any steps in reference to the protection of Inventions or Designs, by Patent or Registration, the law on these points having been materially simplified since 1851.

DECISIONS SPECIALLY APPLICABLE TO

Section IV. Modern Fine Arts.

Class 37. Architecture.
„ 38. Paintings in Oil and Water Colours and Drawings.
„ 39. Sculpture, Models, Die-sinking, and Intaglios.
„ 40. Engravings and Etchings.

110. The object of the exhibition being to illustrate the progress and present condition of *Modern Art*, each Country will decide the Period of Art which in its own case will best attain that end.

111. The Exhibition of British Art in this Section will include the works of Artists alive on or subsequent to the 1st of May 1762.

112. It is not proposed to award Prizes in this Section.

113. Prices will not be allowed to be affixed to any Work of Art exhibited in this Section.

114. One-half of the space to be allotted to Section IV. will be given to Foreign Countries, and one-half will be reserved for the works of British and Colonial Artists.

115. The sub-division of the space allotted to Foreign Countries will be made after consideration of the demands received from the Commission, or other Central Authority, of each Foreign Country. It is therefore important that these demands should be transmitted to Her Majesty's Commissioners at the earliest possible date.

116. The arrangement of the Works of Art within the space allotted to each Foreign Country will be entirely under the control of the accredited representatives of that Country, subject only to the necessary general regulations.

117. For the purposes of the Catalogue, it will be necessary that the Central Authority of each Foreign Country should furnish Her Majesty's Commissioners, on or before the 1st of January 1862, with a description of the several Works of Art which will be sent for exhibition, specifying in each case, the name of the artist, the title of the work, and (when possible) the date of its production.

118. The space at the disposal of Her Majesty's Commissioners for the display of British Art being limited, and it being at the same time desirable to bring together as careful and perfect an illustration as possible, a selection of the works to be exhibited will be indispensable.

119. The selection of Exhibitors, the space and number of works to be allowed to each, and the arrangement of them, will be entrusted to Committees to be nominated by Her Majesty's Commissioners.

120. In the case of living Artists, Her Majesty's Commissioners would desire to consult the wishes of the Artists themselves as to the particular works by which they would prefer to be represented. The selection of works so made by the Artists will not necessarily be binding upon Her Majesty's Commissioners, but in no case will any work by a living Artist be exhibited against his wish, if expressed in writing, and delivered to the Commissioners on or before the 31st of March 1862.

* Several numbers are left blank, with the view of incorporating future decisions.

121. Her Majesty's Commissioners will avail themselves of the following eight Art Institutions of this Country in communicating with Artists who are Members of those Institutions, *viz.*—

The Royal Academy,
The Royal Scottish Academy,
The Royal Hibernian Academy,
The Society of Painters in Water Colours,
The Society of British Artists,
The New Society of Painters in Water Colours,
The Institute of British Artists,
The Institute of British Architects.

122. Intending Exhibitors in the British Division of Section IV., who are not Members of any of the preceddding Institutions, may at once receive Forms of demand for space, by applying to the Secretary to Her Majesty's Commissioners. These Forms must be filled up and returned before the 1st of June 1861.

Act XXXII. of 1860, Sections IX., XXIV., and XXXI.

The right to appoint Special Assessors is given to the Local Governments by Section XXXI., Act XXXII. of 1860, but the powers of a Special Assessor appointed under that Section are confined to the execution of matters in relation to the duties mentioned in Schedules 3 and 4 of the Act. He has no power to act in relation to the matters mentioned in Schedules 1 and 2, which are the principal matters in respect of which persons residing in a Military Cantonment or Bazar are subject to the payment of Income Tax. When such Cantonment or Bazar is situate in a Native-governed State, it is competent to the Governor General of India in Council, under Section IX. Act XXXII. of 1860, to place it, for the purposes of the Act, within any Revenue jurisdiction which he may think proper, by an Order to be published in the *Calcutta Gazette.* When so placed, the Collector of such Revenue jurisdiction would be in a position to execute the same powers in such Cantonment or Bazar which he can exercise in his own Division or District; and, amongst other things, to appoint, under Section XXIV. of the Act, with the sanction of the Local Government, the Cantonment Magistrate as an Assessor, together with such Ministerial and other Officers as may be considered necessary for carrying out the provisions of the Act.—(*Financial Department Order No.* 2645, *dated 11th March* 1861.)

NOTE.—Under this Construction, Aden was constituted a separate Division, and several Military Bazars of the Bombay Presidency situated in Native-governed States were placed within certain specified Revenue jurisdictions.

No. 118.

House

Property of Government, any person occupying, when liable to be assessed to Income Tax in respect of the rent thereof.

Act XXXII. of 1860, Section XCVII, Rules 7 and 8.

Any person occupying a house, the property of Government, is, in respect of the Income Tax, on precisely the same footing as if he occupied a private house. Supposing such person to pay Rack Rent for the house, he will be liable to Income Tax on his salary or the annual profits arising to him from any other source, whatever they may amount to, but to nothing additional in respect of the house. If, however, he pay no rent for the house, or if he pay less than Rack Rent, the amount below Rack Rent is profit or income assessable over and above the salary or other profits of such person under Schedule I, Section XCVII. (Rules 7 and 8), Act XXXII. of 1860. The principle is clear that the rent of a person's private dwelling house is not to be treated as a working expense and deducted from his net income, but as part of the necessary expenditure of that income.

Deduction

On account of, in what case allowable.

The only case for deduction that can arise is when an Officer pays rent, whether to Government or to some one else, for a larger house than he would otherwise occupy, because he uses part of the house for a Government Office. In such a case, if the arrangement for the Office has been recognised, the Officer who occupies the house is entitled to a *pro rata* deduction for so much of the rent as is fairly due for the Office. He cannot claim a deduction in respect of the entire rent, because part of the house is occupied as an Office.—(*Financial Department Order No.* 2295, *dated* 1*st March* 1861.)

No. 119.

Religious Society.

Act XXXII. of 1860, Section CXXXIII.

Under the provisions of Section CXXXIII., Act XXXII. of 1860, a Government Promissory Note belonging to Dadabhoy Nusserwanjee Mody's Surat Fire Temple Fund, was exempted from Income Tax on the application of the Trustees by the Government of Bombay, with the approval of the Governor General of India in Council.—(*Financial Department Order No.* 6623, *dated* 4*th June* 1861.)

Educational Funds,
Exemption of, principle to be observed.

In approving of the exemption from Income Tax of the Funds assigned for charitable purposes, as enumerated in the foregoing list, the Governor General of India in Council expressed a doubt whether the Funds termed "Educational" had been rightly exempted under Section CXXVI., Act XXXII. of 1860, which merely provides that profits coming to the Government from Trust Funds shall not be liable to Income Tax. That Section therefore does not apply where the Government derive no benefit from the profits, but is merely the hand to distribute them. At the same time, it was observed that there were cases which clearly come within a fair construction of the term "Charitable;" and that if it was an object of policy to encourage education, and especially bequests and donations for educational purposes, the terms "Charitable" might fairly be extended to everything educational which was not of a purely personal or family nature, but of public benefit. Under these circumstances, although a strict construction of the Law would warrant the levy of Income Tax on all Educational Funds, not in the nature of Ragged or Infant Schools, obviously for the benefit of the poorer classes, the Governor General of India in Council was of opinion that the decision of Government on the point should rest on the broad question of policy as to whether it was desirable to lean to the side of liberality in order to encourage such objects as the "Elphinstone Professorship Fund," the "Rajah of Dhar Prize Fund," &c. His Excellency in Council considered that the question should be answered in the affirmative, and he accordingly approved of the exemption of the Educational Funds in question, and resolved that the same principle should be applied generally.—(*Financial Department Order No.* 3022, *dated* 18*th March* 1861.)

No. 349 of 1861.—The following rules are sanctioned to relieve the Commissariat Department from bearing the entire responsibility of miscellaneous expenditure, and to place on those who originate the demands the responsibility for the extent of their requirements:—

2. In future, Indenting Officers or Departments will be held responsible for the extent and nature of their demands on the Commissariat.

3. The responsibility of the Commissariat for supplies to other Departments is confined to the cost at which the demands are met.

4. Each Medical Officer should submit to the Commissariat Officer, on the 20th of each month, a monthly Estimate (in duplicate), according to the Form No. 1, of his probable demands in the ensuing month as respects quantities.

5. The Commissariat Officer should assign a money value to each article, and return the original estimate within 5 days after receipt to the Medical Officer, who will draw the supplies upon the Estimate by Requisitions during the month, and on his responsibility alone.

6. The Commissariat Officer will enter the daily requisitions in an Abstract according to the Form No. 2. He will total it at the end of each month, and, having prepared a statement of the actual expenditure incurred on the estimate, will forward it to the Medical Officer on the 5th of the succeeding month. The Medical Officer, after comparing the statement with the estimate, will signify his approval or otherwise, and submit both the statement and estimate to the Deputy Inspector General of Hospitals. (Vide Form No. 3.)

7. The Deputy Inspector General of Hospitals being in possession of the Hospital Registers of Sick, and other Documents necessary to determine the propriety of the expenditure, will record his opinion on the Statement, and return it to the Commissariat Officer not later than the 20th of the month succeeding that in which the supplies were made.

8. On receipt of the Statement thus authorised, the amount of expenditure by purchase and stock should be brought forward in the Commissariat Disbursements under their proper distinctive heads.

9. Any other Department requiring supplies from the Commissariat should furnish that Department, on or before the 20th of each month, with an estimate (in duplicate), according to the Form No. 1, exhibiting the requirements during the next month as respect quantities.

10. The estimate will be priced by the Commissariat Officer, and returned to the Indenting Officer within five days after receipt. The respective responsibilities of these Officers being as above indicated in the case of Hospital supplies.

11. On the estimate being priced and returned, the Indenting Officer, if holding a subordinate Departmental position, should forward it to his controlling authority for examination; and when passed, it should be sent by the Indenting Officer to the Commissariat Department for compliance, so as to reach that Department before the commencement of the month in which the supplies will be required.

12. Officers and heads of Departments under no controlling authority should send their priced estimates direct to the Commissariat Department for compliance.

13. In case of supplies being drawn upon the estimate by daily requisitions during the month, the requisitions should be entered by Commissariat Officers in an abstract according to the Form No. 2, as in the case of Hospital supplies; and, after the close of each month, a statement of the actual expenditure incurred should be prepared according to the Form No. 3, and forwarded to the Indenting Officer on the 5th of the succeeding month.

14. Cost of issues from the Commissariat stock to other Departments and of public carriage used on their account, should be charged anew in the statement of actual expenditure on account of each Department, the amount being credited to 'Commissariat Stock' and 'Hire of Carriage' respectively. Stores should be charged at the current market or contract rate of the article, and carriage at the market rate of hire.

15. The Indenting Officer or the controlling authority, as the case may be, will compare the statement of actual expenditure with the estimate, will record his opinion thereon, and return it to the Commissariat Officer by the 15th of the month succeeding that in which supplies may be made.

16. Expenditure incurred on account of other Departments, with the exception of the Medical Department should be charged under the head of 'unadjusted advances.' When the statements of actual expenditure are audited by the Examiner of Commissariat Accounts, the same should be credited back to the same head, and the admitted amounts debited to the respective Departments separately in the Cash Accounts Current.

17. When any portion of Stores or carriage shown in the estimate for a given month cannot be supplied in that month, owing to the articles not being immediately procurable, or when the actual cost of carriage supplied upon an Indent cannot be brought forward in the Commissariat Disbursements, owing to the despatching Commissariat Officer not being aware of the actual expense incurred by his Agents until the stores reach their destination, such charges should be brought forward in subsequent Commissariat Bills.

18. The cost of stores so supplied should be viewed as appertaining to the year in which the supplies may be made, and the cost of carriage as appertaining to the year in which the stores may be delivered to the Consignee.

Bombay Castle, 24th June 1861.

No. 350 of 1861.—The following General Order by the Government of India, dated Fort William, the 4th June 1861, No. 497, is published:—

"The following paragraphs of a Military Letter from the Right Honorable the Secretary of State for India, No. 172, of the 24th April 1861, are published for general information:—

'1. I have received and considered in Council your Excellency's separate Despatches, Nos. 3 and 4, dated 21st January 1861, regarding the application to the Indian Medical Department of certain Clauses of the Royal Warrant of the 13th January 1860.

2. In my Despatch No. 326, dated 22nd August 1860, with reference to the objections which had been made to the 8th Clause of the Warrant under which all Medical Officers below the rank of Deputy Inspector-General will be placed on the Retired List when they shall have obtained the age of 55 years, I expressed my willingness to consider any plan that your Government might suggest for reconciling the efficiency of the Public Service (which must be the primary object) with a fair consideration of the claims of the Medical Department.

3. The plan which appears to your Excellency best suited to protect the Public interests and the claims, at the same time, of Medical Officers is that of relaxing the rule embodied in the 8th Clause of the Warrant, in cases where superior Medical Authorities certify the perfect competency and fitness of the Medical Officer, who has completed the age of 55 years without having obtained the rank of Deputy Inspector-General.

4. I am willing to assent to the adoption of this plan in regard to the Medical Officers who entered the Service prior to the promulgation of the Royal Warrant, provided that the perfect competency and fitness of the Medical Officers be, in all cases, certified by a Board consisting of two Medical Officers, one of whom must be an Inspector-General or Deputy Inspector-General, and the Commanding Officer, or Senior Civil Officer, under whom the Medical Officer may have been serving.

5. The Certificate of efficiency granted by such a Board may hold good for three years; but in no case will a Medical Officer, under the rank of Deputy Inspector-General, be permitted to remain on the Effective List after he shall have attained the age of 60 years.

6. A Medical Officer who may be unable to obtain the Certificate of competency above referred to, will be placed on the Retired List, receiving, as recommended by your Government, the rate of Pension next above that to which his period of service in India may entitle him, provided that he be not already entitled to retire on the higher rate, viz. £700 a year.

7. A similar course may be pursued with respect to Medical Officers employed on unprofessional duties on their attaining the age of 55 years.

8. Your General Order of the 26th December, giving effect to the instructions conveyed in my Despatch No. 397, of the 31st October 1860, regulating the amount of leave of absence allowed to reckon as service towards the qualification for the rank of Surgeon-Major, is approved.

9. With reference to the modification of the Pension Rules of the Medical Service, suggested by Doctor Forsyth, I have to inform you that the whole question of the reorganisation of the Indian Medical Service is now under consideration, and that the determination of Her Majesty's Government thereon will be communicated to you hereafter.'

(Signed) R. J. H. Birch, Major General,
Secretary to the Government of India."

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendants the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all *single* cases, for of such only the aggregate is made up.

No. 5.

Published in pursuance of Government Order.

In accordance with paragraph 1 of printed Circular No. 1309, dated 12th September 1860, the following instructions are published for the guidance of officers in the preparation of District Establishment Abstracts:—

For Collectors.—A Form, comprising all the District Establishments in regular order, should be drawn up and forwarded for examination by this Department, in order that it may be printed with as little delay as possible. In this form the designations, rates of pay, and Income tax, should be entered, but not the names. The column of names should be left blank. Every Mamlutdar should head, and be followed in exact order by his Establishment, *e. g.*—

Date of Govt. Order sanctioning different items.	Date of appointment.	Names.	No. on the Establishment.	Designations.	Casualities.	Amount of Monthly Salary.	Deductions on account of Income Tax.			Total.	Remarks.
							Local at 1 per Cent.	Imperial. At 2 per Cent.	Imperial. At 3 per Cent.		
				Bhim Thurree.							
			1	Mamlutdar		100 0 0	1 0 0	.. .. ..	3 0 0	4 0 0	
			2	1st Carcoon		40 0 0	.. .. ..	0 12 0	.. .. ..	0 12 0	
			3	2nd Carcoon &c.		25 0 0	.. .. ..	0 8 0	.. .. ..	0 8 0	
				Poorundhur.							
			4	Mamlutdar		100 0 0	1 0 0	.. .. ..	3 0 0	4 0 0	
			5	1st Carcoon		20 0 0	.. .. ..	0 6 0	.. .. ..	0 6 0	
				Total sanctioned amount							

When these forms are returned to the Collectors, they will have to be retained at the Hoozoor. Each Mamlutdar or Mahalkurree should be ordered to furnish to the Hoozoor, by the last day of the month, a simple *yad* or memorandum detailing all the changes which have taken place during the month, and which will affect his portion of the District Abstract. If there are no changes, he will simple say so. If there are, he will state them concisely, thus—A.B. away on private affairs, leave from 8th. C. D. acted for A. B., and performed his own duties also (or not), as the case may be. H. K. died on the 28th; place not filled up; saving to Government, and so on. The Collector should keep one of these forms filled in with names in his office for reference, and when the whole of the Mamlutdars' memorandas are received, it will be very easy for one of the printed forms to be rapidly filled in;—the changes in Establishments indicated by the Mamlutdars being exhibited by entries in the column of remarks exactly as is now done in the case of the printed Hoozoor abstracts.

For Judges.—The forms of most of the Judges have been long since received and examined, and are sent to the press. These officers should cause themselves to be informed of changes in the same way as Collectors, and those who have not yet sent in forms to this Department should forward them without delay.

Instructions will be issued respecting the district abstracts of the Customs Department at a future date.

Notice.

Under instructions from the Post Master General of Bombay, it is hereby notified for the information of the Public, that late Letters, either Overland or Ordinary, on which the fee of 8 annas is prepaid, will not in future be received at the Post Office window as heretofore. Such Letters must, in future, be dropt into the Letter Boxes for Steam and Inland Letters marked "behind time."

Notice.

The Public are hereby informed, that the transmission of Books and other Parcels by Bhangy Post, during the Monsoon months, unless they are originally packed so as to be water-proof, is attended with much risk, more especially on roads on which the Bhangy Mail is conveyed by Runners, and which are often, during the rains, intersected by deep water-courses, through which the Runners have to wade. Book Packets and Parcels not made water-tight by parties posting them, will be liable to receive damage from wet.

Changes of Address and Instructions to stop Letters directed to Out-Stations cannot be attended to after the Mail Steamer has been signalled.

The numerous references made to the Post Office on such occasions, and very frequently after the Overland Mails have been brought to the Post Office, preclude the possibility of attending to them correctly, and the above information is given to prevent disappointment.

Notice.

In continuation of the Notification published on the 20th of October 1860, the Public are hereby informed that Umbria and the Marches have now been included in Sardinian Territory, and that Letters, Newspapers, &c., for places in Umbria and the Marches, will be treated and charged with Postage precisely as Letters addressed to other parts of Sardinia. They should be sent in the Malta Mail from India.
