N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Notice.

Tenders are invited for supplying the Gun Carriage Manufactory, Bombay, with the following description of Timber, and on the conditions named below :—

50 Logs Timber, Calicut Teak, 1st Class, 80 inches and upwards in girth, and not less than 17 feet in length.

The Timber is to be delivered duty paid, and free from all expense to Government, beyond the contract price, within the Gun Carriage Manufactory.

The delivery should commence in May 1864, but tenderers are to state in their tenders when they will commence and when complete the delivery.

The approximate size given above, are understood to be by nett measurement, after allowing for defects. Short lengths of Timber, and Plank of any kind, will not be received.

The Timber will be measured according to the system prevailing in the Department, that is, in respect of round timber length will be taken exclusively of the Raft or Bin holes, and girth will be taken at every 5 feet commencing at the large end of the log. No fractional part of an inch will be allowed in girth of the round Timber.

As Timber only of the best quality is required, it is clearly to be understood, that not under any reduction of measurement, however large, will inferior Timber be received.

Worm-eaten, sappy, or crooked logs will be at once rejected, and all rejected Timber is to be removed from Government ground by the Contractor without any loss of time.

Measurement is to be made in the Timber Yard in the presence of such person as may be deputed by the Contractor to superintend and agree upon the measurement, which is to take place as soon as circumstances will allow, no avoidable delay taking place.

Payment will be made for each delivery as soon as possible, not exceeding 15 days from the completion of the measurement.

Sealed Tenders for the above stated Teak, or a portion thereof, which must express the price per ton of 50 cubic feet under the above conditions, will be received by the Agent for Gun Carriages marked "Tenders for Teak," until 1 p.m. on 29th February 1864.

Penalty Bonds will have to be entered into, any information required may be obtained from the Agent for Gun Carriages.

Agent for Gun Carriages.
