No. 546 of 1864.—The following Resolution by the Government of India on the report of the Commissioners of Inquiry into Military Audit and Account, as published in the *Gazette of India* on 13th October last is republished.

The particular directions required in this Presidency to give effect to the Orders of the Government of India, will be given hereafter.

“No. 2695.

Resolution of the Governor General of India in Council in the Financial Department, dated 30th September 1864.

The Governor General in Council has had under his consideration the valuable Report of the Commissioners of Inquiry into Indian Accounts on the system of Audit and Account now pursued in the Military Department.

2. The revised system, recommended by the Commissioners, is based upon the principle that the separate Establishments of Military Account and Audit should be consolidated into a Central Account Office in each of the three Presidencies—in Bengal under the immediate direction of an Accountant General to the Military Department, and in Madras and Bombay under the respective Controllers. This proposal is based upon the experience acquired at the War Office and Admiralty, where, by carefully separating cash from stores, and examination from record, and reducing the latter to the utmost possible degree of simplicity by scientific book-keeping, audited accounts of the expenditure in every part of the world for the year ending the 31st March, are furnished previously to the Meeting of Parliament.

3. This, and other proposals which are of an organic character, will be hereafter considered, in communication with the Military Department; but, meanwhile, immediate effect may, with much public advantage, be given to many of the recommendations contained in the Report.

4. In paragraph 112, the Commissioners state that, notwithstanding the order of Government to the contrary, the items of expenditure in the Military Department are still classed in the Account Current under the heads of—

Arrears, former years ..	} Settlement. } Payment.
Current.	

The Governor General in Council concurs with the Commissioners that this sub-division is unnecessary and inconvenient, and directs that it be at once discontinued in the several books of account, from the date of receipt of this order.

5. Arrangements should also be made for consolidating the separate Establishments and Accounts of the Offices of Agent and Superintendent of Clothing, the duties of which are now performed by one Officer, and for making the other improvements in those Offices, suggested in the 178th and following paragraphs of the Report, so far as they are immediately practicable.

6. At paragraph 394, the Commissioners suggest that all unserviceable, obsolete, or redundant articles should be eliminated from the stores previously to the ensuing financial year, so that the stores in stock at the commencement of the year may represent those actually fit and ready for service. Arrangements should be at once made to give effect to this recommendation. The stores so excluded should be fully advertised and should be sold to the highest bidder, with the reservation only of an upset price, founded upon a low calculation of the sum which may be expected to be realized at the nearest favorable market, after deducting all the expenses of conveying them thither.

7. In paragraphs 58 to 63, 262 to 265, and 272 to 276, the Commissioners notice the unnecessary detail in which the Departmental Estimates are furnished to the Controllers of Military Accounts in the three Presidencies, and to the Accountant General Military Department, and justly attribute it to the want of that frequent personal communication between heads of Departments, regarding doubtful items in the Estimates, whereby access would be gained to the books and records, and prolix returns and numerous vouchers in support of the Departmental Estimates would become superfluous. This excessive detail should be at once discontinued, and the heads of Departments should have the advantage of this improved arrangement in preparing their Estimates for 1865-66.

8. With the same object, it is desirable that the introduction of the revised forms of Estimate be immediately ordered, should it appear, on consideration in the Military Department, that no information, requisite for an intelligent practical review of Military expenditure in that Department, will be thereby sacrificed. It is observed that the forms provide for a comparison of the Budget Estimate with the previous year's Budget, instead of the Regular Estimate—the improved system proposed by the Commissioners rendering the Regular Estimate unnecessary. But orders on this recommendation can only be passed on the Commissioners' Report on the Financial Accounts. Meanwhile, the figures of the Regular, rather than of the last Budget Estimate, should be inserted in the column of the Commissioners' forms which has been provided for a comparison of the year 1864-65 with 1865-66.

9. In like manner, in the absence of the ample means of comparing the Budget Estimate with the latest actual expenditure, provided by the system recommended by the Commissioners, the Estimates for 1865-66 should contain a column showing the actual expenditure of 1863-64.

10. It must also be observed that, whereas the detailed calculations of the cost of regiments are to be made at the full twelve months' charge for the full sanctioned establishment, with a deduction (in the column provided for that purpose, in the form, at pages 20-21 in the Appendix) of the portion which is invariably not incurred at all, or not incurred in India, for the pay of Officers in Civil employ, in Europe, &c., no similar column is provided for making deduction on account of deficiencies in the strength of regiments, and the allowances forfeited by Native Soldiers on leave.

11. It is right to mention, in reference to the 51st paragraph of the Report, that the Accountant General to the Military Department has satisfactorily explained the delay in submitting the Military Estimate for 1864-65.

12. The earnest attention of the Military Accountants in the three Presidencies should be directed to completing, at the earliest possible period, the adjustment of the books between the Civil and Military Departments, as recommended in paragraphs 343 and 344.

13. In the 259th paragraph of their Report, the Commissioners observe that, under the system which they recommend, 'the expenditure shall, as now, be recorded with the view of showing the total cost under each arm of the service, and not under the separate items composing the pay and allowances—provision will, however, be made in the pay lists for furnishing information on this point, should it at any time be required.'

14. The reording in the Presidency Offices of the pay of a large army under the separate items composing the pay and allowances of each regiment, and not merely under the arm of the service to which the regiment belongs, must be so tedious and elaborate as to cause arrears and unnecessary expense, and any such minute reording that may be now in progress, should be stopped at once.

15. The state of the deposit accounts, of the account of advances re-payable, and of the Inefficient Balances of Disbursing Officers, as reported in paragraphs 203 to 206, calls for early attention, with a view to their effectual investigation and settlement.

16. In paragraphs 111 and 122 to 128, as well as in other parts of the Report, the Commissioners discuss the expediency of separating cash from store accounts. With their conclusions on this point the Governor General in Council agrees, and early attention should be directed to the best means of giving practical effect to the views of the Commission. The separation of the cash from the store accounts is indispensable to the proper reform and efficient management of the cash accounts of the Empire.

17. There are many other instances adverted to in the Report in which, without waiting for the adoption of further changes, time and labour may be saved, and the public business may be expedited by omitting unnecessary forms or processes, and adopting more compendious methods, such as—

Reducing the Inefficient Balances of Pay-masters by writing off small sums which are not worth collecting, paragraphs 74-5.

The omission of Pies from the Accounts, according to the process described in paragraph 414.

The limitation of payments by cheque, at the Presidency Pay Office, to sums of ten Rupees and upwards, paragraph 81.

The placing the Pay-masters of Invalids at Fort William, and of Recruits at Chinsurah, in direct relation with the Military Accountant, paragraph 85.

The substitution of a quarterly for a monthly return, explanatory of the Inefficient Balances of Pay-masters of Circles, paragraph 85.

The discontinuance of the Presidency Pay-master's List of Cheques drawn on the Bank of Bengal, by utilizing the Bank Pass Book, paragraph 89.

The substitution, by the Pay Examiner, of a Letter of Advice to the Disbursing Officer, for the circuitous process described in paragraph 96.

The discontinuance of the Register of Articles of Consumption in Hospitals, paragraph 138.

The discontinuance of the Annual Returns of the gross cost per 100 patients, furnished to the Principal Inspector General of the Medical Department and Controller of Military Accounts, paragraph 139.

The discontinuance of the Second Examination, by the Ordnance Examiner, of the cash charges for Commissariat purchases for the Ordnance Department, paragraph 143.

The immediate adoption, as regards the Arsenal of Fort William, of the plan for examining Store Ledgers recommended by the Commissioners, paragraphs 149 and 390.

The grouping together of the details of petty repairs under 50 Rupees, paragraphs 150-387.

The discontinuance of the intermediate valuation of the Store Accounts rendered by Civil Officers, paragraphs 154-5.

The discontinuance of the Account between the Gun-Carriage Agent at Futtehghurh and the Circle Pay-master, paragraph 159.

The omission of consumable articles from the Barrack-master's Day Book, paragraph 166.

The discontinuance of the Duplicate Cash Vouchers by Pay-masters in their Monthly Accounts, paragraph 167.

The discontinuance of the countersignature of the Quarter-master General to the Barrack-master's Accounts, paragraph 169.

The discontinuance of the inadmissible substitute for an Annual Appropriation Audit, described in paragraph 196.

The discontinuance of the Abstract of the General Books, described in paragraph 197.

The discontinuance of the copies of vouchers of the Half-yearly Returns of Stores with Regiments and Batteries, furnished in addition to the original vouchers, paragraph 396.

The substitution of Annual for Half-yearly Returns of Stores with Regiments and Batteries, in the manner recommended in paragraph 397.

The discontinuance, in the mode recommended in paragraphs 398-9, of the copy of the Day Book furnished by Barrack-masters to the Examiner of Barrack Accounts.

18. The labour liberated by these and the other changes previously adverted to should be employed, as far as necessary, in the examination of the Inefficient Balances and of the Deposit and Advance Accounts, and in completing the accounts in arrear; but when it is not wanted for any really useful purpose, reductions should be made.

19. The several Officers concerned should be desired to report, at the end of a month, the steps taken by them under these instructions.

Ordered, that a copy of this Resolution, and of the Report of the Commissioners, be forwarded to the Military Department, with a request that the several arrangements which have been determined upon may be carried into immediate effect, and that careful consideration may be given to the further changes recommended by the Commissioners.

Also, that copies be sent from the Military Department to the Governments of Madras and Bombay, with a request that they will adopt the changes which have been determined upon, and will favour the Governor General in Council with their opinion on the further changes recommended by the Commissioners.

Also, that a copy be sent to the Accountant General to the Government of India for his information and guidance.

Also, that a copy of this Resolution, and of the Report of the Commissioners, be published in the *Government Gazette*, for general information, with the remark that such improvements have been ordered as are immediately practicable, and that the further changes recommended will be decided upon, after considering any suggestions and explanations that may be offered.

(Signed) E. H. LUSHINGTON,
Secretary to the Government of India."

J. A. CAMPBELL,

Acting Secretary.

Mysore Commissioner's Office, Bangalore,
27th September 1864.

RULES FOR SANDAL-WOOD AUCTION SALES.

1. Every Auction Sale shall be held in the presence of the Superintendent or Deputy Superintendent of the District, or Conservator or Assistant Conservator of Forests.
2. The assortment of the Sandal-wood as made by the Public authorities will on no account be disturbed.
3. The highest bidder shall be the purchaser, and in the event of any dispute arising between two or more bidders at the same price, the lot so disputed shall be put up again and resold.
4. The former system of upset prices is abrogated, but in the event of the first three lots in each class not averaging such a price as may be considered a fair market value by the Officer presiding, he shall be at liberty, should he deem it proper so to do, to stop all further sales in that Class.
5. Any surplus that may be found in weighing the quantity sold for delivery to the purchaser will be charged to him at the same rate at which the lot is sold.
6. A Candy in the Mysore Province is equal to 560 English Pounds, or 20 Maunds of 40 Seers, but that of the Coorg Province is equal to 550 Pounds only.
7. The wood will be handed over to the purchaser at the Sandal Kotees, and the whole quantity purchased, must be paid for, and taken possession of, within 30 days from the date of the sale.
8. Any quantity which may remain unpaid for at the expiration of 30 days from the date of sale, will be resold at the risk of the first purchaser; and should the wood paid for not be removed from the Sirkar Kotees within 3 months from the date of payment, Kotee rent at the rate of 4 annas per Candy will be charged from date of sale. It will then be weighed in the presence of one of the Forest Assistants and removed out of the Kotees, and the losses arising therefrom shall be borne by the purchaser. The Government does not hold itself answerable for the loss of weight arising from the wood being kept in store after sale.
9. The purchaser shall, after the sale, deposit a sum equal to 25 per cent. of the amount of his purchase, to be forfeited to the Government on failure of his adhering to the terms above specified.
10. It is to be understood that in conformity with existing rules, no Sandalwood can be sold by private individuals within the Mysore territories, or pass without a passport, which will be granted on application by the Forest or Revenue authorities.

Accountant.

Notice.

Officers visiting the Neilgherries are, in numerous instances, at great inconvenience on first arrival, owing to their coming in expectation of finding it in their power to draw Pay, due to them in arrears, early in the month, as elsewhere. It is therefore thought that it may contribute to the convenience of future visitors if it be thus made more generally known that (there being no Pay Office on the Hills) Pay has to be drawn, after arrival on them, by transmitting Abstracts, duly countersigned, to the Paymaster Southern Division, Trichinopoly, with a last Pay Certificate; who, provided he receive them about the 7th, includes the amount in his General Order in arrears for the past month, on the Treasury at Coimbatore, whence it is sent so as to reach this Station Office for distribution usually on the 18th or 19th. There is only this one monthly transmission of Military Pay to the Hills; so that individuals arriving too late to be included in it, as above, have often to wait another month.

Officers of other Presidencies can only draw Pay under a Certificate from the Accountant Military Department of their Presidency. Certificates from Division Pay Offices of other Presidencies are insufficient: Officers are often at protracted inconvenience after arrival from having been unaware of this.

It is also notified, that it is extremely difficult to get Bills or Notes, of any kind whatever, cashed on the Hills: individuals often suffer great inconvenience from coming with the contrary impression.

D. BABINGTON, Major,
Commanding Neilgherries.

Station Office, Ootacamund, 2nd May 1853.

Notice

Is hereby given, that Persons desirous of undertaking a Contract for Cutting, and Conveying

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Notice.

TO HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

The application of WILLIAM FRENCH STEARNS
and GEORGE ALVAH KITTFREDGE, of Bombay,
Merchants.

SHOWETH,

THAT your aboved named applicants are desirous of promoting in Bombay and Salsette a work of public utility.

That the general object of the work is to increase the facilities for, and lessen the cost of personal conveyance from place to place, and to afford the public cheap and convenient means of locomotion.

That the nature of the work is a Railway or a Tramway to be constructed along the main roads or thoroughfares in Bombay and Salsette, consisting of double or single lines of iron rails as may be found practicable, sunk into and level with the surface of the road with all necessary and proper sidings, points, connecting rails and termini, along which lines it is proposed to run carriages or cars of a build especially adapted to the purpose, to be drawn by horses or other animals, and to be available to the public at stated fares, not exceeding for each passenger the sum of one anna per mile for any distance over two miles; and not exceeding two annas for any distance not being more than two miles.

That the gauge of the said lines proposed by the applicants is four feet ten inches, and the proposed width of the passenger carriages six feet three inches, but the applicants desire to be at liberty to adapt any modern improvements either as to width of gauge or otherwise which may render the proposed work more complete.

That the intended locality of the work is along the main roads or thoroughfares of Bombay and Salsette, the first line to be constructed from the Fort of Bombay along the Esplanade Main Road and Parcell Road through the Bhendy Bazaar to a point opposite the Byculla Station on the G. I. P. Railway, and further lines to be constructed from time to time along such other roads as to the Promoters may seem desirable.

That your applicants estimate the cost of the construction of the said work at the rate of Rupees Fifty thousand per mile.

That to provide the funds for constructing, maintaining, and working the said undertaking, your applicants propose to form a Joint Stock Company, to be registered with limited liability under Act XIX. of 1857 of the Legislative Council of India, and to increase the capital of the said Company from time to time as new lines may be constructed.

That the Promoters of the said undertaking solicit the sanction of the local Government for the said undertaking, and pray that the Government will be pleased to grant the same and to confer upon them all the powers and privileges which, under or by virtue of an Act of the Governor General of India in Council, No XXII. of 1863, or any other Act or Acts of the Governor General of India in Council or of the Council of His Excellency the Governor for making Laws and Regulations in Bombay, His Excellency the Governor in Council may be empowered to grant or confer.

Bombay, 28th October 1864.

Samples of Merchandize by Post.—An arrangement has been made with the London Post Office for sending Patterns of Merchandize by Post between India and the United Kingdom, under the rules and at the rates of Postage indicated below. The arrangement will commence as regards despatches from India from the 1st May next. Intimation has been received from the London Post Office that the arrangement will commence as regards despatches thence from the 1st April.

1. The Patterns must not be of intrinsic value. The rule excludes all articles of a saleable nature, and whatever may have a value of its own apart from its mere use as a Pattern. The quantity of any material sent, ostensibly as a Pattern, must not be so great that it could fairly be considered as having on this ground an intrinsic value.

2. The Patterns must not bear any writing other than the address of the persons for whom they are intended, a manufacturer's or trade mark, numbers, and the prices of the articles; nor must they contain any letter closed or open, or any enclosure sealed or otherwise closed against inspection.

3. The Patterns must be sent in covers open at the ends, so as to be easy of examination; samples, however, of Seeds, Drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material; but closed bags, although transparent, must not be used for this purpose.

4. The rule which forbids the transmission through the Post of any explosive or dangerous substance will of course be applicable to Patterns, and no article likely to injure the contents of the Mail Bags is to be sent.

5. No Pattern Packet can be received if it exceeds two feet in length, width, or depth, or 3 lbs. in weight.

6. The Inland Transit of Pattern Packets will be by Banghy Post.

7. The following Postage rates (prepaid by a Stamp or Stamps) will be charged on Pattern Packets sent under these regulations by Post to the United Kingdom. The rates being consolidated rates, no Inland Postage is leviable in addition :—

To		Route.	PATTERN PACKETS.																				
			1		2		3		4		5		6		7

		Marseilles ..	0	4	0	0	8	0	1	0	0	1	8	0	2	0	0	2	8	0	3	0	0

8. If the Packets be *prepaid with a single rate of Postage* (as given in Column 1 of the above Table), the full rate chargeable being more, they will be forwarded charged with the deficient Postage, together with an additional single rate.

9. If the Packets be *prepaid with less than a single rate of postage*, they will be forwarded charged with double postage, less the amount actually paid.

10. If the Packets be *wholly unpaid*, they will be forwarded charged with double postage.

N.B.—In respect to Inland Transit the general conditions for Patterns are similar to those for Book Packets, and they will be treated like Book Packets.

If received unpaid or insufficiently paid from the United Kingdom, they will be charged at the rates mentioned in Paras. 8, 9, and 10 of the foregoing notice.
