3. All Gold and Silver Bullion and Coins that may be tendered to the Mint for coinage, must be melted and cast into Bars by the Mint Premelting Establishment, prior to their being received or assayed.

4. No transfer of Bullion from the name of one proprietor to that of another proprietor can be permitted, after such Bullion has once been tendered to, and actually deposited in the Mint. No Bullion can be withdrawn previous to registry, except sweepings and spillages of Bullion that may have been melted, without the payment of a fee of Rupees two for each Pass permitting such withdrawal.

5. It is to be understood that, until the Bullion or Coin shall be delivered after premelting to the Mint, at the Mint Scales in the Bullion Receiving Room, it is to be considered in the custody and at the risk of the importer, to whom, however, every facility will be afforded for securing it in the Bullion Strongholds.

6. On the receipt of the Assay Report, an account current, which shall be verified by the Assistant Bullion Keeper, showing the net produce of the Bullion or Coin with reference to its weight and Assay value, after deducting the authorised amount of Mint Duty, of Refining, and of Premelting charges, shall be submitted to the importer for

his examination and signature, after which shall have been obtained, a Bullion Certificate on the General Treasury, prepared in the Mint Master's Office, will be delivered to him, authorising the holder to receive the amount at twenty (20) days' sight, calculated from the date of the registry or final receipt by the Mint of the Bullion.

7. The Seignorage to be levied on the Coinage of Gold Bullion or Coin will be at the long-established rate of one per cent. on the ascertained standard out-turn value thereof. The Seignorage to be levied on the recoining of Silver Sicca Rupees will be at the rate of one per cent. on the out-turn value. There will not be any Seignorage levied on the recoining of short-weight Madras, Furruckabad, or Company's Rupees.

The Seignorage to be levied on the Coinage of all other descriptions of Silver Coins and Bullion will be at the rate of two per cent. on the ascertained out-turn standard value.

8. The Refinage charge on Silver below six pennyweights in Assay worse than the Indian Standard will be at the rate of .04 per cent. per pennyweight of worseness. The Refinage charge on Gold shall be at the rate of one-half per cent. for every five carat grains of worseness below the Indian Standard.

9. The Premelting charge on Gold will be at the rate of Company's Rupees three and Annas twelve per one thousand tolas of Standard Gold, and on Silver at the rate of one Company's Rupee per one thousand Standard tolas.

10. Importers of Bullion or Coin shall be at liberty to withdraw the same after registry, within the day following the receipt of the Assay Report, but at no later period, on payment of an Assay fee of four Rupees for each Assay of Gold Bullion, and of two Rupees for each Assay of Silver Bullion, independent of the payment of the Premelting charges above laid down on the gross weight of such Bullion.

11. Should Bullion, after having been premelted, prove to be brittle, and not adapted for coinage, it shall be returned to the proprietor, and passed out of the Mint, under a written Pass, signed by the Mint Master and by the Assistant Bullion Keeper, and the proprietor shall pay the charges for premelting the same at the prescribed rate, calculated on the gross weight in tolas of the Bullion so rejected.

DIRECTIONS

FOR APPROACHING THE SAND HEADS
IN BOTH MONSOONS.

SOUTH-WEST MONSOON.

The South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd.—False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ north, and longitude $86^{\circ} 47'$ east; and a buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ north, and longitude $87^{\circ} 42'$ east: the buoy therefore bears from False Point Light House north $59^{\circ} 49'$ east, true, and distant $59\frac{1}{2}$ miles.

3rd.—A vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about west-south-west 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer east-north-eastward, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge: she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the north-east of the Light Vessel stationed during the South-West Monsoon in close proximity to the buoy on the Ridge.

4th.—The soundings to seaward of the Pilot's

Ridge are, in general, a greenish or olive-coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown colour.

5th.—Vessels approaching the station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th.—The Eastern Channel Light Vessel is in latitude $21^{\circ} 4'$ north, and longitude $88\frac{1}{2}^{\circ} 14'$ east, and therefore bears from the buoy on the Pilot's Ridge north $63^{\circ} 26'$ east, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 p. m.; and her standing light is a plain light.

7th.—The Pilot's Ridge Light Vessel shows from the 15th March to the 15th September a plain standing light, and burns a blue light every hour, and a maroon at the intermediate half hours.

8th.—It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th.—This monsoon, which constitutes the fine

season in the head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the Outer Floating Light situated in the Eastern Channel as above, and vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day-time spreading east and west of, sometimes a little to the southward of, the Light Vessel; and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

FORT WILLIAM, HOME DEPARTMENT—POST OFFICE,
The 9th September 1856.

In modification of the List published by order of the Government of India, in this Department, dated the 29th September 1854, it is hereby declared that Secretaries to Municipal Boards, Commissions, or Committees, are not authorised to send Letters, Packets, or Parcels by Post, on the Public Service, without payment of Postage.

(Signed) CECIL BEADON,

2. The particular attention of the Public is requested to the following Clauses of the Post Office Rules, passed by the Governor General of India in Council :—

Clause XVII.—The Delivery Peons are prohibited from going out of their usual course to deliver Immediate payment of Postage Letters, Papers, or Parcels, and from delivering them without immediate required. payment of the exact amount of Postage, and they are not bound to give change. Should they be subject to detention, they are not to deliver the Letters, Papers, or Parcels, but to return them in the evening to the Post Office for delivery the following day.

Clause XVIII.—Whatever Postage is marked on a Letter, Paper, or Parcel, must be paid at once on delivery, after which any complaints of overcharge will be duly attended to. In all complaints of overcharge, or unnecessary delay in delivering Letters, Papers, or Parcels, the covers or envelopes bearing the Post Office Stamp must be presented for inspection; and when any complaints are preferred against any Peon, the number on his Badge should be specified.

Clause XXIII.—The servants at the several Post Offices are prohibited from giving change to parties sending or receiving Letters in any case.

To facilitate the delivery of Service and Paid Letters and Papers, when there may not happen to be Unpaid Letters for individuals, the Post Master General begs to suggest the plan of having Letter Boxes affixed at suitable places in offices and private houses.

E. IMPEY,
Post Master General.*Bombay Post Master General's Office, 21st October 1856.*

NOTICE.

Notice is hereby given, that Bhanga Parcels posted for Sind and the Punjab at the Presidency will, if marked "*Per Steamer*," be subject to Ship rates of postage only as far as Kurrachee, viz. :—

3. All Gold and Silver Bullion and Coins that may be tendered to the Mint for coinage, must be melted and cast into Bars by the Mint Premelting Establishment, prior to their being received or assayed.

4. No transfer of Bullion from the name of one proprietor to that of another proprietor can be permitted, after such Bullion has once been tendered to, and actually deposited in the Mint. No Bullion can be withdrawn previous to registry, except sweepings and spillages of Bullion that may have been melted, without the payment of a fee of Rupees two for each Pass permitting such withdrawal.

5. It is to be understood that, until the Bullion or Coin shall be delivered after premelting to the Mint, at the Mint Scales in the Bullion Receiving Room, it is to be considered in the custody and at the risk of the importer, to whom, however, every facility will be afforded for securing it in the Bullion Strongholds.

6. On the receipt of the Assay Report, an account current, which shall be verified by the Assistant Bullion Keeper, showing the net produce of the Bullion or Coin with reference to its weight and Assay value, after deducting the authorised amount of Mint Duty, of Refining, and of Premelting charges, will be submitted to the importer for

his examination and signature, after which shall have been obtained, a Bullion Certificate on the General Treasury, prepared in the Mint Master's Office, will be delivered to him, authorising the holder to receive the amount at twenty (20) days' sight, calculated from the date of the registry or final receipt by the Mint of the Bullion.

7. The Seignorage to be levied on the Coinage of Gold Bullion or Coin will be at the long-established rate of one per cent. on the ascertained standard out-turn value thereof. The Seignorage to be levied on the recoining of Silver Sicca Rupees will be at the rate of one per cent. on the out-turn value. There will not be any Seignorage levied on the recoining of short-weight Madras, Furruckabad, or Company's Rupees.

The Seignorage to be levied on the Coinage of all other descriptions of Silver Coins and Bullion will be at the rate of two per cent. on the ascertained out-turn standard value.

8. The Refinage charge on Silver below six pennyweights in Assay worse than the Indian Standard will be at the rate of .04 per cent. per pennyweight of worseness. The Refinage charge on Gold will be at the rate of one-half per cent. for every five carat grains of worseness below the Indian Standard.

9. The Premelting charge on Gold will be at the rate of Company's Rupees three and Annas twelve per one thousand tolas of Standard Gold, and on Silver at the rate of one Company's Rupee per one thousand Standard tolas.

10. Importers of Bullion or Coin will be at liberty to withdraw the same within the day following the receipt of the Assay Report, or within the day following the registry thereof, but at no later period, on payment of an Assay fee of four Rupees for each Assay of Gold Bullion, and of two Rupees for each Assay of Silver Bullion, independent of the payment of the Premelting charges above laid down on the gross weight of such Bullion.

11. Should Bullion, after having been premelted, prove to be brittle, and not adapted for coinage, it will be returned to the proprietor, and passed out of the Mint, under a written Pass, signed by the Mint Master and by the Assistant Bullion Keeper, and the proprietor will have to pay the charges for premelting the same at the prescribed rate, calculated on the gross weight in tolas of the Bullion so rejected.

DIRECTIONS

FOR APPROACHING THE SAND HEADS
IN BOTH MONSOONS.

SOUTH-WEST MONSOON.

The South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd.—False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ north, and longitude $86^{\circ} 47'$ east; and a buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ north, and longitude $87^{\circ} 42'$ east: the buoy therefore bears from False Point Light House north $59^{\circ} 49'$ east, true, and distant $59\frac{1}{2}$ miles.

3rd.—A vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about west-south-west 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer east-north-eastward, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge: she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the north-east of the Light Vessel stationed during the South-West Monsoon in close proximity to the buoy on the Ridge.

4th.—The soundings to seaward of the Pilot's

Ridge are, in general, a greenish or olive-coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown colour.

5th.—Vessels approaching the station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th.—The Eastern Channel Light Vessel is in latitude $21^{\circ} 4'$ north, and longitude $88\frac{1}{2}^{\circ} 14'$ east, and therefore bears from the buoy on the Pilot's Ridge north $63^{\circ} 26'$ east, true; and distant $32\frac{1}{4}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 p. m.; and her standing light is a plain light.

7th.—The pilot's Ridge Light Vessel shows from the 15th March to the 15th September a plain standing light, and burns a blue light every hour, and a maroon at the intermediate half hours.

8th.—It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th.—This monsoon, which constitutes the fine

season in the head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the Outer Floating Light situated in the Eastern Channel as above, and vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day-time spreading east and west of, sometimes a little to the southward of, the Light Vessel; and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Notice is hereby given, that Bhangy Parcels posted for Sind and the Punjab at the Presidency will, if marked "*Per Steamer*," be subject to Ship rates of postage only as far as Kurrachee, viz. :—
