Bombay Castle, 17th February 1863.

No. 81 of 1863.—The following General Order, by the Governor of India, dated 3rd February 1863, No. 93, is republished:—

"His Excellency the Governor General in Council is pleased to direct the publication of the following Extracts from a Despatch from the Right Hon'ble the Secretary of State for India, No. 314 of the 30th August 1862, regarding the formation of an amalgamated General Staff for the British and Indian Forces:—

PARAGRAPH 1. I have received and considered in Council your letter No. 55, dated the 24th February 1862, forwarding certain papers relating to the amalgamation of the General Staff of the British and Indian Forces, and conveying your opinions upon the several schemes that have been proposed with reference to that measure.

'8. You propose that the united Head Quarters Staff for the several Presidencies should be as follows:—

QUARTER-MASTER GENERAL'S DEPARTMENT.

Bengal.

- 1 Quartermaster General,
- 1 Deputy.
- 1 Assistant.
- 2 Deputy Assistants.

Madras.

- 1 Quartermaster General.
- 1 Deputy.
- 1 Assistant.

Bombay.

- 1 Quartermaster General.
- 1 Deputy.
- 1 Assistant.

'9. I approve of this proposed establishment for the Quartermaster General's Department with the Head Quarters of the several Armies.

'10. You observe with respect to the Divisional Staff, that several Divisions have Officiating Deputy Assistants; and, as these Officers are in reality officiating for no one, you think they might be considered permanent without any increase of pay.

'11. I concur with you in this opinion, and also in the propriety of dividing the Assistants and Deputy Assistants of the Department, as nearly as possible, into the proportion of one-third of the former to two-thirds of the latter.

'12. You propose for the amalgamated Adjutant General's Department the following:—

ADJUTANT GENERAL'S DEPARTMENT.

Bengal.

- 1 Adjutant General.
- 1 Deputy.
- 2 Assistants.
- 1 Deputy Assistant.

Madras.

- 1 Adjutant General.
- 1 Deputy.
- 1 Assistant.
- 1 Deputy Assistant.

Bombay.

- 1 Adjutant General.
- 1 Deputy.
- 1 Deputy Assistant.

'13. I approve generally of this establishment for the Consolidated Staff in the Adjutant General's Department; but I consider it desirable that the Staff proposed by you for the Adjutant General's Department at Army Head Quarters in Bengal should be increased by one Deputy Assistant Adjutant General, making in Bengal—

- 1 Adjutant General.
- 1 Deputy.
- 2 Assistants.
- 2 Deputy Assistants.

'14. The appointments of the Artillery Staff will be considered separately.

'15. By the amalgamation of the General Staff, and the adoption of the above scale, the following changes will be made.

'16. There will be an abolition of Staff Offices to the following extent :—

- 1 Adjutant General.
- 2 Deputies.
- 1 Assistant Adjutant General.
- 1 Brigade Major.
- 1 Quarter Master General, already abolished.
- 1 Deputy Quarter Master General, already abolished.
- 2 Assistant Quarter Masters General.
- 1 Deputy Assistant.

And the creation of the following :—

- 4 Deputy Assistant Adjutants General.
- 1 Assistant Quarter Master General.
- 2 Deputy Assistant Quarter Masters General.

'17. The changes involved in the measures of amalgamation now proposed will be carried into effect as soon as possible, consistently with due regard to the interests of present incumbents.

With reference to the above, the Governor General in Council is pleased to make the following appointments and promotions :—

ADJUTANT GENERAL'S DEPARTMENT.

To be Deputy Assistant Adjutant General at Head Quarters.

Captain C. H. S. Scott, Bengal Staff Corps.

QUARTER MASTER GENERAL'S DEPARTMENT.

To be Assistant Quarter Masters General.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

EUROPEAN GENERAL HOSPITAL.

The Bombay Government are prepared to receive designs for a new European General Hospital to be built on the Esplanade, Bombay.

Lithographed copies of the general plan of the accommodation required with a schedule of measurements according to the arrangements of the building which have been generally approved by the medical authorities and Government, together with plans of the proposed site, can be had on application at the office of the Superintending Engineer Presidency Circle, Bombay, and at the India Office, London.

The rates on which the work is to be calculated will also be furnished at those offices, and the gross estimate is not to exceed Rupees 3,80,000.

Complete plans and estimates are also required for residences for the Surgeon and House Surgeon, and for quarters for eight sick officers, to be arranged in two or three blocks distinct from, but in the immediate vicinity of the main Hospital.

The designs of these buildings should harmonize in character and style with the main building.

The estimate for these, calculated on the same rates, should not exceed 1,25,000 Rupees.

There must be ample provision for through ventilation which is obtained in Bombay by a sea breeze blowing generally from W. to S. W. during the months from May till September, and from various points from N. W. by N. to S. W. by S. during the rest of the year, provision should be made to exclude the N. and E. winds, which blow most frequently by night.

The walls must be protected as far as possible from the direct rays of the sun.

The designs are unrestricted as to style, provided it is suited to the climate and to the use to which the building is to be devoted, and as to materials, provided that they are procurable in Bombay at prices which will admit of their being used in the building as designed.

The designs must include

1. Ground plan and plan of each story.
2. Elevation of each of the 4 faces.

The plans and elevations to be on a scale of not less than 10 feet to an inch. Specification and estimate with sections &c., in sufficient detail to enable the judges to decide whether the plan can be carried out within the sum allowed.

Prizes will be awarded for the two best designs—Rs. 2,500 for the best, and Rs. 1,000 for the next in merit, provided the design fairly fulfils the above conditions.

If the best designs, in an artistic point of view, fail to fulfil any one of the above essential conditions, the judges will be empowered to reduce or withhold the prize, and no prize will be awarded to a design merely because it fulfils the conditions, if otherwise conspicuously deficient in artistic merit.

The drawings and estimates &c. should be sent in on or before September 1st in the usual manner with mottoes and envelopes containing the name and address of the artist to the Superintending Engineer Presidency Circle, by whom the envelopes will be opened in presence of the Chief Engineer and Secretary to Government Public Works Department after the prizes have been adjudged.

All the designs received will be exhibited in the Town Hall, Bombay, for one month before the adjudication of the prizes, and unless claimed and removed by the authors, for one month afterwards.

The envelope containing the name should state the author's wish whether the name should be appended to the design when exhibited after the adjudication.

The Prizes will be adjudged by the Executive Committee of Fort Improvement Commission and the Engineers of the Great Indian Peninsula and Bombay and Baroda Railways, who will be asked to aid Government in the adjudication.

In the event of any design being finally adopted by Government for execution without further modification than is made by the designer at the instance of Government, the Prize will be made up to one per cent. on the amount of the estimate as revised by the Executive Committee.

It will be optional to Government to avail themselves of the services of the author in altering or executing any design which gains a prize or premium, any design to which a prize or premium is awarded will remain the absolute property of Government.

Unsuccessful designs will be returned to the authors if claimed by them or by their authorised Agents, within one month from the period of adjudication, during which period if not claimed they will remain exhibited in the Town Hall, Bombay.

Post Master General.

REGISTERED LETTERS.

Camp Nynceetal, 21st October 1862.

With the sanction of His Excellency the Governor General in Council, the following orders in the Postal Department are published for general information :—

RULES RELATING TO THE REGISTRATION OF LETTERS SENT THROUGH THE POST OFFICE.

By the payment of a fee of Four Annas in addition to the ordinary Postage, *both of which must be prepaid in Stamps*, any Letter, Newspaper, Pamphlet, or Book may be registered to any place under the Government of India or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which Letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Offices in India."

3. Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the Mail; if brought after that time, they will be stamped "Too Late," and retained for the following Mail.

4. A Postmaster or other official, on being applied to register a Letter, will grant a receipt, and retain a copy on the counterpart of the Cheque Book for the purpose; the dated Office Stamp should be affixed to the receipt, and also to the copy.

5. So soon as a letter is registered, the Postage Labels thereon should be defaced, and the Special Stamp "*Registered*," should be affixed; the address and weight should then be entered in the *yellow cover*, after which, the Letter and the cover should be folded up together, and placed under lock and key, until the time for closing the Mail.

6. On opening a Mail Packet, the Postmaster should carefully examine the Registered Letters, and compare the weight of each with the entries thereof in the Chulan and yellow cover; the Office Dated Stamp should then be affixed to them, and also to the yellow cover, after which they should be disposed of as prescribed in the rules for opening and distributing the Mail.

7. In disposing of a Registered Letter, care must be taken to ensure *proof* of transfer by each official through whose hands it passes from the time of receipt to that of delivery; an acknowledgment must therefore be taken by initials, or otherwise, from each person into whose hands it may be given for *custody, despatch, or delivery*.

8. On delivery of a Registered Letter, the Postman should obtain the signature of the addressee on the yellow cover; the "original" receipt will be retained in the Delivery Office, and the "duplicate" returned to the Office of Despatch *by the first Mail*.

9. The "duplicate" receipt, on being returned, should be pasted to the counterpart in the Cheque Book; when not received back within the proper time, it should be called for, and a note of the requisition made on the duplicate receipt in the Cheque Book.

10. On a Registered Letter having to be *re-directed*, the duplicate portion of the yellow cover should be receipted and returned to the Office of Despatch, with a remark showing the Office to which it has been forwarded.

11. When a Registered Letter cannot be delivered, it should be forwarded without delay, together with the original yellow cover, to the Office of Despatch, in view to be returned to the Sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12. When a Registered Letter is found to be missing, the Postmaster must *immediately* submit a full and clear report of the circumstance to the Inspecting Postmaster and Postmaster General, and also to the Office of Despatch, in view to a searching inquiry being at once instituted to ascertain *where and how* it disappeared.

13. The Postmaster General will, without delay, bring to the notice of the Director General the loss or theft of a Registered Letter, and on completion of the inquiry instituted thereon, report the result.

14. By Section 49 of the Postal Act, Government does not guarantee, and is not responsible for, the safety of a Registered Letter, but any official through whose neglect it may be lost or made away with, will be called to strict account, and may be required to make good any loss.

15. Registration makes the transmission of a Letter more secure, by rendering it practicable to trace it from one official to another; if, therefore, by neglect of prescribed precautions, it is lost or made away with, the officials of the Post Office will have no ground for complaint if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the *contents* of a Letter, and as abstraction thereof may take place *before as well as after the cover is posted, and even after delivery*, it is recommended that the addressee who expects valuable enclosures, should, at the time of granting a receipt, open the letter *in the presence of the Postman*.

17. A Letter containing Bank Notes, Postage Stamps, or other valuable articles, should, as a rule, be registered, and should be securely folded, or enclosed in a substantial envelope, and *always sealed with wax*, in order to prevent, as far as possible, its being tampered with.

N. B.—A Letter is not ordinarily of importance to any person excepting the addressee; but if valuable articles are enclosed, the case is otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such Letters is recommended.

G. PATON,

Director General of Post Office in India.
