N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

EUROPEAN GENERAL HOSPITAL.

The Bombay Government are prepared to receive designs for a new European General Hospital to be built on the Esplanade, Bombay.

Lithographed copies of the general plan of the accommodation required with a schedule of measurements according to the arrangements of the building which have been generally approved by the medical authorities and Government, together with plans of the proposed site, can be had on application at the office of the Superintending Engineer Presidency Circle, Bombay, and at the India Office, London.

The rates on which the work is to be calculated will also be furnished at those offices, and the gross estimate is not to exceed Rupees 3,80,000.

Complete plans and estimates are also required for residences for the Surgeon and House Surgeon, and for quarters for eight sick officers, to be arranged in two or three blocks distinct from, but in the immediate vicinity of the main Hospital.

The designs of these buildings should harmonize in character and style with the main building.

The estimate for these, calculated on the same rates, should not exceed 1,25,000 Rupees

There must be ample provision for through ventilation which is obtained in Bombay by a sea breeze blowing generally from W. to S. W. during the months from May till September, and from various points from N. W. by N. to S. W. by S. during the rest of the year, provision should be made to exclude the N. and E. winds, which blow most frequently by night.

The walls must be protected as far as possible from the direct rays of the sun.

The designs are unrestricted as to style, provided it is suited to the climate and to the use to which the building is to be devoted, and as to materials, provided that they are procurable in Bombay at prices which will admit of their being used in the building as designed.

The designs must include

1. Ground plan and plan of each story.
2. Elevation of each of the 4 faces.

The plans and elevations to be on a scale of not less than 10 feet to an inch. Specification and estimate with sections &c., in sufficient detail to enable the judges to decide whether the plan can be carried out within the sum allowed.

Prizes will be awarded for the two best designs—Rs. 2,500 for the best, and Rs. 1,000 for the next in merit, provided the design fairly fulfils the above conditions.

If the best designs, in an artistic point of view, fail to fulfil any one of the above essential conditions, the judges will be empowered to reduce or withhold the prize, and no prize will be awarded to a design merely because it fulfils the conditions, if otherwise conspicuously deficient in artistic merit.

The drawings and estimates &c. should be sent in on or before September 1st in the usual manner with mottos and envelopes containing the name and address of the artist to the Superintending Engineer Presidency Circle, by whom the envelopes will be opened in presence of the Chief Engineer and Secretary to Government Public Works Department after the prizes have been adjudged.

All the designs received will be exhibited in the Town Hall, Bombay, for one month before the adjudication of the prizes, and unless claimed and removed by the authors, for one month afterwards.

The envelope containing the name should state the author's wish whether the name should be appended to the design when exhibited after the adjudication.

The Prizes will be adjudged by the Executive Committee of Fort Improvement Commission and the Engineers of the Great Indian Peninsula and Bombay and Baroda Railways, who will be asked to aid Government in the adjudication.

In the event of any design being finally adopted by Government for execution without further modification than is made by the designer at the instance of Government, the Prize will be made up to one per cent. on the amount of the estimate as revised by the Executive Committee.

It will be optional to Government to avail themselves of the services of the author in altering or executing any design which gains a prize or premium, any design to which a prize or premium is awarded will remain the absolute property of Government.

Unsuccessful designs will be returned to the authors if claimed by them or by their authorised Agents, within one month from the period of adjudication, during which period if not claimed they will remain exhibited in the Town Hall, Bombay.

By order of His Excellency the Governor in Council,

H. RIVERS, Lieut.-Colonel, R. E.,

Secretary to Government.

G. PATON,

Director General of Post Offices in India.

Calcutta, 12th February 1863.

Caution against sending Valuables by Post.—Robberies of Mails in various parts of the interior have lately become unfortunately of frequent occurrence, and there seems reason to infer that the highwaymen have been actuated either by information received from accomplices connected with bankers and firms, or by a suspicion that the Mails contain Gold, Banknotes, or other valuables.

Such depredations not only interfere with the safe and speedy transport of the important portion of the Mails, viz. that containing letters, but they entail upon owners of property heavy losses, as well as seriously cripple the efficient working of the Post Office Department.

Government orders on the subject of sending valuables by post are plain and explicit; they are now repromulgated, and the public are hereby cautioned against the practice, in the hope that they will see the advisability of not sending by the Government post, gold or other valuables, as, by so doing, the public Mails are exposed to peril and robbery, and their own property to risk, since the Post Office under the Postal Act* is freed from responsibility for valuables enclosed in Parcels.

* POSTAL ACT.—Section 49.

“The Government shall not be responsible for any loss or damage which may occur in respect of any thing entrusted to the Post Office for conveyance; and no person employed by the Government in the Post Office Department shall be responsible for any such loss or damage, unless that person shall cause such loss or damage negligently, maliciously, or fraudulently.”

Postal Regulations.

“In order to protect as far as possible the Mail from the chance of robbery, Officers in charge of Post Offices shall not knowingly receive Coin, Bullion, Precious Stones, Jewels, for despatch either by Letter or Banghy Post.

If a Post Master be informed or otherwise becomes acquainted with the fact that any letter or parcel contains valuables, he should refuse to receive it.”

Loss of Newspapers, &c.—The following Remarks of the London Post Office Department are published for general information, more especially for that portion of the public who have had to complain of the loss of “*Home Newspapers.*”

Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-three thousand servants of the Post Office, yet the instances are not few in which it has been shown to the satisfaction even of the complainant that the fault attributed at first sight to the Post Office rested really in other quarters.

The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal addressed to persons *abroad*. An investigation showed that the abstraction was made by the publisher's clerk, his object apparently being to appropriate the stamps required to defray the foreign postage. In another case, a general complaint having arisen as to the loss of Newspapers sent to the chief Office in St Martins-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with Newspapers by the private messengers employed to convey them to the post. Again, a man was detected in robbing a news-vender's cart by volunteering on its arrival at the entrance of this Office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.
