*N.B.*—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

**Caution against sending Valuables by Post.**—Robberies of Mails in various parts of the interior have lately become unfortunately of frequent occurrence, and there seems reason to infer that the highwaymen have been actuated either by information received from accomplices connected with bankers and firms, or by a suspicion that the Mails contain Gold, Banknotes, or other valuables.

Such depredations not only interfere with the safe and speedy transport of the important portion of the Mails, viz. that containing letters, but they entail upon owners of property heavy losses, as well as seriously cripple the efficient working of the Post Office Department.

Government orders on the subject of sending valuables by post are plain and explicit; they are now repromulgated, and the public are hereby cautioned against the practice, in the hope that they will see the advisability of not sending by the Government post, gold or other valuables, as, by so doing, the public Mails are exposed to peril and robbery, and their own property to risk, since the Post Office under the Postal Act\* is freed from responsibility for valuables enclosed in Parcels.

\* POSTAL ACT.—Section 49.

“The Government shall not be responsible for any loss or damage which may occur in respect of any thing entrusted to the Post Office for conveyance; and no person employed by the Government in the Post Office Department shall be responsible for any such loss or damage, unless that person shall cause such loss or damage negligently, maliciously, or fraudulently.”

#### *Postal Regulations.*

“In order to protect as far as possible the Mail from the chance of robbery, Officers in charge of Post Offices shall not knowingly receive Coin, Bullion, Precious Stones, Jewels, for despatch either by Letter or Banghy Post.

If a Post Master be informed or otherwise becomes acquainted with the fact that any letter or parcel contains valuables, he should refuse to receive it.”

Her Majesty's Post Master General having intimated that a Postal Convention has been concluded with Prussia, Bremen, and Hamburg, the public are hereby informed that the following Rates of Postage (British and Foreign combined) will be collected upon Letters forwarded through the United Kingdom to Germany and to certain countries, the correspondence of which passes through Germany. The Postage on these Letters may be paid in advance, or it may be paid on delivery at the option of the Senders. All Unpaid Letters will be liable to an increased charge on delivery:—
