N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

The issue of the Account Current shall constitute "Registry," and twenty-four hours after such issue, provided that within that time the Account Current may have been approved by the Importer and returned to the Mint Master, the Mint Master will deliver to the Importer a Bullion certificate on Her Majesty's Treasury authorising the holder to receive the amount.

NOTIFICATION BY THE DEPUTY AUDITOR AND ACCOUNTANT GENERAL.

No. 39.

FINANCIAL DEPARTMENT.

Officers in charge of Treasuries are *specially* requested to be careful to forward their Cash Accounts for the months of July, October, January, and April, so that they may reach this Department on the 10th of the succeeding months, at latest.

Any delay in the receipt of the Accounts for the abovementioned months seriously obstructs the preparation of the General Quarterly Returns, which it is indispensably requisite should be rendered by this Department to the Office of the Auditor General of India within two months after the close of the Quarter.

If the Cash Accounts are not forthcoming on the prescribed date, it will be necessary to report the circumstance for the information of Government.

quiring with reference to Financial Resolution No. 391 a of the 4th September preceding, which divides Medical Officers in Civil employ into two Classes,* whether Officers attached to “Public Institutions,” such as Hospitals and Infirmarys, should be placed in the Second Class, and how the following appointments should be classified :—

REGISTERED LETTERS.

Camp Nynceetal, 21st October 1862.

With the sanction of His Excellency the Governor General in Council, the following orders in the Postal Department are published for general information :—

RULES RELATING TO THE REGISTRATION OF LETTERS SENT THROUGH THE POST OFFICE.

By the payment of a fee of Four Annas in addition to the ordinary Postage, *both of which must be prepaid in Stamps*, any Letter, Newspaper, Pamphlet, or Book may be registered to any place under the Government of India or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which Letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Offices in India."

3. Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the Mail; if brought after that time, they will be stamped "Too Late," and retained for the following Mail.

4. A Postmaster or other official, on being applied to register a Letter, will grant a receipt, and retain a copy on the counterpart of the Cheque Book for the purpose; the dated Office Stamp should be affixed to the receipt, and also to the copy.

5. So soon as a letter is registered, the Postage Labels thereon should be defaced, and the Special Stamp "*Registered*," should be affixed; the address and weight should then be entered in the *yellow cover*, after which, the Letter and the cover should be folded up together, and placed under lock and key, until the time for closing the Mail.

6. On opening a Mail Packet, the Postmaster should carefully examine the Registered Letters, and compare the weight of each with the entries thereof in the Chulan and yellow cover; the Office Dated Stamp should then be affixed to them, and also to the yellow cover, after which they should be disposed of as prescribed in the rules for opening and distributing the Mail.

7. In disposing of a Registered Letter, care must be taken to ensure *proof* of transfer by each official through whose hands it passes from the time of receipt to that of delivery; an acknowledgment must therefore be taken by initials, or otherwise, from each person into whose hands it may be given for *custody, despatch, or delivery*.

8. On delivery of a Registered Letter, the Postman should obtain the signature of the addressee on the yellow cover; the "*original*" receipt will be retained in the Delivery Office, and the "*duplicate*" returned to the Office of Despatch *by the first Mail*.

9. The "*duplicate*" receipt, on being returned, should be pasted to the counterpart in the Cheque Book; when not received back within the proper time, it should be called for, and a note of the requisition made on the duplicate receipt in the Cheque Book.

10. On a Registered Letter having to be *re-directed*, the duplicate portion of the yellow cover should be receipted and returned to the Office of Despatch, with a remark showing the Office to which it has been forwarded.

11. When a Registered Letter cannot be delivered, it should be forwarded without delay, together with the original yellow cover, to the Office of Despatch, in view to be returned to the Sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12. When a Registered Letter is found to be missing, the Postmaster must *immediately* submit a full and clear report of the circumstance to the Inspecting Postmaster and Postmaster General, and also to the Office of Despatch, in view to a searching inquiry being at once instituted to ascertain *where* and *how* it disappeared.

13. The Postmaster General will, without delay, bring to the notice of the Director General the loss or theft of a Registered Letter, and on completion of the inquiry instituted thereon, report the result.

14. By Section 49 of the Postal Act, Government does not guarantee, and is not responsible for, the safety of a Registered Letter, but any official through whose neglect it may be lost or made away with, will be called to strict account, and may be required to make good any loss.

15. Registration makes the transmission of a Letter more secure, by rendering it practicable to trace it from one official to another; if, therefore, by neglect of prescribed precautions, it is lost or made away with, the officials of the Post Office will have no ground for complaint if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the *contents* of a Letter, and as abstraction thereof may take place *before* as well as *after the cover is posted, and even after delivery*, it is recommended that the addressee who expects valuable enclosures, should, at the time of granting a receipt, open the letter *in the presence of the Postman*.

17. A Letter containing Bank Notes, Postage Stamps, or other valuable articles, should, as a rule, be registered, and should be securely folded, or enclosed in a substantial envelope, and *always sealed with wax*, in order to prevent, as far as possible, its being tampered with.

N. B.—A Letter is not ordinarily of importance to any person excepting the addressee; but if valuable articles are enclosed, the case is otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such Letters is recommended.

G. PATON,

Director General of Post Office in India.
