MARINE DEPARTMENT.

The following Report of a Committee appointed, under the provisions of Section 100 of Act 1. of 1859, to investigate the circumstances connected with the stranding and the wreck of the ship "Sydenham," on the South-West Prong, near the Bombay Light-House, on the night of the 7th January last, is published for general information.

His Excellency in Council confirms the Report, and directs the suspension of the Certificate of the Master of the "Sydenham" for six months, from 6th February last, the date of the Report.

REPORT on the stranding of the ship "Sydenham," under British colours, on the evening of the 7th January; and subsequent wreck of that vessel on the South-West Prong. The Light House of Bombay on the end of Colaba bearing North-East half North, less than one mile.

It appears by the Log, and the evidence elicited during the inquiry by the Marine Court, that the "Sydenham" left Kurrachee for Bombay at 2.30. p.m., 4th January, and that ordinary care and precautions were not taken in the navigation of the vessel; for notwithstanding that (with one exception when that vessel crossed the deep swatch off the River Indus) the "Sydenham," was never out of soundings; the deep sea lead appears to have been hove but once, and the hand lead was not hove till the ship was nearing the entrance of the Harbour of Bombay; it also appears by the Log, that on the occasion above alluded to of heaving the deep sea lead the ship was going at the rate of 9 or 10 knots through the water; therefore it could hardly be expected to obtain correct soundings.

2. The Master in his evidence distinctly states that he did not attempt to verify the position of the vessel by heaving the lead in order to obtain soundings.

We think it necessary to remark on this fact.

No proof is adduced that either the longitude by observation, dead reckoning, or day's work, was worked out so as to show the position of the vessel as marked on the Chart. The Master indeed states that he did work longitude out (he did not, however, produce his work), and if he did work it out, the correctness or otherwise was not corroborated by any other person, or by soundings.

From noon of the 7th till the vessel struck on the South West Prong, about 7 p.m., the courses steered and rate per hour are not entered in the Log. The only entry (and that does not appear to have been made till many hours after the ship struck, as shown by the evidence of the First Mate) has several alterations so as to render its testimony of little value. It runs thus:—

Extract from Ship's Log.

'At 4 p.m. made Malabar Point, bearing East at 4.50, Colaba Point bore by compass East South-East when the ship kept off to South-East, and South-East by South, and stationing a man at the lead in the lower Mizen Channels, with orders to report as soon as ever he got soundings. Kept steering to South-East, thinking to obtain a Pilot, the lead being kept constantly going, and, as the leadsman

reported, no soundings at 10 fathoms of line. There being no Pilot

to be seen to leeward, and no soundings given, the weather still

continuing smoky, at 6.55 hauled up East South-East, judging the vessel about 3 miles (or 5) off Colaba Point, it bearing North-East

half North, and the lead constantly going. The ship struck the South-west Prong very heavily, in about 10 minutes after hauling up. Hauled the sails all aback to back her off. At 7.12 p.m. the Pilot came on board.'

Figures again altered.

It is only necessary to read and compare this statement with the evidence given by the Pilot, the Mate of Outer Light-Vessel, and the Officer in charge of the Light-House, to show the unsatisfactory nature of such testimony as the Log affords.

It is in evidence that it was a clear moonlight and starlight night, and that although the land may or may not have been seen after dark by those on board the vessel before she struck, yet there seems no doubt that the Light-House on Colaba and the Outer Light-Vessel were both distinctly visible.

In conclusion, we are of opinion that the stranding, and subsequent wreck of the Ship "Sydenham," must be attributed to want of ordinary care and precaution on the part of the Master in the Navigation of the vessel.

Also that proper means were not taken on making the land to the Northward of Bombay to obtain correct soundings. It was impracticable to do so at the rate the ship was going with the means adopted by the Master. If the leadsman had hove the lead, as he is represented to have done, sufficient warning should have been given to have averted the disaster.

The bearing of the Outer Light was such as to show the Master that the soundings said to have been given by the leadsman were not correct. A tracing taken from the Ship's Chart of the track of the ship, is forwarded herewith, by which it will, we think, be seen that proper precautions were not taken in the navigation of the vessel.

Secretary to Government.

MARINE DEPARTMENT.

Notice is hereby given that from and after the 15th March next, the Signal Flagstaff, which hitherto has been on Seerah Island at the East side of Aden, will be moved to the highest part of the Marshag Promontory, at the South-East corner of the Peninsula.

Secretary to Government.

MARINE DEPARTMENT.

His Excellency the Governor in Council confirms and publishes the following Report of a Committee appointed, under the provisions of Section 100 of Act I. of 1859, to investigate the circumstances connected with the running down of a Pattamar by the Bombay Steam Navigation Company's Steamer "Lord Clyde," on the evening of the 24th December last, in the Bombay Harbour:—

"REPORT.

This Collision appears to us to have been an accident, such as will occasionally occur in a crowded Harbour even with great care, and did not arise from any neglect of those in charge of the Steamer "Lord Clyde."

From the evidence it appears that there was not a sufficient light on board the Patamar "Doorga Pursad," which was anchored in the fairway.

But we think it right to express our opinion that measures ought to have been taken by the Master and Pilot of the Steamer immediately after the collision, to ascertain the state and condition of the Patamar, so as to prevent, if possible, loss of life and property.

These measures do not appear to us, on the evidence, to have been taken."

W. F. MARRIOTT, Lieut. Colonel,
Secretary to Government.

MARINE DEPARTMENT.

The following report of a Committee appointed, under the provisions of Section 100 of Act I of 1859, to investigate the circumstances connected with the wreck of the Steamer "Johnstone Castle," on the 14th of January last, near Malwan, is confirmed by His Excellency the Governor in Council, and published for general information:—

"REPORT.

From the evidence elicited on this inquiry, it appears that the "Johnstone Castle," while entering the Harbour of Malwan, struck upon a rock not marked in the Chart. Due care and precaution appear to have been taken by the Master prior to the accident."

Secretary to Government.

“Major W. D. Dickson, Officiating Cantonment Magistrate of Neemuch, is invested with the powers of a Magistrate under Section 23 of Act XXV. of 1861 within the Neemuch Cantonment.”

Bombay Castle, 6th March 1865.

No. 131 of 1865.—The following Extract from the *London Gazette* of 24th January 1865, is published for general information :—

WAR OFFICE, PALL MALL, 24th January 1865.

* * * * *

The undermentioned promotions to take place consequent on the decease of Lieutenant General Mathew Combs Paul, Bengal Infantry, on 7th January 1865 :—

Major General James Bell, Madras Infantry to be Lieutenant General. Dated 8th January 1865.

Colonel William Ferguson Beatson, Bengal Infantry, to be Major General. Dated 8th January 1865.

The undermentioned Officers who have retired on full pay, to have a step of honorary rank as follows :—

* * * * *

Lieutenant Colonel Joseph Charles Coley, Bombay Infantry, to be Colonel. Dated 24th January 1865.

Major Christopher Buckle, Bombay Staff Corps, to be Lieutenant Colonel. Dated 24th January 1865.

No. 132 of 1865.—His Excellency the Governor in Council is pleased to sanction the adoption, from the 1st May next, of the new Diet Scales for European Hospitals in the Bombay Presidency, in assimilation with the course adopted in Bengal G. O. G. G. No. 23 of 1865.

2. Hitherto there have been only five kinds of Hospital Diets, viz. Full, Half, Low, Milk, and Spoon. These, in the absence of other varieties, have been supplemented by *Extra* articles, in the prescription of which Medical Officers have been allowed a latitude which, though necessary with so narrow a scale, is too wide for an efficient control of Hospital Expenditure.

3. The following are the new Diets, the Components of which, and their distribution, are shown in the annexed Table :—

1 Spoon.	7 Low, with Pudding.
2 Tea.	8 Low.
3 Beef Tea.	9 Half.
4 Low Milk.	10 Fish.
5 Milk.	11 Full.
6 Chicken.	

4. These eleven Diets have been constructed so as to dispense, almost entirely, with the exhibition of Extras, except Wine, Beer, Spirits, Lemonade, Sodawater, and Limejuice. Deputy Inspectors General of Hospitals and the the Examiner of Medical Accounts will give especial attention to this object of the Dietary.

5. Medical Officers will have no difficulty in selecting from the different kinds of Diet those most suitable for their patients. Expenditure extra to the authorized Diet Table will be accounted for in a Separate Diet Sheet (Form No 1), initialled by the prescribing Surgeon on the day on which the articles are prescribed.

6. The Diet Roll (Form No. 2) is to be kept as a record in the Hospital for the inspection of the Deputy Inspector General.

7. The Daily Abstract of Diets and Liquors (Form No. 3) is to be prepared by the Apothecary from the Surgeon's Diary or Bed Head Tickets, and after signature of the Medical Officer is to be made over to the Hospital Steward. From these Abstracts the Steward will prepare the Requisition and the Diet Roll. The Diet Roll will be duly inspected and initialled by the prescribing Surgeon; the entries being verified by comparison with his own Diaries.

8. The issue of Nutmeg, Cinnamon, and Ginger as separate condiments for flavouring Puddings,* Sago, and Arrowroot, &c., will cease, Spice Powder being substituted for them. The Powder, put up in two or four ounce canisters, will be furnished on special Indents by the Commissariat. The Canisters are always to be in the Steward's custody, and the Expenditure daily recorded. From twelve to fifteen grains are ample to flavour Puddings.

9. For Diets into which meat enters, Black pepper will be issued on the scale of one ounce to every 48 Diets, or one-third of a drachm for each Diet, instead of as at present, one drachm for each diet.

For Wine, double, to contain 2 fluid ounces at one end and 1 fluid ounce at the other.

For Milk, single, to contain 3 fluid ounces.

10. The Measures for Milk and Wine now in use not being of uniform capacity, are to be withdrawn, and fluid Measures of the kind noted in the margin, tested and stamped will be issued in lieu to all European Hospitals.

11. This cancels the Rule in Article 32 Section III. of the Medical Code of 1849, which fixed the proportion of 40 measures to a Gallon.

12. Existing Forms, as laid down under B in G. G. O. No. 273 of 20th August 1863, will be discontinued from 1st May, and the following will be brought into use :—

B.

- 1 Diet Sheet.
- 2 Diet Roll.
- 3 Daily Abstract of Diet and Wine.
- 4 Requisition on the Commissariat.
- 5 Monthly Abstract of Diet Roll.
- 6 Indents for Wines, &c.
- 7 Voucher for Batta for Apprentices.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

POWER TO INCREASE.

NOTICE is hereby given, that an application is about to be made to the Government of Bombay, for the purpose of reclaiming a portion of the Foreshore closely abutting on the Lady Jamsetjee's Causeway, and situated about midway between the Police Station at Bandora and the Mahim Railway Station of the G. I. P. Railway. The singular advantages which call this project into existence are as follows:—

1st.—There is a Tidal power existing which with judicious management can be made sub-servient to all manufacturing purposes, and varying from ten to one hundred horse power as may be required.

2nd.—The importance of the project in question will be fully developed by the reclamation of six acres of the first Section, and the Promoters will solicit permission to apply for any other portion of the foreshore as the success of the scheme will render justifiable,

3rd.—The land proposed to be reclaimed is within almost immediate access to the Bombay, Baroda, and Central Indian Railway, and within half a mile of the Great Indian Peninsular Railway. This site will form, as it were, a terminus for the reception of Central Indian Imports.

4th.—No difficulties whatever will arise in turning to account the same facilities for export trade as specified in the above clause,

5th.—The contemplated extent of this reclamation will embrace the advantages arising from an open Sea-board which may be made eminently useful for the reception of coast craft cargoes.

6th.—Road communication already exists between the causeway and Bombay.

7th.—Several other roadways afford immediate communication to many important positions on the new reclamations.

8th.—The Promoters undertake to protect Lady Jamsetjee's Causeway as it exists at present, and to erect only such buildings as shall prove an ornament to the causeway.

MAY IT PLEASE YOUR EXCELLENCY.—We, the undersigned, with a view to assist in supplying some of the most urgent wants of our city, by providing additional room for its increasing commerce, and additional house accommodation, in a healthy situation and at moderate charges, for its increasing population, in accordance with the repeatedly expressed wishes of Your Excellency in Council, have the honour to make the following application under Act XXII. of 1863, with the provisions of which we undertake to comply.

1. We have the honour to solicit from your Excellency in Council a concession of the foreshore and portion of the Mahim Bay, situate and lying between Worlee Point and the Bridge of Lady Jamsetjee's Causeway, being the whole of the south-western, southern, and south-eastern portion of the Bay, and all the proprietary and other rights of Government over the same. The foreshore and portion of the Bay thus applied for are laid down in the accompanying plan.

2. We have the honour further to solicit a concession of the Government land on Worlee Point on which the Worlee Fort stands, and the Government land at Mahim on which the Mahim Fort stands, be the same more or less, and all the proprietary and other rights of Government over the same. The portions of Government land thus applied for are laid down in the accompanying plan.

3. In the event of the solicited concession being granted to us by Your Excellency in Council, we propose and hereby undertake, by means of a Joint Stock Company formed for the purpose with ample and adequate resources, to reclaim from the sea the whole of that portion of the Bay described in paragraph 1, raising it to two feet above high-water mark, and securing it by a firm seawall, and to utilize the land thus reclaimed from the sea, and the Government land therewith conceded in the construction of a new port and of a new suburban town.

4. We have the honour, finally, to solicit for obvious reasons that Your Excellency in Council will concede to the Company the rights of Government over Mahim Bay, and the prior right of reclaiming and utilizing other portions of the Bay upon terms to be agreed on between Government and the Company previous to such reclamations.
