MARINE DEPARTMENT.

The following Report by Lieutenant Searle, Dock Master, in connection with replacing the Buoy at the entrance of the Bancoot River, is published for general information:—

"I have laid down two Buoys, one on the deep part of the Bar of the Savitree or Bancoot River, the other about three-quarters of a mile inside close to the reef. The Position and Bearings of the Buoys are as follows:—

The Outer Buoy is moored immediately on the Bar in 9 feet low-water springs, with the following Compass Bearings:—

Harrissa Hill.....	N 6° E.
Sewerdan Point.....	N 16 W.
Victoria Fort.....	N 65 E.
Lower Bancoot Fort.....	N 56 E.

The Inner Buoy is moored 2 fathoms low-water springs with Bearings of

Fort Victoria.....	N 80 E.
Harrissa Hill	N 11 W.

The position of the bar appears to have materially altered, and requires to be resurveyed in placing the Buoys. I was accompanied by the Native officials of the place, with two Native boats having on board some of the oldest men of the place.

Direction for Vessels entering or leaving the Bancoot or Savitree River.

The Outer Buoy is placed on the bar having 9 feet low-water springs, and should be passed close on the left hand coming in, then steer having the lower Fort about one point open on the starboard bow; the Inner Buoy can be passed keeping it on the left hand side at a distance of about 30 yards. Having passed the Inner Buoy, steer so as to round Bancoot Point, on which the lower Fort is built, at a distance of about 50 yards, then steer for the Native Craft at anchor off the Village. An English Vessel or large Native Craft unacquainted with the place should have on board a Native Pilot or fisherman."

PUBLIC WORKS DEPARTMENT.

Consequent on the orders contained in the Government of India's Circular, No. 15 of 1865, the following changes in the organization of the Engineering Establishment of the Public Works Department will take effect from the 1st of April 1865 :—

The Grade of Special Assistant Engineer will be abolished, and the Officers now in that rank will become Executive Engineers 4th Grade, and form part of the complement of Executive Engineers.

At the same time in substitution for the Special Assistants, a reserve of Executive Engineers reckoned at 10 per-cent. on the sanctioned Executive charges, adding one for any fraction greater than one-half, will be allowed; and all Executive Engineers will be considered as available for duty as Assistant Engineers, in the event of there being an excess of Executive Engineers over the number of charges.

Government will decide which of the Executive Engineers should perform the duties of Assistants, but as a rule the selection will be made from the lowest grade of Executive Engineers.

The Grade of Probationary Assistant Engineer will be abolished, and all Assistant Engineers, with the exception to be stated, will be appointed to the Department on probation for the first year of their service, drawing the full salaries of their grade. Officers of the Royal Engineers will be appointed permanently to the Department at once.

The following grades will be added to the present Departmental list of Engineer Establishment :—

Assistant Engineers 3rd Grade.
Apprentices.

The salaries of the existing Grade of Civil Assistant Engineers will be revised, and those of the whole class, including new grades, will stand as follows :—

	MILITARY STAFF PAY.		CIVIL CONSOLIDATED SALARY.	
	Present.	Future.	Present.	Future.
Assistant Engineer 1st Grade	250	250	350	400
Do. do. 2nd do.	200	200	250	300
Do. do. 3rd do.	New.	150	New.	200
Apprentices	Do.	Do.	New.	100

All Royal Engineer Officers, or Military Officers passed in the Public Works Code test,* remaining in the Grade of Probationary Assistant Engineer on the 1st April 1865, will,

* At pages 15 and 16, Article 4. on that date, become Assistant 2nd Grade.

All Civil Engineers appointed under covenant by the Secretary of State, remaining in the Grade of Probationary Assistant Engineer on the 1st of April 1865, will become Assistant Engineers of the 3rd Grade, and will continue in that Grade on Probation till qualified for promotion under existing rules, when they will be appointed to the 2nd Grade.

Assistant Engineers will in future usually be appointed to the Department in the 3rd Grade, and must serve in that grade for one year before becoming qualified for promotion to the 2nd Grade. Military Officers who have passed the test qualifying for the Department, as laid down in the Public works Code,*

* At Pages 15 and 16, Article 4. will be appointed to the 2nd Grade. Military Officers temporarily employed without having passed the regular Departmental tests will be placed in the 3rd Grade of Assistants.

Officers of the Royal Engineers will usually be appointed in the 2nd or 1st Grade, according to the length of previous services. Civil students from the Indian Colleges will be appointed either in the 3rd Grade of Assistants or as Apprentices.

The Rules* heretofore in force for promotion from the rank of probationary Assistant Engineer to 2nd class Assistant Engineer will now hold good for promotion from Assistant Engineer 3rd Grade to Assistant Engineer 2nd Grade.

For promotion from the Grade of Apprentice to Assistant Engineer 3rd Grade no examination will be needed nor any length of time fixed for service in such Grade, but such promotion will be made by Government on the recommendation of the Superintending Engineers, and Chief Engineer.

The relative proportion in the Grade of Assistant Engineers will be :—

$\frac{1}{3}$ rd in 1st Grade, adding one for a fraction of $\frac{2}{3}$ ds.

The remainder will make up the aggregate of 2nd and 3rd Grades, and Apprentices.

Officers of the Engineering establishment below the grade of Executive Engineers 1st Grade, will be allowed, when serving at the Presidency, to draw the salary of the grade next above that in which they are regularly classified. This will not interfere with the grant of Presidency House-rent in lieu of tentage, under present rules.

The following changes and promotions giving effect to the above will take place in the Public Works Department from the 1st April 1865.

SIR,—I have been in communication with the Secretary of State for War on the questions raised in the letters of the dates noted in the margin, regarding the position of the Veterinary Surgeons of the Indian Service who may declare for general service in Her Majesty's Army.

2. I stated that it appeared to me that such of these Veterinary Surgeons as might volunteer for general service would become an integral part of Her Majesty's Army, and hold the same position as the Veterinary Surgeons in that Army; that they would be considered to have terminated all connection with their former service; and that they would be allowed to reckon their past service towards pay, promotion, and half-pay on retirement under the provisions of the Royal Warrant of the 1st July 1859.

3. The Secretary of State for War has expressed his concurrence in these views.

4. This decision should now be communicated for the information of the Veterinary Surgeons of the Local Forces at the three Presidencies, and a return of the Veterinary Surgeons desirous, on such conditions, to enter Her Majesty's general service, should be transmitted to me for communication to the Secretary of State for War.

5. The connection with the respective Military Funds of such of the Veterinary Surgeons of the Local Forces as may volunteer for, and be accepted for, Her Majesty's general service, will depend upon the regulations of the Funds of their respective Presidencies.

VICTORIA R.

Whereas it hath been represented to Us that it is expedient to raise the position and rank of the Veterinary Surgeons of Our Army, and to increase the pay and half-pay of the Officers of that Service; Our will and pleasure is, that from and after the date of this Our Royal Warrant, the following Rules shall be established for the admission, promotion, and retirement, and for the pay, half-pay, relative rank, and allowances of the Veterinary Surgeons of Our Army, and that by these Rules Our Commander in Chief shall be governed in recommending Officers for admission, promotion, and retirement.

1. The grades of Veterinary Surgeons in Our Army shall be three in number, viz:—

1. Staff Veterinary Surgeon.
2. Veterinary Surgeon of the First Class.
3. Veterinary Surgeon.

2. No candidate shall be admitted into the Veterinary Department of the Army until he shall have satisfactorily passed an examination before a Board of Military Veterinary Surgeons.

3. No Veterinary Surgeon shall be eligible for promotion until he shall have passed such examination as Our Principal Secretary of State for War may require, and shall have served on full pay with the Commission of Veterinary Surgeon for five years.

4. A Veterinary Surgeon of the First Class must have served 15 years in the Army with a Commission on full pay before he will be eligible for promotion to the rank of Staff Veterinary Surgeon.

5. In cases, however, of emergency, or when the good of the Service renders such alteration necessary, it shall be competent for Our Secretary of State for War to shorten the several periods of Service above-mentioned in such manner as he shall deem fit and expedient.

6. Promotion from one rank to another shall not necessarily be given by seniority, but by selection for professional ability and meritorious conduct; such selection to be made by Our Principal Veterinary Surgeon; and the ground of such selection shall be stated to Us in writing, and recorded in the Office of Our Commander-in-Chief, together with the recommendation of the Principal Veterinary Surgeon.

7. The rates of pay of the Veterinary Officers of Our Army shall be in accordance with the following schedule :—

	SERVICE ON FULL PAY.					
	After 25 years	After 20 years.	After 15 years.	After 10 years.	After 5 years.	On appointment.
Staff Veterinary Surgeons.....	23s.	22s.	21s.

Veterinary Surgeons who entered Our service prior to the date of this Warrant	17s. 6d.	15s.	14s.	13s.	11s. 6d.	10s.

8. It is to be clearly understood that all increase of pay for length of service is to be granted subject to a Veterinary Surgeon having discharged his duties with zeal and ability.

9. After the date of this Our Warrant, every Veterinary Officer placed on half pay by reduction of establishment, or on the report of a Medical Board, in consequence of being incapacitated by reason of ill-health, caused by wounds or brought on by the discharge of his duties, shall be allowed the half-pay which his period of full-pay service may entitle him to, according to the following schedule :—

	After 25 years.	After 20 years.	After 15 years.	After 10 years.	After 5 years.	After 3 years.	Under 3 years.
Staff Veterinary Surgeon.....	15s.	14s.	The halfpay of his former rank.

Veterinary Surgeon			9s. 6d.	8s. 6d.	7s.	4s.	Temporary half-pay at 4s. a day, for a period equal to that for which the officer has served on full pay.
Veterinary Surgeons who entered Our service prior to the date of this Warrant	10s.	9s. 6d.	9s. 6d.	8s. 6d.	7s.	4s.	

10. With a view to maintain the efficiency of the Service, all Officers of the rank of Veterinary Surgeons and Veterinary Surgeons of the First Class shall be placed on the Retired List when they shall have attained the age of 55 years ; and all Staff Veterinary Surgeons when they shall have attained the age of 65 years.

11. Officers thus superannuated shall be entitled to the rate of half-pay, stated in the preceding schedule.

12. Every Veterinary Officer who shall have served upon full pay for 25 years and upwards shall have the right to retire upon half-pay, at the rate of two-thirds of the daily pay he was in receipt of when thus retiring, provided he shall have served three years in the rank from which he retires, or shall have served in any rank for ten years in the Colonies, or five years with an army in the field. But if he shall not have complied with any one of these conditions, he shall be entitled only to half-pay at the rate of two-thirds of the daily pay he was in receipt of before his last promotion.

13. Every Veterinary Officer thus claiming to retire must give six months' notice to the head of his Department of his intention to claim this right, prior to his being allowed to retire; and no Veterinary Officer shall be entitled to give such notice after he shall be under orders to proceed to any foreign station, until he shall have served at such station for one month.

14. If a Veterinary Officer be placed on half-pay from any other cause than those hereinbefore mentioned, he shall only be allowed a temporary rate of half-pay, not exceeding the rates stated in Clause 9 for such period and at such rate as shall be assigned to him by Our Secretary of State for War, on a consideration of the length and character of the services rendered by such Veterinary Officer.

15. The relative rank of the Veterinary Officers of Our Army shall be as follows :—

Veterinary Surgeon, on appointment, as Subaltern.

Veterinary Surgeon of the First Class, on promotion, as Captain.

Staff Veterinary Surgeon, on promotion, as Major, but junior of that rank.

16. Such relative rank shall carry with it all precedence and advantages attaching to the rank with which it corresponds (except as regards the Presidency of Courts Martial, and of all Military Courts, Committees and Boards of Inquiry, where Our will and pleasure is, that the senior combatant Officer be always President, and except, further, any Military command whatever), and shall regulate the choice of quarters, rates of lodging money, field allowances, forage, servants, fuel, and light, or allowances in their stead, detention and prize money. But when a Veterinary Officer is serving with a regiment, corps, or detachment, the Officer commanding, though he be junior in rank to such Veterinary Officer, shall be entitled to a preference in the choice of quarters.

17. Veterinary Officers shall be entitled to all the allowances granted by Our Warrant of 13th July 1837 on account of wounds and injuries received in action, as combatant Officers holding the same relative ranks.

18. Their families shall, in like manner, be entitled to all the allowances granted by Our Warrant of 15th June 1855, to the families of combatant Officers holding the same relative ranks.

19. Veterinary Officers shall be held entitled to the same honours as other Officers of Our Army, of equal relative rank. This does not, however, extend to the compliments to be paid by garrison or regimental guards, as laid down in the Regulations of our Army.

Given at Our Court of St. James's, this first day of July 1859, in the twenty-third Year of Our Reign.

By Her Majesty's Command,

Notice to Mariners.

The following Notice is published for general information:—

SOUTH AUSTRALIA.

WALAROO AND TIPARA BAYS.

All bearings are magnetic, variation $4^{\circ} 30' E$.

Notice is hereby given, that, on and after the (1st) first day of April next (1865), the floating beacon now moored on the Tipara Reef will be replaced by a temporary light-ship, which will be moored close under the rocky patch near the southern extremity of the Tipara Reef, with the following bearings:—Elizabeth Point, S.E. $\frac{1}{2}$ S.; Long Point, N.E. by E. The lightship has two masts, is painted red, and exhibits during the day a red ball at the mainmast head.

Lights.—From sunset to sunrise will be exhibited the following lights:—A white light from the mainmast (24) twenty-four feet above the sea-level, visible from all points of the compass at a distance of (7) seven miles in clear weather. A red light from the foremast (12) twelve feet above the sea-level, visible from N. to S., round by W., at a distance of (3) three miles, in clear weather.

Vessels making the Light from the N.N.W. should not stand towards the northern extremity of the reef, whilst the red light is visible, by observing the direction a ship will be well clear of the reef.

Should the weather be hazy, and the red or less intense light be obscured, no vessel should approach the reef with the white light bearing S.S.E., under (7) seven fathoms.

The following description of the Tipara, and sailing directions for Walaroo or Tipara Bays, are published for the guidance of Mariners.

The Tipara Reef is an extensive shoal, the southern extremity being four and a-half ($4\frac{1}{2}$) miles N.W. from Elizabeth Point.

The reef consists principally of sand, but there is a rocky patch of small extent near the southern extremity which dries at low water; it is under the shelter of this patch where the lightship, referred to above, will be moored.

From the rocky patch, the reef extends in a northerly direction, about two (2) miles, the outer edge trending to the N.N.W.; whilst the S.E. part takes a N.E. $\frac{1}{2}$ E. direction; the extreme breadth from east to west nearly two (2) miles.

The soundings on the reef vary:—in some places there being a fathom and a half ($1\frac{1}{2}$), whilst in others—particularly to the N.N.E. part of the shoal—there are only two (2) or three (3) feet. From the northern extremity of the reef, the buoy off Long Point, referred to in this notice, bears N.E. by E. $\frac{1}{2}$ E.

Vessels rounding the south part of the reef should not bring Elizabeth Point to bear to the southward of S.E. by E. $\frac{1}{2}$ E.; whilst those intending to pass to the northward of the danger, into or out of Tipara Bay, should not bring the buoy off Long Point to bear to the eastward of E. by N. $\frac{1}{2}$ N.

A red nun buoy has also been placed off Long Point in three (3) fathoms, with the following bearings:—Elizabeth Point, S. $\frac{1}{2}$ E.; Long Point, E. by N. $\frac{1}{2}$ N.

To pass outside or to the westward of the Tipara Reef, do not approach the lightship from the westward, under six (6) fathoms, or come within a mile of the same; from this position, when to the westward of the reef, steer a N.N.W. course, in which the same soundings will be maintained.

GAZETTE—8

When the buoy of Long Point bears east, a course of N.E. may be shaped, taking care as the Long Point Buoy is brought to bear S.E., not to come under four and a-half ($4\frac{1}{2}$) fathoms.

When Long Point bears south, a course of E. by N. may be shaped, when the Pilot and Harbor Master will come off, and conduct the vessel to the anchorage or jetty.

At night no vessel in the vicinity of Tipara Reef should come under (7) seven fathoms, or attempt to enter the Bay until the lights from the Smelting Works are clearly defined bearing E. by N., when that course may be shaped for the anchorage; taking care not to come under six (6) fathoms, unless the commander is sufficiently well acquainted with the Bay to take the ship in, or the pilot has taken charge.

The tides in the vicinity of the reef and Long and Elizabeth Points, are irregular and rapid; care must therefore be exercised to guard against the influence of the tides when in the stream of the reef, or near the points referred to.

It is high water at Port Walaroo at 5h. 45m. F. & C.; rise and fall four (4) feet eight (8) inches at ordinary springs.

To pass inside Tipara Reef give Elizabeth Point a berth of a mile and a half ($1\frac{1}{2}$), to avoid the shoal rocky patch which extends nearly a mile from the Point in a north-westerly direction.

With the Point bearing S.E., distant a mile and a half ($1\frac{1}{2}$), steer due N., which course will lead through the inner passage in not less than four (4) fathoms.

In beating through, keep the lead going, and do not, in a vessel drawing more than seventeen (17) feet, when standing in shore, bring Long Point Buoy to bear to the westward of W.N.W.

In standing off, when to the southward of the north end of the reef, do not bring the Long Point Buoy to bear to the eastward of N.N.E., by which the eastern part of the reef will be avoided.

Small vessels may pass inside the Long Point Buoy, taking care not to bring Elizabeth Point to bear to the westward of S. by W., so as to avoid the Walrus Rock. With the above bearing a vessel will be in two (2) fathoms at low water, spring tides, with the Walrus Rock distant about half a mile.

The Walrus Rock lies nearly a mile off Long Point, when bearing S.E. by S., and is nearly dry at low water.

N.E. a mile and a half ($1\frac{1}{2}$) from the Walrus Rock lies the Bird Reef, which is awash at low water.

Coasters should give this danger a wide berth, not bringing the Long Point Buoy to bear to the westward of S.W. With this bearing a vessel will be in two (2) fathoms at low water.

In the bay there is excellent anchorage in four (4) fathoms, with the jetty end bearing I.S.E., distant about two (2) cables' lengths.

Small vessels can anchor in three (3) fathoms, with the end of the jetty bearing S.E. to S.

Alongside the jetty will be found good berths, from eight (8) to fourteen (14) feet, shoaling towards the shore.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all *single* cases, for of such only the aggregate is made up.
