The following Extract from the Proceedings of this Government is published for general information :—

"No. 3637.

EXTRACT from the Proceedings of the Government of Bombay in the Revenue Department, dated the 17th October 1863.

Read the following letter from Mr. W. Hart, Revenue Commissioner, S. D., to the Secretary to Government, No. 3055, dated 18th September 1863 :—

As Government have, by their Resolution in the Public Works Department on paragraph 2 of the Despatch from the Secretary of State for India, No. 19, dated 30th June 1863, decided that 'Karwar' is to be the name by which the new Capital of our most Southern Collectorate is to be designated in future, I would respectfully suggest that the name of the Collectorate itself may be made more appropriate than at present.

While this Collectorate belonged to the Madras Presidency there was not any very great incongruity in calling it *North* Canara, but as it is now the most Southern of our Canarese Districts, the omission of the word 'North' from the designation of the Collectorate seems desirable for the sake both of consistency and convenience.

Resolution.—Sanctioned.

Ordered that copies of the above be forwarded to—

The Revenue Commissioner, S.D., and
All the Departments of the Secretariat.

(Signed) A. D. Robertson,
Secretary to Government."

MARINE DEPARTMENT.

The following letter from the Chief Secretary to the Government of Fort St. George, No. 255, dated 30th September, and its accompaniments, are published for general information :—

"MARINE DEPARTMENT.

No. 255.

From A. J. ARBUTHNOT, Esq.,
Chief Secretary to the Government of Fort Saint George,

To the SECRETARY to the GOVERNMENT of BOMBAY.

SIR,—I am directed to transmit to you copies of a letter, 22nd instant, No. 2,366, from the Master Attendant in charge of the Office of Superintendent of Marine, and of the depositions received with it, made before the Master Attendant of Cochin, by the Commander and Second Officer of the British Barque "Eddystone," relative to the discovery of land midway between Socotra and Cochin, which apparently is not shown in the Charts.

I have the honour to be,
Sir,
Your most obedient Servant,
(Signed) A. J. ARBUTHNOT,
Chief Secretary.

Fort Saint George,
30th September 1863.

From H.D.E. DALRYMPLE, Esq., Master Attendant in charge of the Marine Superintendent's Office; to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Marine Department, Fort Saint George, dated Madras, 22nd September 1863, No. 2,366.

I have the honour to enclose for the information of the Right Honorable the Governor in Council copies of depositions, as per margin, taken before the Master Attendant, Cochin, and to suggest that they be forwarded to the Government of Bombay.

Of Captain W. Jack, Barque "Eddystone," of Shields, and David Donald, 2nd Mate, and Thomas Fraser, Seaman, do. do., dated 10th September 1863.

Statement made before the Master Attendant, Cochin, by Captain W. JACK, *Commander of the Barque "Eddystone," of Shields of* 399 *tons.*

I left Aden on the 4th August bound to Colombo. From Socotra I experienced the S. W. monsoon very strong with a heavy sea. On the 10th at noon I was in latitude 11-8 N., Longitude 61-37 E. by observation, steering a course of S. E. by E. ½ E., intending to pass through the 8° channel. At 2-30 A.M. on the 11th, nautical time, Mr. Donald, the Second Officer of the vessel, whose watch it was at the time, called me, and telling me at the same time that "land was ahead." I immediately went on deck, and found that the water was quite discolored, and saw what appeared to me to be something like a ridge of sand or rock, having a black appearance and about four feet above the sea, the moon was then about an hour or so above the horizon, the wind at S. W. blowing strong, and the ship under close reefed topsails and reefed courses. I instantly kept the ship away to N. by W., and ordered the lead to be hove. The first and several other casts gave 10 fathoms, and then the water shoaled to 8 and 7 fathoms, hard bottom; on obtaining the last cast I immediately hauled the vessel up to N. W., and on sounding again found no bottom. The ridge did not appear to be of greater extent than about two miles north and south. I ran to the N. W. until day-light, and then stood to the southward and eastward till 9 A.M., with a hope of again falling in with the place, but not seeing it I stood on my former course. When in soundings as above described the water was perfectly smooth, this particularly attracted my attention as we ran into it from a high sea; the water was so smooth when in soundings, that had my anchors been clear, I should have brought up for the purpose of examining the spot. I neither heard nor saw any breakers. The soundings were taken by the Second Officer with the hand lead and I was standing by him. I think about fourteen casts were obtained, the highest cast being 10, and the lowest 7 fathoms, and I distinctly saw what appeared to me to be land all the time the lead was kept going. The night was clear for the S. W. monsoon.

I reported this circumstance to the Master Attendant at Colombo.

Statement made before the Master Attendant, Cochin, by Mr. DAVID DONALD, *Second Officer of the Barque "Eddystone," of Shields, of* 399 *tons.*

On the passage from Aden to Colombo at 2-30 A. M., on the 11th August 1863, I was in charge of the watch, and steering by Compass S. E. by E. ½ E. with a wind from about S. W. At the hour mentioned above, my attention was first drawn to the discolored state of the water, and while looking around me I saw land right ahead distinctly visible. I immediately called Captain Jack, who came on deck, and wore ship to N. by W., and ordered me to heave the lead. On sounding, the first cast I got was 10 fathoms, and several other casts gave the same depth, and then it shoaled to sand 7 fathoms, hard bottom, the vessel was hauled up to the N. W. and we lost soundings. While heaving the lead I was standing at the gangway, and saw the land all the time distinctly, and the water while the ship was in soundings was perfectly smooth without the least swell. The land appeared to have a black appearance, and about four feet above the sea. The night was pretty clear. I neither saw any broken water nor heard any breakers.

Second Officer, Barque "Eddystone."

Cochin, 10*th September* 1863.

I have carefully read over Mr. Donald, the Second Officer's statement, as given above, and I confirm the same in every particular. I was at the wheel when we first sighted the place.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all *single* cases, for of such only the aggregate is made up.

Revenue Survey and Assessment, Goozerat.

It being generally believed that the Superintendent of Revenue Survey and Assessment is empowered by Law to put up Survey Boundary Marks, at certain fixed charges, irrespective of the cost of labour in different Districts, the Superintendent of Revenue Survey and Assessment Goozerat hereby gives notice to the owners, occupiers, and cultivators of land, in the Talookas (of the principal division of the Surat Collectorate, and Sub-Collectorate of Broach,) noted in the margin, which will be under Survey this season, that they themselves are allowed by law to put up Boundary Marks (by their own hired labourers) so long as such marks are of the size and material approved by the Survey Officers, and the owners, occupiers, and cultivators of land are hereby required to do so as soon as their fields are measured.

Soopa, Parchole, Bulsar, Parnera, Bugwara, Oolpar, Chowrashee, Mandvie, Unkleshwur, Broach, Amod, Wagra

2. If within two days of the measurement of any field, the owner, occupier, or cultivator does not erect the Boundary Marks required by law, he will be served with the Notice required by Act III. of 1846, and if within the days of grace allowed by the said Notice, the owner, occupier, or cultivator fails to erect Boundary Marks of the size and number required, such marks will be erected by the Survey Officers, and the cost (whatever it may be) recovered under the provisions of Act III. of 1846.

3. Neither the Superintendent, nor Assistants Superintendent of Revenue Survey, have any power to regulate the price of labour, and if owners and occupiers of land (who can always employ their own farm labourers to erect Boundary Marks) decline to do so, under the impression that the Survey Officers are obliged by law to erect Boundary Marks at a cheap rate, they will find they are mistaken, and must take the consequences.

4. In those Districts in which stones are procurable, and where stone Boundary Marks are allowed, the Survey Officers will be prepared—through their Contractors—to furnish stones of the regulation size, at a small fixed charge per stone.

C. J. PRESCOTT, Captain,
Sup. Rev. Survey and Assess. Goozerat.

NOTIFICATION.

Notice is hereby given, under the provisions of Section 189 of Act VI. of 1863 (the Consolidated Customs Act), that from and after the 1st November 1863, the following periods will be allowed for removing Goods free of Wharfage Fees, from the Government Wharves, Piers or Sheds, or other authorized landing places of the Custom Houses within the Town and Island of Bombay:—

TOWN CUSTOM HOUSE.

Dutiable Goods.

On the Pier.....24 hours } From the time of depositing or landing.
Import side..... 7 days. }

Export side.....3 days from the time of depositing.

Free Goods.

Import and Export sides..2 days from the time of depositing or landing.

ALL OTHER GOVERNMENT BUNDERS.

Dutiable Goods.

Import side .....Seven days from the time of depositing or landing.
Export side .....Three days from the time of depositing.

Free Goods.

Import and Export Sides.... Two days from the time of depositing or landing.

On all goods not cleared and removed beyond the Custom House premises within the periods above specified, wharfage fees or warehouse rent will be charged according to the rates specified below.

The day of landing or depositing and that of removal will be reckoned as one day. Sundays and holidays will be allowed in addition to the other rent-free periods, and when delay is caused by the inability of the Custom House Officers to examine and pass goods after application made in due course for that purpose, the days of such delay will not be reckoned in any term.

The scale specified below is generally in excess of that hitherto in operation, it is now raised not with any view of Government deriving an increased revenue from wharfage or warehouse rents, but solely that parties landing or shipping goods may be induced to do so with despatch, and that goods may not be left for long periods within the Custom House premises, to the great obstruction of business, merely because the owners may find it cheaper to deposit them there than elsewhere.
