HOME DEPARTMENT, Simla, the 2nd October 1863.

Her Majesty the Queen has been pleased to direct that a Flag should be provided for the use of His Excellency the Viceroy and Governor General. The design of the Flag which has received Her Majesty's approval, is "The Union Jack," having in its centre "The Star of India," surmounted by "The Royal Crown."

All subjects of the British Government, troops in the service of the British Crown, and troops and subjects of Native Chiefs in India, are required to pay the same marks of respect to the Viceroy's Flag, when unfurled, as are shown to the Royal Flag.

No. 552 of 1863.—The following General Order by His Excellency the Governor General of India, dated 13th October 1863, No. 156 A, is republished :—

No. 156A. of 1863.—Under the authority and direction of the Right Honorable the Secretary of State for India, as conveyed in his Despatch No. 311, dated the 31st August last, a revised Table of Staff Salaries for the three Presidencies is published, and the Extracts of Sir Charles Wood's Despatch on the subject, as given below, are promulgated for general information.

2. Officers whose appointments are not specified in the Table of Revised Salaries will draw pay as at present, and further orders will hereafter be issued with respect to the Office Establishment of those Staff Officers who have hitherto drawn an Office allowance, such as Assistant Adjutant Generals of Division and Majors of Brigade.

3. With reference to paragraph 29 of Sir C. Wood's Despatch, it is announced that the Despatch was received by His Excellency the Governor General on the 30th September. Increased pay, where granted by this order, is therefore claimable for the month of September.

"Para. 1.—Your several letters noted in the margin, relating to the salaries to be attached to Offices held by Military Officers in India, have been under my consideration in Council, and I have now to communicate to your Lordship the decision which, after an attentive perusal of the several papers which accompanied your letter, Her Majesty's Government have arrived at upon this subject.

Financial Despatch No. 70, May 20th, 1863.
Military Despatch No. 10, January 3rd, 1863.
Military Despatch No. 34, January 19th, 1863.
Financial Despatch No. 23, February 19th, 1863.
Military Despatch No. 160, May 22nd, 1863.

"2. The Committee of Secretaries appointed by your Government to consider the subject have gone very carefully into the whole question, and have submitted a very valuable Report, which has greatly tended to facilitate and simplify the consideration of this important matter.

"3. They observe of the Royal Warrant for the formation of the Staff Corps in India that, after fixing the scale of pay to be received by Officers attached to them while in India, and when out of India, it further provides that every Officer when in active employment will also receive, in addition to the above pay, such a sum as will make his total pay and allowances up to the sum assigned by the Government of India, with the approval of the Secretary of State for India in Council, as the consolidated pay of the office which he may hold.

"4. Having consulted the several Governments, as well as the Chief Political and Military Officers of the Government, the Committee propose for adoption the following principles :—

1st.—That the Salaries of Military Officers holding appointments connected with the Civil administration of the country should be consolidated and fixed without reference to the rank of the incumbent.

2nd.—That in the case of Military Officers in Staff employ a certain salary should be fixed for every appointment, and that the incumbent should receive such fixed salary in addition to the Staff Corps pay of his rank.

3rd.—That this latter principle should apply to the Department of Public Works.

"5. I concur generally in the principles here laid down, with some exceptions to be hereafter pointed out, as regards the Officers in Military Staff employ.

"10. I have considered it necessary to deviate in some respects from the rates of salary proposed by the Committee, and I now forward, for the information of your Government, a Table of Salaries which Her Majesty's Government have resolved upon for the several Offices enumerated in their Report.

"11. You will observe from the Table that, while adhering generally to the principle of allotting a Staff salary in addition to Staff Corps pay, it has been determined to fix the salaries of some few of the higher Offices at a consolidated sum.

"12. In the case of the other appointments it is to be understood that the Staff salary now fixed, plus the Staff Corps pay due to the Officer's rank, will constitute the maximum amount to be drawn by an Officer of that rank holding the Office in question, whether such Officer belong to the Staff Corps or not. In the case of appointments held by Officers belonging to Her Majesty's British Forces, such maximum amount will include any pay or half-pay that may be paid to them in England.

"13. I approve of the Rule proposed by the Committee that, in all cases where any allowance for "office" is made, as in the case of Assistants Adjutant General, Brigade Majors, and others, it should be distinctly understood that the allowance is to be drawn only by Officers actually discharging the duties of the appointment, and that no further charge can be allowed for providing an office.

"14. It is desirable that, whenever possible, the Public Offices should be located in public buildings, and it should be a standing Rule that all bills for Office allowance should be supported by a Certificate from the proper authority, that no public building was available for such Office.

"15. I am of opinion, however, that Office Establishments should, as a general rule, be maintained according to a regulated scale, and should be paid on abstract, supported by the usual Monthly Muster Roll.

"18. The principle laid down in the 4th Clause of the same paragraph has, you will perceive, been observed in the rate of salary allotted to the Heads and Subordinate Members of Departments at the several Presidencies, but I have extended to the Deputies of the Army Department at Head Quarters in Bengal the benefit of the Rule which gives to the Chief of those Departments a higher rate of salary than at Madras or Bombay.

"19. In the 2nd Clause of the 10th paragraph the Committee observe that, 'referring generally to the expensive rates of living in Presidency Towns, we think that the principle of allowing house rent may be generally adopted at the rates marginally shown, and we would recommend that it should be made applicable to the Presidency Town of Madras, as well as to Calcutta and Bombay.'

Colonel	125
Major	100
Captain	75
Lieutenant	40

"20. I approve of the proposed scale, which will apply to Officers at each Presidency not drawing consolidated salaries.

"29. The scale of salaries now sanctioned will be brought into operation and made to apply in all cases where there is no reduction in the present aggregate salary, on the payment due on the first of the month succeeding the receipt of this order.

"30. Reduction of salaries effected by this order are not to be made to affect present permanent incumbents, or those who are officiating for such permanent incumbents, being temporarily absent from their duties."

4. Separate orders will be issued regarding the Staff salaries to be allowed to Officers serving with Native Corps.

No. 553 of 1863.—The following General Order by His Excellency the Governor General of India dated 13th October 1863, No. 157A. is republished :—

"No. 157A. of 1863.—His Excellency the Governor General is pleased to publish the following extracts of a Despatch from the Right Honorable the Secretary of State for India, No. 311, dated 31st August 1863, regarding the absentee and acting allowances of Military Officers in Civil employ, the provisions of which are applicable to all the Presidencies :—

'Para. 31.—With your Despatch, No. 23, in the Financial Department, you forward a further Report from the Committee of Secretaries regarding the absentee and acting allowances of Military Officers in Civil employ, with a note thereon by your Financial Secretary.

32.—You concur generally in the recommendations of the Secretaries, with the amendments noted by the Financial Secretary, and propose the adoption of the following principles :—

1st.—That every Military Officer in Civil employ when on leave should draw pay under the Military Rules ; and

2nd.—That every Military Officer when acting in any Civil appointment should draw his Civil pay under the Civil Rules.

33. Upon these two principles you propose the following Rules for the Officer on leave :—

A Military Officer in Civil employ on leave, either in India or in England, shall draw precisely the pay which he would be entitled to draw under the Military Leave Rules, except when on privilege leave as hereafter specially provided.

Such pay shall be provided from the Civil Department excepting only in cases where the allowances so drawn would exceed the entire Civil pay of the appointment, when the excess will be paid by the Military Department. The Staff salary of any Officer shall be held to be the difference between the Indian pay and allowances of his rank and the full salary of his permanent appointment.

34. For the Acting Officer your Government proposed the following Rules :—

A Military Officer acting for another in Civil employ shall draw deputation allowance under the rule by which the allowance is granted to Covenanted Civil Servants.

If the Officer be in Military Staff employ such deputation allowance will be given in addition to his Military pay and allowances, plus half the Staff pay of his substantive appointment.

If the Officer hold no substantive Staff appointment, Civil or Military, it will be given in addition to his Military pay and allowances.

A Military Officer in Civil employ performing the duties of his substantive appointment, and at the same time officiating in another, is entitled to his substantive salary and in addition to a deputation allowance of 20 and 10 per cent. on the Staff salary of the appointment in which he is officiating, provided the pay of the substantive appointment with the addition of the deputation allowance does not exceed the pay of the higher appointment.

A subordinate acting for his principal or for any other Officer at the same Station is not entitled to deputation allowance for the first month while so acting, unless he is required to act on two occasions within a brief period (say twelve months), in which case he draws deputation allowance for the whole period during which he may have held the appointment in excess of one month as if he had acted continuously.

A Military Officer proceeding from one Civil appointment to another shall be allowed to draw, during the authorized period of transit, out of the salary of the office he is about to join, a sum equal to that of his previous situation. This Rule to be preceded by an Order making the Civil Rules for joining time applicable to Military Officers in Civil employ.

A Military Officer in Civil employ can take three months' cumulative privilege leave (under the Civil Rules only), but he must earn it by thirty-three months' continuous service in the Civil Department alone.

35. These several Rules are approved of.'

Secretary to the Government of India, with the Governor General."

ADVERTISEMENT.

The Government of India having come to the conclusion that it is not expedient to carry on the Iron Works recently established at Burwai, on the Nerbudda, as a Government undertaking, will be prepared to receive offers from Capitalists desirous of taking up such an enterprise for the sale or lease of the Works.

The annexed Extracts from a Report lately submitted to the Government of India will explain the present condition of the Works and the resources of the neighbouring country.

Communications on this subject should be addressed to the Secretary to the Government of India, in the Public Works Department, with the Governor General.

(Signed) J. P. BEADLE, Lt.-Col., R.E.,
Offg. Secy. to the Govt. of India.

Extract from a Report by the Executive Engineer, Mhow Division, No. 533, dated 11th May 1863.

I have furnished a block plan of the works which shows the position of all the existing buildings. All of these buildings are finished, with the exception of the Calcining Kiln and the Forge, which are waiting for castings we had calculated upon making at the Works. The expenditure incurred upon them amounted to Rupees 66,194 up to the 1st March last, and I have estimated that their entire cost will amount to Rupees 85,000. I do not anticipate that any other buildings will be required for the manufacture of Bar Iron, with perhaps the exception of one or two of an inexpensive nature, such as a small Cupola Furnace and a Shed for calcined Ore; an increase in our manufactures will, of course, increase the buildings. I regret I am unable to furnish you with a general plan of the locality of the Works; the Village of Burwai, near which they have been erected, is one of considerable size and importance, it is in British Territory, and is situated two miles north of the Nerbudda, on the main road between Central India and the Great Indian Peninsula Railway, from which it is only 40 miles distant. Its population amounts to 4,500, and no great difficulty has been experienced in obtaining labour from it for our operations; supplies also to any extent are procured there. It is also the residence of the Kamasider of the District, and the money transactions of the Works are in consequence easily arranged.

I do not know what the value of the machinery is, as it has not been debited to the Works. I have furnished a list of what we have received at Burwai, and Mr. Mitander is of opinion that we have sufficient for our present wants.

THE SUPPLY OF ORE.

We obtain Ore from the Mitanderpore Mine, seven miles east of the Works, and from the Nandia Mine, an old Native working, three miles west of Burwai; both of the Ores have been described from Mr. Mitander's Report in the *Calcutta Government Gazette* of the 23rd April 1863, and by Dr. Oldham, to whom specimens were forwarded for analysis, in the following extract from his Report:—

"One specimen is a mass of almost pure homatite Iron Ore, evidently a piece of a vein or string of Ore. It is crystalline massive. It yields 62.22

per cent. of Iron, pure homatite would give 70.00 per cent.; the slight admixture in this Ore being chiefly Silica."

"The second specimen is a Breccia made up of broken fragments of Ore and other materials cemented by Crystalline Carbonate of Lime. It forms on the whole a very hard, tough, and difficult frangible mass. In such a rock the only fair plan to arrive at an average result, as to its composition, would be to reduce a considerable mass of the rock to powder, thoroughly mix up this, and then take a sample from the mixed product."

This of course we were unable to do satisfactorily, but so far as was possible with a hand specimen it has been done.

A fair sample of the whole mass gives 50.63 per cent. of Iron. Picked from the richer portions it yielded 57.95 per cent. Both these are very rich and valuable ores of Iron, and with proper treatment will yield excellent metal. Unless some care be taken, if the ordinary processes by a *Blast Furnace* be used in the reduction of these, the probability is that the Iron will be *cold short*, but this can be readily prevented.

Dr. Oldham's analysis of these Ores is considered by Mr. Mitander to be too favourable for a working estimate, and his calculations do not allow for more than 43 per cent. of Iron from the Mitanderpore Ore, and 33 per cent. from the Nandia Ore. The specimen which were forwarded to Dr. Oldham were probably richer than the average produce of the Mine.

Note.—The estimated cost of the Ore at the Furnace is Rupees 4 per ton.

FUEL.

The Forest from which the supply of charcoal is obtained extends from Burwai to Chandghur, on the Nerbudda, and northward to the crest of the Vindhian range. Of this tract 144 square miles are within an available distance from the Works; 10 square miles of tree jungle on the south of the River are also within the distance we have calculated that we can profitably carry charcoal, we have therefore an area of 154 square miles of Forest.

The principal Trees of the Forests are:—

The Sallee.....	Boswellia Glabra.
" Mhonee.....	Sterculia Urens.
" Dawra	
" Kheir.....	Acacia Catechee.
" Saghwan	Tectona Grandis.
" Ungun	Hardwickia Binata.

The two latter are useful Timber trees, and we do not cut them, but from the four others our charcoal is entirely made.

The Sallee is the most common tree, and with the Mhonee yields a soft and indifferent charcoal. The Dawra on the other hand is an excellent charcoal yielding tree, fully equal, Mr. Mitander thinks, to the Beech, the best in Sweden for this purpose. The Kheir also produces a hard wood, and we intend to use it for the Blast Furnace uncharred.

The yield of charcoal we find to be 35 per cent. of the wood by measurement and 25 per cent. by weight.

In Sweden from 48 to 75 per cent. is obtained by measurement, while by weight there is little difference from us. One hundred cubic feet of Swedish charcoal weighs about 900 lbs., while 100 cubic feet of ours weighs 1,400 lbs. As the consumption of fuel is estimated by measurement, this is an advantage to us, from which we may derive

very great benefit; on the other hand, however, the residue of ashes from our charcoal is much greater.

Cutting and carrying the wood and burning it is now undertaken by Contractors at the following rates:—

	Rs. a. p.
Cutting and stacking wood per 100 cubic feet	0 6 3
Making 100 cubic feet charcoal ..	3 2 0

The carriage varies with the distance from Burwai. Charcoal brought from the extremity of our Works, 12 miles distant, cost Rupees 3-12-0 per 100 cubic feet for carriage, while from our nearest clearing it is brought for 15 annas: the mean rate therefore is Rupees 2-5-6. From these prices we arrive at the following estimate of the cost of 100 cubic feet of charcoal:—

	Rs. a. p.
285 cubic feet of wood, at 6 annas 3 pie per 100 cubic feet.....	1 1 9
Cost of making, 100 cubic feet of charcoal	3 2 0
Mean rate for carriage to the Works.	2 5 6
Cost of 100 cubic feet charcoal....	6 9 3

FLUX.

A Limestone is obtained within two miles from Burwai, and its cost at the Works is 1½ Rupees per ton uncalcined.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of an station are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners, particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

NOTICE is hereby given that a large Number of new "Lamps, Japanned, double Tin, Europe, hanging," and "Lamps, single Tin, Wall, Europe," with appurtenances, will be sold by Public Auction, on the 7th instant, at 2 o'clock forenoon, at the Barrack Stores in the Fort.

Senior Barrack Master, Presidency.

Notice.

Officers visiting the Neilgherries are, in numerous instances, at great inconvenience on first arrival, owing to their coming in expectation of finding it in their power to draw Pay, due to them in arrears, early in the month, as elsewhere. It is therefore thought that it may contribute to the convenience of future visitors if it be thus made more generally known that (there being no Pay Office on the Hills) Pay has to be drawn, after arrival on them, by transmitting Abstracts, duly countersigned, to the Paymaster Southern Division, Trichinopoly, with a last Pay Certificate; who, provided he receive them about the 7th, includes the amount in his General Order in arrears for the past month, on the Treasury at Coimbatore, whence it is sent so as to reach this Station Office for distribution usually on the 18th or 19th. There is only this one monthly transmission of Military Pay to the Hills; so that individuals arriving too late to be included in it, as above, have often to wait another month.

Officers of other Presidencies can only draw Pay under a Certificate from the Accountant Military Department of their Presidency. Certificates from Division Pay Offices of other Presidencies are insufficient: Officers are often at protracted inconvenience after arrival from having been unaware of this.

It is also notified, that it is extremely difficult to get Bills or Notes, of any kind whatever, cashed on the Hills: individuals often suffer great inconvenience from coming with the contrary impression.
