6. Registers of births and deaths shall be kept in the forms set forth in Schedule C and Schedule D, respectively.

7. When a birth or death has occurred during a journey,

or when the person giving notice of a birth or death was compelled by duty or urgent necessity or unavoidable accident, to leave the local area in which such birth or death occurred so soon after its occurrence that he was unable to give the prescribed notice to the Registrar for that local area,

any Registrar may receive notice of such birth or death, and register the same as if it were a birth or death which had occurred within the local area for which he has been appointed.

8. The provisions of Rule 4, as to the time within which notice of a birth or death must be given, shall apply to every notice of a birth or death given under the circumstances described in the last foregoing rule.

9. In every case of a birth or death admitted to registration under Rule 7, the Registrar to whom the notice of the birth or death is given shall record in his register the reason why the notice was not given to the Registrar of the local area within which the birth or death occurred, and shall within one week from the date of the registration of the birth or death forward to the Registrar-General, and to the Registrar of the local area within which the birth or death occurred, a copy of the entry in the register relating to the birth or death.

Every Registrar shall paste into a book kept by him for the purpose all copies of entries received by him under this rule, and the book containing the copies shall be, at all reasonable times, open to inspection by any person desiring to inspect it.

10. The Registrar for any local area including a port may register any birth or death which has occurred on the high seas on board any ship arriving at such port:

Provided that notice of the birth or death is given to such Registrar within sixty days after the arrival of the ship.

In the notice of such birth or death, and in the entry thereof in the register, there shall be specified, in lieu of the name of the place at which, the name of the ship on which the event occurred and the name of the Commander of the ship, and the approximate latitude and longitude of the ship's position at the time of the birth or death.

11. Every certificate of registration of a birth or death given by a Registrar under section 23 of the Act shall be in the form set forth in Schedule E.

12. At the foot of every copy of an entry given under section 9 or section 25 of the Act there shall be written a certificate, dated and subscribed by the Registrar-General or officer authorized under section 9, or by the Registrar, as the case may be, that the copy is a true copy of the entry.

Every Registrar-General shall keep a register in a similar form of all copies given by him of entries in the certified copies of the registers sent to his office.

14. The copies of entries of births and deaths which Registrars are required by section 24 of the Act to send to the Registrar-General, shall be certified in the form set forth in Schedule G and shall be sent at intervals of three months, on or as nearly as possible after the 1st January, April, July, and October in each year.

Should no entries be made in a register during the preceding three months, a certificate to this effect shall be sent to the Registrar-General.

15. The indexes which are required by section 7 of the Act to be made of the certified copies of registers of births, deaths, and marriages sent to the office of the Registrar-General shall be in the forms set forth in Schedule H, Schedule I, and Schedule J, respectively.

Every entry in an index shall be made alphabetically with reference to the initial letter of the name of the person indicated by the entry.

In the case of the person of European descent, the initial letter will be the first letter of the surname; and in the case of any other person, the first letter of his name, and not that of his rank, title, or class.

16. A Registrar may, of his own motion, correct, in manner prescribed in section 29 of the Act, any error in form made in an entry of a birth or death in a register of births or register of deaths kept by him under the Act.

In every case in which an entry is corrected under this rule, intimation thereof shall (if practicable) be communicated, within one week from the date of the correction being made, to the person who gave the notice of the birth or death.

17. When an error in substance in any entry of a birth or death in a register of births or register of deaths is asserted to have been made, the Registrar may correct the error, in manner prescribed in section 28 of the Act, on application made in writing, and signed in the presence of two witnesses attesting the signature, by any person authorised under section 20 or 21, as the case may be, to give notice of the birth or death to which the entry relates:

Provided that the Registrar is satisfied that the application is well founded.

An appeal against an order of a Registrar under this rule refusing to correct an asserted error in an entry in a register shall lie to the Registrar-General, who may, in his discretion, either confirm the order of the Registrar, or direct him to correct the error.

18. Without the special sanction in writing of the Registrar-General, an application for the correction of an entry in a register of births or register of deaths shall not be entertained after the expiration of one year from the date on which the notice of the birth or death was given.

19. The sums specified in Schedule K shall be the fees payable under the sections of the Act there referred to:

Provided that soldiers and non-commissioned officers of Her Majesty's Regular Forces, and all seamen, shall be exempted from the payment of any fees.

20. Every Registrar-General and Registrar shall keep a register, in the form set forth in Schedule L, of all fees realised under these rules, and shall forward the fees at the end of each month to the nearest treasury to be credited to Government. OBSERVATIONS.—By the orders contained in the Resolution of November 1881, cited in the preamble, the Government of India introduced the present system of classifying telegrams, by which, instead of being despatched simply in order of presentation at the Telegraph offices, they receive preference for despatch according as they are paid for as ‘urgent,’ ‘ordinary,’ and ‘deferred.’ At the same time, it was directed that all State messages should be sent as ‘deferred,’ unless specially marked as ‘urgent’ by the sender, and that no State message should be despatched as an ‘ordinary’ message. In July 1887, however, from statistics showing the number of State messages classed as ‘urgent’ and ‘deferred’ during the five years ending 1886-87, it appeared that the percentage classed as ‘deferred’ and ‘urgent’ was very much greater in the case of State than of private messages. As this pointed to the withdrawal of the

prohibition to send State messages as 'ordinary,' the opinions of the Local Governments and Administrations and of the Account Officers of Government were requested on the subject. They were asked to report whether they considered that the proposed change would lead to economy, and whether they could suggest any effective check on the abuse of the discretion now allowed to public officers of classifying State messages as 'urgent.'

2. The opinions called for have now been obtained and considered; and the attention of the Government of India has been particularly drawn to the fact that in many cases State messages are sent as 'urgent' merely to save the delay of a day which is presumed to result from sending them 'deferred.' Nothing is gained by sending such messages 'urgent' which would not be equally secured if they were permitted to be sent 'ordinary'; it has been consequently determined that the order which forbids the use of 'ordinary' State messages shall be repealed.

RESOLUTION.—In future, State messages may be classed as 'urgent,' 'ordinary,' or 'deferred,' at the discretion of the sender.

2. Without laying down any precise rules for the classification of telegrams, the following general principles are prescribed for the guidance of officers, who should also bear in mind the necessity for keeping the expenditure as low as possible:—

- (1) When it is not necessary that a reply (by post or wire) should be despatched within office hours of the same day, the message should be sent 'deferred.'
- (2) When it is considered essential that a reply should be sent the same day, the message should be sent 'ordinary.'
- (3) 'Urgent' messages should be used only—
 - (a) in cases of real emergency;
 - (b) in cases where the despatching officer knows that the line is for any reason blocked, and considers his message sufficiently important to take precedence of ordinary traffic.
- (4) Telegrams should, except when extreme precision is important, be expressed in as few words as are consistent with, clearly conveying the intended meaning; and mere auxiliary or connective words, which can obviously be filled in by the receiver, should be omitted.

3. As regards the check over expenditure, the Government of India, after consideration of the various opinions which have been expressed, does not consider it necessary to prescribe any further check than that of the ordinary controlling authority, who may at any time call upon a subordinate to justify any apparently large expenditure upon telegrams. The Government of India, however, invites the attention of Local Governments to the desirability of including telegraph charges within the contract system of contingencies as the best means of preventing extravagance and abuse of the discretion regarding classification conferred by these orders.

4. The orders contained in this Resolution will take effect from the 1st August 1888.

ORDERED.—Ordered, that copies of this Resolution be communicated to the Departments of
