FINANCIAL DEPARTMENT.

Bombay Castle, 10th October 1888.

No. 3073.—In accordance with Rule 8 of the Rules prescribed in the Notification by the Government of India in the Department of Finance and Commerce No. 2748, dated 17th August 1883, republished in the *Bombay Government Gazette* of the 23rd idem, Part I, under No. 3091, dated the 22nd idem, Financial Department, His Excellency the Governor in Council is pleased to publish the following application from the Municipal Commissioners of Ahmedabad for permission to raise a loan of Rs. 1,50,000 under the provisions of the Local Authorities Loan Act, 1879:—

"No. 561 of 1888.

Ahmedabad, 20th July 1888.

From

THE PRESIDENT, CHAIRMAN AND MEMBERS OF THE MANAGING COMMITTEE OF THE MUNICIPALITY,
AHMEDABAD;

To

THE SECRETARY TO GOVERNMENT, FINANCIAL DEPARTMENT, BOMBAY.

SIR,

At the Special General Meeting of the Municipality of Ahmedabad, held on the 30th of April 1888, it was resolved that the sullage water of houses within the city having no Khalkoovas should be removed by the Municipality in the following manner:—

- (a) An extra-mural drain should be constructed of such shape as the Collector may recommend in consultation with the Government Executive Engineer and Sanitary authorities.
- (b) A main drain should be constructed from Raipur Chuekka to Mudhâ Gate.
- (c) Some houses on the side of the drain should have connexions made with the drain.
- (d) Some of the sub-poles in Maudvini-pole should also have their sullage carried by small drains, which should discharge their contents near the opening of Dhâlni-pole.
- (e) Two centrifugal pumps with engines should be purchased for pumping the sullage water at Mudhâ Gate.
- (f) The sullage water of the rest of the town should be removed by means of pails, carts, and human labour.

2. It was resolved to borrow a sum of Rs. 1,50,000 for the purpose.

3. It is proposed to take this loan on the security of a tax to be levied for the purpose and sanctioned by the Government of Bombay in Resolution No. 1886, dated 1st June 1888.

4. The proceeds of this tax are calculated at Rs. 20,000. This, with the saving which will be made in the present expenditure on the removal of sullage, will exceed Rs. 22,000 a year, which is more than the working expenses of the drainage and pail systems, and the proposed instalment of the repayment of the loan, both of which together amount to Rs. 21,766. The laws under which the said funds will be levied, received and held, are Act VI of 1873 and Amendment Act II of 1884.

5. It is proposed to raise this loan on the same conditions as those under which the loan for a scheme of water-supply has been sanctioned, that is to say, the loan will be raised in the open market at five per cent. It will be repaid in 30 years. A sum of Rs. 9,835 will be set aside annually as an instalment and a part of the loan will be repaid at the end of every five years.

6. The yearly proceeds of each of the funds received by this Municipality are as shown in Appendix C. They aggregate to Rs. 2,36,679 exclusive of the special taxation proposed for the purpose of this work.

7. All expenditure incurred by this Municipality in each of the three last preceding years is shown in Appendix D.

8. Besides ordinary expenditure this Municipality has at present liabilities of Rs. 92,500. It is, however, intended soon to pay this off, raising a loan for water works under Government Resolution No. 1449 of 14th May 1888; the annual instalment for the repayment of which will be Rs. 26,000, to be paid from the current revenue of the Municipality.

9. As it is necessary to provide some kind of drainage before the water-supply scheme can be fully brought into force, and as it will be economical to have both the schemes in view when the levels of the city are finally examined, we beg that the sanction to raise this loan may be obtained as early as possible. It is contemplated to have ready by the end of the current monsoons every thing necessary for the commencement of the execution of both these schemes.

We beg to remain,

Sir,

Your most obedient Servants,

(Signed) ABAJI V. KATHAVATE,

President.

(Signed) MAHIPATRAM RUPRAM,

Chairman, and four others.

RESOLUTION.—The Governor in Council is pleased to notify that, whereas the appointment of Secretary to Government in the Public Works Department has hitherto been held by the senior Chief Engineer on the Establishment, it has now been decided, with the sanction of the Government of India, that the appointments shall in future be separate, and that the Chief Engineers and professional advisers of Government shall be relieved, as far as possible, of purely administrative (non-professional) duties, and kept in direct touch with the Engineering operations of the Divisions to which they severally belong.

2. In all matters of professional detail, the Chief and Superintending Engineers will be the advisers of Government for matters within their respective Divisions, and their advice and opinion on such matters will not be liable to be criticised or over-ruled by the departmental Secretary, who will ordinarily be their junior.

3. Selection for the post of Secretary will be made from the Engineering Establishment list, with special reference to administrative qualifications.

4. There will, in addition, be a Joint (or Under) Secretary, appointed by selection in the same manner, and it will be arranged that either the Secretary or Joint (or Under) Secretary shall be experienced in questions of Irrigation administration.

5. There will be four Officers in charge of Divisions, two of whom will be graded as Chief Engineers and two as Superintending Engineers. Subject to such orders as Government may be pleased to issue in any particular case, each will be in independent professional charge of his Division and exercise the powers of a Chief Engineer, as described in the Public Works Code, Chapter III., paras. 1—23. Thus, under para. 1, the two Superintending Engineers will exercise in their own Divisions the powers of a Chief Engineer, and, under para. 22, the Chief Engineers will perform the duties of Superintending as well as Chief Engineers.

6. The following is a summary of the powers which will thus be exercised (but, as regards expenditure, only within the limits of the Budget grants concerned) by each of the four Officers in charge of Divisions:—

(a). General Control—

To exercise general control over the Engineering operations of the Division to which he belongs, and a concurrent control, with the Examiner of Public Works Accounts, over the duties of the Officers of the Department in connection with the accounts of expenditure.

(b). Designs and Estimates—

To deal finally with the details of designs and estimates of all projects.

(c). Emergent Works or Repairs—

To sanction the commencement of any urgently required work to the extent of Rs. 2,500, reporting the fact forthwith to Government.

(d). Contracts—

To accept any tender for the execution of work by contract within the limits of the amount of the sanctioned estimate, provided that the sum in each case does not exceed Rs. 20,000.

(e). Subsidiary Works for large Projects—

To sanction all subsidiary works and operations connected with large projects other than Productive Public Works, the cost of which is covered by lump sum sanctions to the extent of Rs. 500 for each work.

(f). Alterations of Design—

To sanction necessary alterations in the constructive details of works during their execution, provided that no increase of charge to the amount of more than 5 per cent. above the estimate, shall be caused by such alterations.

(g). To suspend the commencement or progress of any work, pending orders of Government.

REPAIRS.

- (h). To sanction estimates for current and special repairs within the limits assigned for their Divisions in the Budget-Estimates under each head of Service.
- (i). To sanction emergent repairs to Irrigation or other works to any reasonable and necessary amount, in case of imminent danger to the structure.
- (j). To appropriate from the lump sum grant for repairs placed at their disposal to such repairs as they may think fit to sanction.
- (k). To fix the rent to be recovered for occupation of public buildings.

ESTABLISHMENT.

(l). *Appointments*—

To appoint to sanctioned posts, or within sanctioned limits, Lower Subordinates (if authorised to do so) and office and petty Establishments, and in the case of temporary Establishments, Upper Subordinates.

- (m). To grant leave of any kind, subject to the Civil Leave Code, to officers whom they are empowered to appoint, and privilege leave to any other officer, if specially empowered to do so.

(n). *Transfers*—

To transfer and post within their Divisions, Assistant Engineers and members of the Subordinate Establishments.

(o). *Punishments*—
