## “ STORES.

No. 4941—4988-102, dated Simla, the 14th July 1909.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

In their Resolution No. 1243—1252,\* dated the 19th February 1906, the Government of India appointed a Committee to enquire into the procedure prescribed for the purchase of stores for the use of Government Departments in India. The Committee were directed to ascertain, and to report on, the defects in the practice now adopted, more especially with reference to the question of facilitating purchases and of affording greater encouragement to local industries, and they were instructed to formulate a set of rules with the object of effecting improvement in the existing system. Certain definite questions were also referred to them for specific enquiry. The Committee visited the important manufacturing centres and obtained the views of representative Indian firms, and they presented their report in July 1906. A large amount of useful information was brought together in their report and the detailed treatment of the subject enabled the Government of India to arrive at conclusions of a definite character. It has been decided that the Committee's Report should not be published. But a summary of their conclusions is given in the following paragraphs.

2. The procedure hitherto adopted in the large consuming Departments conforms to Standing Order No. 85, dated the 12th July 1901 (Appendix 30 to Volume III of the Public Works Department Code), which contains the executive instructions prescribed for the practical guidance of officers of the Public Works Department and of State Railways, and which, in substance, is reproduced in paragraphs 13 and 13A of Army Regulations, India, Volume III. This procedure is, in the Committee's opinion, defective in certain respects. Dealing first with the case of articles of local origin and manufacture, the Committee have pointed out that there is no indication in these instructions of the declared policy of Government in favour of the purchase of such articles; that the rules applicable to such purchases are cast in a permissive form and do not require that preference should be given to locally produced stores; that practical difficulties are experienced in giving effect to the rules which require a comparison to be made in respect of price and quality between the locally manufactured article and that obtained from England; and that a further difficulty is felt in regard to the interpretation which should be placed on the condition that an article manufactured in India from imported materials must not have been imported into India in a 'finished or partly finished state.' The result of these defects has been that in practice the policy of the Government has not been carried into complete effect: and the Committee in reviewing the indents of the more important of the consuming Departments found that orders to the value of £167,319 were sent home in the year 1904-1905 for articles which could probably have been obtained of local manufacture. The resources of Indian manufacturers as a whole are, in the Committee's opinion, not being taxed to the full: in the case of the engineering trades in particular, the larger firms at Calcutta and Bombay are more dependent on orders from local bodies, railways other than State, and general private enterprise than on Government support. The Committee satisfied themselves that Indian manufacturers are both able and willing to undertake a much larger volume of work than at present is entrusted to them by Government Departments: and they quoted as evidence the ready enterprise with which Calcutta Engineering firms have adapted their shops to meet the orders placed in India for rolling stock.

3. As regards the procedure which regulates the supply of European stores, the Committee found on the evidence before them that, as a consequence of the difficulty of framing accurate forecasts, the indent system is not invariably productive of economy, that the general tendency is towards over-estimating, and that this tendency is aggravated by the discouragement of supplementary indents and by the criticisms to which an officer is exposed in attempting to correct an under-estimate by local purchases. Specific instances were also quoted by the Committee in which direct financial loss had resulted from delay and from defective methods in the supply of articles obtained on indent. On the other hand, the enquiries which the Committee made into the quality and price of imported stores purchased locally by Government Departments from Indian firms, satisfied them that, in spite of the necessarily scattered and spasmodic character of such purchases, Indian firms had on the whole been able to supply a sufficiently good article at a price which over a number of cases compared not unfavourably with that paid by the India Office.

4. To meet the defects disclosed by their examination of the present system, the Committee formulated certain proposals, the most important of which may be briefly summarised as follows. They were of opinion that the rules prescribed for the guidance of officers of the consuming Departments should contain a clear and unmistakable indication of the desire of Government that, where articles of European and articles of Indian manufacture do not differ materially in respect of

\* Republished in the *Bombay Government Gazette* dated the 1st March 1906.

quality and price, preference should be given to the latter. They also suggested a modification of the terms of the present rules applicable to the purchase of articles made up in India from imported materials. To meet the difficulties experienced in comparing prices, the Committee proposed as a means of testing rates offered by English and Indian firms, that simultaneous tenders for delivery in India should be invited in England and in India in the case of standardised articles of which specifications are available at the India Office and in India. In the case of articles not so standardised, they proposed that a comparison should be made with the cost, as shewn in Rate Lists, of the imported article delivered in India. They suggested that the form and scope of the existing Rate Lists, which only include stores procured from England for the use of State Railways, should be amplified and extended to cover the transactions of all consuming Departments; that the proposed lists should be issued with promptitude every quarter and that their compilation should be entrusted to a special agency; that full and detailed information should be given therein as to the freight, insurance and landing charges paid on each article procured through the Store Department, and that account should be taken in determining home prices, of charges representing the incidence of customs duty and of the cost of maintenance of the Store Department. Finally, in cases where the article required is not included in the current quarterly Rate Lists, or in those of the three preceding quarters, they proposed that the officer authorising the purchase should satisfy himself to the best of his ability that the price of the locally manufactured article is not unfavourable.

5. As regards the purchase in India of articles of European manufacture, the Committee suggested considerable modifications of the present procedure in the direction of facilitating the purchase of such articles. In particular the Committee were strongly of opinion that the rules should permit of the supply by large contractors of English stores required in the structure of works let out on contract. A draft set of rules to give effect to their proposals was submitted with the Committee's Report.

6. On the minor points referred to them for enquiry, while the Committee agreed, and, as already stated, included among their recommendations a proposal, that officers should be required in certain cases to give preference to locally manufactured articles, they did not advocate the introduction of any special measure to enforce the exclusion from indents of demands for articles which can be obtained of local manufacture. They considered the organization of a special inspecting staff to be necessary; they made proposals to secure the dissemination among all Departments of information regarding the resources of Indian firms and manufacturers, and they deprecated the creation of Store depôts, except on a very limited scale for the stocking of inconsiderable supplies of standard stores intended for immediate and local use.

7. These recommendations received the careful consideration of the Government of India and have formed the subject of correspondence with the Secretary of State. As regards the adoption of special measures to enforce compliance with the rules prescribing the purchase of locally manufactured articles, the Government of India decided that a check should be applied in regard to indents, with a view to securing that no article should be indented for from the Store Department when a similar indigenous article could be obtained of a satisfactory quality and at a reasonable price. They directed that the Director-General of Commercial Intelligence should undertake the compilation of quarterly Rate Lists on the lines proposed, and that that officer should also be entrusted with the duty of placing the consuming Departments in possession of information as to the resources of Indian manufacturers and as to the possibility of obtaining from them an indigenous article in substitution for an imported article.

8. The Secretary of State agrees that the existing rules and procedure regarding the purchase of stores may with advantage be modified, so as to give greater encouragement to the purchase in India of articles which are either produced or manufactured locally. As regards imported articles he also agrees that an addition should be made to the rules, so as to authorise the local purchase of such articles when their value is inconsiderable. Subject to certain conditions, he has also accepted the proposal that in the case of important construction works let out to Indian firms of approved standing, the supply of English stores required for the construction may be included in the contract. The rules as finally settled by him are appended to this resolution.

9. At the same time the Secretary of State desires that it should be made clear that these rules are adopted purely as an experimental measure, and that they will be revised should it be found that they result in a deterioration of quality or an increase in the cost of stores supplied to Government. In order to secure additional safeguards, the Secretary of State desires to be furnished with periodical reports showing whether articles purchased in India as being of equal quality with articles procurable in England at the same price are found by experience to be so. As the comparison of prices required by the rules will be attended with some difficulty, and in order to provide additional supervision, he has also decided that lists of purchases in India of articles not included in the Rate Lists are to be sent to him at the end of each financial year, in order that he may have the opportunity of noticing any cases in which it might appear that excessive prices have been paid.

10. The Secretary of State has also sanctioned the proposal of the Committee as to the establishment of an inspecting staff for the purpose of testing and passing supplies purchased in India. Details of a scheme to give effect to this decision are now being worked out for submission to the Secretary of State.

11. The Governor General in Council is now pleased to direct that the rules appended to this resolution shall be observed in supersession of all existing orders regarding the purchase of stores required for the use of Government Departments. He desires to impress on all concerned that the policy of Government is to encourage the purchase of articles locally manufactured or produced, and the first two of the rules now drawn up accordingly prescribe that preference shall be given to such articles when the quality is satisfactory and the price not unfavourable. To secure that full effect shall be given to this policy, the Government of India direct that indents should be carefully scrutinised by the sanctioning authority, with a view to judging whether articles are not being indented for from Europe which could equally economically and satisfactorily be obtained from local manufacturers. Indenting officers should also be required to explain in their indents their reasons for including in the demand on the India Office any article which is available of Indian manufacture. Finally, the Government of India desire that copies of all indents should be submitted to them after despatch in order that the operation and effect of these orders may be watched, and a check applied to secure the exclusion from indents of requisitions for articles which Indian manufacturers can supply. Separate orders will issue subsequently in respect of the date on which indents should be submitted to the Government for this purpose.

12. Substantial modifications have been introduced in the rules applicable to the local purchases of European stores. Under Rule 3 (a) officers will now be permitted to purchase without restriction English stores of small value which are in India at the time of order within the money limits prescribed by Rule 13. Under Rule 5 purchases of English stores may also be made within the limits prescribed by Rule 13, not only in cases where the demand is so urgent that a supply by indent would cause delay and inconvenience, but also in cases where economy can be effected by the greater promptitude afforded by purchase in India. Rule 3 (b) lays down the conditions to which is subject the concession referred to in paragraph 8 above, as to the supply of English stores required in the structure of important construction works. The Government of India will await from Local Governments, to whom all applications should be made in the first instance, proposals as to the firms which should be admitted to this concession.

13. The compilation of Rate Lists is, as has already been stated, now being undertaken by the Director-General of Commercial Intelligence, and it is anticipated that these Lists, in their revised and amplified form, will shortly be ready for issue. The Director-General of Commercial Intelligence will, when the first issue of these Rate Lists has been compiled, ascertain from Local Governments and Administrations and from each Department the number of copies of these lists required, and will arrange for the supply of these as well as of copies of subsequent issues. In accordance with the wishes of the Secretary of State, as explained in paragraph 9 above, lists showing the prices at which purchases were made of articles not included in these Rate Lists during the preceding financial year, should be submitted to the Government of India by the 31st August in each year, for transmission to the India Office. Separate orders will issue subsequently after experience has been gained of the working of the new rules, in regard to the submission of reports as to the quality of articles purchased in India.

14. The rules appended to this resolution do not apply to the transactions of Port Trusts, Municipalities, Cantonments and other Local Funds not included in the general accounts and estimates of the Empire, unless they should at any time be expending Government revenues on behalf of Government, or unless the Government should in any special case, in which it may advance to them funds for particular works, think proper to make a condition to this effect. The arrangements for the supply of stores to Port Trusts and other similar bodies will always be subject to any control that may be provided by the local law.

ORDER—Ordered, that this resolution be communicated to all Departments of the Government of India, to all Local Governments and Administrations, to all Accountants General and Comptrollers (including the Comptroller and Auditor General), to all Heads of Departments subordinate to this Department, to the Examiner of Telegraph Accounts and to the Private and Military Secretaries to His Excellency the Viceroy.

Ordered, also, that the resolution be published in the *Gazette of India* for general information.

(Signed) B. ROBERTSON,  
Secretary to the Government of India.

#### RULES FOR THE SUPPLY OF ARTICLES FOR THE PUBLIC SERVICE.

Subject to the provisions of the rules specified below, and to any instructions regarding specific articles which have been, or may be, issued by the Government of India from time to time (e. g., those relating to the supply of stationery), the following are the rules relating to the supply of articles required for the public service:—

##### RULE 1.—*Articles manufactured in India from Indian materials.*

All articles which are produced in India in the form of raw material, or are manufactured in India from materials produced in India, should, by preference, be purchased locally, provided that the quality is sufficiently good for the purpose and the price not unfavourable.

RULE 2.—*Articles manufactured in India from imported materials.*

All articles manufactured in India from imported materials should, by preference, be purchased in India, subject, however, to the following conditions :—

- (a) That a substantial part of the process of manufacture of the articles purchased has been performed in India.
- (b) That the price is as low as that at which articles of similar quality can be obtained through the India Office.
- (c) That the materials employed are subjected to such inspection and tests as may be prescribed by the Government of India.

RULE 3.—*Articles which are not manufactured in India.*

Articles which are not manufactured in India should be obtained by indent upon the Store Department of the India Office, except in the following cases :—

- (a) When the articles are already in India at the time of order and the cost of the supply does not exceed the limits prescribed in Rule 13.
- (b) In the case of important construction works let out on contract, articles not manufactured in India required for the construction of such works may be supplied by the contracting firm, subject to the following conditions :—
  - (i) That the firm is approved by the Government of India and is included in the list of firms so approved.
  - (ii) That the materials are subject to the current specifications and tests prescribed by the Government of India.

RULE 4.—*Particular articles which may be purchased in India.*

The following articles, whether manufactured or produced in India or not, may be purchased in India :—

- (a) Those of a perishable nature.
- (b) Explosives.
- (c) Block tin.
- (d) Wines and Spirits and English-bottled beer for Army Hospitals in India.
- (e) Kerosine oil.
- (f) Plant and materials for electric installations.
- (g) Australian timber.
- (h) Australian copper.
- (i) Italian marble.
- (j) Such other classes of articles as may from time to time be prescribed by the Government of India with the approval of the Secretary of State in Council.

RULE 5.—*Special purchases in India.*

When serious inconvenience to the public service would be caused by waiting to obtain an article from England, or when, owing to the greater promptitude of supply, an economy can be effected by purchasing in India articles which under the foregoing rules should be obtained through the Store Department, the purchase may be made in India, subject to Rule 13; but in such cases, if the value of the articles exceed Rs. 50, the sanctioning officer should place on record the reasons which make the local purchase desirable. This record shall be available for the inspection of the Examiner of Accounts or the supervising officer when required.

RULE 6.—*Inter-departmental purchases.*

Nothing in these rules is to be deemed to prohibit the purchase of stores of European manufacture by one Department or Railway from another.

RULE 7.—*Method of obtaining Stores not purchased in India.*

All articles which under the foregoing rules are not to be bought in India should be obtained by indent on the Store Department of the India Office, except any which the Secretary of State may have specially authorised the Government of India or its officers to purchase direct outside India. Such purchase is at present permissible in the case of the following articles :—

- (i) Seeds.
- (ii) Cinchona bark.
- (iii) Articles for experimental or research purposes required by officers approved by the Government of India from time to time. A list of the officers thus approved is given in Appendix A.

- (iv) Excise instruments and apparatus required by Provincial Excise Departments for experimental or research purposes:
- (v) China, glass, cutlery, plate and crockery for the residences of Heads of Provinces.
- (vi) Australian timber.

NOTE.—Payments for stores purchased under this rule should be made direct to the suppliers by the purchasing officers.

**RULE 8.—Forecast of Requirements.**

Every effort should be made to foresee requirements so that there may be ample time to send forward indents for such articles as should under the rules be obtained from the India Office. Persistent failure of any officer to make such efforts should be brought to notice by the Local Government or other authority, which may, at its discretion, cancel or reduce the powers of sanction entrusted to the officer at fault.

**RULE 9.—Time required to obtain Stores from England.**

It may be assumed that the time required from the transmission of an indent upon the Secretary of State to the receipt of the stores is:—

Urgent telegraphic indents, not less than three months.

Ordinary indents, six to ten months, according to the article demanded.

For special stores, e.g., large girders, rolling-stock, etc., up to one year in ordinary times.

**RULE 10.—Method of comparing Prices.**

In all cases in which the selection of source of supply depends upon comparison of prices, the procedure to be adopted for such a comparison is as follows:—

- (i) A reference should be made to Home prices as shown in the Rate Lists, and freight should be added at the latest rates paid by the India Office, together with 1s. 3d. per 100l. for insurance, and 3d. per ton for freight brokerage.
- (ii) In cases of important contracts, the prices ruling in the English market should be ascertained by a telegraphic reference to the Director-General of Stores.
- (iii) In cases where the necessary information as to Home prices is not available from the Rate Lists, the purchase in India shall be subject to the condition that the price is not unfavourable.
- (iv) In order to arrive at the market value at an Indian port of an article imported from England, the following charges shall be included:—
- (a) Landing, wharfage, and port charges as shewn in the Rate Lists.
- (b) Customs duty, as shown in the Tariff to be applicable to the article in question, to be calculated on its cost plus the additional charges mentioned in the earlier part of this rule.
- (v) The cost of carriage to site from port or place of manufacture, as the case may be, shall be taken into account.

**RULE 11.—Tests.**

Any articles purchased in India which should be tested are liable to the specifications laid down from time to time by competent authority, with the approval of the Secretary of State in Council, and should be required to pass the tests prescribed for such articles.

**RULE 12.—Firms from which iron and steel may be bought in India.**

Important iron and steel work, if purchased in India, should only be obtained from firms approved by the Local Government or Administration and entered in a Schedule as corrected from time to time by the Government of India. A list of approved firms is given in Appendix B.

**RULE 13.—Financial limits on powers of officers to make purchases in India.**

In the case of purchases made under Rules 1, 2 and 4, an officer's powers of purchase extend to the ordinary limits to which he is empowered to enter into contracts. No. 2783.—The following Resolution by the Government of India is republished:—

“FINANCE DEPARTMENT.

ACCOUNTS AND FINANCE.

No. 3581-F. O. & A., dated Simla, the 15th July 1905.

RESOLUTION—By the Government of India, Finance Department.

The Government of India have had under consideration the examinations now held for admission to the Enrolled List of the Civil Accounts Department and the Superior Accounts Branch of the Public Works Department.

2. Under the rules published in paragraphs 2 and 3 of the Resolution of the Public Works Department, No. 139-A. E.,\* dated the 17th June 1899, the subjects for examination for the Public Works Accounts Branch are those prescribed for entrance to the Engineering class of the Rurki College, but this examination has proved not altogether suitable for the Accounts Branch, and has failed to attract a sufficient number of thoroughly qualified candidates.

It has been decided, therefore, to substitute the syllabus of the examination for entrance to the Enrolled List of the Civil Accounts Department, and to maintain a register of candidates under the immediate supervision of the Government of India.

-3. As the conditions for employment in the two services will thus be similar, the Government of India consider it unnecessary to hold separate examinations hereafter for the Enrolled List and for the Superior Accounts Branch of the Public Works. It has therefore been decided to institute a combined examination for the two services, and the following rules for its regulation are published for general information. They will come into force with effect from the date of publication, and will entirely supersede all rules† previously applicable to either of the separate examinations.

\* Resolution of the Government of India, No. 1624 G.I., † dated 10th April 1899, and paragraphs 2 and 3 of Resolution No. 139-A. E.,\* dated the 17th June 1899 (Public Works).

**Rules for the examination of candidates for the Enrolled List of the Civil Accounts Department and for the Superior Accounts Branch of the Public Works Department.**

I.—A register of candidates will be kept from which not less than three candidates for each vacancy will be nominated by the Government of India from time to time as vacancies are expected. Only candidates so nominated will be entitled to compete.

II.—Applications by persons desirous of having their names entered in the above register should be made by them in their own handwriting to the Secretary to the Government of India in the Finance Department, and should be accompanied by proof that the applicant is a native of India within the meaning of the Statute 33 Vict., Chapter 3, section 6,§ by certificates of character and of educational qualifications, by a statement of age, and by information regarding any services that may have been rendered to the State by his parents and family.

§“The words ‘Native of India’ shall include any person born and domiciled within the dominions of Her Majesty in India of parents habitually resident in India and not established there for temporary purposes only.”

Note.—Copies of all certificates should be sent for record, along with the originals which will be returned.

III.—Applications on behalf of persons who wish to be candidates may also be made by Local Governments and by Directors of Public Instruction in consultation with the heads of the principal Colleges in the various provinces. Such applications should contain information of the same character as prescribed by rule II.

\* Republished at pages 1042—1044 of Part I of the *Bombay Government Gazette* dated 6th July 1899.

† Republished at pages 525-526 of Part I of the *Bombay Government Gazette* dated 27th April 1899.

IV.—The names of persons not possessed of high educational qualifications will not be registered. Clear and distinct handwriting and a business familiarity with the English language are indispensable.

V.—All applications whether by or for candidates should name the Department in which the applicant desires to serve. If a candidate is equally willing to accept employment in either Department, this should be clearly stated.

VI.—The Government of India reserve an absolute discretion not only in regard to the selection of persons to be entered on the register of candidates, but also as to the nomination of candidates to compete at the examination. It must be clearly understood that registration of a candidate's name does not in any way imply that he will be nominated for admission to examination. Candidates will be informed, at the time of nomination, whether they have been held eligible for both, or for one only of the two Departments.

VII.—The name of a registered candidate will be struck off the register when he has reached the age of 25, or has failed in two examinations.

VIII.—A candidate nominated for admission to one examination will not be admitted to a later examination unless again nominated.

IX.—The age of a candidate, when examined, must not exceed twenty-five years. A nominated candidate before appearing at the examination must produce a certificate in the annexed form by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil Station.

#### CERTIFICATE.

I do hereby certify that I have examined A. B., a candidate for employment in the Superior Accounts Branch of the Public Works Department of the Government of India, and that I cannot discover that he has any disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for the public service in any part of India.

Enrolled List of the Finance Department

X.—Such candidate must also, before appearing for examination, produce a certificate of age from the officer in charge of the district in which his family reside, or, if they reside in a Presidency Town or a Native State, from the Presidency Magistrate or Political Agent, respectively. To obtain this certificate the date and place of the candidate's birth must be proved before the District Officer, Presidency Magistrate or Political Agent, as the case may be, by documentary evidence, supplemented, where this is not conclusive proof, by statements of relatives and others on oath or solemn affirmation.

XI.—Nominated candidates will be examined in the subjects described in the Schedule attached to this Resolution. No candidate will be admitted to either Department who fails to show a competent knowledge of the compulsory subjects, and the Government reserve the right of declining to make any appointment when no candidate reaches a high standard of proficiency.

XII.—The examination will be mainly by written questions and answers. There will be a *viva voce* test in the last two groups of the compulsory subjects mentioned in the Schedule attached to this Resolution. The questions will be prepared, and the examination conducted, in such manner as the Governor General in Council from time to time directs.

XIII.—Some months before an examination is to be held, its date and place, and the conditions of examination, will be notified in the *Gazette of India*, and the number of vacancies in each Department open to competition will at the same time be stated.

XIV.—Subject to the above conditions, candidates for each Department will be appointed to the posts thrown open to competition according to their order of merit at the examination, and the Departments for which they have been nominated. Where a candidate has been permitted to appear for both the Enrolled List and the Public Works Accounts Branch, and his position in the examination would entitle him to a post in either Department, he will be allowed a choice as between the two.

---

ORDERED that the Resolution be forwarded to the Departments of the Government of India, to the several Local Governments and Administrations with the request that it may be communicated to Directors of Public Instruction and all heads of Colleges and Schools in their respective Provinces, to the Comptroller and Auditor General, to all Accountants General and Comptrollers and to the Accountant General, Public Works Department.
