RESOLUTION.—In the Financial Statement of the current year, it was announced that the sum of £1,500,000, to be provided annually as an insurance against famine, instead of being considered, as heretofore, to be a surplus receipt for subsequent appropriation, would be treated as a fixed portion of the normal expenditure of each year. At the same time, the Government of India reaffirmed its applicability to the extinction of debt, the relief of famine or the construction of protective works, not necessarily remunerative, but obviously protective in the sense of guarding against a probable future outlay in the relief of the population, and declared their intention to nominate a 'Commission for the reduction of debt,' with a view to the more effectual execution of the famine insurance policy. It was also pointed out that the amount to be provided as an insurance against famine was only so far dependent upon the receipts from the License Tax and the Public Works cesses that those receipts go to swell the general revenue and by so much facilitate the execution of the policy under discussion, that the policy of the Government was to apply annually a specified sum from the general revenue in order to provide an insurance against famine, that there was no special connection between the amount so provided and the amount received from the License Tax or the Public Works cesses, and that those taxes had never yielded so large a sum as £1,500,000 in any one year.

2. In pursuance of the policy thus briefly

31. *Famine Relief and Insurance.*

1. Relief.

2. Protective Works.

3. Reduction of Debt.

explained, it has been decided, that the heading in the Budget and the Public Accounts shall be amended and divided into three sub-heads, as shown

in the margin. The first sub-head will comprise all actual relief; the other two will represent Famine Insurance under the two forms in which it is provided. The relief of actual famine will be a first charge upon the whole million and a half annually provided as expenditure; protective works will be the next charge, but only to the extent of three-quarters of a million, or such portion of that sum (if any) as may remain after all necessary relief of actual famine has been afforded; to reduction of debt the remaining three-quarters of a million will be assigned, except so far as all or any portion of it may be needed for relief of actual famine. In the event of any portion of the allotment for Protective Public Works not being actually expended in the course of the year, it will be carried forward for expenditure in the year following, in addition to any fresh allotment appertaining to the latter.

3. With reference to the disposal of the amount thus appropriated to the reduction of debt, His Excellency the Governor General in Council has little to add to the information which has already been afforded to the public in paragraphs 59 to 66 of the Financial Statement for the current year, and on previous occasions. Whether the sum available shall be appropriated to the actual discharge of existing rupee debt or sterling debt, or whether it shall be temporarily invested in Government securities, or whether it shall be re-transferred from the Commissioners to the Government treasury with a view to the avoidance *pro tanto* of new debt which might otherwise be incurred for the construction of Productive Public Works, is a question which must be considered and determined from year to year, in view of the condition of the money market in India and England, and other circumstances. It may, however, be explained that Her Majesty's Government is precluded by the provision of the 41st clause of the Act 21 and 22 Vic., cap. 106, that 'the expenditure of the revenues of India, both in India and elsewhere, shall be subject to the control of the Secretary of State in Council,' from entrusting the final decision of this important question to any independent authority.

4. The 'Commission for the reduction of debt' will consist of three members, namely, one high Government official, holding the post *ex-officio*, together with one European and one Native member of the non-official community. They will be appointed from time to time by His Excellency the Governor General in Council, and the non-official members will ordinarily hold office for a term of two years. Although His Excellency in Council is unable, for the reason above stated, to invest the Commission with independent authority, he trusts that it will be able to perform consultative and auditing functions of high value to both the State and the public.

5. His Excellency the Governor General in Council is pleased to prescribe the following rules with reference to the Famine Insurance appropriation for the reduction of debt:—

1st.—On a certain date in every official year, not earlier than the 15th February, or later than the 31st of March or any subsequent date previous to which it may not have been possible, owing to expenditure on actual famine, to ascertain the actual state of the

account, the Government of India shall, by a Resolution to be published in the *Gazette of India*, make known to the public the manner in which the famine allotment of one million and a half has been, or is being, appropriated during the year, under the general policy above explained.

2nd.—On the receipt of such Resolution, the Comptroller General shall forthwith transfer to a separate deposit head in the public accounts, called the 'Account of the Commission for the reduction of debt,' the amount, if any, set forth in the Resolution as available for the reduction of debt.

3rd.—The Commissioners for the reduction of debt shall, on the receipt of the said Resolution, or as soon after as may be, submit to the Government of India their recommendations for the disposal of any amount so available.

4th.—The Government of India shall, after full consultation with the Commission, issue to the Comptroller General such instructions for the disposal of the amount in the reduction of debt as it may deem fit.

5th.—The Comptroller General shall thereupon, without any avoidable delay, carry such instructions into effect, and lay before the Commission whatever evidence, in the form of cancelled obligations of the Government of India or otherwise, they may require for the purpose of satisfying themselves that the amount has been disposed of in the manner prescribed. On being so satisfied, the Commission shall give to the Comptroller General an authority in writing for charging the amount disposed of to their account, constituted under Rule 2nd.

6th.—The Commission shall, as soon after the close of each official year as it may be in a position to do so, certify to the public, by a notification to be published in the *Gazette of India*, the manner in which the whole Famine allotment of one million and a half for that year has been disposed of.

7th.—The Commission shall be entitled to free access to the recorded correspondence, and the accounts of the Government of India, so far as the same may be necessary, for the purpose of enabling it duly to perform the functions hereby assigned to it.

8th.—The Commission may submit for the consideration of the Government of India any remarks or suggestions on matters within the scope of its duties, which it may deem expedient, and the Government of India may similarly consult the Commission on such matters, at any time other than that specified in Rule 3rd. All recommendations of the Commission shall be fully considered by the Government of India, and the reasons for not in any instance carrying any such recommendations into effect shall be communicated to the Commission.

9th.—All business in connection with the Commission will be conducted by the Government of India in the Department of Finance and Commerce.

6. His Excellency the Governor General in Council is pleased to nominate the following

gentlemen to be members of the Commission for the reduction of debt :—

The Head Commissioner of Paper Currency  
(*ex-officio*).

Mr. J. J. J. Keswick.

The Honourable Durga Churn Law.

The action of the Commission under the 3rd and 4th Rules has for the current year been unavoidably anticipated by the Notifications in the Department of Finance quoted in the margin,

under which about Rs. 84,00,000 of the Indian 5 and 4 per cent. rupee debt will be discharged by an appropriation of the Famine allotment; but in other respects the Rules will be fully brought into effect from this date.

ORDERED, that this Resolution be communicated to the Comptroller General and Head Commissioner of Paper Currency, to Mr. J. J. J. Keswick, to the Honourable Durga Churn Law, to the Revenue and Agriculture and the Public Works Departments and to the several Local Governments and Administrations, for information, and that it be published in the *Gazette of India* and the several local official Gazettes.

(Signed) T. C. HOPE,  
Secretary to the Government of India."

By order of His Excellency the Right  
Honourable the Governor in Council,  
J. NUGENT,  
Acting Secretary to Government.
