No. 652.

" Letter from the Secretary of State for India, No. 39, dated 30th September 1865.

SIR,—I forward herewith, copy of a letter from the Board of Trade, on the subject of the prevention and check of Sea-Scurvy, together with 250 copies of a printed Notice to ship owners and ship masters on the subject, which it is considered expedient to distribute at the Ports in India frequented by British ships.

2. You will be pleased to cause the Notice to be distributed as widely as possible throughout the Ports of your Presidency accordingly.

I have, &c.

(Signed) C. WOOD."

No. 2856.

" TO THE UNDER-SECRETARY OF STATE FOR INDIA,

INDIA OFFICE.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade, to transmit to you the enclosed printed copy of a Notice to ship masters and owners, on the subject of Sea Scurvy. Several cases of outbreak of Scurvy on board ship have recently been reported, and have been inquired into by Inspectors specially appointed by this Department for the purpose. The results of the inquiries will shortly be made public in a Parliamentary Paper.

My Lords have reason to believe that attention to the several suggestions of the Seamen's Hospital Society embodied in the enclosed Notice would tend not only to diminish the number of cases of scurvy, but also insure the general health of the crews of ships, and they have taken steps for the publication and distribution of the Notice as widely as possible in this country.

As it is on long voyages, such as to or from India, that there is most risk of scurvy breaking out, my Lords think that advantage might attend the publication of the Notice at the Ports in India frequented by British ships. My Lords will cause copies (say 1,000) of the Notice to be printed for transmission to India, if they receive an intimation that Sir Charles Wood is willing to give the necessary directions for the purpose.

I have, &c.,

(Signed) W. D. FANE."

RESOLUTION.—The Notice will be published in the *Government Gazette*.

Bombay Castle, 4th November 1865.

J. A. M. MACDONALD, Major,
Deputy Secretary to Government.

NOTICE TO SHIP OWNERS AND SHIP MASTERS.

Sea-Scurvy.

THE result of the inquiries recently instituted by the Board of Trade in several cases of outbreak of Scurvy in Merchant Ships, in some even where it is manifest that the Owners have had every desire to provide for the health of the crew, leads this Board to believe that the publication of the following means, suggested by the Seamen's Hospital Society, for the prevention and check of this malady, may be attended with advantage:—

The cause of the malady is generally believed to be privation for a considerable length of time of Fresh Vegetables.

MEANS FOR PREVENTION.

At Sea.

1. Every ship on a long voyage should be supplied with a proper quantity of *Lime* or *Lemon Juice*.

The Juice having been received in bulk from the Vendors, should be examined and analysed by a competent Medical Officer. All measures adopted for its preservation are worthless unless it be clearly ascertained that a pure article has been supplied.

10 per cent. of Brandy (S. G. 930) or of Rum (S. G. 890) should afterwards be added to it.

It should be packed in Jars or Bottles, each containing 1 Gallon or less, covered with a layer of Oil, and closely packed and sealed.

Each man should have at least two ounces (4 table spoonsful) twice a week, to be increased to an ounce daily if any symptoms of scurvy manifest themselves.

The giving out of *Lime* or *Lemon Juice* should not be delayed longer than a fortnight after the vessel has put to sea.

2. *Preserved Vegetables*; of these Potatoes and Onions are the best; next—Greens, Carrots, Turnips, &c.

2. A good supply of *fresh water*. That obtained from a condensing apparatus is much inferior to fresh water.

4. Attention to *cleanliness and ventilation*, more particularly of the quarters of the crew.

5. If the *Lime* or *Lemon Juice* should fail or become bad, an excellent substitute is the Salts of Potash. It is strongly recommended that every Ship's Medicine Chest should be supplied with some preparation of this salt; the bicarbonate is perhaps the cheapest and best. Five grains twice a day may be given.

In Port.

A full supply of such Vegetables as may be most easily procured, viz., Potatoes, Greens, Radishes, *Watercresses*; the latter vegetable is a powerful antiscorbutic, and easily procurable. Fruits, as Oranges, Lemons, Limes, Shaddocks, &c.

It is always well to provide an extra supply of the above-mentioned important antiscorbutics in case of an unusually protracted voyage or other contingency.

☞ This Notice is to be kept posted inside and outside the Mercantile Marine Offices, Shipping Offices, Custom Houses, and Receivers' Offices, and should be freely distributed amongst Owners, Masters, Shipping Agents, and Seamen, and other persons interested. Copies are to be obtained from time to time in the same manner as Mercantile Marine Forms.

Board of Trade, September 1865.

GOVERNMENT DEPARTMENTAL NOTICE.

PUBLIC WORKS DEPARTMENT.

The Honorable the Governor in Council is pleased to publish the following for general information:—

"Extract from the Proceedings of the Government of India in the Financial Department, No. 2580, dated Simla, the 16th September 1865.

RESOLUTION.—The Governor General in Council has had under consideration the necessity of defining clearly the mutual relations of the Civil and Public Works Department of Accounts, with regard to the estimates and accounts of the receipts and expenditure from Local Funds.

2. The receipts of Local Funds are for the most part realized in the Civil Department, and the account of these will be retained in the books of that Department. Accordingly, the disbursements from those funds, including the expenditure incurred by Public Works Agency, must also continue to be debited to those funds in those books, notwithstanding that the expenditure incurred by Public Works Agency, will be treated as a final charge in the Public Works Accounts.

3. The Annual Budget Estimates of Local Funds which the Financial Department receives from the Provincial Accountants General, should be those which the Local Governments have passed. In these estimates the Public Works expenditure to be incurred by Civil Officers and by Public Works Agency, should be shown separately.

4. The Financial Department will communicate to the Public Works Department of the Government of India, in detail of Presidencies and Provinces, the Public Works expenditure from Local Funds estimated to be incurred respectively by Civil Officers and through Public Works Agency.

5. The portion allotted for expenditure by Public Works Officers will be added to the credit allowed to that Department for the Imperial Public Works grant, and funds against that amalgamated credit will be supplied to the Public Works Department, without distinction being made between the money which is required for Imperial and that for local purposes.

6. The local Civil Officers will be responsible for keeping their expenditure from Local Funds within the portion of the annual estimate allotted to them by the Local Government, without trenching on the portion allotted to the Public Works Department.

7. Formal Letters of Credit from the Provincial Accountants General, in favor of Civil Officers, for their expenditure from Local Funds, similar to the credit orders in favor of the Public Works Department, will not be required, but the Provincial Accountants General will keep a Grant Account for every Local Fund whose assets are divided, for expenditure, between the Civil Officers and the Public Works Department, in order to keep the expenditure of the former within their allotment.

8. In this account, the expenditure incurred by Civil Officers will be posted monthly, but that incurred by the Public Works Department will be adjusted only at the end of the year.

9. During the year, the local Controller of Public Works Accounts will furnish quarterly to the Provincial Accountant General, an extract from the balance sheet of that part of his Budget Register which relates to Local Funds; and the latter Officer will compare this with the aggregate amount standing in his Grant Account at credit of the Public Works Department, to see that it and the similar aggregate of credits in favor of Civil Officers, agree with the total allotment to them and to the Public Works Department.

10. At the end of the year, the Controller of Public Works Accounts will furnish to the Provincial Accountant General, an account in which the expenditure against the Public Works allotment from Local Funds, will be distributed in mere totals (*i. e.*, without detail under the major heads of Public Works charges) to the several Local Funds concerned, in order that each fund may be debited with its share of the expenditure.

11. Subsidiary instructions regarding the accounts which should be opened in the books of the Provincial Accountant General, for giving effect to these orders, will be issued by the Auditor General of India."

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

GENERAL DEPARTMENT.

The following Tea plantations and factories in Kumaon and the Deyrah Dhoon are offered for sale at the upset prices specified :—

1. Hawul Bagh in Kumaon, forty-six miles from the plains, and six miles from Almorah. The plantations (including the two small Nurseries, *viz.*, Kupeena and Lutchmaissur, in the immediate neighbourhood of Almorah) consist of about one hundred acres of land planted with Tea. At a short distance from the plantations there is a Cheer (*Pinus longifolia*) forest of about 100 acres in extent, in which the purchaser will have the right to cut timber which is well fitted for making Tea chests, Firewood, &c.

There are on the estate three large slated houses; numerous slated offices; a large slated factory; two large slated godowns; a slated barrack for Chinese Tea manufacturers; and the stock and block of the factory are complete for Tea operations, and in working order.

2. Ayar Toli in Kutyoor, Kumaon, distant about 80 miles from the plains, and about 40 miles from Almorah.

There are on the estate a slated factory; and a large slated godown; slated barracks for Chinese Tea manufacturers, &c., and the stock and block of the factory are complete for the Tea operations, and in working order.

This plantation consists of about 1,300 acres of land, of which about 360 acres are planted with Tea, two hundred acres of cleared land, fitted for Tea planting, and the remainder covered with pines, &c., forests, the timber of which is well adapted for making Tea chests, &c.

The yield of the two estates this season was lbs. 20,000 of Tea and 1,650 maunds of seeds.

These two estates will be sold in one lot in fee simple, free of all demands on account of Land Revenue, exclusive of existing local cesses, such as Road, Educational and Postal cesses, or such as may be hereafter legally imposed, at an upset price of Rs. 2,00,000 (two lakhs of rupees).

A small portion of the plantation of Ayar Toli named Bincolie, belonging to the temple of Nag-nath, will bear an annual rental of Rs. 24 (twenty-four rupees) per annum.

This land is leased in perpetuity from the temple of Nag-nath on this rental.

3. Kowlaghir in the Deyrah Dhoon, distant two miles to the west of the town of Deyrah. It consists of about 430 acres of land, of which about 380 acres are under cultivation with Tea, and the remainder adapted for Tea cultivation.

Through the property a branch of the Beejapore canal runs. At a short distance and to the south of the plantation there is a Forest of Syne, Jamun, &c., consisting of about 500 (five hundred) acres in which the purchaser will have the right to cut timber for Tea chests, fire-wood, charcoal, &c. The timber is well fitted for making Tea chests.

There are on the estate three bungalows; an extensive pukka Tea factory; two large pukka

godowns; a barrack for Chinese Tea manufacturers, &c.; and the stock and block of the factory are complete, and in full working order.

The yield this season was lbs. 25,099 of Tea and 1,050 maunds of seeds.

This estate will be sold in fee simple free of all demands on account of Land Revenue, exclusive of existing local cesses for roads, &c., or such as may hereafter be legally imposed, at an upset price of Rs. 2,00,000 (two lakhs of rupees). The plantations will be transferred to the purchasers on the 1st April, 1866, on or before which date the purchase money must be paid at the General Treasury, Calcutta.

Tenders will be received by William Jameson, Esquire, Superintendent, Botanical Gardens, North Western Provinces, Saharanpore, until 1st March 1866, if the Factories, &c., be not previously sold by private sale, and the highest offer above the upset price will be accepted.

All tenders must be made in writing.

Every tender should be superscribed "Tender for Tea plantation," and will be registered by the Superintendent of the Botanical Gardens on the date of receipt in a book, which he will keep together with the tenders in his own custody under lock and key.

The highest registered tender at the time being, for any lot, will be communicated by the Superintendent to any enquirers up to the time of sale, but the names of the parties who have tendered shall in no case be disclosed.

The register of tenders will be examined at noon, on the 1st March 1866, by a Committee consisting of the Superintendent Botanical Gardens, the Judge, and the Collector of Saharanpore, at the Office of the Superintendent, and in the presence of all parties who may attend; and the amount of the highest tender for each lot, or, if there be more than one tender of equal amount, the number and amount of such tenders, but not the names of the parties tendering, will be publicly declared, and the highest tender, in writing, above the upset price at 4 P. M., will be accepted on the part of Government by the Committee.

On the tender being accepted by the Committee, the purchaser must deposit five per cent. of the purchase money, which will be forfeited if the amount of the purchase money be not paid in full on the date specified.

Agents must be supplied by their principals with sufficient powers of Attorney.

The above particulars are believed, in good faith to be correct, but, intending purchasers must make their own enquiries, as no reclamation can be listened to after sale.

References may be made to W. Jameson, Esquire, Superintendent, Government Botanical Gardens, Saharanpore.

By order of the Honorable the Lieutenant Governor of the North Western Provinces.

R. SIMSON,

Secretary to the Government of the

North Western Provinces.

Dated the 1st May 1865.

THE NAGPORE EXHIBITION.

Notice.

The public are hereby informed that an Industrial Exhibition will be opened in Nagpore on the 26th of December 1865, and intending Exhibitors are requested to communicate at once with the Secretary to the Nagpore Exhibition, or to the undersigned, informing them of the nature of the products which they may wish to exhibit, and when they will be ready for transmission to Nagpore.

It is intended to exhibit live stock and dairy produce, as well as ordinary raw produce, machinery, manufactures, and fine arts.

All articles must have a label attached stating the name of the article, the place of production, and the name and residence of the Exhibitor, and, if intended for sale, the price.

Articles of live stock will be admitted up to December 22nd, but articles of agricultural produce, manufacture, machinery, and fine arts, not later than December 15th.

The Exhibitors must exhibit at their own costs and risk, and a fee of 2½ per cent. will be charged upon all sales.

It is particularly desirable that the principal imports and exports of this port, and the different local manufactures, should be well represented, and the attention of the merchants of Bombay and of Spinning and Weaving Companies is particularly solicited to the Exhibition. Should any instructive and interesting articles be offered in Bombay for exhibition, the Nagpore Committee will be requested to make such concessions as may be deemed desirable in their favour.

Honorary Secretary, Agri-Horticultural Society of Western India.
