GOVERNMENT NOTIFICATIONS TO THE PUBLIC.

GENERAL DEPARTMENT.

With reference to the Notification published in the *Government Gazette* of the 10th August 1865, page 331, His Excellency the Governor in Council is pleased to notify, that from inquiries made by a Commission appointed by Government to ascertain the wishes of the Inhabitants of the Town of Mahar, in the Colaba Sub-Collectorate, relative to the introduction of Act No. XXVI. of 1850, it would appear that the Towns-people are desirous that Taxes should be imposed for Municipal purposes.

The Honorable the Governor in Council is therefore pleased to declare Act No. XXVI. of 1850 in force in the Town of Mahar, in the Colaba Sub-Collectorate from the 1st January 1866.

By order,

F. S. CHAPMAN,
Chief Secretary to Government.

Bombay Castle, 25th November 1865.

JUDICIAL DEPARTMENT.

The following Notification, published in the *Gazette of India* of 18th November 1865, is republished for general information:—

“No. 4291.

The 13th November 1865.

The following Circular which was recently issued to the several Governments and Administrations in India is now published for general information, and with a view to elicit the opinions of those who are interested in the matter to which it relates:—

From E. C. BAYLEY, Esq., Secy. to the Govt. of India, Home Dept., to all Local Govts. and Administrations,—Nos. 1247—55, dated Simla, the 22nd August 1865.

Although the Native text-books of Hindu law nowhere recognise a posthumous disposition of property, the validity of a Hindu's Will has long been admitted by our Courts in the Presidencies of Bengal and Bombay. In Madras also, after some fluctuations of opinion, it is now settled that a Hindu's testamentary power is co-extensive with his independent right of alienation *inter vivos*: liberty of testation is thus thoroughly established throughout Peninsular India; and it is understood that the practice of making Wills is beginning to prevail among the Burmese Buddhists, although their law of succession is founded on that of the Hindus. The Muhammadan law recognises the testamentary power, which, however, without the consent of the heir, does not extend to more than one-third of the testator's estate.

In the case of the Hindus and Burmese the power in question has probably been derived from the English law, and its exercise doubtless produces in India the beneficial effects which it has produced in England and elsewhere, by stimulating the circulation of property and quickening the stagnation of society. But the power has been engrafted on the Hindu system, and is used by the Muhammadans without any of those securities for its due exercise, such as the requirement of writing, signature, and attestation, which have been found desirable in Europe. Nor are Native testators subject to any restraints such as exist in England in the cases of devises to religious or charitable uses, of postponements of the acquisition of the absolute interest in property, and of prospective accumulations of its income.

Thus the High Court at Bombay has decided that a Hindu's Will need not be attested, and the High Court of Madras has lately declared, in a learned and elaborate judgment, that a Hindu's Will need not be in writing, in other words, that a Hindu may make a valid nuncupative Will, and this without any formalities similar to those required in such cases by European systems of jurisprudence. So Hindu's nuncupative Wills were held valid by the late Supreme Court at Fort William, and are recognised by the present High Court of Judicature for Bengal. Considering the facilities with which frauds in setting up nuncupative Wills are attended (for false swearing is more easy to perpetrate and more difficult to detect than forgery), it may perhaps be doubted whether the benefits above mentioned, arising from the introduction among the Natives of the testamentary power, are not counterbalanced by the encouragement which its recognition by our Courts at present affords to perjury. Moreover, the same evidence that sets up a false nuncupative Will may practically revoke a true written one. The witness has only to declare that the testator made a nuncupative Will subsequent to the date of the written Will, and revoking the latter, and his evidence, if believed, destroys the written Will, however solemnly executed or carefully preserved. Lastly, even in the case of a genuine testamentary disposition by word of mouth, the certainty of writing is replaced by the frailty of memory.

Then, as to the non-existence of restraints on the testamentary power: a Native may now, on his death-bed, when his mind is enfeebled by disease or fear, deprive his nearest relations of self-acquired property which would otherwise have devolved upon them, and bequeath it in accordance with the dictates of his priests, or the promptings of his own superstition. A Native testator, in the absence of anything like what is technically called the rule against perpetuities, may lock up his estate for an indefinite time, and thus obstruct the circulation of property, check the improvement of land, and withdraw capital from its natural employment in commerce. A Native testator may legally create an accumulating trust, absorbing the entire income of property, not merely (as in the well-known Thellusson case) during the full period for which the vesting of property may, according to English law, be protracted, but (for anything to the contrary enacted by the Legislature or laid down by the Judges) for the full time expressed by the Native formula of limitation, so long as moon and sun endure. Thus in the case of a bequest to the testator's family idol, with directions that, after its expenses are paid, the surplus shall belong to certain persons and their descendants in the male line as a joint family, and that none of these heirs shall have power to alienate, the Privy Council has held that such a testamentary disposition is effectual, although the family may obviously remain undivided for ever. There is reason to fear, too, that under colour of a bequest to religious uses a Hindu often not only enjoys property, but trades with it without his beneficial interest being subject to the just demands of his creditors. It may be that the creditors would have a right to come against the surplus income of the property after providing thereout for the expenses of the idol. But the ascertainment of what ought to be allowed for such expenses is generally a matter of such difficulty as practically to reduce that right to a nullity.

Again, a Native's Will, not requiring to be proved, need not be deposited for safe custody. The resulting opportunities for forgery and fraudulent alteration are obvious. Nor can a Native executor be compelled to exhibit an inventory or account of his testator's estate, except by the tedious, expensive, and hazardous process of a law-suit. The consequence is, where the estate is too small to bear the costs of the suit, that women, children, and absentees have no adequate check on the executor, and, at any distance of time, it is difficult to fix him with the possession of moveable and sometimes even of immoveable property.

Lastly, the character and ex-officio powers of a Native executor seems to be by no means clearly defined. The High Court of Bengal has lately held on appeal that he has no greater power over immoveable property than a manager. Now the powers of a manager, as declared by the Privy Council in a case to which the High Court refer, are limited and qualified, and in the case of a mortgage the lender is bound to enquire into the necessity for the loan, and to satisfy himself, as well as he can, with reference to the parties with whom he is dealing, that the manager is acting in the particular instance for the benefit of the estate. If this be so in the case of a mortgage or conditional sale, *a fortiori* it must be so in the case of an absolute sale. It is unnecessary to dwell on the difficulties which this doctrine imposes on all persons dealing with Hindu executors.

The Indian Succession Act, 1865, contains provisions on all these subjects, expressed in language of remarkable clearness and simplicity.

As to the execution of Wills, it provides (Section 50) that the testator (who must have completed the age of 18, and be of sound mind) shall sign the Will, or that it shall be signed by some other person in his presence and by his direction, and that the Will shall be attested by at least two witnesses, each of whom must sign it in the presence of the testator. To preclude the danger of allowing the Will to be supported by the testimony of persons beneficially interested in its contents, the Act declares (Section 54) that a bequest to an attesting witness, or his or her wife or husband, shall be void.

As to revoking Wills, the Act (Section 57) provides that no Will shall be revoked otherwise than (a) by the marriage of the testator; (b) by another Will or Codicil; (c) by a writing declaring an intention to revoke, and executed as a Will is required to be executed; or (d) by burning, tearing, or otherwise destroying the Will with the intention of revoking it.

Section 101 restricts the power of creating successive interests in property by declaring that "no bequest is valid whereby the vesting of the thing bequeathed may be delayed beyond the life-time of one or more persons living at the testator's decease, and the minority of some person who shall be in existence at the expiration of that period, and to whom, if he attains full age, the thing bequeathed is to belong."

A direction to accumulate the income to arise from any property is declared (Section 104) to be void, except in the case of immoveable property, or where the accumulation is to be made from the death of the testator. In either of these cases the direction is valid in respect only of the income within the year next after the death.

As to bequests to religious or charitable uses, the Act provides (Section 105) that no one having a nephew or niece or other nearer relative shall have power to make such bequest, except by Will executed not less than twelve months before his death, and deposited, within six months from its execution, in the place provided by law for the custody of the Wills of living persons.

The Act impliedly requires every Will to be proved by declaring (Section 187) that no right as executor or legatee can be established unless probate of the Will shall have been granted. And Section 259 provides that all original Wills of which probate may be granted are to be preserved among the records of the Court until some public registry for Wills is established.

Within six months of the grant of probate the executor must exhibit in Court an inventory containing a full and true estimate of the deceased's property, and must, in like manner, within one year from the grant, exhibit an account of the estate, showing the assets that may have come to his hands, and the manner in which they have been applied or disposed of (Section 277).

Lastly, the character and powers of an executor are clearly defined. He is the legal representative of the deceased for all purposes, and all the deceased's separate property vests in him as such (Section 179). He has the same power to sue in respect of all causes of action that survive the deceased, and to distrain for all rents due to him at the time of his death, as the deceased had when living (Section 267). And he may dispose of the deceased's property, either wholly or in part, and whether moveable or immoveable, in such manner as he shall think fit (Section 269).

Section 331, however, excludes the Hindus, Muhammadans, and Buddhists from the benefit of these provisions, as well as from that of having the series of simple rules contained in Part XI. of the Act, applied to the construction of their Wills.

I have been desired to submit the foregoing remarks for ~~consideration~~ ~~_____~~, and to request that ~~_____~~ after consultation with such persons as ~~_____~~ may deem best capable of advising on such a matter, ~~_____~~ will favour the Government of India with ~~_____~~ opinion as to the expediency of extending to the Hindus, Muhammadans, and Buddhists, or any and which of them, such parts of the Indian Succession Act, 1865, as relate to Testamentary Succession, including in this phrase all that relates to the execution, revocation, interpretation, and probate of Wills, and the limitation of the exercise of the testamentary power. You will understand that it is not proposed to increase in any respect the testamentary power possessed by Natives, nor to give it to any Natives (if such there be) who do not at present possess it, but only to provide rules calculated to ensure its being exercised beneficially to the community, and satisfactorily to the surviving relatives of individual testators."

By order of His Excellency the Governor in Council,

C. GONNE,
Secretary to Government.

Bombay Castle, 28th November 1865.

Circular No. 872—(Allowances to Discharged Soldiers.)

HOME AND FOREIGN.

VICTORIA R.

10

Genl. No.

144

Whereas it has been represented to Us that it is expedient to alter the provisions of Article 44, page 24 of Our Royal Warrant of 1st July 1843, which granted an allowance of 1s. a day for twenty or twenty-five days to discharged men :

Our Will and Pleasure is, that henceforth soldiers who, at the expiration of their term of enlistment, take their discharge at home or abroad, under the " Limited Enlistment Acts," or who are granted a free discharge as an indulgence under Our Royal Warrant, shall only be entitled to an allowance of 1s. a day as subsistence money for five days from the date of discharge.

Soldiers who may henceforth be discharged, either to pension (whether permanent or temporary), or with a gratuity, or on reduction, shall receive an allowance of 1s. a day for twenty days, whether discharged in Great Britain, or Ireland, or abroad.

In case any soldier shall be entitled to a higher rate of pension than 1s. a day, he shall, together with the first issue of pension made to him receive the difference between the allowance of 1s. and his rate of pension for twenty days.

No such allowance is admissible for soldiers discharged by purchase, or for bad conduct; they will continue to be dealt with under Our Royal Warrant of 1st July 1848.

Given at Our Court at St. James's this 17th day of August 1864, in the twenty-eighth year of our Reign.

By Her Majesty's Command,
DE GREY AND RIFON.

CIRCULAR MEMORANDUM.

Addressed to the Army at Home and Abroad.

HORSE GUARDS, S. W., 26th May 1865.

Discharges.
4—(1865).

General Number 341.

With reference to the Royal Warrant dated 17th August 1864, Circular No. 872, His Royal Highness the Field Marshal Commanding in Chief desires it to be notified that the Secretary of State for War has consented that all time-expired men who are willing to re-engage, but are not permitted to do so on account of their physical unfitness, shall receive the allowance of twenty shillings, but that those men who are ineligible for re-engagement, on account of their past conduct, shall receive five shillings only.

The grant of the higher allowance cannot, however, be extended to the cases of men who are unfit both physically and on account of their bad character, especially when the physical unfitness is the result of their own misconduct.

Such men will be held to have been rejected on account of their conduct, and will receive five shillings only ; but as the issue of 5s or 20s. will depend solely upon the *cause assigned in the Discharge* for rejection, His Royal Highness enjoins Commanding Officers to exercise especial care in dealing with such cases.

With this view the Regimental Board will, in deserving cases, state in both the discharge documents that the cause of discharge is "in consequence of being prevented by disability from re-engaging." But in cases of rejection on account of conduct, the cause of rejection will appear in the "proceedings" only,—the parchment certificate stating "his limited service having expired."

By Command of His Royal Highness
The Field Marshal Commanding-in-Chief;

JAMES YORRE SCARLETT,
Adjutant General.

(Signed) H. W. NORMAN, Colonel,
Secretary to the Government of India."

No. 601 of 1865.—The following General Order by the Government of India, dated 16th November 1865, No. 1052, is republished :—

"No. 1052 of 1865.—His Excellency the Governor General in Council is pleased to publish for general information the following War Office Circular No. 844, dated 23rd November 1863, and to declare its provisions applicable to India :—

Circular No. 844.—(Service of Soldiers who volunteered from Embodied Militia, of Schoolmasters, and of Musketry Instructors.)

17
Genl. No.
197.

(HOME AND FOREIGN.)

WAR OFFICE, 23rd November 1863.

Questions having arisen as to whether the service, allowed to reckon as "Line Service," by soldiers who volunteered from the Embodied Militia, should count towards discharge, or towards Good Conduct Pay and Pension only, the Secretary of State for War, with the concurrence of His Royal Highness the Field Marshal Commanding in Chief, consents to such men who had rendered six months' Militia Service previous to volunteering, being allowed to reckon half their Embodied Service, rendered over the age of 18, towards the first period of their Line engagement.

The said half of their embodied service may accordingly be inserted as the first entry in their attestations and register sheets.

This concession is not to be looked upon as in any way modifying the general liability of soldiers to serve out the period for which they are attested before they can legally claim their discharge, but is granted on the recommendation of the Field Marshal Commanding in Chief, as a special and exceptional boon, to a class of men who, at a time of great national pressure, transferred their services from the Militia to the Regular Army, under an impression that the service they had given in the Militia would be allowed to reckon as a portion of their Line engagement.

Doubts having also arisen as to the proper mode of accounting for the "former service" which Schoolmasters, and men of the Corps of Permanent Instructors of Musketry, are allowed, by regulation, to reckon "towards Pension," the accompanying model records for Schoolmasters, for men of the Corps of Permanent Instructors of Musketry, and for men who volunteered from Embodied Militia, have been prepared for general information and guidance; and Boards of Officers will forthwith be assembled for the purpose of verifying (in accordance therewith) the services of men of the above classes whose records have not hitherto been correctly made out.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

GENERAL DEPARTMENT.

The following Tea plantations and factories in Kumaon and the Deyrah Dhoon are offered for sale at the upset prices specified :—

1. Hawul Bagh in Kumaon, forty-six miles from the plains, and six miles from Almorah. The plantations (including the two small Nurseries, *viz.*, Kupeena and Lutchmaissur, in the immediate neighbourhood of Almorah) consist of about one hundred acres of land planted with Tea. At a short distance from the plantations there is a Cheer (*Pinus longifolia*) forest of about 100 acres in extent, in which the purchaser will have the right to cut timber which is well fitted for making Tea chests, Firewood, &c.

There are on the estate three large slated houses; numerous slated offices; a large slated factory; two large slated godowns; a slated barrack for Chinese Tea manufacturers; and the stock and block of the factory are complete for Tea operations, and in working order.

2. Ayar Toli in Kutyoor, Kumaon, distant about 80 miles from the plains, and about 40 miles from Almorah.

There are on the estate a slated factory; and a large slated godown; slated barracks for Chinese Tea manufacturers, &c., and the stock and block of the factory are complete for the Tea operations, and in working order.

This plantation consists of about 1,300 acres of land, of which about 360 acres are planted with Tea, two hundred acres of cleared land, fitted for Tea planting, and the remainder covered with pine, &c., forests, the timber of which is well adapted for making Tea chests, &c.

The yield of the two estates this season was lbs. 20,000 of Tea and 1,650 maunds of seeds.

These two estates will be sold in one lot in fee simple, free of all demands on account of Land Revenue, exclusive of existing local cesses, such as Road, Educational and Postal cesses, or such as may be hereafter legally imposed, at an upset price of Rs. 2,00,000 (two lakhs of rupees).

A small portion of the plantation of Ayar Toli, named Bincolie, belonging to the temple of Nagnath, will bear an annual rental of Rs. 24 (twenty-four rupees) per annum.

This land is leased in perpetuity from the temple of Nagnath on this rental.

3. Kowlaghir in the Deyrah Dhoon, distant two miles to the west of the town of Deyrah. It consists of about 430 acres of land, of which about 380 acres are under cultivation with Tea, and the remainder adapted for Tea cultivation.

Through the property a branch of the Beejapore canal runs. At a short distance and to the south of the plantation there is a forest of Syne, Jamun, &c., consisting of about 500 (five hundred) acres, in which the purchaser will have the right to cut timber for Tea chests, fire-wood, charcoal, &c. The timber is well fitted for making Tea chests.

There are on the estate three bungalows; an extensive pukka Tea factory; two large pukka

godowns; a barrack for Chinese Tea manufacturers, &c.; and the stock and block of the factory are complete, and in full working order.

The yield this season was lbs. 25,099 of Tea, and 1,050 maunds of seeds.

This estate will be sold in fee simple free of all demands on account of Land Revenue, exclusive of existing local cesses for roads, &c., or such as may hereafter be legally imposed, at an upset price of Rs. 2,00,000 (two lakhs of rupees). The plantations will be transferred to the purchasers on the 1st April 1866, on or before which date the purchase money must be paid at the General Treasury, Calcutta.

Tenders will be received by William Jameson, Esquire, Superintendent Botanical Gardens, North Western Provinces, Saharanpore, until 1st March 1866, if the Factories, &c., be not previously sold by private sale, and the highest offer above the upset price will be accepted.

All tenders must be made in writing.

Every tender should be superscribed "Tender for Tea plantation," and will be registered by the Superintendent of the Botanical Gardens on the date of receipt in a book, which he will keep together with the tenders in his own custody under lock and key.

The highest registered tender at the time being, for any lot, will be communicated by the Superintendent to any enquirers up to the time of sale, but the names of the parties who have tendered shall in no case be disclosed.

The register of tenders will be examined at noon, on the 1st March 1866, by a Committee consisting of the Superintendent Botanical Gardens, the Judge, and the Collector of Saharanpore, at the Office of the Superintendent, and in the presence of all parties who may attend; and the amount of the highest tender for each lot, or, if there be more than one tender of equal amount, the number and amount of such tenders, but not the names of the parties tendering, will be publicly declared, and the highest tender, in writing, above the upset price, at 4 p. m., will be accepted on the part of Government by the Committee.

On the tender being accepted by the Committee, the purchaser must deposit five per cent. of the purchase money, which will be forfeited if the amount of the purchase money be not paid in full on the date specified.

Agents must be supplied by their principals with sufficient powers of attorney.

The above particulars are believed in good faith to be correct, but intending purchasers must make their own enquiries, as no reclamation can be listened to after sale.

References may be made to W. Jameson, Esquire, Superintendent Government Botanical Gardens, Saharanpore.

By order of the Honorable the Lieutenant Governor of the North Western Provinces.

It is intended to exhibit live stock and dairy produce, as well as ordinary raw produce, machinery, manufactures, and fine arts.

All articles must have a label attached stating the name of the article, the place of production, and the name and residence of the Exhibitor, and, if intended for sale, the price.
