“No. 668 of 1865.—The following Military letter from the Right Honorable the Secretary of State for India, No. 176, of the 25th May 1865, is published for general information:—

*Military.*  
No. 176.

INDIA OFFICE; London, the 25th May 1865.

To His Excellency the Right Honorable the Governor General of India in Council.

SIR,—(Paragraph 1.) I have received and considered in Council your Military letter No. 88, dated 21st February 1865, forwarding correspondence relative to a proposal submitted by the Inspector General of Ordnance and Magazines that Officers of the Royal Artillery in India should be encouraged to qualify themselves for appointments in the Ordnance Department and Manufacturing Establishments by undergoing the course of study and training laid down in General Order to the Royal Artillery, No. 492, dated Horse Guards, 2nd November 1863.

2. Lieutenant Garrett, 3rd Class Commissary of Ordnance, has, it appears, submitted an application to proceed home for two years for the above purpose, declaring his readiness to forfeit Indian and Staff allowances, provided he be permitted to resume his appointment on his return, and to reckon the period as service in India towards pension.

3. Your Government have not felt authorized to comply with this request, but you consider that the benefit to the service which would result, if Officers now in the Ordnance Department would go through the course of study in question, would be so great that you recommend that the request be granted and, further, that permission be given to one Officer in each grade of the Commissaries of Ordnance to be absent for the same purpose, if so many should apply for the indulgence, and if the Inspector General of Ordnance can in each case recommend the applicant as one who would be likely to derive from the course the full benefit which it is intended to afford.

4. I concur with your Government in considering it desirable that Officers of Artillery either having or desiring to have employment in the Ordnance Department should be encouraged to undergo the course of study to which you refer.

5. There are, however, a large number of Artillery Officers belonging to the Indian Brigades of Artillery always in this country; and I have been informed by His Royal Highness the Field Marshal Commanding in Chief that Officers of Brigades of Royal Artillery serving in India are eligible to compete for appointment to the advanced class of Officers referred to in the abovementioned General (Artillery) Order. Abundant opportunity is thus offered to the Officers of those Brigades to go through that course of study, and to qualify themselves for employment in the Ordnance Department in India.

6. All Officers passing through the course and receiving satisfactory testimonials at its termination will be permitted to count as service for pension one-half of the time so employed; but I do not consider it necessary or expedient to sanction a departure from the established rules of the service in the case of Officers actually holding staff appointments of this nature, by permitting them to retain the appointment during absence from India beyond the period allowed under existing regulations.

7. His Royal Highness the Field Marshal Commanding in Chief has suggested to me, in reference to this subject, that the actual appointments to the Ordnance and Manufacturing Departments both in Europe and in India should be open to the Officers of the regiment generally whose Brigades respectively are in those countries, and who may have qualified for such appointments by passing satisfactorily through this class, without reference to whether they belong to the old or the new Brigades of Artillery.

8. I have informed His Royal Highness that I fully concur in this opinion but that with respect to the appointments in India it will be necessary the candidates pass the language or other test specially laid down for Staff employments in that country.

I have, &c.,

(Signed) C. WOOD.

(Signed) H. W. NORMAN, Colonel,  
Secretary to the Government of India.”

No. 405 of 1865.—The following General Order by the Government of India, dated 6th July 1865, No. 671, is republished:—

“No. 671 of 1865.—References having been made as to whether vacancies in the rank of Captain in Regiments having no subaltern officers on their Establishments may be held available for subalterns of other regiments in preference to subalterns of the general lists, in the event of the former officer desiring to succeed to them; and also as to whether a Lieutenant belonging to a regiment can claim to be transferred to another corps with a view to accelerated promotion, the questions have been submitted to the Right Honorable the Secretary of State, who has been pleased to decide that the officers of the general lists have a prior claim to vacancies amongst the Captains of the regiments in which there may be no subalterns.

(Signed) H. W. NORMAN, Colonel,  
Secretary to the Government of India.”

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons at out-stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendant, the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

Bombay, 26th July 1865.

In charge of Mortuary Returns.

At a short distance and to the south of the plantation there is a Forest of Syne, Jamun, &c., consisting of about 500 (five hundred) acres in which the purchaser will have the right to cut timber for Tea chests, fire-wood, charcoal, &c. The timber is well fitted for making Tea chests.

There are on the estate three bungalows; an extensive pukka Tea factory; two large pukka

godowns; a barrack for Chinese Tea manufacturers, &c.; and the stock and block of the factory are complete, and in full working order.

The yield this season was lbs. 25,099 of Tea, and 1,050 maunds of seeds.

This estate will be sold in fee simple free of all demands on account of Land Revenue, exclusive of existing local cesses for roads, &c., or such as may hereafter be legally imposed, at an upset price of Rs. 2,00,000 (two lakhs of rupees). The plantations will be transferred to the purchasers on the 1st April, 1866, on or before which date the purchase money must be paid at the General Treasury, Calcutta.

Tenders will be received by William Jameson, Esquire, Superintendent Botanical Gardens North Western Provinces, Saharunpore, until 1st March 1866, if the Factories, &c., be not previously sold by private sale, and the highest offer above the upset price will be accepted.

All tenders must be made in writing.

Every tender should be superscribed "Tender for Tea plantation," and will be registered by the Superintendent of the Botanical Gardens on the date of receipt in a book, which he will keep together with the tenders in his own custody under lock and key.

The highest registered tender at the time being, for any lot, will be communicated by the Superintendent to any enquirers up to the time of sale, but the names of the parties who have tendered shall in no case be disclosed.

The register of tenders will be examined at noon, on the 1st March 1866, by a Committee consisting of the Superintendent Botanical Gardens, the Judge, and the Collector of Saharunpore, at the Office of the Superintendent, and in the presence of all parties who may attend; and the amount of the highest tender for each lot, or, if there be more than one tender of equal amount, the number and amount of such tenders, but not the names of the parties tendering, will be publicly declared, and the highest tender, in writing, above the upset price at 4 P. M., will be accepted on the part of Government by the Committee.

On the tender being accepted by the Committee, the purchaser must deposit five per cent. of the purchase money, which will be forfeited if the amount of the purchase money be not paid in full on the date specified.

Agents must be supplied by their principals with sufficient powers of Attorney.

The above particulars are believed, in good faith to be correct, but, intending purchasers must make their own enquiries, as no reclamation can be listened to after sale.

References may be made to W. Jameson, Esquire, Superintendent, Government Botanical Gardens, Saharunpore.

By order of the Honorable the Lieutenant Governor of the North Western Provinces.

W. R. LAMBERT,

Collector of Kurrachee.

Collector's Office, Kurrachee, 15th July 1865.

**To Architects.****POLICE OFFICE, BYCULLA, BOMBAY.**

The Architectural Improvement Committee of Bombay have received instructions from Her Majesty's Government of Bombay to call for Competition Designs for a new Police Office at Byculla. The cost of the Building not to exceed, at present prices, **three lacs of Rupees.**

The extent of accommodation to be provided and other particulars as to site, &c, can be ascertained on application at the office of the Architectural Improvement Committee, Esplanade.

Each Design to be sent, in the first instance, as a pen and ink Architectural sketch, uncoloured and without shading, except such as can be done with the pen. Each Design should bear a motto, and should be accompanied by the Architect's address in a sealed envelope, and should be sent in on or before the First day of October 1865, addressed to the Architectural Improvement Committee of Bombay.

A premium of Rupees one thousand (1,000) will be awarded to the author of the Design approved, to be increased on the completion of the Contract Drawings of the selected Design, with specifications and table of quantities, to (2½) two and a half per cent. on the cost of the work when estimated at the current rates of the Public Works Department.

The style is left an open question, but the construction of the building, and its Architectural treatment must be thoroughly adapted to a tropical climate, where a high temperature and monsoon

rains have to be provided against. Due regard must be had to the contemplated outlay; yet the Designs, whilst not too ornate, must be effective, and possess sufficient Artistic merit to entitle them to compete for the premium.

If the Designs are wanting in Artistic merit, or fail to comply with the conditions, the Judges will have power to reduce or withhold the prize. No prize will be given to a Design because it merely fulfills the conditions as to cost, &c., if it is conspicuously deficient in Artistic merit.

The Design will be selected, and the award made, by the Architectural Improvement Committee of Bombay.

Unsuccessful Designs will be returned to the authors if claimed by them or their authorized agents, within three months from the date of adjudication.

By order,

J. TRUBSHAWE,

Architectural Secretary.

Office of the Architectural Improvement Committee of Bombay, Esplanade, 5th July 1865.
