pany, 37 Great Russell
Street. W.C.1.*

TO
MY WIFE

ACKNOWLEDGMENT

MUCH of the material present in this book was gathered in Europe, and I should like to express my gratitude to the Rockefeller Foundation for its award of a Research Fellowship, which made it possible for me to spend two years studying unemployment in that part of the world, and to the officers of the Foundation, who facilitated my inquiries in many ways.

Since my return in 1933, I have had to rely upon the printed word for information about more recent developments overseas. For this purpose the publications of the International Labour Office (especially the weekly *Industrial and Labour Information*) and of the United States Bureau of Labour are invaluable.

I am also indebted to many students and others both inside and outside the University who have discussed these problems with me, and have not only helped the development of my ideas, but also stimulated me to seek a simple expression of them.

My colleagues have again aided me, and I thank Professor R. C. Mills, Dr R. B. Madgwick, and Messrs H. D. Black, S. J. Butlin, and J. G. Crawford for reading a large part of the manuscript and for many criticisms and suggestions.

Portion of Chapter VII appeared in the form of an article in the *Economic Record*, December 1935, and the Editor-in-Chief, Professor D. B. Copland, has kindly allowed me to use it again.

E. R. W.

CONTENTS

CHAPTER	PAGE
I. THE DIFFERENT TYPES OF UNEMPLOYMENT	
1. Causes and remedies - - - -	1
2. Intermittent unemployment - - - -	4
3. Structural unemployment - - - -	9
4. Depression unemployment - - - -	22
5. Population and unemployment - - - -	26
6. Conclusion - - - - -	31
II. WAGES POLICY AND UNEMPLOYMENT	
1. The labour market - - - - -	32
2. Wages and intermittent unemployment -	36
3. Wages and structural unemployment - -	40
4. Wage differences according to age and sex -	46
5. Wages policy and depression - - - -	49
6. A complicated problem - - - - -	61
III. THE UNEMPLOYMENT PROBLEM IN AUSTRALIA	
1. The purpose of this chapter - - - -	62
2. Statistics of unemployment - - - -	63
3. Unemployment which is not due to the depression - - - - -	70
4. Unemployment in the next few years -	78
5. Measures against unemployment - -	79
IV. A SHORTER WORKING WEEK	
1. Leisure and the worker's standard of life -	82
2. Sharing employment - - - - -	85
3. Reduced hours with constant earnings -	90
4. Action by international agreement - -	95
5. Conclusion regarding Australian policy -	98

CONTENTS

V. A SHORTER WORKING LIFE	
1. Redistributing employment and making labour more adaptable - - - -	100
